HOTEL DU GOUVERNEMENT A OTTAWA.

Jeudi, le 20e jour de juin 1018.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du Ministre suppléant de l'Intérieur, daté le 8 juin 1918, représentant que le 13 novembre 1913, Raoul Pirmez et George Roels, de la ville de Calgary, dans la province d'Alberta, ont demandé la permission d'acheter certains terrains sous le lac Kleskun et y aboutissant, township 73, rangs 3, 4 et 5, à l'ouest du 6e méridien, comprenant 18,400 acres, plus ou moins, pour assèchement par le drainage.

Le projet de drainage et d'asséchement des requérants a été approuvé par le directeur des arpentages de la province d'Alberta, au nom du gouvernement de cette province, et les travaux d'assèchement ne nuiront à aucun intérêt connu.

Il résulte d'enquêtes faites par l'ingénieur du département de l'Intérieur que le lac n'est d'aucune utilité comme source d'approvisionnement d'eau et que l'assèchement des terrains adjacents et de ceux qu'il recouvre seraient d'intérêt public.

Le terrain n'est d'aucune valeur dans sa condition actuelle.

Les enquêtes nécessaires pour déterminer la practicabilité du projet et les conditions auxquelles la vente pouvait être recommandée n'ont été complétées qu'en juillet 1914, et la déclaration de la guerre força M. Roels à retourner en Belgique, au commencement du mois d'août 1914, et M. Pirmez, en décembre de la même année. M. Roels est officier de réserve dans l'armée belge et M. Pirmez était le consul belge à Calgary, Alberta.

Vu que le projet d'assèchement avait été reconnu praticable et d'intérêt public et que ne pouvait être mise en doute l'intention des requérants de construire les travaux nécessaires et de procéder à l'assèchement du terrain dès qu'ils en auraient l'autorisation, le ministre a réservé le terrain afin de respecter la priorité d'intérêts de ces requérants.

Le 31 décembre 1915, les requérants transférèrent leurs droits à Charles Frédérick Adams, et le 25 août 1917, Adams transféra lui-même ses droits à Edmund Thompson, de Kingman, Alberta. Ces deux transfers ont été inscrits au Département de l'Intérieur.

Il a été établi d'une manière satisfaisante que M. Thompson est en position de mener à bonne fin l'exécution du projet.

Le Ministre, par conséquent, recommande que la vente dudit terrain audit Edmund Thompson soit autorisée et que le Ministre de l'Intérieur, à titre de représentant de Sa Majesté le Roi George V, et le requérant souscrivent à une convention contenant les conditions et restrictions stipulées dans la formule de convention annexée

Le comité agrée cette recommandation et la soumet pour approbation.

Greffier du Conseil privé.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre de l'Intérieur, daté le 21 juin 1918, représentant que le département de l'Intérieur a été saisi du fait que M. George Ross qui, le 10 août 1915, a obtenu une inscription de homestead pour la moitié est du quart sud-ouest de la section 24, township 10, rang 10, à l'ouest du méridien principal, a été frappé d'invalidité permanente par la maladie après avoir obtenu son inscription et qu'il lui a été par conséquent impossible de remplir ses obligations de résidence conformément aux dispositions de la *Loi des terres fédérales.*

Il a été établi que M. Ross a accompli deux mois de résidence, a érigé une maison et fait un acre de défoncement en 1916. Il a été admis à l'hospice des incurables à Portage-la-Prairie, Manitoba, le 17 février 1917.

Un certificat du surintendent de l'institution, daté le 8 juin, déclare que M. Ross est âgé de plus de 75 ans et ne sera jamais plus capable de faire aucun travail sur le dit terrain.

Le Ministre, par conséquent, recommande que M. Ross soit relevé de toute obligation de résidence à venir, en vertu des dispositions du paragraphe 2, article 20 de la loi, et que l'émission d'une patente gratuite du dit terrain soit autorisée sur preuve fournie de la manière ordinaire que les autres conditions de la loi ont été remplies.

Le comité agrée cette recommandation et la soumet pour approbation.

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

SON Excellence le Gouverneur Général en conseil sur la recommandation du ministre intérimaire du Service Naval, et en vertu des dispositions de l'article 45 de la *Loi des pêcheries*, 4-5 George V, chapitre 8, se plaît à décréter les dispositions suivantes :

Les règlements de pêche particuliers à la province d'Ontario, édictés par le décret du conseil en date du 29 octobre 1915, sont par les présentes amendés par l'addition de l'article suivant :

HÔTEL DU GOUVERNEMENT À OTTAWA

MARDI, le 14e jour de mai 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Ministre de l'Intérieur, d'approuver par les présentes les règlements suivants régissant la concession gratuite de terres fédérales aux colons sous le régime de la Loi d'établissement de soldats, 1917.

RODOLPHE BOUDREAU,
Greffier du Conseil privé.

RÉGLEMENTS RÈGISSANT L'ÉTABLISSEMENT DES SOLDATS, CANADA, 1918

AUTORITÉ.

1. Les présents règlements sont faits et approuvés sous l'empire de la Loi d'établissement de soldats, 1917, soit la "Loi ayant pour objet d'aider les soldats revenus au pays à s'établir sur des terres, et ayant aussi pour objet d'augmenter la production agricole".

INTERPRÉTATION.

2. Dans les présents règlements, à moins que le texte n'exige autrement:

(*a*) "Loi" signifie la Loi d'établissement de soldats, 1917;

(*b*) "Commission" signifie la Commission d'établissement de soldats;

(*c*) "colon" signifie toute personne à laquelle s'applique la définition de ce mot dans la loi;

(*d*) "agent" ou "agent des terres fédérales" signifie une personne employée à ce titre sous le régime des dispositions de la Loi des terres fédérales;

(*e*) "sous-agent" signifie un sous-agent sous le régime des terres fédérales;

(*f*) "représentant local" signifie toute personne nommée par la Commission d'établissement de soldats pour agir en qualité de représentant de la Commission dans un district particulier quelconque, et ayant tels devoirs et pouvoirs qui peuvent lui être assignés par la Commission;

(*g*) "terres fédérales", ou "terres" ou "terre" signifie toutes terres du Canada auxquelles s'appliquent les présents règlements;

(*h*) "inscription de soldat" signifie une inscription gratuite sur les terres fédérales accordée par le Ministre à un colon recommandé par la Commission;

(*i*) "inscription" peut signifier une inscription de soldat ou une inscription accordée sous l'empire de la Loi des terres fédérales;

(*j*) "concession de soldat" signifie le terrain pour lequel une inscription de soldat a été accordée sous l'empire des dispositions des présents règlements;

(*k*) "homestead", "homestead acheté", "préemption" signifie un terrain possédé par inscription de homestead, de homestead acheté ou de préemption, respectivement, sous le régime de la Loi des terres fédérales.

DÉFINITION DE "COLON".

3. L'inscription sur les terres fédérales sous le régime des dispositions des présents règlements peut être accordée à toute personne recommandée par la Commission qui est un "colon" ainsi que défini par la loi.

4. Les personnes suivantes sont des "colons" aux termes de la loi:

(*a*) Toute personne qui a servi dans les forces navales ou militaires expéditionnaires du Canada au cours de la présente guerre et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*b*) Toute personne qui a été engagée en service actif au cours de la présente guerre dans les forces navales ou militaires du Royaume-Uni ou de tous dominions ou toutes colonies autonomes britanniques et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*c*) Toute personne qui, étant sujet britannique résidant au Canada avant la guerre, a été engagée en service actif à l'un des théâtres de la guerre dans l'une ou l'autre des forces navales ou militaires d'aucun des alliés de Sa Majesté dans la présente guerre et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*d*) La veuve de toute telle personne décrite au paragraphe (*a*), (*b*) ou (*c*) ci-dessus qui est décédée en service actif.

COMMENT ÉTABLIR SON DROIT COMME "COLON".

5. Toute personne qui se considère qualifiée comme colon et désire jouir des privilèges des présents règlements doit soumettre à la Commission tous renseignements qui permettront à la Commission de déterminer qu'il est une personne à laquelle s'applique

Formule de renseignements préliminaires.

la loi. Ces renseignements doivent être donnés sur la formule de renseignements préliminaires émise par la Commission et qu'on peut obtenir en s'adressant à la Commission d'établissement de soldats à Ottawa ou à un quelconque de ses représentants locaux qui, au besoin, doit aider le colon à remplir la formule.

Certificats de congé.

6. Dans le cas d'un colon qui a servi dans les forces expéditionnaires canadiennes, la Commission consultera le Département de la Milice concernant ses états de service; dans tous les autres cas la personne qui demande un prêt doit envoyer son certificat de congé honorable (on conseille pour cette fin de se servir de lettres chargées seulement), ou une copie certifiée par le représentant local ou par un notaire public dûment autorisé et pratiquant, ou tout autre témoignage jugé nécessaire pour permettre à la Commission de se prononcer sur son droit.

Attestation du droit.

7. Après que le droit au titre de colon a été établi d'une manière satisfaisante, une déclaration de tel droit sur une formule "d'attestation" signée par le président de la Commission est délivrée au colon. Cette "attestation" n'est pas transférable et doit être présentée et remise lorsque la demande formelle d'inscription est faite.

RÉSERVES DE TERRAINS.

Réserve de terrains.

8. La Commission peut demander la mise en réserve de terres fédérales disponibles pour les fins de la Loi.

Terrains spécialement réservés.

9. Dans le cas où un terrain réservé sous l'empire de la Loi est requis pour quelque fin spécifique en rapport avec l'établissement des soldats, ou s'il a une valeur particulière à cause de sa situation ou autrement, ou s'il est constaté que quelqu'un a sur ce terrain un droit qui n'était pas connu lorsqu'il a été réservé pour l'établissement des soldats, la Commission peut soustraire ce terrain à l'inscription de soldats, soit avant ou après qu'il a été ouvert à l'inscription, et le réserver pour en disposer comme il peut être jugé à propos.

Annulation de la réserve.

10. Si, de l'avis de la Commission, un terrain quelconque qui a été réservé sous l'empire de la Loi n'est pas propre à l'établissement des soldats, la Commission peut demander l'annulation de la réserve.

Déchéance de toutes réserves.

11. Toutes les réserves de terrain sous l'empire de la Loi tomberont en déchéance trois ans après la fin de la présente guerre.

Terres boisées closes à l'inscription.

12. Un quart de section contenant plus de vingt-cinq acres de "bois marchand" n'est pas ouvert à l'inscription, et si on obtient l'inscription d'un terrain qui, quoiqu'il ne soit pas réservé à l'époque, a une certaine valeur à cause du bois marchand qui s'y trouve, l'inscription peut être annulée; toutefois, dans le cas où une inscription est ainsi annulée aucune compensation n'est donnée à l'inscrit pour la valeur du bois sur le terrain.

Arpentage et annonce.

13. Nulle terre ne peut faire l'objet d'une inscription sous le régime des présents règlements tant qu'elle n'a pas été arpentée en conformité des dispositions de la Loi des arpentages fédéraux, et tant qu'avis du fait qu'elle doit faire l'objet d'une inscription à une date à être énoncée dans cet avis n'a pas été affiché durant au moins trente jours dans le bureau des terres du district dans lequel la terre est située, et n'a pas été inséré dans au moins un journal publié dans ce district et un journal publié dans la capitale provinciale; et l'impression et la publication de l'avis doivent être faites de la manière réglée par la Commission.

Trente jours d'avis dans le cas de nouveaux arpentages.

Il est du devoir de l'agent, à la demande de la Commission, d'annoncer toute nouvelle terre arpentée réservée sous le régime de la loi et d'afficher promptement des avis dans son bureau et dans chacun des bureaux des sous-agents dans son district.

Avis de dix jours dans tous autres cas.

14. Dans le cas d'autres terres que des terres nouvellement arpentées l'agent, lorsqu'il sera notifié par la Commission d'ouvrir à l'inscription un terrain quelconque sous le régime des présents règlements, en fera l'annonce pendant dix jours, à moins que la Commission n'ordonne autrement, en affichant dans son bureau un avis exposé à l'inspection publique, donnant la date et l'heure de l'affichage et la date où le terrain sera ouvert à l'inscription. Cet avis sera en la forme prescrite par la Commission et une copie en sera promptement adressée par l'agent à chacun des sous-agents et aux représentants de la Commission dans son district, ainsi qu'au maître de poste le plus rapproché du terrain, afin que cet avis soit affiché dans leurs bureaux respectifs.

Inscription de soldats sur terres réservées.

15. Les terres réservées sous le régime de la loi, qui de l'avis de la Commission ne conviennent pas aux fins générales de l'établissement des soldats, seront de temps à autre ouvertes à l'inscription des soldats pour tout colon qualifié à faire cette inscription sous le régime des présents règlements, sauf lorsque les présents règlements prescrivent ou que la Commission ordonne autrement.

Inscription de homestead sur terres réservées.

16. Excepté lorsque les présents règlements prescrivent autrement, aucun terrain réservé sous le régime de la loi et disponible pour l'inscription des soldats ne sera censé être réservé à l'exclusion de toute personne qui, étant un colon ou un membre d'un corps ou effectif quelconque servant avec les forces de la Grande-Bretagne ou d'un de ses alliés durant la présente guerre, désire exercer son droit de homestead sur ce terrain sous l'empire des dispositions de la Loi des terres fédérales.

Inscription de soldats sur terres non réservées.

17. Le droit d'inscription de soldat peut être exercé par tout colon qualifié comme tel sous le régime de la Loi sur tout fonds qui, bien que réservé alors pour les fins de la loi, est ouvert à l'inscription de homestead sous l'empire des dispositions de la Loi des

terres fédérales. Une demande d'inscription de soldat sur tel terrain par une personne qualifiée réservera ce terrain *ipso facto* pour les fins de la loi.

Renseignements quant aux terres.

18. Tout colon en perspective peut se procurer des renseignements généraux concernant les terres ouvertes pour l'établissement des soldats en s'adressant à la Commission d'établissement des soldats, Ottawa, ou à tout représentant de la Commission ailleurs.

On peut se procurer des renseignements précis quant à savoir si un terrain particulier est ouvert à l'inscription de soldats en s'adressant à l'agent des terres fédérales du district où le terrain est situé.

DEMANDE D'INSCRIPTION.

Bureau d'enregistrement.

19. La demande d'inscription de soldat peut être faite en la forme prescrite par la Commission par celui qui a reçu une attestation sous le régime de la loi au bureau de l'agent des terres fédérales pour le district où le terrain est situé, qui sera le bureau d'enregistrement des inscriptions de soldat pour tel district.

Demande faite ailleurs.

20. La demande d'inscription de soldat peut aussi être faite à un agent ou sous-agent des terres fédérales ou à un représentant local de la Commission ou à toute autre personne autorisée par la Commission à recevoir telle demande pour transmission au bureau d'enregistrement, mais nulle demande ainsi faite n'aura d'effet avant d'avoir été reçue à ce bureau.

Avis par télégraphe.

Toutefois, lorsqu'une demande d'inscription de soldat est ainsi faite, la personne qui la reçoit peut aux frais de l'inscrit envoyer par télégraphe un avis de la réception de la demande au bureau d'enregistrement; si le terrain est alors disponible il sera réservé pour le requérant jusqu'à ce que la demande ait été reçue.

Aucune autre demande.

21. Lorsque la demande d'inscription de soldat est faite à un endroit quelconque autre que le bureau d'enregistrement, la personne qui reçoit la demande n'en acceptera aucune autre pour inscription sur le même terrain avant qu'il ait été décidé de la première demande au bureau d'enregistrement.

Demande en personne.

22. Toute demande d'inscription de soldat, sauf ainsi que ci-dessous prescrit, se fera par le colon en personne.

Demande par procuration.

23. La demande d'inscription par procuration n'est permise que dans le cas d'une personne qui fait l'inscription pour un époux, une épouse, un père, une mère, un fils, une fille, un frère ou une sœur, lorsqu'elle est dûment autorisée à le faire en la forme prescrite, ou dans le cas d'une personne qui, pour des raisons spéciales, a obtenu la permission de la Commission de faire l'inscription en faveur d'un colon.

Le fondé de pouvoirs doit se présenter devant l'agent des terres fédérales du district; les sous-agents et représentants locaux ne sont pas autorisés à accepter les demandes d'inscription par procuration.

Le colon en faveur duquel l'entrée est faite doit avant l'expiration de six mois de la date de l'inscription se présenter en personne à l'agent et lui faire une déclaration qu'il réside déjà ou qu'il doit commencer à résider sur le terrain, et dans ce dernier cas qu'il y résidera avant l'expiration des six mois. Si le colon ne se présente pas l'agent, à moins que la Commission ne décide autrement, annulera l'inscription sans avis à l'expiration de six mois après la date de l'inscription.

Temps.

24. La demande d'inscription de soldat ne doit se faire que dans les heures régulières du bureau tous les jours excepté les dimanches et les jours de fête établis par la loi.

Déclaration de l'inscrit.

25. Quiconque demande une inscription de soldat doit faire une déclaration en la forme prescrite par la Commission qu'au meilleur de sa connaissance le terrain pour lequel il s'inscrit appartient à la classe des terres ouvertes à l'inscription et qu'il n'y réside personne, et il doit dire quelles améliorations y ont été faites, s'il y en a, et leur valeur; pourvu que lorsque telle déclaration est subséquemment trouvée incorrecte en quelque point important l'inscription soit sujette à l'annulation.

Ancien honoraire.

26. Aucun honoraire ne sera exigé pour l'inscription de soldat, mais on peut exiger du colon qu'il paie la valeur des améliorations sur le terrain, s'il y en a, ainsi que toute charge ou dette sur le terrain.

Demande de terrains non disponibles.

27. Une demande d'inscription sur un terrain qui n'est pas disponible pour l'inscription lorsque cette demande est faite ne donnera pas au colon une priorité de droit dans le cas où le terrain deviendrait disponible.

CERTIFICAT D'INSCRIPTION.

Ce qui constitue une inscription.

28. Lorsqu'une demande est faite en la manière ci-dessus décrite pour un terrain ouvert à l'inscription sous le régime des dispositions des présents règlements, l'agent ou le fonctionnaire qui agit pour lui acceptera cette demande et délivrera au colon un certificat d'inscription, et l'acceptation par l'agent, ou le fonctionnaire agissant pour lui, de ladite demande et l'émission du certificat constituent une inscription de soldat sous le régime des dispositions des présents règlements.

Certificat.

29. Le certificat d'inscription donne droit au colon de prendre, occuper, employer et cultiver le terrain pour lequel il est inscrit et d'en garder possession à l'exclusion de toute autre personne et d'intenter des poursuites pour violation de propriété; et le terrain ne peut être saisi en exécution de jugement avant l'émission des lettres patentes;

toutefois, l'occupation, l'usage et la possession du terrain pour lequel l'inscription est ainsi faite sont sujets aux dispositions de la loi ou des règlements établis sous l'empire de cette loi ou de leur modification.

PROPRIÉTÉ DU DROIT D'INSCRIPTION.

Squatter et colon voisin.

Squatter avant l'arpentage.

30. Une personne qui s'est de bonne foi établie sur un terrain agricole et y a fait des améliorations avant l'arpentage et qui l'occupait et y résidait ordinairement lors de l'arpentage, si elle est qualifiée pour une inscription de soldat sous le régime des présents règlements, aura le premier droit à l'inscription pour le terrain sur lequel elle est ainsi établie; pourvu que ce droit soit exercé dans les six mois après qu'un avis par écrit que le terrain est ouvert à l'inscription a été donné par l'agent à tel colon, ou a été affiché dans un endroit bien en vue sur le terrain. Toutefois, l'inscription de soldat ne sera pas permise pour plus d'un quart de section.

Squatter après l'arpentage.

31. L'occupation du terrain après l'arpentage, sans inscription ainsi que prescrit par les présents règlements, ne donne aucun droit sur ce terrain à celui qui l'occupe, et il peut être expulsé comme violateur de la propriété et les améliorations qu'il y a faites peuvent être confisquées au bénéfice de la Couronne.

Un jour de priorité au colon voisin.

32. Le jour où un terrain quelconque doit être ouvert à l'inscription après qu'un avis a été donné ou affiché en la manière ci-dessus décrite, le privilège d'inscription sur ce terrain est restreint à un colon qualifié pour l'inscription qui occupe un quart de section voisin soit comme homestead ou en vertu d'une inscription de soldat, ou qui a obtenu la patente de homestead pour tel quart de section et en est encore le propriétaire, ou qui était un squatter avant l'arpentage de ce quart de section.

CONFLITS DE DEMANDES.

Détermination de la priorité.

33. Dans le cas où il y a plus qu'un colon qui réclame le premier droit à l'inscription sous l'empire de l'article précédent, la priorité des demandes sera déterminée par la priorité des dates de leurs inscriptions respectives, ou par le commencement de leur résidence dans le cas de squatters avant l'arpentage.

34. Afin d'assurer la considération voulue des droits des personnes qui réclament la priorité, l'agent recevra toutes les demandes d'inscription qui lui sont offertes sous l'empire de l'article précédent, s'il en est requis, mais il ne délivrera aucun certificat d'inscription pour le terrain avant la fermeture des bureaux le jour où le premier droit d'inscription est examiné, ou avant le matin du jour suivant.

Demande à un sous-agent.

Toutefois, si l'agent est averti ce jour-là par télégraphe ou autrement, par un sous-agent ou un représentant local, que ce dernier a reçu une demande d'inscription d'une personne réclamant priorité de droit d'inscription pour le terrain concerné, et s'il est évident d'après les registres que cette personne, en raison de la priorité de la date de son inscription ou du commencement de sa résidence sur le homestead voisin a un meilleur droit que tout autre qui se présente en personne pour l'inscription, l'agent retiendra le terrain jusqu'à ce que la demande faite au sous-agent ou représentant local ait été reçue.

Maladie de l'inscrit.

De plus, si à cause de maladie ou pour une autre raison suffisante donnée à l'agent, un colon qui d'après les registres a un premier droit d'inscription sur tous les autres qui la demandent est incapable de se présenter en personne ce jour-là, l'agent peut retenir le terrain pour ce colon pendant un délai raisonnable en faisant rapport immédiatement de toutes les circonstances du cas à la Commission.

Cas douteux.

Si l'agent doute de la priorité du droit d'un colon, il n'accordera pas l'inscription du terrain concerné, mais saisira la Commission de la question.

Terrain ouvert à tout colon.

35. Tout terrain qui après avoir été annoncé par un avis affiché de la manière ci-dessus prescrite n'a pas fait l'objet d'une inscription par un colon voisin le premier jour où ce terrain a été ouvert à l'inscription, ou qui n'a pas été réservé pour une des raisons ci-dessus mentionnées, sera ouvert à l'inscription le jour suivant à tout colon qualifié pour l'inscription sous le régime des présents règlements.

CONDITIONS DE L'INSCRIPTION.

Etendue.

36. Une inscription de soldat ne sera pas pour plus qu'un quart de section de cent soixante acres plus ou moins.

Minéraux et eau.

37. Une inscription de soldat ne donne aucun droit au sel, à la houille, le pétrole, le gaz naturel, l'or, l'argent, le cuivre, le fer, ou autres minéraux dans ou sous le terrain couvert par telle inscription, ni propriété ou intérêts exclusifs ou autres, ni droit ou privilège exclusifs en rapport avec un lac quelconque, une rivière, une source, un ruisseau ou autre cours d'eau dans ou bornant ou traversant le terrain couvert par l'inscription.

Terres améliorées.

38. L'inscription pour un terrain sur lequel des améliorations ont été faites ne peut être accordée que sur paiement par l'inscrit de la valeur de telles améliorations, ainsi que déterminée par la Commission. Si l'inscrit ne paie pas cette valeur, l'inscription peut être annulée.

Grain de semence et autres charges.

39. L'inscription pour un terrain grevé d'une charge en faveur de la Couronne ne peut être accordée que sur paiement de telle dette par l'inscrit.

Réserve pour chemins.

40. Toute inscription de soldat peut être accordée subordonnément aux droits de la province de prendre sans compensation, en tout temps avant l'émission des lettres patentes, tout terrain qui peut être requis pour des chemins, mais n'excédant pas quatre acres dans un même quart de section.

Inscription pour seul bénéfice du colon.

41. Toute inscription sera pour le seul usage et bénéfice de celui qui l'obtient et non pour l'usage ou le bénéfice d'une autre personne ou d'autres personnes quelconques.

Déclaration quant aux obligations.

42. La Commission, s'il est jugé nécessaire, peut exiger qu'un inscrit pour un homestead de soldat fournisse la preuve, par déclaration ou autrement, qu'il remplit ses obligations d'établissement dans chaque année qui suit la date de son inscription.

Nulle compensation pour bois.

43. Un quart de section de terrain sur lequel ne se trouve pas plus que 25 acres de "bois marchand," mais sur lequel se trouve plus que 25 acres de bois de chauffage ou de bois dont on peut faire des poteaux de clôture, n'est pas ouvert à l'inscription, à moins que l'inscription ne soit accordée à la condition qu'elle sera sujette à l'émission de permis sur le reste du quart de section après que l'inscrit aura choisi, sujet à approbation, vingt-cinq acres pour son propre usage.

Terrains requis pour eau, etc.

44. Si après qu'une inscription a été obtenue on constate que le terrain ou une partie du terrain concédé est nécessaire pour la protection de sources d'approvisionnement d'eau ou pour l'établissement ou la construction d'usines nécessaires au développement de l'énergie hydraulique, la commission peut en tout temps avant l'émission des lettres patentes annuler l'inscription ou en soustraire toute partie du terrain pour lequel elle a été accordée, mais lorsque le terrain est requis pour l'emplacement ou la construction d'usines nécessaires au développement de l'énergie hydraulique, en autant seulement que le terrain est nécessaire pour cette fin; toutefois, aucune inscription ne sera annulée sous l'empire des dispositions de ce paragraphe avant que l'inscrit ait reçu une compensation pour toutes améliorations qu'il a faites sur le terrain, le chiffre de cette compensation devant être fixé par arbitrage si l'inscrit refuse d'accepter la compensation offerte par la Commission.

OBLIGATIONS D'ÉTABLISSEMENT.

Conditions générales.

Conditions générales.

45. De tout inscrit pour un homestead de soldat il sera exigé, avant l'émission des lettres patentes, sauf ainsi que ci-après prescrit:

(*a*) qu'il ait possédé le fonds pour ses propres compte et avantage exclusifs durant trois années;

(*b*) qu'il ait résidé sur le fonds ou dans son voisinage ainsi que ci-dessous prescrit au moins six mois au cours de chacune de trois années à compter de la date de l'inscription ou de la date du commencement de résidence;

(*c*) qu'il ait cultivé chaque année telle étendue de ce fonds que la Commission trouve suffisante;

(*d*) qu'il y ait construit une maison habitable;

(*e*) qu'il ait complètement payé le prêt qui lui a été fait sur ce fonds sous le régime des dispositions des règlements régissant les prêts pour l'établissement de soldats, ainsi que l'intérêt sur ce prêt et autres charges s'il y en a;

(*f*) qu'il soit sujet britannique, sauf ainsi qu'autrement prescrit.

RÉSIDENCE.

Inscription parfaite.

46. Tout inscrit sera requis de remplir les conditions de son inscription dans les six mois de la date de telle inscription en prenant possession du terrain en personne et en y établissant sa résidence; si les conditions de l'inscription ne sont pas ainsi remplies dans ce délai, elle est sujette à annulation.

Toutefois, la Commission peut prolonger le délai pour compléter l'inscription de six mois additionnels pour cause suffisante.

Résidence.

47. "Résidence" pour les fins des présents règlements sera par le colon en personne sur le terrain pour lequel il s'est inscrit ou dans le voisinage du terrain ainsi que ci-dessus prescrit. Cette résidence sera dans une maison qui est le véritable domicile du colon pendant telle période de résidence. Ne sera pas acceptée la résidence par un membre de la famille du colon ou par toute autre personne comme fondé de pouvoirs.

Voisinage.

48. L'inscrit peut remplir ses obligations de résidence en résidant sur une ferme d'une étendue d'au moins 80 acres située à une distance d'au plus neuf milles de son homestead en ligne directe (à l'exclusion de la largeur des réserves pour chemins rencontrées dans le mesurage):

(*a*) s'il est le seul propriétaire de telle ferme;

(*b*) si cette ferme lui appartient par inscription de homestead ou autrement sous le régime des dispositions de la Loi des terres fédérales;

(*c*) si cette ferme appartient exclusivement au père, à la mère, l'épouse, le mari, le fils, les filles, le frère ou la sœur de l'inscrit et est occupée par lui ou par elle, ou si elle est possédée et occupée par tel parent sous le régime des dispositions de la Loi des terres fédérales ou des présents règlements.

Résidence concurrente ne compte pas.

49. Nulle période de résidence que réclame un colon pour obtenir la patente d'un terrain qu'il occupe sous l'empire de la Loi des terres fédérales ne peut en même temps être comptée comme résidence en rapport avec sa concession de soldat.

CULTURE.

Si le colon réside sur le homestead.

50. Lorsqu'un colon réside sur le terrain pour lequel il s'est inscrit sous le régime des présents règlements il doit mettre en culture un total d'au moins trente acres de ce terrain, dont vingt acres doivent être récoltés.

Si résidence ailleurs.

51. Si la résidence du colon est ailleurs ainsi que prescrit il doit mettre en culture au moins cinquante acres, dont trente doivent être récoltés.

La mise en culture d'une étendue raisonnable est requise durant chaque année.

Terrains pierreux et boisés.

52. Lorsqu'en raison de la nature du terrain les conditions relatives à la culture sembleraient excessives, la Commission peut réduire l'étendue du terrain à cultiver, après que ce terrain a été inspecté par un des fonctionnaires de la Commission.

BÉTAIL.

Bétail.

53. Lorsque le homestead ne convient pas à la culture mais est propre à l'élevage du bétail, la Commission, sur demande de l'inscrit et après inspection du terrain, peut permettre à l'inscrit de substituer l'élevage du bétail à la culture.

L'inscrit qui a obtenu le privilège de substituer l'élevage du bétail à la culture devra garder sur le terrain dans chacune des trois années, soit pour le pâturage d'été ou pour l'alimentation en hiver, le bétail suivant qui doit lui appartenir exclusivement:

(*a*) la première année, cinq têtes;

(*b*) la deuxième année, dix têtes;

(*c*) la troisième année, et chaque année subséquente jusqu'à ce qu'il obtienne la patente, seize têtes.

L'inscrit qui élève ainsi du bétail devra entourer tout le terrain d'une clôture solide à la satisfaction de la Commission.

Bâtiments pour bétail.

54. Des bâtiments convenables pour l'accommodation du nombre de bestiaux qu'a le colon en toute année seront érigés sur le homestead, mais si les conditions de résidence sont remplies conformément aux dispositions relatives aux homesteads voisins, ces bâtiments peuvent se trouver sur le terrain où réside le colon.

INSCRITS DÉCÉDÉS.

Représentant légal peut remplir conditions.

55. Advenant le décès d'une personne inscrite sous le régime des présents règlements avant le parfait accomplissement des conditions nécessaires à l'obtention des lettres patentes, les obligations de résidence seront suspendues. Les conditions autres que la résidence et la naturalisation seront remplies par le représentant légal de l'inscrit décédé.

Inscriptions incomplètes.

56. Si l'inscrit meurt avant le parfait accomplissement des conditions de l'inscription de la manière prescrite par les présents règlements, son inscription peut être annulée. Toutefois, si l'assurance satisfaisante est donnée que la succession sera administrée et que les prescriptions des règlements seront observées, la Commission peut prolonger le délai pour remplir les conditions d'inscription.

INSCRITS ALIÉNÉS.

Inscrits aliénés.

57. Si un inscrit devient aliéné ou mentalement incapable et, pour cause de cette aliénation ou incapacité mentale, dans l'impossibilité d'achever de remplir les conditions nécessaires pour obtenir les lettres patentes, les obligations de résidence et de naturalisation seront suspendues. Les conditions autres que celles de la résidence peuvent être remplies par le curateur ou le curateur aux biens de l'inscrit ou par quiconque, à la mort de ce dernier, aurait été son représentant légal.

LETTRES PATENTES.

Preuve de l'accomplissement des obligations.

58. Après que l'inscrit a rempli les conditions d'établissement ci-dessus prescrites il peut en présenter la preuve. Cette preuve sera sous forme de déclaration sous serment par l'inscrit, corroborée par une déclaration sous serment de deux personnes désintéressées résidant dans le voisinage.

La déclaration de l'inscrit et de ses témoins sera faite devant un fonctionnaire dûment autorisé par la Commission à recevoir telle preuve.

Inscrits décédés et aliénés.

59. Advenant le décès d'un inscrit, ou dans le cas où un inscrit devient aliéné ou mentalement incapable, la preuve de l'accomplissement des conditions de la concession sera faite par telle personne ou telles personnes et de telle manière que la Commission jugera satisfaisante.

Perte de droits à défaut de preuve.

60. Si la preuve de l'accomplissement des conditions d'inscription n'a pas été fournie, ainsi que prescrit, dans les cinq ans de la date de l'inscription, le droit de l'inscrit en rapport avec le homestead est sujet à déchéance sur l'ordre de la Commission.

Lettres patentes.

61. Si la preuve de l'accomplissement des conditions d'inscription a été soumise ainsi que prescrit, et que la Commission est satisfaite de cette preuve, la Commission s'il n'y a aucune charge sur le terrain pour un prêt fait sous le régime des règlements régissant les prêts pour l'établissement des soldats, recommandera l'émission de la

patente à l'inscrit, ou au cas du décès de l'inscrit, à son représentant légal, ou au nom du défunt lui-même, si la loi de la province où le terrain est situé ne pourvoit pas à la nomination d'un représentant personnel.

Patente émise qu'après remboursement du prêt.

62. Si la preuve de l'accomplissement des conditions d'établissement a été acceptée par la Commission, mais qu'il y a une charge sur le terrain pour des avances faites sous l'empire de la loi, la Commission retardera l'émission de la patente jusqu'à ce que le terrain ait été dégrevé de cette charge.

Certificat quant à la preuve.

63. Dans les cas mentionnés dans l'article précédent l'inscrit, ou au cas de son décès la personne qui aurait droit de recevoir la patente si toutes les conditions avaient été remplies, peut recevoir un certificat de la Commission déclarant que les conditions d'établissement ont été remplies et que sur paiement de la dette contractée sous le régime de la loi les lettres patentes seront délivrées à la personne qui a droit de les recevoir conformément aux présents règlements.

ÉCHANGE D'INSCRIPTIONS.

Quand deux colons peuvent échanger.

64. Deux inscrits quelconques dont les inscriptions sont en règle peuvent pour cause obtenir de la Commission la permission d'échanger leurs inscriptions respectives pourvu que la Commission soit satisfaite que la garantie donnée par un colon qui a obtenu un prêt sous le régime de la loi n'est pas diminuée par cet échange.

ABANDON DE L'INSCRIPTION.

Abandon et réinscription.

65. A la discrétion de la Commission, permission peut être accordée à l'inscrit d'abandonner le terrain pour lequel il s'est inscrit en faisant une déclaration en la forme prescrite par la Commission et il peut lui être permis de s'inscrire pour un autre terrain disponible pour cette fin.

En cas de prêt.

66. Lorsque l'inscrit, ayant obtenu un prêt de la Commission, a créé sur le homestead une charge ou un lien qui n'a pas été acquitté, le privilège d'abandon et de réinscription ne peut être accordé qu'à condition que la dette soit transférée au terrain pour lequel la nouvelle inscription est faite et seulement lorsque la Commission est satisfaite que la garantie du prêt ne sera pas diminuée par la transaction.

Abandon en faveur d'un parent.

67. Lorsqu'une inscription est en règle l'inscrit peut à la discrétion de la Commission obtenir la permission d'abandonner son homestead en faveur d'un père, une mère, une sœur, une fille, un frère, une épouse, ou un mari qui est qualifié pour l'inscription de soldat sous le régime des présents règlements, aux conditions que la Commission peut prescrire.

ANNULATION DE L'INSCRIPTION.

Raisons pour annulation.

68. Une inscription peut être annulée pour une des raisons suivantes:—

(*a*) Si l'inscrit en une année quelconque ne remplit pas les conditions d'établissement prescrites;

(*b*) Si une inscription a été obtenue ou accordée par erreur, ou sous de fausses représentations ou par fraude;

(*c*) Si un inscrit qui a obtenu un prêt de la Commission d'établissement de soldats ne paie pas les versements sur le principal et l'intérêt aux dates où ils sont payables, ou ne se conforme pas aux conditions du prêt;

(*d*) Si l'inscrit ne paie pas les améliorations ou les charges sur le terrain en rapport avec le grain de semence ou les secours accordés, ou autre dette d'un inscrit ou d'un propriétaire précédent du terrain;

(*e*) Si l'inscrit a cédé, hypothéqué ou transféré, ou s'il a consenti à céder, hypothéquer ou transférer son homestead, à moins qu'il ne soit autrement prescrit.

Effet de l'annulation.

69. Lorsqu'une inscription a été annulée pour une raison quelconque, tous les droits de l'inscrit sur son homestead cessent et se terminent dès lors; mais la Commission peut à sa discrétion rembourser à la personne qui a fait les améliorations, en tout ou en partie, l'argent reçu à compte de telles améliorations de celui qui possède ou occupe subséquemment le terrain.

ADMINISTRATION.

70. En ce qui concerne les règlements ci-dessus qui ont rapport à la mise en réserve des terrains, à l'annulation de ces réserves, aux catégories de terrains ouverts à l'inscription, à l'annonce ou l'affichage, aux inscriptions, au règlement des conflits dans les demandes de terrain, à l'accomplissement des conditions d'inscription, à la preuve de l'accomplissement de ces conditions, à l'émission des lettres patentes, à l'échange des inscriptions, à l'abandon des inscriptions soit sans conditions ou en faveur d'un parent, et à l'annulation des inscriptions, partout où il est prescrit que la Commission doit agir, elle le fera par l'entremise du département de l'Intérieur.

DATE DE LA MISE EN VIGUEUR.

71. Les présents règlements entreront en vigueur à une date qui sera fixée par la Commission.

AU comité du Conseil privé a été soumis un rapport du ministre de l'Intérieur, daté le 22 mai 1918, représentant que la division de la biologie du département des mines du Canada a demandé la permission de recueillir des spécimens biologiques d'oiseaux et de petits mammifères dans le parc Jasper, au cours de l'été prochain.

Par conséquent, comme la collection n'est que pour des fins purement scientifiques, le ministre recommande que dans ce cas soient suspendus les règlements établis par un arrêté en conseil du 21 juin 1909 et appliqués au parc Jasper, par un arrêté en conseil du 6 juin 1911, défendant la chasse et la capture de tout animal ou oiseau sauvage dans les limites du parc, et que permission soit accordée à M. William Spreadborough du département des mines du Canada, de recueillir des spécimens biologiques d'oiseaux et de petits mammifères au cours de l'été de 1918, cette permission étant limitée, toutefois, à cinq spécimens mâles et cinq spécimens femelles de chaque espèces de petits mammifères et dix de chaque espèce d'oiseaux.

Le comité agrée cette recommandation et la soumet pour approbation.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre suppléant de l'Intérieur, daté le 4e jour de juin 1918, représentant que William Henry Hammond, propriétaire du Basque Ranche, comprenant une superficie d'à peu près 2,057.5 acres, situé dans la zone des chemins de fer près d'Ashcroft, province de la Colombie-Britannique, a demandé d'acheter, sujet aux conditions d'irrigation, 873.7 acres de terres fédérales attenantes à son terrain, avec l'intention d'y établir un système d'irrigation.

Les terres demandées ont été examinées par des fonctionnaires du département, qui les représentent comme impropres à l'agriculture sans irrigation, et qui font rapport qu'elles peuvent être irriguées pourvu qu'on puisse se procurer l'eau nécessaire. Ces terres sont vacantes et disponibles.

Le ministre, par conséquent, recommande que les terrains énumérés dans l'annexe ci-jointe soient vendus à William Henry Hammond aux condilions suivantes:

(*a*) Les terrains ainsi vendus doivent être rendus propres à la culture par l'irrigation.

(*b*) Le prix d'achat sera de cinq (5) dollars l'acre ; le coût des travaux d'irrigation, n'excédant pas $2 l'acre, pourra en être déduit et le total du coût de telle irrigation sera censé être un versement en argent fait à la date de la vente. Le prix d'achat sera payé comme suit : Un ($1) dollar l'acre au cours de l'année qui suit la date d'autorisation de la vente par le Gouverneur en conseil, et la balance dans les trois ans de la date de telle autorisation ou si toutes les autres conditions de la vente sont remplies et si l'intérêt à 5% est payé avant telle expiration de trois années.

(*c*) Les droits hydrauliques nécessaires seront obtenus du gouvernement provincial de la Colombie-Britannique.

Il ne sera fait aucuns travaux sur le terrain avant que des droits hydrauliques aient d'abor été obtenus de la province.

(*d*) Les travaux seront commencés au cours de l'année suivant la date de l'autorisation de la vente par arrêté en conseil et parachevés à la satisfaction du ministre de l'Intérieur dans les trois ans de telle date, sauf dans le cas où d'autres dates seraient fixées par les autorités provinciales en rapport avec les droits hydrauliques, alors que les dates provinciales pourront être acceptées si le ministre de l'Intérieur les approuve.

(*e*) L'examen des travaux sera fait par les ingénieurs du département de l'Intérieur à leur parachèvement.

(*f*) Lorsque les conditions seront remplies, patente de ceux de ces terrains rendus propres à la culture par l'irrigation sera délivrée -

(*g*) La vente pourra être annulée si le prix de vente n'est pas payé ou si l'acheteur ne se conforme pas à une quelconque des conditions de la vente.

(*h*) Avant que la patente soit délivrée il ne sera fait aucun transfert du terrain ni de droits au terrain sans le consentement du ministre de l'Intérieur.

Le comité agrée cette recommandation et la soumet pour approbation.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre suppléant de l'Intérieur, daté le 6e jour de juin 1918, représentant que mademoiselle Margaret Reith, d'Edmonton, Alberta, a demandé la permission de s'inscrire par procuration pour un homestead, dans l'intérêt de ses deux neveux, William John Franklin Reith et James Wilbert Reith, qui sont actuellement avec le corps expéditionnaire canadien outremer.

Mademoiselle Reith représente que ses deux neveux sont âgés de 35 et 27 ans respectivement ; ils sont orphelins, elle est leur plus proche parente et ils l'ont priée de s'inscrire par procuration pour un homestead dans leur intérêt.

Vu la parenté et les circonstances précitées, le Ministre recommande que mademoiselle Margaret Reith soit autorisée à s'inscrire par procuration pour un homestead dans l'intérêt de ses neveux William John Franklin Reith et James Wilbert Reith.

Le comité agrée cette recommandation et la soumet pour approbation.

HOTEL DU GOUVERNEMENT A OTTAWA.

Jeudi, le 2e jour de juillet 1918.

PRESENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre du Service Naval, daté le 6e jour de juin 1918, représentant que les fonctionnaires techniques du département du Service Naval ont fait rapport qu'il est désirable que soit périodiquement augmentée la solde dans les divers grades de la Marine Royale Canadienne, selon la méthode approuvée dans la Marine Royale ; aussi qu'une solde progressive soit payée aux officiers de la Réserve Volontaire de la Marine Royale Canadienne après la même période de service que dans les mêmes grades de la Marine Royale Canadienne, alléguant que lorsque furent institués les divers grades dans la Réserve Volontaire de la Marine Royale Canadienne l'échelle de solde n'a été basée que sur la promotion.

Les fonctionnaires techniques représentent de plus que de légères augmentations de la solde des sous-officiers et l'institution de plusieurs nouvelles clauses de sous-officiers sont considérées désirables. Tous les marins reçoivent actuellement la même solde que les soldats du corps expéditionnaire canadien, et il est désirable, par conséquent, d'accorder ces légères augmentations aux sous-officiers afin que la solde soit raisonnablement plus élevée pour un matelot promu au grade de sous-officier.

Le ministre, agréant ces suggestions des fonctionnaires techniques du département du Service Naval, recommande que l'échelle de solde suivante soit autorisée à partir du 1er juillet 1918:

Branche militaire.

Chirurgien de la flotte, M.R.C. et R.V.M.R.C.—$8.50 par jour sur promotion, $9.00 après deux ans, $9.50 après quatre ans, $10.00 après six ans.

(NOTA—L'allocation au taux de $300.00 par année payable en vertu des présents règlements aux chirurgiens, M.R.C., sera retranchée de la date à laquelle l'officier commence à toucher la solde de chirurgien d'état-major ainsi qu'autorisée ci-haut.)

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU qu'il a été représenté que l'état de la récolte dans le sud et l'ouest de la Saskatchewan et dans le sud et une grande partie du centre de l'Alberta est excessivement critique à cause de la sécheresse continue;

Et attendu que la situation devient très sérieuse en ce qui concerne l'alimentation du bétail, particulièrement pour l'hiver prochain;

Et attendu qu'en vue de ce fait il est jugé opportun et d'intérêt public qu'il soit immédiatement défendu de brûler les meules de paille restant de la moisson de l'an dernier dans les provinces de Manitoba, Saskatchewan et Alberta, aussi bien que la paille de la récolte de cette année dans ces provinces.

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre suppléant de l'Agriculture et en vertu de la *Loi des mesures de guerre, 1914*, de décréter qu'il soit défendu de brûler toute paille ou toutes meules de paille dans les provinces de Manitoba, Saskatchewan et Alberta, ce qui est par les présentes défendu de la date du présent arrêté.

Le présent arrêté sera publié deux fois dans la *Gazette du Canada*.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que dans le cas d'un certain Norman Earle Lewis, la Cour Suprême de la province d'Alberta, division d'appel, a décidé le 28 juin 1918 que l'arrêté en conseil du 20 avril 1918 (C.P. 919) n'avait pas force de loi et que, conséquemment, toutes les exemptions annulées par l'arrêté en conseil du même jour (C.P. 962) restaient en pleine vigueur ;

Et attendu que le ministre suppléant de la Milice et de la Défense représente que les conditions militaires sont telles qu'il est de nécessité impérieuse qu'il ne soit pas permis que le principe de ce jugement ait d'effet, et qu'il est impossible de suspendre la mise en vigueur des arrêtés en conseil en attendant un appel s'il faut répondre aux exigences de la situation militaire ;

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre suppléant de la Milice et de la Défense, de décréter et d'ordonner et il décrète et ordonne par les présentes que les hommes dont les exemptions ont été annulées conformément aux dispositions des arrêtés en conseil du 20 avril 1918, ci-dessus mentionnés, soient traités sous tous rapports ainsi que prescrit par lesdits arrêtés en conseil, nonobstant le dit jugement et nonobstant tout jugement ou décret qui peut être rendu par une cour quelconque, et que les instructions soient adressées en conséquence aux officiers généraux et autres officiers commandant les districts militaires en Canada.

DEMANDES AU PARLEMENT.

SENAT.

SUBSTANCES DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

Telles que revisées et mises en vigueur le 22 mars 1916.

Tout pétitionnaire en divorce doit annoncer son intention de demander un bill de divorce, par un avis spécifiant contre qui et pour quelle cause le divorce sera demandé; il fait insérer cet avis, pendant trois mois au moins avant la prise en considération par le comité des divorces de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux—du district où il avait sa résidence habituelle à l'époque de sa séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Saskatchewan, l'Alberta, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; et à défaut de ce nombre de journaux, l'avis doit se publier dans le district, dans le comté ou les comtés-unis voisins.

Dans les provinces de Québec et du Manitoba, les insertions doivent se faire dans un journal anglais et un journal français, s'il en existe des deux langues dans le district; autrement, elles se font en anglais et en français au même journal. Si l'avis donné pour une session expire trop tard pour qu'il puisse être statué sur la pétition pendant cette session, la pétition pourra être présentée et accueillie à la session suivante sans nouvelle publication d'avis.

Une copie de cet avis et une copie de la pétition qui sera présentée doit, à la diligence du pétitionnaire et au moins deux mois avant la prise en considération de la pétition par le comité, être signifiée en main propre si cela est possible, à la personne contre laquelle le divorce sera demandé, ci-après appelée "partie défenderesse".

Si la résidence de la partie défenderesse n'est pas connue, ou que la remise de l'avis ne peut être faite en ses mains, s'il est prouvé, d'une manière jugée satisfaisante par le comité, que tous les efforts raisonnables ont été faits pour opérer la signification en main propre, et, en cas d'inutilité de ces efforts, pour porter l'avis et la pétition à la connaissance de la partie défenderesse, ces diligences peuvent être tenues pour une suffisante notification.

Aucune pétition en divorce n'est recevable après l'expiration des soixante premiers jours de la session.

Toute pétition en divorce doit être écrite lisiblement et porter la signature du pétitionnaire. Elle énonce sommairement le fait du mariage, en indiquant les noms au long, l'âge et l'état des parties, en quel temps, en quel lieu et par qui a été faite la célébration; le domicile et la résidence de chacune des parties à l'époque du mariage, leur domicile conjugal, leur résidence et tout changement qui en aurait eu lieu; les traits essentiels sur lesquels est fondée la demande de redressement et la nature du redressement demandé.

La pétition doit aussi contenir l'assurance qu'il n'y a pas eu ni connivence, ni pardon pour les torts qui donnent lieu à la plainte, ni collusion dans la demande en divorce.

Les allégations de la pétition doivent être appuyées d'une déclaration du pétitionnaire, faite conformément à l'*Acte de la preuve en Canada, 1893*.

La copie de la pétition signifiée à la partie défenderesse portera en endos ou en annexe les renseignements suivants:

(*1*) La résidence du pétitionnaire à l'époque de la signification.

(*2*) Une adresse postale en Canada à laquelle les lettres et avis pour le pétitionnaire puissent être délivrés.

(*3*) Le nom et l'adresse de l'avocat, s'il y en a un, agissant pour le pétitionnaire.

(*4*) Si cet avocat n'a pas d'adresse à Ottawa, le nom et l'adresse de quelque agent le représentant à Ottawa à qui tous avis et pièces puissent être signifiés.

(*5*) Si la partie défenderesse veut s'opposer à la demande en divorce et être entendue par le comité des divorces du Sénat, elle doit adresser un avis à cet effet au greffier du Sénat aux édifices du Parlement, Ottawa, dans les deux mois de la signification faite à la partie défenderesse et donner dans cet avis au greffier du Sénat:

(*a*) La résidence de la partie défenderesse à l'époque de l'envoi de l'avis

(*b*) Une adresse postale en Canada à laquelle les lettres et avis pour la partie défenderesse puissent être délivrés.

(*c*) Le nom et l'adresse de l'avocat, s'il y en a un agissant pour la partie défenderesse.

(*d*) Si cet avocat n'a pas d'adresse à Ottawa, le nom et l'adresse de quelque agent le représentant à Ottawa, à qui tous avis et pièces puissent être signifiés.

(*6*) Si la partie défenderesse ne notifie pas ainsi le greffier du Sénat, la pétition peut être prise en considération, et un bill de divorce basé sur cette pétition peut suivre son cours sans autre avis à la partie défenderesse.

(7) Lorsque la pétition est présentée par un mari pour obtenir le divorce contre sa femme, si celle-ci fait voir au comité d'une manière satisfaisante qu'elle peut opposer et qu'elle est prête à produire sous serment de bons moyens de défense contre les accusations portées dans la pétition, et qu'elle n'a pas l'argent nécessaire pour faire valoir ces moyens, le comité peut rendre un ordre que son mari ait à lui fournir la somme nécessaire pour qu'elle puisse présenter sa défense en retenant les services d'un conseil, payer ses frais de voyage et de séjour et ceux des témoins assignés de sa part à Ottawa.

La pétition en obtention d'un bill de divorce n'est prise en considération par le comité que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $210.

La pétition, au moment de sa présentation au Sénat doit être accompagnée de la preuve de la publication d'avis et d'une déclaration établissant qu'une copie de l'avis de la pétition a été signifiée.

Une copie de toute pétition en obtention d'un bill de divorce, ou relative à quelque demande de divorce,—et une copie de tous documents et papiers accompagnant cette pétition, ou à produire devant le comité, devra être fournie par la personne au nom de laquelle la pétition, les documents ou les papiers seront présentés ou produits.

A. E. BLOUNT,
Greffier du Sénat

SENAT.

Avis de bills privés.

ÉXTRAIT DES RÈGLES DU SÉNAT.

107. Toute demande au Parlement, pour obtenir un bill privé, de quelque nature qu'il soit, doit être annoncée par avis inséré à la *Gazette du Canada;* cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et contenir l'adresse des signataires; et si elle a pour objet l'obtention d'un acte constitutif, il faut donner aussi dans l'avis le nom de la compagnie projetée.

Outre l'avis à insérer dans la *Gazette du Canada*, il doit en être publié un semblable, comme il suit:—

A) Lorsque la demande a pour objet l'obtention d'un acte constituant en corporation,—

1. Une *compagnie de chemin de fer ou de canal*, —dans un des principaux journaux de la principale cité ou ville ou le principal village de chaque comté ou district par où passerait le chemin de fer ou le canal dont la construction est projetée;

2. Une *compagnie de télégraphe ou de téléphone*, —dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire où elle se propose d'opérer;

3. Une *compagnie pour la confection de travaux quelconques*, dont la confection ou l'exploitation intéresserait spécialement telle localité particulière; ou une compagnie tendant à obtenir des droits ou privilèges exclusifs, ou l'autorisation de faire une chose dont l'opération pourrait porter atteinte aux droits ou à la propriété d'autrui,—dans un des principaux journaux de l'endroit ou des endroits que l'acte demandé intéresse;

4. Une *compagnie de banque;* une *compagnie d'assurance;* une *compagnie de crédit;* une *compagnie de prêt;* ou une *compagnie industrielle*, sans pouvoirs exclusifs,—dans la *Gazette du Canada* seulement.

5. Et si les travaux d'une compagnie (constituée ou à constituer) doivent être déclarés d'utilité générale pour le Canada, cette intention sera spécifiquement mentionnée dans l'avis; et les requérants feront envoyer par lettre enregistrée une copie de cet avis au secrétaire de chaque conseil de comté et de chaque corporation municipale spécialement intéressée dans la construction ou l'exploitation de ces travaux, ainsi qu'au secrétaire de la province dans laquelle ces travaux sont ou seront situés; et la preuve de l'accomplissement de cette prescription par les requérants devra s'établir par une déclaration statutaire.

B) Lorsque la demande a pour objet de modifier un acte existant,—

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient, l'avis sera le même, *mutatis mutandis*, que celui pour l'obtention d'un acte constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la confection ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres travaux quelconques déjà autorisés,—dans un des principaux journaux de l'endroit où la compagnie a son siège ou est autorisée à avoir son siège;

3. Afin d'étendre les pouvoirs d'une compagnie (sans attribution de pouvoirs exclusifs); d'accroître ou de réduire le capital-actions d'une compagnie, ou d'augmenter ou modifier sa faculté d'émettre des obligations ou de faire des emprunts, ou d'effectuer des changements pouvant porter atteinte aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie,—dans un des principaux journaux du lieu de la situation de son siège.

C) Dans tous ces cas, les avis insérés soit à la *Gazette du Canada* ou dans les journaux, doivent se publier au moins une fois par semaine pendant cinq semaines consécutives; et, lorsqu'ils se publient dans les provinces de Québec et du Manitoba, ils doivent être en langue anglaise et en langue française. Il faut envoyer au greffier du Sénat des exemplaires *marqués* de chaque numéro de tous les journaux contenant l'avis, avec, sur le pli de la feuille, les mots: *"Avis de bill privé"*; ou l'on peut transmettre, au lieu des journaux, une déclaration statutaire que l'avis a été dûment publié.

Tout avis par lettre enregistrée sera déposé à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale cinq semaines au moins avant la considération de la pétition par le comité des Ordres permanents; et une déclaration statutaire établissant le fait du dépôt à la poste sera transmise au greffier du Sénat.

108. Nulle pétition pour la constitution en corporation d'une compagnie de chemin de fer ou d'un canal existant ou autorisé, n'est prise en considération par le comité des Ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé des travaux ainsi que les comtés ou les districts par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement qu'on veut construire.

109. Avant d'adresser au Sénat la pétition pour en obtenir la permission de présenter un bill privé ayant pour objet la construction d'un pont de péage, là où les personnes qui ont l'intention de faire cette pétition doivent, en donnant l'avis prescrit par les règles précédentes mentionner en même temps et de la même manière, les péages qu'elles se proposent de percevoir, l'étendue du privilège, la hauteur des arches, l'espace libre entre les culées ou les piles pour le passage des trains de bois et des bateaux; en outre, mentionner si le pont sera mobile ou non, et indiquer les dimensions de la partie mobile.

110. Aucune pétition en obtention d'un bill privé n'est reçue par le Sénat après les trois premières semaines de la session; aucun bill privé ne peut lui être présenté après les quatre premières semaines de la session; aucun rapport d'un comité permanent ou spécial sur un bill n'est reçu après les six premières semaines de la session.

114. Toute personne qui voudra obtenir un bill privé, si elle se propose de la présenter au Sénat, devra déposer entre les mains du greffier de cette Chambre, huit jours avant la réunion du Parlement, une copie du bill en langue anglaise ou en langue française avec une somme d'argent suffisante pour en payer la traduction, laquelle sera faite par les traducteurs du Sénat, et payer l'impression de 600 exemplaires anglais et de 200 exemplaires français; elle aura pareillement à verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant la prise en considération par le comité auquel il aura été renvoyé, une somme de $200, avec les frais d'insertion de l'acte au corps des Statuts; et elle remettra au commis-greffier du comité un reçu constatant le versement de ces sommes.

A. E. BLOUNT,
Greffier du Sénat.

CHAMBRE DES COMMUNES.

RÈGLES RELATIVES AUX PÉTITIONS ET AUX BILLS PRIVÉS.

88. (1) Les pétitions pour bills privés ne sont reçues par la Chambre que si elles sont présentées pendant les six premières semaines de la session, Mettout bill privé sera présenté à la Chambre dans les deux semaines à compter de l'époque où l'examinateur ou le comité des ordres permanents auront fait un rapport favorable sur la pétition, et nulle motion à l'effet de suspendre cette règle ne sera acceptée, à moins qu'au préalable le comité des ordres permanents n'ait présenté un rapport recommandant cette suspension et exposant les raisons la motivant.

Instructions aux comités.

97. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être discutées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommendation que ces bills soient retirés.

Dépôt de bills et honoraires.

89. (1) Toute personne qui voudra obtenir un bill privé sera tenu de déposer entre les mains du greffier de la Chambre, au moins huit jours avant la réunion de la Chambre, un exemplaire de ce bill en anglais ou en français, avec une somme suffisante pour en payer la traduction et l'impression, la traduction en devant être faite par les fonctionnaires de la Chambre, et l'impression par le département des impressions publiques, et si pareil bill n'est pas déposé dans le délai ci-dessus prescrit, le solliciteur devra, en sus des frais d'impression et de traduction, payer la somme de cinq dollars pour chaque jour qui s'écoulera entre le dit huitième jour avant la réunion de la Chambre et la date de la présentation du bill; mais ces taxes additionnelles ne devront pas dépasser en totalité la somme de deux cents dollars.

2. Après la deuxième lecture d'un bill et avant son examen par le comité auquel il a été renvoyé, celui qui en fait la demande doit dans tous les cas verser le prix de l'impression de la loi dans les statuts ainsi qu'un droit de deux cents dollars.

Taxes supplémentaires

3. Les taxes suivantes seront également imposées et payées, en sus de celles qui précèdent, savoir:—

(*a*) Lorsqu'une règle de la Chambre est suspendue relativement à un bill, ou à la pétition de ce bill pour chaque suspension.....	$100 00
(*b*) Lorsqu'un bill est présenté dans la Chambre après la huitième Semaine de la session et avant la fin de la douzième.....	100 00
(*c*) Lorsqu'un bill est présenté dans la Chambre après la douzième semaine de la session.....	200 00
(*d*) Lorsque le capital social projeté d'une compagnie dépasse $250,000, et n'excède pas $500,000.....	100 00

5. Quand un bill est à l'effet d'augmenter ou tend augmenter pour une compagnie sa faculté d'emprunter sans qu'il y ait augmentation du capital social, le droit additionnel est de $300.

6. Si, à quelque phase d'un bill, il est apporté quelque augmentation au chiffre du capital social projeté d'une compagnie, ou à celui de sa faculté d'emprunter, le bill ne passe pas à la phase subséquente tant que les droits découlant de ce changement n'ont pas été versés.

7. Dans la présente règle, l'expression "capital social projeté" comprend toute augmentation de ce capital prévue dans le bill, et dans les cas où un bill accorde le pouvoir d'augmenter, à quelque date que e soit, le montant du capital social projeté, le droit additionnel sera prélevé sur le chiffre maximum de telle augmentation projetée, tel qu'il en est fait mention dans le bill.

8. Les taxes supplémentaires prescrites en la présente règle s'appliqueront aussi aux bills privés prenant naissance au Sénat, sauf, toutefois, que si une pétition demandant pareil bill privé a été présentée en cette Chambre dans les six premières semaines de la session, la taxe supplémentaire imposée sous l'empire des alinéas *b* ou *c* de l'article 3, ne sera pas exigée.

graphe ou de téléphone quelconques, ou de tous autres travaux déjà autorisés; ou pour l'extension des pouvoirs d'une compagnie (lorsque cela n'implique pas la concession de droits exclusifs); ou pour l'augmentation ou la réduction du capital social de quelque compagnie; ou pour augmenter ou modifier ses pouvoirs d'émettre des obligations ou de contracter des emprunts, ou pour tout amendement pouvant porter atteinte aux droits ou intérêts des actionnaires ou des porteurs d'obligations ou des créanciers de la compagnie:—Dans la localité où le bureau principal de a compagnie est ou doit être autorisé à s'établir.

C) Lorsque la demande a pour objet d'obtenir pour une personne ou une corporation déjà constituée des droits ou privilèges exclusifs ou le pouvoir de faeir quelque chose dont l'accomplissement pourrait porter atteinte aux droits ou aux biens d'autres personnes dans la localité ou les localités particulières que l'acte projeté pourrait atteindre.

Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, devront être publiés au moins une fois par semaine pendant une durée de cinq semaines consécutives; et en ce qui concerne les provinces de Québec et de Manitoba, ils devront y être publiés en anglais et en français; et dans le cas où il n'y aurait pas de journal dans une localité où l'avis doit être donné, cet avis sera donné dans la localité la plus rapprochée dans laquelle il se publie un journal; et la preuve de la publication régulière de l'avis sera établie dans chaque cas par une déclaration conforme à la loi; et toutes ces déclarations devront être transmises au greffier de la Chambre et être endossées "Avis de bill privé".

D) Tout pareil avis sera transmis par la poste par lettre enregistrée de manière à parvenir au secrétaire de la province, et au greffier du conseil de comté et de la corporation municipale, au moins deux semaines avant que l'Examinateur ou le comité des ordres permanents ne prennent la pétition en délibération, et une déclaration conforme à la loi et établissant ce dépôt à la poste, sera adressée au greffier de la Chambre.

E) Tous bills privés pour actes constitutifs devront être dressés de manière à incorporer, par mode de renvoi, les clauses des actes généraux se rapportant aux détails auxquels ces bills doivent pourvoir; l'on devra énoncer les raisons spéciales de toute déviation de ce principe, ou de l'introduction d'autres dispositions relatives à ces détails, et une note devra être annexée au bill pour indiquer les dispositions du bill au sujet desquelles l'on propose de s'écarter de l'*acte général;* les bills qui ne seront pas rédigés conformément à cette *règle,* devront être remodelés par les promoteurs et réimprimés à leurs frais avant qu'aucun comité passe à l'examen de leurs *clauses.*

SUPPLÉMENT
DE LA

Gazette du Canada

PUBLIÉE PAR AUTORITÉ

OTTAWA, SAMEDI, 20 JUILLET 1918.

AVIS DU GOUVERNEMENT.

MINISTÈRE DU SERVICE NAVAL.

RÈGLEMENTS DE PÊCHE PARTICULIERS À LA PROVINCE DU MANITOBA.

Adoptés par le Décret du Conseil en date du 11 juin 1917, tels qu'amendés jusqu'au 30 novembre 1917.

Les règlements de pêche particuliers à la province du Manitoba, adoptés par le décret du conseil du 9 février 1915, ainsi que tous les amendements s'y rapportant, sont par les présentes abrogés et remplacés par les dispositions suivantes:

Les règlements suivants ne s'appliquent pas aux eaux situées dans les limites des réserves forestières, et qui sont du ressort du ministre de l'Intérieur.

1. Excepté en vertu d'une licence ou d'un permis délivré par le ministre du Service Naval, toute personne qui exerce la pêche d'amateur, ne peut le faire qu'au moyen de la ligne à main, et il ne lui est jamais permis de vendre le poisson ainsi capturé ni d'en trafiquer.

L'expression "pêche à la ligne à la main" embrasse dans sa signification la pêche à la ligne traînante et comprend la capture du poisson au moyen d'hameçons et de lignes tenues à la main ou d'hameçons et de lignes attachées à une canne de pêche, cette dernière tenue dans la main, mais ne signifie pas une série de lignes ou des lignes attachées à une embarcation.

2. Il n'est permis d'accorder cette licence qu'aux seules personnes qui sont sujets britanniques et qui habitent la province du Manitoba, ou encore aux seules sociétés canadiennes dont les bureaux-chefs sont situés dans la province.

3. Tous colons établis, y compris les Indiens, ont droit à un permis annuel de pêche les autorisant à faire usage de cent verges au plus de filet à mailler, d'un carrelet ou de cinquante hameçons eschés, au plus, et cela pour leurs usages domestiques seulement car il n'est jamais permis de vendre le poisson ainsi capturé ni d'en trafiquer.

Ces permis sont délivrés gratuitement.

4. Il n'est pas permis de passer à un autre sa licence, excepté par permission spéciale écrite et émanant de l'inspecteur des pêcheries de l'arrondissement.

5. Pour la pêche à bord de remorqueurs, voiliers ou esquifs, les licenciés doivent être les propriétaires du bateau, des filets et autres engins de pêche qu'ils emportent avec eux. En ce qui concerne toutes les autres méthodes de faire la pêche au moyen de filets à mailler ou de carrelets, nulle personne autre que le détenteur d'une telle licence, ne peut exploiter, ni aider à exploiter un filet à mailler ou un carrelet.

6. On est tenu de numéroter lisiblement tous les bateaux, bouées ou filets au moyen d'étiquettes ou autres procédés. Chaque bateau doit porter son numéro peint en noir sur fond blanc sur l'un ou l'autre côté de la proue. Les caractères ne peuvent mesurer moins de six pouces de hauteur et le numéro des bouées doit être fixé de façon à ce qu'on puisse l'apercevoir, sans qu'il y ait besoin de les lever. Quant aux étiquettes numérotées des filets il faut les attacher de façon à ce qu'elles soient visibles, quand lesdits filets sont mis en caisses ou enroulés sur dévidoirs. Les numéros des bateaux, bouées ou filets sont désignés par l'inspecteur des pêcheries de l'arrondissement à l'époque de la délivrance de la licence.

7. Il n'est pas permis de faire la pêche au moyen d'engins, autres que les filets à mailler, les carrelets, les hameçons eschés ou les lignes à main.

8. Les licences commerciales de carrelets n'autorisent l'usage que d'un seul carrelet pour la capture de la carpe ou autres poissons communs non protégés par la saison prohibée. Les droits d'une telle licence sont de deux dollars.

LAC WINNIPEG.

9. *Pêche d'été pour poisson blanc.*—La pêche d'été pour le poisson blanc n'est autorisée qu'en vertu des licences de remorqueur, voilier ou esquif, et peut commencer le premier juin pour se poursuivre jusqu'à l'époque où on aura capturé une quantité de poisson égale à trois millions de livres de poisson blanc, apprêté, ou jusqu'au 15 d'août inclusivement de chaque année. Si la quantité de poisson blanc apprêté ci-haut désignée est prise avant le 15 d'août, l'inspecteur des pêcheries de l'arrondissement doit ordonner que tous les filets pour poisson blanc soient enlevés, et tout filet non retiré à la suite de cette injonction, ou à défaut d'elle, le 15 d'août, est susceptible d'être saisi et confisqué, et les licenciés deviennent par le fait même passibles des pénalités décrétées par la Loi des Pêcheries. (D. C. 29 novembre 1917.)

(a) Une licence de remorqueur n'autorise l'usage que de cinq mille verges de filet à mailler, et les droits imposés s'élèvent à cinquante dollars.

(b) Une licence de voilier n'autorise l'usage que de trois mille verges de filet à mailler, et les droits imposés s'élèvent à dix dollars.

(c) Une licence d'esquif n'autorise l'usage que de mille cinq cents verges de filet à mailler, et les droits imposés s'élèvent à cinq dollars.

(2) Les mailles de ces filets ne doivent pas mesurer moins de cinq pouces et demi au moment de leur emploi.

(3) Il est défendu de tendre des filets pour tullipi, à partir du 1er au 15 d'août de chaque année, ces deux jours compris.

10. (a) *Pêche d'été et d'automne de la sandre ou doré.*—La pêche de la sandre ou doré au moyen de filets à mailler dans le lac Winnipeg peut commencer le premier juin de chaque année, et se poursuivre dans toutes les parties du lac non interdites par les présents règlements, jusqu'à ce que la pêche d'été du poisson blanc soit terminée, tel que stipulé dans l'article 9, et conséquemment, et jusqu'au 15 octobre inclusivement de chaque année, la pêche du doré au filet à mailler à bord d'esquifs, ne peut se pratiquer que dans cette partie du lac s'étendant au sud d'une ligne tirée dans la direction est-ouest magnétique, par le travers du lac, à partir de la pointe nord de l'île Black-Bear. Tout poisson blanc involontairement pris dans un filet à mailler pour la sandre ou doré, à bord d'esquifs, peut être retenu et vendu.

(*b*) Pour la pêche d'été et d'automne de la sandre ou doré, il n'est pas permis de faire usage de plus de quinze cents verges de filet à mailler, et les mailles ne doivent pas mesurer moins de quatre pouces et un quart au moment de leur emploi. Les droits d'une telle licence s'élèvent à cinq dollars.

11. *Pêche d'été de la barbue.*—Pour la pêche d'été de la barbue, il est défendu de se servir de plus de cinq cents verges de filet ou de plus de cinq cents hameçons eschés. Les mailles de ces filets ne doivent pas mesurer moins de cinq pouces et demi au moment de leur emploi, et les droits de licence s'élèvent à trois dollars.

12. *Pêche d'hiver dans le lac Winnipeg.*—On est autorisé à faire usage de filets à mailler pour la pêche d'hiver, du 20 novembre au dernier jour de février suivant de chaque année, ces deux jours compris.

Ce règlement ne s'adresse pas aux sujets britanniques qui pêchent dans des eaux dont ils sont possesseurs ou dont ils détiennent par bail les droits de pêche riverains, mais dans tous les cas où une personne se réclame de sa nationalité pour être exemptée du permis c'est à elle seule qu'il appartient d'en faire la preuve.

Les droits annuels pour l'obtention d'un semblable permis s'élèvent à cinq dollars.

2. On ne peut délivrer qu'un seul permis par postulant. Ce permis ne saurait être transféré à un autre, et seule la personne dont le nom figure est légalement autorisée à s'en servir. Chaque détenteur d'un permis de pêche à la ligne est tenu de le produire quand un officier de pêche l'exige.

(Il est illicite de détenir du poisson en temps prohibé sans raison légitime.) (*Voir* la Loi des Pêcheries, article 29.)

2. Il est défendu de pêcher, de prendre ou de tuer de l'achigan au moyen de seines ou de tous autres filets dont les mailles ont moins de six pouces.

3. Au cas où on trouverait ou prouverait qu'il y a ou qu'il y a eu de la dynamite ou autres explosifs à bord d'un navire ou d'une barque, le capitaine et le propriétaire ou le patron deviendraient passibles de l'amende édictée contre l'infraction du règlement précédent, aussi bien du reste que toutes autres personnes à qui il serait arrivé de placer ou d'embarquer de la dynamite ou autres explosifs à bord d'un navire ou d'une barque ou d'en avoir eu en leur possession.

Il faut placer de ces portes telles que ci-haut décrites à tous les cent cinquante pieds d'écluse; mais dans chaque cas elles doivent être disposées comme ci-haut prescrit, c'est-à-dire dans l'endroit le plus profond. On est tenu de les ouvrir à ou avant six heures de chaque samedi soir et de les maintenir dans cette situation jusqu'au lundi matin à six heures.

3. En vue d'empêcher la destruction des jeunes poissons, toute personne possédant ou exploitant une écluse est tenue elle ou ses employés d'y pénétrer en barque lorsque le niveau de l'eau ne mesure pas moins de six pieds à l'endroit le moins profond le long de l'autre aile, pour s'assurer de la taille des poissons capturés et si on constate que ces derniers sont trop jeunes ou trop petits, il faut ouvrir immédiatement les portes pour leur permettre de s'échapper.

8. Il est défendu de faire usage de carrelets pour capturer n'importe quelle espèce de poissons dans la rivière Round-Hill, comté d'Annapolis, Nouvelle-Ecosse.

9. (*a*) Il n'est pas permis de pêcher au filet dans la rivière Nictaux, ni dans cette partie de la rivière Annapolis qui y fait face, non plus qu'en deçà de deux cents verges de l'une ou l'autre rive de l'embouchure de la rivière Nictaux.

ARTICLE 23.—COMTÉ DE CUMBERLAND.

1. La ligne de laisse de basse mer ou ligne de démarcation entre l'eau douce et l'eau salée est située, pour des fins de pêche, au pied des chutes Hannan, dans la rivière Philip.

2. Il n'est pas permis de construire des écluses, dans le but de prendre du poisson, dans aucune des rivières de ce comté ni en deça d'un demi-mille de leur embouchure.

3. Les filets à alose ne doivent pas mesurer (excepté à Port-Laurence) plus de douze brasses de longueur et les mailles de ces filets ne peuvent jamais avoir moins de quatre pouces et demi.

4. Après le 31 août, il n'est jamais permis de pêcher l'alose dans aucune des rivières ou baies de ce comté.

5. Chaque famille ou chef de famille jouit du droit de tendre cinquante brasses de filet, mais jamais plus, par rang de filets.

6. On est tenu de tendre les filets par rang, à partir du rivage jusqu'au bord du chenal ou de la baie et il n'est jamais permis dans les eaux de marées de placer deux rangs de filets à cinq cents verges en deça l'un de l'autre.

7. Le garde-pêche est autorisé à opérer le tracé d'autant de rangs de filets qu'il le jugera nécessaire pour l'avantage des habitants; chaque particulier a droit à vingt-cinq brasses par rang, mais pas davantage, et chaque poste dans un rang est assigné par tirage au sort.

8. Le garde-pêche est tenu de donner par affichage dans trois des endroits les plus fréquentés par le public, six jours d'avis pour connaître la date et l'endroit où auront lieu le tracé et le tirage au sort.

9. Il est défendu de faire usage de seines pour la pêche du gaspareau.

10. Il n'est pas permis de tendre des filets en vue de capturer du gaspareau en deça d'un quart de mille de la digue du moulin appartenant à MM. Rindress et Seaman, sur la rivière Wallace.

ARTICLE 24.—COMTÉ DE DIGBY.

1. Toute pêcherie où l'on pêche le hareng au moyen de filets doit offrir un front de cent verges, et être divisée par une série de lignes tirées à angle droit avec le rivage en autant que possible. Toutes ces pêcheries doivent être décrites et numérotées et nul ne peut tendre de filets en face d'une pêcherie déjà occupée, y commettre d'empiètement, ni nuire à son exploitation.

2. Sur chaque bouée de pêche doivent figurer le nom du propriétaire et le numéro de sa pêcherie écrits en lettres rouges ou marqués au fer rouge; on est obligé d'attacher à chaque filet une plaque ou une étiquette indiquant le nom et le numéro comme ci-haut indiqué.

3. Toute écluse, de quelque nature que ce soit, doit être pourvue de portes placées dans la claie ou endroit le plus profond; ces portes doivent posséder une ouverture d'au moins huit pieds de longueur par quatre pieds de hauteur, et être suspendues par le haut au moyen de pentures en fer et aussi être pourvues d'un dispositif fixé à une pièce de bois droite, en vue de les lever à n'importe quelle heure de la marée. Il faut placer de ces portes, telles que décrites ici, à tous les cent cinquante pieds d'écluse; mais dans chaque cas il faut les disposer comme ci-haut indiqué, c'est-à-dire dans l'endroit le plus profond. On est tenu de les ouvrir à ou avant six heures de chaque samedi soir, et de les maintenir dans cette situation jusqu'au lundi matin à six heures.

4. En vue d'empêcher la destruction des jeunes poissons, toute personne possédant ou exploitant une écluse est tenue, elle ou ses employés d'y pénétrer en barque au mi-jusant en vue de s'assurer de la taille des poissons capturés, et si on constate que ces derniers sont trop jeunes ou trop petits, il faut ouvrir immédiatement les portes pour leur permettre de s'échapper.

5. Il n'est pas permis d'ériger des écluses en deça de cent verges de l'endroit où il y en a déjà une en explotation, et il est interdit d'en construire une en face d'une autre ni nuire en rien à son exploitation.

6. C'est aux officiers de pêche qu'il appartient d'assigner l'endroit et le numéro de toutes les écluses ou de toutes les pêcheries appartenant au domaine public dans le comté de Digby, après l'approbation de l'inspecteur des pêcheries.

7. Nul n'est autorisé à mouiller, placer ou tendre des nasses, des filets ou autres engins si ce n'est des nasses à anguille et des filets à éperlan dans aucune des rivières du comté de Digby fréquentées par le saumon, ni à aucun endroit en deça d'un quart

de mille de l'embouchure de ces cours d'eau; toutefois, il est permis de tendre des filets à gaspareau à l'époque où le gaspareau remonte le courant dans cette partie de la Rivière-au-Saumon, située en aval de la propriété que possède actuellement M. Henry Melançon, mais on est tenu d'enlever ces filets dès après la montée du gaspareau. Le garde-pêche local a le pouvoir de fixer lui-même la fermeture de la pêche du gaspareau et sa décision est sans recours. A cet effet, il a l'obligation de donner, par écrit, un avis destiné à être affiché dans le bureau de poste local, et tout filet laissé dans la rivière vingt-quatre heures après l'affichage dudit avis doit être jugé tendu illicitement. (D.C. 19 juin 1915).

8. Nul ne peut placer une nasse à anguille en deça d'un quart de mille d'une autre nasse.

9. Du 1er juillet au 10 novembre, il n'est pas permis, dans le but de capturer du jeune gaspareau, de placer, face au courant, aucun conduit, coffre à anguilles, goulets ou autres accessoires d'une nasse à anguille dans aucune des rivières ou de leurs affluents.

10. On peut accorder aux propriétaires de terrains, situés le long d'une chute dans les rivières du comté de Digby, un emplacement pour capturer le poisson au carrelet, emplacement que lesdits propriétaires sont autorisés à choisir et désigner eux-mêmes au garde-pêche qui a le devoir d'examiner leur réclamation, de fixer l'emplacement auquel ils ont droit, et qu'ils détiendront dans l'avenir à titre de privilège de pêche.

11. Chaque fois que la largeur d'une chute excède vingt pieds, toute personne, sauf le détenteur d'un poste de pêche, peut y mouiller une embarcation dans le but de prendre du poisson au carrelet, pourvu qu'il ne porte en aucune façon atteinte aux privilèges spéciaux des détenteurs de postes de pêche; et toute embarcation ainsi mouillée doit, après avoir opéré son chargement de poisson, faire place à d'autres embarcations, en s'éloignant des lieux lorsqu'on lui en manifeste le désir; pour empêcher qu'on n'enfreigne cette clause, il n'est jamais permis de saler du poisson à bord d'aucune de ces embarcations ni d'en transborder d'un bateau à l'autre. Quand la rivière mesure moins de vingt pieds de largeur, il n'est permis à aucun bateau ou embarcation d'exercer le privilège de pêche ci-haut décrit dans une rivière deux fois de suite ou plus, avant que chaque personne désireuse d'en bénéficier ne l'ait fait à son tour.

ARTICLE 25.—COMTÉ DE GUYSBOROUGH.

1. Aucun corps mort, piquet, pieux ou autres amarres ne peuvent rester dans un poste de pêche pendant plus de quarante-huit heures à moins que leurs détenteurs ne les laissent à l'eau pendant au moins huit heures au cours de ces quarante-huit heures, et cela pendant tout le temps de l'occupation de la pêcherie, pourvu que le mauvais temps ou autres causes inévitables ne surviennent pour les empêcher d'en agir ainsi.

2. Nul n'est autorisé à occuper plus d'un poste de pêche à la fois dans le but de prendre du poisson dans aucune des rivières, si d'autres personnes sont, par le fait même, privées de l'exploitation d'une station et qu'elles manifestent le désir d'en obtenir une.

3. Nul n'a le droit de mouiller des corps morts ni de tendre des filets sur aucun des fonds de pêche à la seine s'il s'y trouve des seines prêtes à être utilisées pour la capture du poisson. On ne peut non plus ancrer, ni mouiller en deçà de cent brasses du rivage à la laisse de basse mer aucun navire, barque ou autres amarres coulés à fond, ou flottantes.

4. Les armateurs ou les capitaines sont tenus d'enlever immédiatement tous corps morts, filets, navires, barques ou autre matériel ainsi placés, tendus, ancrés ou mouillés dès que le propriétaire de la seine en fait la demande ou dès que l'officier de pêche le leur enjoint, à moins d'en être empêché par le mauvais temps ou autres causes inévitables. Dans le cas où l'enlèvement serait praticable et où lesdits armateurs et propriétaires négligeraient d'enlever le matériel ci-haut désigné, il sera permis à l'officier de pêche ou au propriétaire de la seine prête à être utilisée pour prendre du poisson, d'accomplir eux-mêmes ce travail dont le coût en plus des peines et autres frais s'y rattachant, doivent être défrayés par ceux qui ont placé, tendu, ancré ou mouillé ce matériel; de même on a le devoir de conserver ce matériel jusqu'à l'acquittement de toutes les amendes peines ou autres frais.

5. Il n'est jamais permis de placer en deçà de soixante-dix brasses l'un de l'autre des corps morts destinés à retenir les filets, (excepté pour la pêche du saumon) à moins que les filets ne soient amarrés à chaque extrémité; dans ce cas, il faut que la distance entre les corps morts ne dépasse pas soixante brasses; tout corps mort doit pouvoir retenir une tessure de deux filets par temps ordinaire et toute bouée doit porter le nom de son posssesseur.

6. Il n'est pas permis de fixer à un corps mort plus de deux filets (excepté pour la pêche du saumon) et leur longueur respective ne saurait excéder vingt brasses; il est interdit de tendre deux filets au-dessus l'un de l'autre, l'un sous le niveau de l'eau et l'autre flottant, et aucun filet ne peut excéder en profondeur celle d'un filet ordinaire à maquereau.

7. Lorsque les filets sont mouillés ou sont sous la surface de l'eau, on est tenu d'en indiquer la position au moyen d'au moins trois bouées flottantes attachées l'une à l'autre avec le nom du propriétaire lisiblement écrit sur chacune d'elles.

8. A moins d'en être empêché par quelque cause inévitable, il n'est pas permis de laisser des filets (à l'exception des filets à saumon) tendus dans les limites d'un port ou en deçà d'un demi-mille de l'entrée d'un port, ni sur aucun fond de pêche à la seine prête à être utilisée pour la capture du poisson, du soleil levant à une heure avant le coucher du soleil.

9. Il n'est pas permis de tendre ni de laisser en exploitation des seines, des parcs, des filets à poche et des filets à enclos ou autres engins de pêche placés de façon à empêcher le poisson de se rendre sur un fond de pêche à la seine situé dans les limites dudit comté où il se trouve une seine prête à être utilisée pour la capture du poisson.

Toutefois dans l'espace compris entre une ligne imaginaire s'étendant à 100 verges de l'embouchure du ruisseau de Ketch-Harbour et du quai de Frank Martin, il est permis de tendre des filets parallèlement au courant, mais jamais par le travers du courant; dans le ruisseau de Ketch-Harbour il est permis de pêcher le gaspareau au carelet le lundi, le mercredi et le jeudi de chaque semaine.

5.—RÈGLEMENT CONCERNANT LA PÊCHE À LA SEINE DANS LES PÊCHERIES DU COMTÉ D'HALIFAX.

1. (*a*) Du 1er mai au 15 novembre de chaque année, ces deux jours compris, il n'est pas permis de tendre ni d'amarrer d'autres filets de pêche que des seines dans les limites d'une pêcherie à la seine, excepté pendant la nuit entre le coucher et le lever du soleil, et même alors jamais en avant d'une seine déjà exploitée en vertu d'une licence.

Toutefois, s'il ne se prend pas de maquereau dans les limites d'une pêcherie à la seine ou dans la région de pêche avoisinante, le garde-pêche local est autorisé à accorder un permis renouvelable de jour en jour donnant l'autorisation de tendre des filets dans les limites d'une pêcherie à la seine; il est dûment revêtu du pouvoir d'annuler ce permis en affichant dans trois endroits différents un avis public à cet effet, dès que le maquereau apparaît sur la côte, et de faire enlever les filets déjà tendus deux heures après la publication dudit avis, et cela aux frais des propriétaires des filets.

(*b*) En vertu de ce permis, toute personne a le droit de tendre des filets dans ladite pêcherie à la seine, qu'il soit détenteur d'une licence pour seine ou non.

(*c*) Nul ne peut conduire une barque à voiles ou à rames au travers ou au-dessus d'une seine tendue dans les limites d'un poste de pêche; il est de même défendu de troubler l'eau dans les limites d'une station de façon à effrayer le poisson.

LICENCES.

(*d*) Dans toutes les pêcheries à la seine, nul ne peut pêcher à la seine, si ce n'est en vertu d'une licence spéciale émanant du ministère du Service Naval et dont les droits s'élèvent à 50 sous.

(*e*) On peut délivrer au propriétaire d'une seine d'une longueur non inférieure à quatre-vingts brasses et d'une profondeur de huit brasses dans la poche à mailles et de cinq brasses dans les ralingues, pourvu que ledit propriétaire soit en possession d'un bateau monté par un équipage assez nombreux pour le manœuvrer, et pourvu aussi que le propriétaire réside dans les limites de l'arrondissement de pêche à la seine, qu'il en fasse son poste permanent de pêche et qu'il y ait construit des poissonneries et des hangars aménagés pour nettoyer et préparer le poisson capturé en vertu de sa licence.

(*f*) Le détenteur d'une licence a le droit de pêcher à la seine dans les limites du poste qui lui est assigné en vertu de son permis jusqu'à ce qu'il ait pris vingt barils de maquereau, après quoi sa licence expire; mais cette sorte de pêche ne saurait se pratiquer que durant les deux saisons ci-après désignées; du 1er mai au 15 juillet, ces deux jours compris, ou du 16 juillet au 15 novembre, ces deux jours compris.

(*g*) On doit numéroter les licences, et le détenteur de la licence n° 1 aura le droit au premier privilège de pêche dans les limites du poste désigné sur sa licence.

(*h*) Le détenteur de la licence dont le numéro suit immédiatement a droit de jeter sa seine à la courbe de la seine exploitée par le détenteur de la licence dont le numéro précède le sien immédiatement, et il bénéficie aussi de l'avantage de pêcher dans la pêcherie quand la licence précédente devient expirée.

(*i*) Une heure après le lever du soleil, en l'absence inexcusable du détenteur de la licence jouissant du droit de priorité de lancer une seine dans une station, le licencié suivant est autorisé à mouiller sa seine dans la pêcherie et a droit à la possession de tout le poisson qu'il capture par ce coup de seine.

(*j*) On a le devoir de considérer comme raison légitime le fait pour un licencié de s'absenter pour les funérailles d'un parent ou d'un ami, ou de se livrer au séchage de sa seine.

(*k*) Une heure après le lever du soleil, en l'absence du détenteur d'une pêcherie, tout propriétaire de seine est autorisé à mouiller sa seine; le pêcheur qui le premier aura jeté l'ancre et attaché sa seine à un pieu et possédant un équipage assez nombreux pour la manœuvrer, a droit de priorité dans le poste, et le deuxième qui jette l'ancre et attache sa seine à un pieu bénéficie du privilège de jeter sa seine à la courbe de la première seine.

(*l*) Tout poisson capturé par une personne, ou dans les limites d'une pêcherie ou entre des pêcheries, autre que le détenteur licencié au moment ou celui-ci occupe son poste, devient la propriété de ce dernier.

(*m*) On délivre aux personnes qui y ont droit, dans l'ordre déterminé, des licences pour l'exploitation des pêcheries désignées à une assemblée des propriétaires de seines

que le garde-pêche local a le devoir de convoquer à cette fin durant la première semaine de mai et la première semaine de juillet de chaque année, après qu'avis en a été donné par cet officier.

(*n*) Le porteur d'un permis sur le point d'expirer a droit à tout le poisson capturé dans le dernier coup de seine, même si les quantités prises excèdent celles autorisées dans son permis.

Ci-après nous donnons la nomenclature des arrondissements délimités pour la pêche à la seine:

Il n'est pas permis de mouiller dans aucune rivière ou cours d'eau ni aucun de leurs affluents, face au courant, des conduits ou coffres à anguille ou autres engins de pêche, à partir du 1er juillet jusqu'au 10 novembre, si, dans l'opinion du garde-pêche local, ces engins sont placés dans le but de prendre du gaspareau, du saumon ou de la truite.

2. Il est illicite de tendre des filets en deçà de trois cents verges du débouché d'un lac.

3. Il n'est pas permis de tendre de filets en deçà d'un demi-mille de l'embouchure d'une rivière

14. Il est défendu de faire usage dans la rivière Margaree de filets pour prendre du saumon, exception faite toutefois des cas où cette pêche serait nécessaire pour obtenir un nombre suffisant de saumons reproducteurs pour l'approvisionnement d'œufs voulu pour les opérations de la piscifacture de Margaree, mais dans chaque cas, cette sorte de pêche doit être effectuée sous la direction d'un employé du ministère du Service Naval et d'après ses instructions; aussitôt qu'on s'est procuré un nombre suffisant de saumons reproducteurs, on est tenu d'opérer l'enlèvement de tous les filets tendus dans la rivière.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Ministre de l'Agriculture, d'ordonner ce qui suit:—

Les règlements gouvernant l'inspection des conserves de fruits, de légumes et de lait, approuvés par l'arrêté en conseil du 6 juillet 1910, sont par les présentes abrogés et remplacés par les suivants:—

RODOLPHE BOUDREAU,
Greffier du Conseil Privé.

2. Ces règlements s'appliquent à tous les établissements compris dans l'interprétation du paragraphe (*d*) de l'article 1.

3. Tout établissement fonctionnant sous l'empire des dispositions de la loi doit, dans l'intervalle d'un mois après la date à laquelle ces règlements deviennent exécutoires, adresser au Ministre, par lettre enregistrée, une demande de permis pour continuer à fonctionner, et si cet établissement ne reçoit pas de permis dans les 60 jours qui suivent la date de l'envoi de cette lettre, il devra cesser tout commerce d'exportation ou interprovincial. Nul établissement ne peut, après cette date, commencer à fonctionner sans avoir au préalable obtenu un permis du Ministre. Au cas où le Ministre a des motifs raisonnables de croire qu'un établissement a contrevenu à l'une des dispositions de la loi ou des règlements, il peut, sur 10 jours d'avis donnés au possesseur, retirer ce permis.

4. Le Ministre peut, aux termes de la loi, nommer des inspecteurs qui visiteront de temps à autre chaque établissement pour s'assurer que les dispositions de la loi et ses règlements sont dûment observés et suivis.

5. Dans l'exécution de leurs fonctions officielles, les inspecteurs porteront une insigne numérotée, fournie par le Ministère.

6. Les inspecteurs fourniront au Directeur Général Vétérinaire des rapports complets et détaillés de toutes les inspections faites par eux et sur toutes les autres questions qui peuvent être jugées nécessaires ou utiles dans l'intérêt public.

7. Les conditions sanitaires suivantes doivent être observées et maintenues dans tous les établissements.

(*e*) Les employés de tout établissement engagé dans la manipulation des articles destinés à la consommation doivent être exempts de la tuberculose ou de toute autre maladie contagieuse, et doivent observer tous les règlements sanitaires généraux qui peuvent être jugés nécessaires par les inspecteurs.

(*f*) Il est interdit de laisser des articles entrant dans la production de nourriture venir en contact avec tout ce qui pourrait les contaminer ou les détériorer.

(*g*) Les salopettes (vêtements de couverture) employés par les ouvriers pour protéger leurs habits ou leurs personnes, doivent être faits d'un matériel facile à nettoyer et tenus raisonnablement propres.

(*h*) Les vestiaires et les lavabos doivent être amples, sanitaires, clairs, et bien aménagés, et tenus séparés de toute autre chambre ou de tout autre compartiment employé pour l'entreposage ou la production de nourriture ou d'articles destinés à la consommation.

(*i*) Toutes les cours, dépendances, ou autres locaux appartenant à un établissement ou employés par un établissement doivent être tenus dans un état propre et sanitaire et ne doivent pas être employés comme dépotoirs ou pour l'entreposage des déchets.

(*j*) Le système d'égouts desservant l'établissement doit être amplement suffisant et tenu en bon état de fonctionnement.

(*k*) Nul lavabo, évier ou citerne, ne doit être situé ou maintenu de telle façon que les odeurs ou les fumées qui s'en dégagent s'infiltrent dans une chambre où des denrées alimentaires ou des articles destinés à la consommation sont préparés ou emmagasinés.

8. Tous les fruits, légumes ou autres articles employés dans un établissement doivent être sains, et de toute façon propres à la consommation.

9. L'inspecteur doit confisquer et faire détruire sous sa surveillance tous les fruits ou autres articles destinés à la consommation et qu'il trouvera dans un établissement, soit au cours de la préparation, soit après cette préparation, dans un état de décomposition, malsain ou impropres à la consommation.

10. Aucune denrée ou produit alimentaire ne doit contenir des drogues, teintures, ou matières préservatives nocives, ni aucune substance étrangère nuisible à la santé.

(*a*) Il est interdit d'employer dans la préparation ou dans l'emballage des produits alimentaires, des drogues, teintures ou toute autre matière préservative condimentaire qui n'ont pas été approuvés par écrit par le Directeur Général Vétérinaire.

(*b*) Le propriétaire d'un établissement doit également soumettre au Directeur Général Vétérinaire, pour son approbation, toutes les drogues, teintures, ou matières

préservatives qu'il désire employer, et il ne doit employer ces préparations que si leur emploi est approuvé par le Directeur Général Vétérinaire.

11. Afin d'empêcher l'emploi de substances délétères, les inspecteurs doivent, aussi souvent qu'ils le jugeront nécessaire, se procurer des échantillons des matières préservatives employées ainsi que des divers produits alimentaires au cours de la préparation de ces produits ou après qu'ils ont été préparés, et devront les soumettre sans délai au Directeur Général Vétérinaire.

Le propriétaire d'un établissement doit, à la requête d'un inspecteur, fournir gratuitement à cet inspecteur des échantillons d'aliments ou de produits d'aliments ou de toute matière préservative condimentaire, ou d'autres ingrédients employés dans la préparation des aliments. Les échantillons ainsi obtenus doivent être cachetés, étiquetés et marqués d'une description ainsi que du nom de l'inspecteur et de la date, et expédiés immédiatement au Directeur Général Vétérinaire.

12. Les récipients dans lesquels les légumes, le lait ou d'autres articles destinés à la consommation sont finalement placés, doivent être propres et sanitaires, et s'ils ont déjà été employés, ils doivent être stérilisés parfaitement, immédiatement avant d'être remplis.

13. Les récipients dans lesquels des fruits, des légumes, du lait ou d'autres articles préparés pour la consommation dans un établissement quelconque sont placés, doivent être marqués comme suit, à moins d'instructions contraires de la part du Gouverneur en Conseil:

(*a*) Les initiales des noms de baptême, le nom complet et l'adresse, ou dans le cas d'une maison ou d'une corporation, le nom de la maison ou de la corporation et l'adresse du fabricant ou du premier marchand qui l'obtient directement du fabricant qui le vend ou l'offre en vente. Ce marchand doit, à la requête de l'inspecteur nommé aux termes de cette loi, indiquer le nom du fabricant de ces articles.

(*b*) Une description vraie et exacte du contenu du récipient, description que l'on pourra trouver dans les appendices à ces règlements. Ces marques doivent être données sur une étiquette de commerce, un patron ou un dessin lithographié, lesquels devront être d'une dimension raisonnable, proportionnelle à la dimension du récipient ou du colis, ayant sur eux, comme il est indiqué plus haut, le nom et l'adresse du fabricant ou du premier marchand, et une description exacte et fidèle du contenu.

(*c*) Tous les colis doivent être marqués de la façon indiquée dans cet article et porter le numéro du permis qui peut être assigné à l'établissement.

(*d*) Les propriétaires ou les gérants des établissements doivent soumettre au Directeur Général Vétérinaire des copies en double de toutes les étiquettes, et tous les patrons ou dessins lithographiés employés dans l'établissement; aucune étiquette, aucun patron, ou dessin lithographié ne peut être employé s'il n'a été approuvé par écrit par le Directeur Général Vétérinaire.

Une copie sera remise au Directeur Général Vétérinaire, l'autre sera conservée par le propriétaire ou le gérant et produite pour l'information de l'inspecteur lorsque celui-ci le désirera.

14. Aucun contenant ou colis ne doit porter une étiquette ou une marque d'aucune nature représentant faussement la nature, la quantité ou le poids du contenu, ou la date à laquelle ce contenu a été emballé.

15. Il est interdit d'offrir pour l'exportation ou d'exporter des fruits ou des légumes ou des produits de fruits ou de légumes, emboîtés, embouteillés, séchés, évaporés ou conservés d'autre façon pour la consommation, ou du lait concentré, évaporé ou conservé d'autre façon pour la consommation dans un établissement quelconque, à moins que les exigences de l'article 13 de ces règlements en ce qui concerne ces articles n'aient été satisfaites.

16. Il est interdit d'importer des fruits ou des légumes, ou des produits de fruits et de légumes, emboîtés, embouteillés, séchés, évaporés ou conservés d'autre façon pour la consommation, ou du lait concentré, évaporé, séché ou conservé d'autre façon pour la consommation, à moins que les exigences de cet article ne soient strictement observées.

(*a*) Les percepteurs de douanes ne devront pas laisser passer une importation de fruits, de légumes ou de produits de fruits et de légumes emboîtés, embouteillés, séchés, évaporés, ou conservés d'autre façon pour la consommation, ou du lait concentré, évaporé, séché ou conservé d'autre façon pour la consommation, à moins que cette expédition ne soit accompagnée d'un affidavit pris devant un juge de paix ou une autre personne dûment autorisée (dans le pays d'origine) à attester ces déclarations dans la forme suivante:—

DÉFINITION DES TERMES EMPLOYÉS DANS CES RÈGLEMENTS.

RÉCIPIENTS OU CONTENANTS.

Les "récipients" ou "contenants" sont les boîtes de ferblanc, les bouteilles de verre, les bocaux de verre ou de carbone, les caisses, seaux, tinettes, etc., de bois, de papier ou d'autres matériaux, et tous les autres récipients dans lesquels on conserve des fruits et des légumes évaporés ou conservés d'autre façon.

ÉTIQUETTE.

L'"étiquette" est l'enveloppe ou la bande collante attachée au récipient ou entourant le récipient. Sa fonction est de fournir à l'acheteur une description vraie et exacte du contenu du récipient, ainsi qu'il est décrit dans ces règlements.

TYPES MODÈLES DE QUALITÉ.

Les types modèles de qualité pour ces règlements comprennent ces types modèles déjà posés par le ministère du Revenu de l'Intérieur sous l'autorité de la loi de l'Adultération, et des règlements établis pour l'application de cette loi, ainsi que les qualités suivantes, qui devront être désignées "Secondes" (Seconds), "Standard", "De Choix" (Choice) et "Fancy", et qui, lorsqu'elles sont employées, doivent paraître d'une façon visible sur la partie principale de l'étiquette, en lettres d'au moins un demi-pouce de hauteur.

NOTE.—Les fruits ou légumes évaporés ou emboîtés, d'une qualité du type "Standard" ou supérieure à ce type, suivant la description qui suit, peuvent être vendus comme qualité "Standard" sans déclaration de qualité sur l'étiquette, mais lorsqu'une description de la qualité est donnée, cette description doit toujours être dans les termes du classement précédent. Il serait exact de désigner comme "Tomates", sans l'affixe "Standard", "De Choix" ou "Fancy", des tomates d'une qualité "Standard", "De Choix" ou "Fancy", à condition que ces tomates soient vendues comme tomates "Standard". Il ne serait pas permis d'employer des termes comme Belles", Extra", etc. D'autre part, il serait inexact de désigner comme "Tomates" une catégorie de tomates dont la catégorie serait inférieure à la qualité Standard, sans ajouter les mots

"Secondes" soit au-dessous ou avant le mot "tomates", en caractères simples, d'au moins un demi-pouce de hauteur.

ESPACE DU DESSUS.

L'"espace du dessus" est l'espace qui se trouve entre le dessous du sommet du récipient et la face supérieure du contenu. Il ne doit dans aucun cas être plus grand qu'il n'est nécessaire pour assurer la bonne fermeture du contenant.

DEGRÉ DU SIROP.

Le "degré du sirop" mentionné dans ces règlements est basé sur la lecture donnée par le saccarimètre ou l'hydromètre plongés dans le sirop à une température de 60 degrés.

LE RÉCIPIENT.

Le récipient mentionné dans ces règlements doit être du type général des récipients employés et qui peut être décrit d'une façon plus détaillée comme suit:—

Numéro de la boîte.	Diamètre en pouces.	Hauteur en pouces.	Capacité en onces.
1	$2\frac{11}{16}$	4	11.6
1 (Grand)	$2\frac{11}{16}$	$4\frac{1}{4}$	12.3
2	$3\frac{3}{8}$	$4\frac{9}{16}$	21.3
$2\frac{1}{2}$	4	$4\frac{9}{16}$	31.2
3	$4\frac{3}{16}$	$4\frac{7}{8}$	35.
10	$6\frac{3}{16}$	7	107.

Les dimensions qui précèdent sont les dimensions types des récipients. Si le Ministre est d'avis qu'il y aurait avantage, pour une proportion considérable du public consommateur, à employer d'autres dimensions de récipients, il peut ajouter ces dimensions à la liste type. Toutes les dimensions doivent être clairement indiquées sur les extrémités de la caisse ou de la boîte dans laquelle les produits sont emballés.

Tous les récipients qui n'ont pas une des dimensions indiquées ci-dessus doivent porter, marqués sur eux, outre les renseignements exigés sur les dimensions types, le poids net en onces ou livres et onces, du contenu du récipient, et à moins que le récipient ne soit transparent, le poids égoutté des solides qui s'y trouvent. Ce renseignement doit être placé visiblement sur la partie principale de l'étiquette, en caractères visibles d'au moins un huitième de pouce de hauteur.

(A) FRUITS ET LÉGUMES ET CERTAINS DE LEURS PRODUITS.

1. Les termes *fruits* et *légumes* employés dans les définitions qui suivent comprennent toutes ces parties des plantes ordinairement employées pour la consommation, à l'exception des plantes appartenant à l'ordre des graminées (grains) et divers condiments. Des exemples typiques de fruits sont les pommes, poires, oranges, pêches, prunes, raisins, groseilles, amandes, etc. Des exemples typiques de légumes sont les carottes, pommes de terre, betteraves, épinards, asperges, choux, etc. Les termes peuvent s'appliquer indifféremment à plusieurs articles tels que les tomates, la rhubarbe, les citrouilles, le maïs (blé d'Inde) et à quelques autres.

2. *Les fruits ou légumes secs* sont les produits propres et sains que l'on obtient en faisant sécher les fruits et légumes frais, bien mûris et bien préparés, de façon à ne pas absorber de substances nocives et identiques par le nom aux fruits et aux légumes spéciaux employés dans leur préparation.

3. Les *fruits et légumes évaporés* sont les fruits ou légumes séchés qui ont été desséchés à l'aide de la chaleur artificielle.

4. Les *pommes évaporées,* y compris les pommes hachées ou les déchets, ne doivent pas contenir plus de vingt-cinq (25) pour cent d'eau.

5. Les *légumes évaporés,* à l'exception des oignons, ne doivent pas contenir plus de douze (12) pour cent d'eau.

6. Les *oignons évaporés* ne doivent pas contenir plus de quinze (15) pour cent d'eau.

Note I.

Les recherches expérimentales faites dans ces laboratoires montrent que la méthode employée pour la détermination de l'eau dans les fruits et les légumes évaporés, affecte plus ou moins l'exactitude des résultats, et afin d'assurer l'uniformité, la méthode suivante de travail est adoptée provisoirement:—

1. On réduit un échantillon représentatif (au moins 25 grammes) en le coupant avec un couteau bien aiguisé sur une planche de bois dur, jusqu'à ce que les fragments ne soient pas plus gros qu'un cube d'un quart de pouce. On ne doit pas se servir de ces machines que l'on emploie pour hacher la viande à saucisse, car elles font sortir une quantité plus ou moins grande d'eau, causant ainsi une perte de matériel dissout.

2. On pèse des portions en double de 10 à 15 grammes, de la substance finement hachée, sur des verres de montre tarés, et on fait sécher pendant deux heures à 90° C., dans un four à chemise, bien ventilé.

3. On pèse les échantillons.

4. On remet au four pendant une autre heure dans les mêmes conditions que précédemment.

5. On pèse à nouveau.

Si la perte de poids entre les deux dernières pesées se montait à moins d'un demi pour cent du poids des échantillons, on accepte la dernière pesée comme exacte et l'on calcule le poids perdu en trois heures comme pourcentage de perte sur le poids original de l'échantillon, et indiqué comme humidité.

6. Si la perte constatée dans la dernière heure dépasse un demi pour cent du poids de l'échantillon, on remet cet échantillon au four pendant une autre heure, dans les mêmes conditions de température, etc., et la perte de poids constatée après la quatrième heure doit être considérée comme représentant la quantité d'eau présente dans l'échantillon original.

7. Les *fruits et légumes en boîtes* sont les produits sains que l'on obtient en stérilisant, au moyen de la chaleur, les fruits ou les légumes propres, sains, bien mûris et bien préparés et en les conservant dans des récipients propres, et hermétiquement cachetés; et identiques en nom au fruit ou au légume spécial employé dans leur préparation.

8. Les *confitures* sont les produits sains faits avec des fruits propres, sains, bien mûris et bien préparés, et du sirop de sucre, avec ou sans condiments ou vinaigre, et identiques en nom au fruit employé dans leur préparation.

9. Les *compotes* et *marmelades* sont les produits sains que l'on fait avec des fruits frais, propres, sains, bien mûris et bien préparés, ou avec de la pulpe de fruit et du sucre, avec ou sans condiments et vinaigre, en réduisant par l'ébullition à une texture demi-solide, et identiques au nom du fruit employé dans leur préparation.

10. Le *beurre de fruit* est le produit sain fait avec du jus de fruit et des fruits propres, sains, bien mûris et préparés en faisant réduire par l'ébullition à une texture semi-solide, avec ou sans condiments ou vinaigre; et identique au nom du fruit employé dans sa préparation.

11. La *gelée* ou *gelée de fruits* est le produit sain, semi-solide, gélatineux que l'on obtient en faisant bouillir des fruits frais, propres, sains, bien mûris, avec de l'eau, en concentrant le jus exprimé et coulé, auquel on a ajouté du sucre, et identique en nom au fruit employé dans sa préparation.

12. Lorsque les *compote, marmelade, beurre de fruits* ou *gelée* contiennent d'autres fruits ou d'autre jus de fruits que celui qui donne à l'article son nom spécial, la présence de ces autres fruits doit être indiquée sur l'étiquette, en lettres aussi grandes et aussi distinctes que celles qui sont employées pour désigner le fruit qui est principalement présent. Cependant, cette exigence ne s'applique pas à l'emploi du jus de fruit, jusqu'à une quantité ne dépassant pas dix (10) pour cent du poids de la marmelade, etc., employée au lieu d'eau dans la fabrication de la marmelade, etc.

13. Lorsque l'on prépare de la *marmelade, compote* ou *gelée*, etc., de deux ou plusieurs sortes de fruits, le fruit le premier nommé est celui qui est présent dans la quantité la plus considérable; par exemple, une compote faite de fraises et de pommes, ou de pulpe de pomme ou de gelée de pomme, ne doit être étiquetée "compote de fraises et de pommes" que si le poids des fraises dépasse le poids des pommes ou de la pulpe de pomme ou de la gelée de pomme employée dans le produit, tandis que si le poids des pommes, de la pulpe de pomme ou de la gelée de pomme, dépasse le poids des fraises employées, l'étiquette doit porter "Compote de pommes et de fraises" ou "Compote de pommes assaisonnée de fraises" ou autrement, d'une façon qui indique clairement le fait que les fraises ne sont pas l'élément principal.

14. Lorsque le sucre dans les confitures, marmelade, compote, beurre de fruit, ou gelée, est entièrement ou partiellement remplacé par de la glucose ou par un autre succédané du sucre, cette substance doit être indiquée sur l'étiquette en lettres visibles, d'une dimension non inférieure à celle que l'on appelle caractères de dix points.

Note II.

Il a été démontré, à la satisfaction de ce ministère, que les fruits traités, c'est-à-dire les fruits qui ont été stérilisés à la chaleur et conservés dans des récipients faits d'un bon matériel et cachetés hermétiquement et qui ne diffèrent des fruits frais parce qu'ils ont plus ou moins perdu leur couleur, peuvent être tout aussi bons pour la fabrication des compotes que les fruits frais.

Le peu de durée de la saison des fruits au Canada nous oblige, afin de prévenir des pertes, à traiter de cette façon la plus grande partie de nos fruits.

Devant ce fait, ce ministère interprètera, à moins d'avis contraire, l'addition de matière colorante inoffensive aux compotes faites de fruit sain, soit traité, soit frais, comme si cette addition n'était pas faite pour cacher une détérioration ou pour faire paraître l'article meilleur qu'il n'est en réalité, et n'exigera pas une déclaration de la présence de cette substance colorante.

Note III.

Lorsque les compote, gelée, marmelade, etc., contiennent un autre ingrédient que des fruits (et pas plus de 10 pour 100 de jus d'autres fruits, aux termes de l'article 12)

et du sucre, il est interdit d'employer le mot *pur* ou *authentique* pour décrire cette compote, gelée, etc., Par exemple, une compote faite de pommes, de fraises et de sucre peut être appelée *compote de fruits* ou *compote mélangée* avec ou sans les mots "pomme" ou "fraise"; (mais si l'on nomme un fruit, alors il faut nommer tous les fruits présents conformément à l'article 13) mais dans aucun cas l'expression "pure" ou authentique" (*genuine*) ne doit être employée dans cette catégorie de confitures.

(B) LAIT ET SES PRODUITS.

Dans l'application de la loi des viandes et des conserves alimentaires et de ses règlements, les types modèles actuellement adoptés par le ministère du Revenu de l'Intérieur sont par les présentes adoptés et seront mis à exécution en autant qu'ils s'appliquent aux produits visés par la loi.

Le poids net minimum d'une boîte n° 2 doit être de 19 onces; de 28 onces pour une boîte n° 2½; de 32 onces pour une boîte n° 3 et de 103 onces pour une boîte n° 10.

SEL ET SUCRE.

Si l'on se sert de sel ou de sucre, ce sel et ce sucre doivent être employés secs ou dissous dans le jus qui sort des tomates. Il est interdit de se servir de saumure faite d'eau et de sucre ou de sel ou des deux.

JUS.

Le jus qui sort des tomates après que celles-ci sont pelées, peut être ajouté à la masse lorsque l'on remplit les boîtes mais il faut que ce soit le jus de ce lot particulier de tomates. Ceci ne s'applique pas au jus ou à la pulpe provenant des rognures.

La "*pulpe de tomates*" peut être faite avec les rognures de tomates propres et saines qui ont été parfaitement lavées et triées avant d'être pelées. Les rognures qui contiennent des particules sales, des parties de ferment, de moisissure ou d'autres substances ne doivent pas être employées dans la fabrication de la pulpe.

Betteraves (*Beta Vulgaris*).

Les betteraves pour l'emboîtage doivent être de couleur rouge sang, pelées également, soigneusement rognées, et sans racines ou taches noires.

POIDS.

Le poids net minimum d'une boîte de betteraves n° 2 doit être de 20 onces; une boîte n° 2½ de 28 onces; une n° 3, 33 onces, et une n° 10, 106 onces.

Dans chaque cas, la boîte doit être aussi remplie de betteraves que possible.

Citrouilles (*Curcurbita pepo*).

Les citrouilles en boîtes doivent être prises parmi les variétés sucrées de citrouilles bien mûries, dures et d'une belle couleur jaune clair. Le produit fini doit être sous forme d'une pulpe lourde, parfaitement tamisée, et ne contenant aucun morceau de peau ni de graines.

POIDS.

Le poids net minimum d'une boîte n° 2 remplie de citrouilles doit être de 19 onces; une boîte n° 2½, 30 onces; une boîte n° 3, 33 onces, et une n° 10, 104 onces.

COURGES (*Curcurbita ovifera*).

Les catégories de quantité et de qualité qui précèdent appliquées à la citrouille s'appliquent également aux courges.

Les catégories de qualité et de quantité pour les autres fruits et légumes pourront être fixées à une date ultérieure.

Samedi, le 15e jour de juin 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Ministre de l'Agriculture, d'ordonner ce qui suit:—

Les règlements gouvernant l'inspection des conserves de fruits, de légumes et de lait, approuvés par l'arrêté en conseil du 6 juillet 1910, sont par les présentes abrogés et remplacés par les suivants:—

RODOLPHE BOUDREAU,
Greffier du Conseil Privé.

RÈGLEMENTS TOUCHANT L'INSPECTION DES CONSERVES DE FRUITS, DE LÉGUMES ET DE LAIT.

(*c*) "Le Ministère" signifie le Ministère de l'Agriculture.

(*d*) "Etablissement" signifie toute fabrique ou tout local dans lequel les fruits, les légumes ou les produits de fruits ou légumes sont traités, emboîtés, embouteillés, évaporés, séchés, ou conservés pour la consommation et pour l'exportation, ou dans lequel le lait est condensé, évaporé ou conservé pour la consommation et pour l'exportation, ou dans lequel l'un ou l'autre des articles mentionnés ci-dessus sont emmagasinés pour l'exportation.

(*e*) "Exportation" signifie exportation en dehors du Canada ou d'une province du Canada à une autre province.

(*f*) "Aliments" ou "Nourriture" signifient tout article employé par l'homme comme nourriture ou comme boisson, et tout ingrédient qui doit être mélangé pour un but quelconque avec les aliments ou les boissons.

2. Ces règlements s'appliquent à tous les établissements compris dans l'interprétation du paragraphe (*d*) de l'article 1.

3. Tout établissement fonctionnant sous l'empire des dispositions de la loi doit, dans l'intervalle d'un mois après la date à laquelle ces règlements deviennent exécutoires, adresser au Ministre, par lettre enregistrée, une demande de permis pour continuer à fonctionner, et si cet établissement ne reçoit pas de permis dans les 60 jours qui suivent la date de l'envoi de cette lettre, il devra cesser tout commerce d'exportation ou interprovincial. Nul établissement ne peut, après cette date, commencer à fonctionner sans avoir au préalable obtenu un permis du Ministre. Au cas où le Ministre a des motifs raisonnables de croire qu'un établissement a contrevenu à l'une des dispositions de la loi ou des règlements, il peut, sur 10 jours d'avis donnés au possesseur, retirer ce permis.

4. Le Ministre peut, aux termes de la loi, nommer des inspecteurs qui visiteront de temps à autre chaque établissement pour s'assurer que les dispositions de la loi et ses règlements sont dûment observés et suivis.

5. Dans l'exécution de leurs fonctions officielles, les inspecteurs porteront une insigne numérotée, fournie par le Ministère.

6. Les inspecteurs fourniront au Directeur Général Vétérinaire des rapports complets et détaillés de toutes les inspections faites par eux et sur toutes les autres questions qui peuvent être jugées nécessaires ou utiles dans l'intérêt public.

7. Les conditions sanitaires suivantes doivent être observées et maintenues dans tous les établissements.

(*a*) Tous les établissements doivent être suffisamment éclairés et aérés.

(*b*) Tous les accessoires, tels que tables, camions, réservoirs, machines, chaudières, récipients, etc., doivent être tenus propres et sanitaires.

(*c*) Toutes les opérations relatives à la préparation ou à l'emballage des produits doivent être faites avec soin et avec la plus grande propreté.

(*d*) Les chambres dans lesquelles les articles destinés à la conservation sont entreposés, traités ou préparés, doivent être grattées, récurées, blanchies, peintes, etc., chaque fois que l'inspecteur le jugera nécessaire, et ces chambres doivent contenir tous les moyens voulus pour nettoyer l'outillage.

(*e*) Les employés de tout établissement engagé dans la manipulation des articles destinés à la consommation doivent être exempts de la tuberculose ou de toute autre maladie contagieuse, et doivent observer tous les règlements sanitaires généraux qui peuvent être jugés nécessaires par les inspecteurs.

(*f*) Il est interdit de laisser des articles entrant dans la production de nourriture venir en contact avec tout ce qui pourrait les contaminer ou les détériorer.

(*g*) Les salopettes (vêtements de couverture) employés par les ouvriers pour protéger leurs habits ou leurs personnes, doivent être faits d'un matériel facile à nettoyer et tenus raisonnablement propres.

(*h*) Les vestiaires et les lavabos doivent être amples, sanitaires, clairs, et bien aménagés, et tenus séparés de toute autre chambre ou de tout autre compartiment employé pour l'entreposage ou la production de nourriture ou d'articles destinés à la consommation.

(*i*) Toutes les cours, dépendances, ou autres locaux appartenant à un établissement ou employés par un établissement doivent être tenus dans un état propre et sanitaire et ne doivent pas être employés comme dépotoirs ou pour l'entreposage des déchets.

(*j*) Le système d'égouts desservant l'établissement doit être amplement suffisant et tenu en bon état de fonctionnement.

(*k*) Nul lavabo, évier ou citerne, ne doit être situé ou maintenu de telle façon que les odeurs ou les fumées qui s'en dégagent s'infiltrent dans une chambre où des denrées alimentaires ou des articles destinés à la consommation sont préparés ou emmagasinés.

8. Tous les fruits, légumes ou autres articles employés dans un établissement doivent être sains, et de toute façon propres à la consommation.

9. L'inspecteur doit confisquer et faire détruire sous sa surveillance tous les fruits ou autres articles destinés à la consommation et qu'il trouvera dans un établissement, soit au cours de la préparation, soit après cette préparation, dans un état de décomposition, malsain ou impropres à la consommation.

10. Aucune denrée ou produit alimentaire ne doit contenir des drogues, teintures, ou matières préservatives nocives, ni aucune substance étrangère nuisible à la santé.

(*a*) Il est interdit d'employer dans la préparation ou dans l'emballage des produits alimentaires, des drogues, teintures ou toute autre matière préservative condimentaire qui n'ont pas été approuvés par écrit par le Directeur Général Vétérinaire.

(*b*) Le propriétaire d'un établissement doit également soumettre au Directeur Général Vétérinaire, pour son approbation, toutes les drogues, teintures, ou matières

préservatives qu'il désire employer, et il ne doit employer ces préparations que si leur emploi est approuvé par le Directeur Général Vétérinaire.

11. Afin d'empêcher l'emploi de substances délétères, les inspecteurs doivent, aussi souvent qu'ils le jugeront nécessaire, se procurer des échantillons des matières préservatives employées ainsi que des divers produits alimentaires au cours de la préparation de ces produits ou après qu'ils ont été préparés, et devront les soumettre sans délai au Directeur Général Vétérinaire.

Le propriétaire d'un établissement doit, à la requête d'un inspecteur, fournir gratuitement à cet inspecteur des échantillons d'aliments ou de produits d'aliments ou de toute matière préservative condimentaire, ou d'autres ingrédients employés dans la préparation des aliments. Les échantillons ainsi obtenus doivent être cachetés, étiquetés et marqués d'une description ainsi que du nom de l'inspecteur et de la date, et expédiés immédiatement au Directeur Général Vétérinaire.

12. Les récipients dans lesquels les légumes, le lait ou d'autres articles destinés à la consommation sont finalement placés, doivent être propres et sanitaires, et s'ils ont déjà été employés, ils doivent être stérilisés parfaitement, immédiatement avant d'être remplis.

13. Les récipients dans lesquels des fruits, des légumes, du lait ou d'autres articles préparés pour la consommation dans un établissement quelconque sont placés, doivent être marqués comme suit, à moins d'instructions contraires de la part du Gouverneur en Conseil:

(*a*) Les initiales des noms de baptême, le nom complet et l'adresse, ou dans le cas d'une maison ou d'une corporation, le nom de la maison ou de la corporation et l'adresse du fabricant ou du premier marchand qui l'obtient directement du fabricant qui le vend ou l'offre en vente. Ce marchand doit, à la requête de l'inspecteur nommé aux termes de cette loi, indiquer le nom du fabricant de ces articles.

(*b*) Une description vraie et exacte du contenu du récipient, description que l'on pourra trouver dans les appendices à ces règlements. Ces marques doivent être données sur une étiquette de commerce, un patron ou un dessin lithographié, lesquels devront être d'une dimension raisonnable, proportionnelle à la dimension du récipient ou du colis, ayant sur eux, comme il est indiqué plus haut, le nom et l'adresse du fabricant ou du premier marchand, et une description exacte et fidèle du contenu.

(*c*) Tous les colis doivent être marqués de la façon indiquée dans cet article et porter le numéro du permis qui peut être assigné à l'établissement.

(*d*) Les propriétaires ou les gérants des établissements doivent soumettre au Directeur Général Vétérinaire des copies en double de toutes les étiquettes, et tous les patrons ou dessins lithographiés employés dans l'établissement; aucune étiquette, aucun patron, ou dessin lithographié ne peut être employé s'il n'a été approuvé par écrit par le Directeur Général Vétérinaire.

Une copie sera remise au Directeur Général Vétérinaire, l'autre sera conservée par le propriétaire ou le gérant et produite pour l'information de l'inspecteur lorsque celui-ci le désirera.

14. Aucun contenant ou colis ne doit porter une étiquette ou une marque d'aucune nature représentant faussement la nature, la quantité ou le poids du contenu, ou la date à laquelle ce contenu a été emballé.

15. Il est interdit d'offrir pour l'exportation ou d'exporter des fruits ou des légumes ou des produits de fruits ou de légumes, emboîtés, embouteillés, séchés, évaporés ou conservés d'autre façon pour la consommation, ou du lait concentré, évaporé ou conservé d'autre façon pour la consommation dans un établissement quelconque, à moins que les exigences de l'article 13 de ces règlements en ce qui concerne ces articles n'aient été satisfaites.

16. Il est interdit d'importer des fruits ou des légumes, ou des produits de fruits et de légumes, emboîtés, embouteillés, séchés, évaporés ou conservés d'autre façon pour la consommation, ou du lait concentré, évaporé, séché ou conservé d'autre façon pour la consommation, à moins que les exigences de cet article ne soient strictement observées.

(*a*) Les percepteurs de douanes ne devront pas laisser passer une importation de fruits, de légumes ou de produits de fruits et de légumes emboîtés, embouteillés, séchés, évaporés, ou conservés d'autre façon pour la consommation, ou du lait concentré, évaporé, séché ou conservé d'autre façon pour la consommation, à moins que cette expédition ne soit accompagnée d'un affidavit pris devant un juge de paix ou une autre personne dûment autorisée (dans le pays d'origine) à attester ces déclarations dans la forme suivante:—

18. Les percepteurs de douanes au Canada devront veiller à ce que toutes les exigences de ces règlements ou des arrêtés ministériels ou autres, décrétés sous l'empire de ces règlements, soient remplies avant d'accorder un permis qui exige, pour son obtention, l'accomplissement d'un acte, d'une inspection ou d'une procédure quelconque, et ils devront veiller à ce que les interdictions prescrites et les conditions posées par ces règlements et ci-haut mentionnées et que les instructions qui peuvent être émises par le Ministre, soient obéies, et ils devront signaler immédiatement au Ministre la nature et l'étendue d'une contravention dans tous les cas de contravention aux dispositions de ces règlements.

DÉFINITION DES TERMES EMPLOYÉS DANS CES RÈGLEMENTS.

RÉCIPIENTS OU CONTENANTS.

Les "récipients" ou "contenants" sont les boîtes de ferblanc, les bouteilles de verre, les bocaux de verre ou de carbone, les caisses, seaux, tinettes, etc., de bois, de papier ou d'autres matériaux, et tous les autres récipients dans lesquels on conserve des fruits et des légumes évaporés ou conservés d'autre façon.

ÉTIQUETTE.

L'"étiquette" est l'enveloppe ou la bande collante attachée au récipient ou entourant le récipient. Sa fonction est de fournir à l'acheteur une description vraie et exacte du contenu du récipient, ainsi qu'il est décrit dans ces règlements.

TYPES MODÈLES DE QUALITÉ.

Les types modèles de qualité pour ces règlements comprennent ces types modèles déjà posés par le ministère du Revenu de l'Intérieur sous l'autorité de la loi de l'Adultération, et des règlements établis pour l'application de cette loi, ainsi que les qualités suivantes, qui devront être désignées "Secondes" (Seconds), "Standard", "De Choix" (Choice) et "Fancy", et qui, lorsqu'elles sont employées, doivent paraître d'une façon visible sur la partie principale de l'étiquette, en lettres d'au moins un demi-pouce de hauteur.

NOTE.—Les fruits ou légumes évaporés ou emboîtés, d'une qualité du type "Standard" ou supérieure à ce type, suivant la description qui suit, peuvent être vendus comme qualité "Standard" sans déclaration de qualité sur l'étiquette, mais lorsqu'une description de la qualité est donnée, cette description doit toujours être dans les termes du classement précédent. Il serait exact de désigner comme "Tomates", sans l'affixe "Standard", "De Choix" ou "Fancy", des tomates d'une qualité "Standard", "De Choix" ou "Fancy", à condition que ces tomates soient vendues comme tomates "Standard". Il ne serait pas permis d'employer des termes comme Belles", Extra", etc. D'autre part, il serait inexact de désigner comme "Tomates" une catégorie de tomates dont la catégorie serait inférieure à la qualité Standard, sans ajouter les mots

"Secondes" soit au-dessous ou avant le mot "tomates", en caractères simples, d'au moins un demi-pouce de hauteur.

ESPACE DU DESSUS.

L'"espace du dessus" est l'espace qui se trouve entre le dessous du sommet du récipient et la face supérieure du contenu. Il ne doit dans aucun cas être plus grand qu'il n'est nécessaire pour assurer la bonne fermeture du contenant.

DEGRÉ DU SIROP.

Le "degré du sirop" mentionné dans ces règlements est basé sur la lecture donnée par le saccarimètre ou l'hydromètre plongés dans le sirop à une température de 60 degrés.

LE RÉCIPIENT.

Le récipient mentionné dans ces règlements doit être du type général des récipients employés et qui peut être décrit d'une façon plus détaillée comme suit:—

Numéro de la boîte.	Diamètre en pouces.	Hauteur en pouces.	Capacité en onces.
1	$2\frac{1}{16}$	4	11.6
1 (Grand)	$2\frac{1}{16}$	$4\frac{1}{4}$	12.3
2	$3\frac{3}{16}$	$4\frac{9}{16}$	21.3
$2\frac{1}{2}$	4	$4\frac{3}{4}$	31.2
3	$4\frac{3}{16}$	$4\frac{7}{8}$	35.
10	$6\frac{3}{16}$	7	107.

Les dimensions qui précèdent sont les dimensions types des récipients. Si le Ministre est d'avis qu'il y aurait avantage, pour une proportion considérable du public consommateur, à employer d'autres dimensions de récipients, il peut ajouter ces dimensions à la liste type. Toutes les dimensions doivent être clairement indiquées sur les extrémités de la caisse ou de la boîte dans laquelle les produits sont emballés.

Tous les récipients qui n'ont pas une des dimensions indiquées ci-dessus doivent porter, marqués sur eux, outre les renseignements exigés sur les dimensions types, le poids net en onces ou livres et onces, du contenu du récipient, et à moins que le récipient ne soit transparent, le poids égoutté des solides qui s'y trouvent. Ce renseignement doit être placé visiblement sur la partie principale de l'étiquette, en caractères visibles d'au moins un huitième de pouce de hauteur.

(A) FRUITS ET LÉGUMES ET CERTAINS DE LEURS PRODUITS.

1. Les termes *fruits* et *légumes* employés dans les définitions qui suivent comprennent toutes ces parties des plantes ordinairement employées pour la consommation, à l'exception des plantes appartenant à l'ordre des graminées (grains) et divers condiments. Des exemples typiques de fruits sont les pommes, poires, oranges, pêches, prunes, raisins, groseilles, amandes, etc. Des exemples typiques de légumes sont les carottes, pommes de terre, betteraves, épinards, asperges, choux, etc. Les termes peuvent s'appliquer indifféremment à plusieurs articles tels que les tomates, la rhubarbe, les citrouilles, le maïs (blé d'Inde) et à quelques autres.

2. *Les fruits ou légumes secs* sont les produits propres et sains que l'on obtient en faisant sécher les fruits et légumes frais, bien mûris et bien préparés, de façon à ne pas absorber de substances nocives et identiques par le nom aux fruits et aux légumes spéciaux employés dans leur préparation.

3. Les *fruits et légumes évaporés* sont les fruits ou légumes séchés qui ont été desséchés à l'aide de la chaleur artificielle.

4. Les *pommes évaporées,* y compris les pommes hachées ou les déchets, ne doivent pas contenir plus de vingt-cinq (25) pour cent d'eau.

5. Les *légumes évaporés,* à l'exception des oignons, ne doivent pas contenir plus de douze (12) pour cent d'eau.

6. Les *oignons évaporés* ne doivent pas contenir plus de quinze (15) pour cent d'eau.

Note I.

Les recherches expérimentales faites dans ces laboratoires montrent que la méthode employée pour la détermination de l'eau dans les fruits et les légumes évaporés, affecte plus ou moins l'exactitude des résultats, et afin d'assurer l'uniformité, la méthode suivante de travail est adoptée provisoirement:—

1. On réduit un échantillon représentatif (au moins 25 grammes) en le coupant avec un couteau bien aiguisé sur une planche de bois dur, jusqu'à ce que les fragments ne soient pas plus gros qu'un cube d'un quart de pouce. On ne doit pas se servir de ces machines que l'on emploie pour hacher la viande à saucisse, car elles font sortir une quantité plus ou moins grande d'eau, causant ainsi une perte de matériel dissout.

2. On pèse des portions en double de 10 à 15 grammes, de la substance finement hachée, sur des verres de montre tarés, et on fait sécher pendant deux heures à 90° C., dans un four à chemise, bien ventilé.

3. On pèse les échantillons.

4. On remet au four pendant une autre heure dans les mêmes conditions que précédemment.

5. On pèse à nouveau.

Si la perte de poids entre les deux dernières pesées se montait à moins d'un demi pour cent du poids des échantillons, on accepte la dernière pesée comme exacte et l'on calcule le poids perdu en trois heures comme pourcentage de perte sur le poids original de l'échantillon, et indiqué comme humidité.

6. Si la perte constatée dans la dernière heure dépasse un demi pour cent du poids de l'échantillon, on remet cet échantillon au four pendant une autre heure, dans les mêmes conditions de température, etc., et la perte de poids constatée après la quatrième heure doit être considérée comme représentant la quantité d'eau présente dans l'échantillon original.

7. Les *fruits et légumes en boîtes* sont les produits sains que l'on obtient en stérilisant, au moyen de la chaleur, les fruits ou les légumes propres, sains, bien mûris et bien préparés et en les conservant dans des récipients propres, et hermétiquement cachetés; et identiques en nom au fruit ou au légume spécial employé dans leur préparation.

8. Les *confitures* sont les produits sains faits avec des fruits propres, sains, bien mûris et bien préparés, et du sirop de sucre, avec ou sans condiments ou vinaigre, et identiques en nom au fruit employé dans leur préparation.

9. Les *compotes* et *marmelades* sont les produits sains que l'on fait avec des fruits frais, propres, sains, bien mûris et bien préparés, ou avec de la pulpe de fruit et du sucre, avec ou sans condiments et vinaigre, en réduisant par l'ébullition à une texture demi-solide, et identiques au nom du fruit employé dans leur préparation.

10. Le *beurre de fruit* est le produit sain fait avec du jus de fruit et des fruits propres, sains, bien mûris et préparés en faisant réduire par l'ébullition à une texture semi-solide, avec ou sans condiments ou vinaigre; et identique au nom du fruit employé dans sa préparation.

11. La *gelée* ou *gelée de fruits* est le produit sain, semi-solide, gélatineux que l'on obtient en faisant bouillir des fruits frais, propres, sains, bien mûris, avec de l'eau, en concentrant le jus exprimé et coulé, auquel on a ajouté du sucre, et identique en nom au fruit employé dans sa préparation.

12. Lorsque les *compote, marmelade, beurre de fruits* ou *gelée* contiennent d'autres fruits ou d'autre jus de fruits que celui qui donne à l'article son nom spécial, la présence de ces autres fruits doit être indiquée sur l'étiquette, en lettres aussi grandes et aussi distinctes que celles qui sont employées pour désigner le fruit qui est principalement présent. Cependant, cette exigence ne s'applique pas à l'emploi du jus de fruit, jusqu'à une quantité ne dépassant pas dix (10) pour cent du poids de la marmelade, etc., employée au lieu d'eau dans la fabrication de la marmelade, etc.

13. Lorsque l'on prépare de la *marmelade, compote* ou *gelée*, etc., de deux ou plusieurs sortes de fruits, le fruit le premier nommé est celui qui est présent dans la quantité la plus considérable; par exemple, une compote faite de fraises et de pommes, ou de pulpe de pomme ou de gelée de pomme, ne doit être étiquetée "compote de fraises et de pommes" que si le poids des fraises dépasse le poids des pommes ou de la pulpe de pomme ou de la gelée de pomme employée dans le produit, tandis que si le poids des pommes, de la pulpe de pomme ou de la gelée de pomme, dépasse le poids des fraises employées, l'étiquette doit porter "Compote de pommes et de fraises" ou "Compote de pommes assaisonnée de fraises" ou autrement, d'une façon qui indique clairement le fait que les fraises ne sont pas l'élément principal.

14. Lorsque le sucre dans les confitures, marmelade, compote, beurre de fruit, ou gelée, est entièrement ou partiellement remplacé par de la glucose ou par un autre succédané du sucre, cette substance doit être indiquée sur l'étiquette en lettres visibles, d'une dimension non inférieure à celle que l'on appelle caractères de dix points.

Note II.

Il a été démontré, à la satisfaction de ce ministère, que les fruits traités, c'est-à-dire les fruits qui ont été stérilisés à la chaleur et conservés dans des récipients faits d'un bon matériel et cachetés hermétiquement et qui ne diffèrent des fruits frais parce qu'ils ont plus ou moins perdu leur couleur, peuvent être tout aussi bons pour la fabrication des compotes que les fruits frais.

Le peu de durée de la saison des fruits au Canada nous oblige, afin de prévenir des pertes, à traiter de cette façon la plus grande partie de nos fruits.

Devant ce fait, ce ministère interprètera, à moins d'avis contraire, l'addition de matière colorante inoffensive aux compotes faites de fruit sain, soit traité, soit frais, comme si cette addition n'était pas faite pour cacher une détérioration ou pour faire paraître l'article meilleur qu'il n'est en réalité, et n'exigera pas une déclaration de la présence de cette substance colorante.

Note III.

Lorsque les compote, gelée, marmelade, etc., contiennent un autre ingrédient que des fruits (et pas plus de 10 pour 100 de jus d'autres fruits, aux termes de l'article 12)

et du sucre, il est interdit d'employer le mot *pur* ou *authentique* pour décrire cette compote, gelée, etc., Par exemple, une compote faite de pommes, de fraises et de sucre peut être appelée *compote de fruits* ou *compote mélangée* avec ou sans les mots "pomme" ou "fraise"; (mais si l'on nomme un fruit, alors il faut nommer tous les fruits présents conformément à l'article 13) mais dans aucun cas l'expression "pure" ou authentique" (*genuine*) ne doit être employée dans cette catégorie de confitures.

(B) LAIT ET SES PRODUITS.

Dans l'application de la loi des viandes et des conserves alimentaires et de ses règlements, les types modèles actuellement adoptés par le ministère du Revenu de l'Intérieur sont par les présentes adoptés et seront mis à exécution en autant qu'ils s'appliquent aux produits visés par la loi.

(C) CATÉGORIES DE QUALITÉ ET DE QUANTITÉ.

Pommes (*Pyrus malus*).

Les "*pommes Standard*" doivent être choisies parmi les pommes saines, sans trous de vers, et sans galles, etc., qui ont été bien pelées, vidées et préparées. Le produit fini doit avoir une couleur assez blanche, des quartiers assez complets et une liqueur assez claire.

Les "*pommes de choix*" doivent être choisies parmi les pommes saines, sans trous de vers, sans galles, etc., et qui ont été bien pelées, vidées, et préparées. Les quartiers doivent être égaux et doivent rester entiers dans les pommes traitées. Les fruits doivent être blancs et la liqueur doit être claire. Il ne peut y avoir qu'une variété de pommes dans chaque récipient.

Les "*pommes fancy*" doivent provenir de fruits sélectionnés, sans aucun défaut et ne doivent pas avoir moins de 2½ pouces en diamètre. Les fruits ne doivent avoir ni peau, ni cœur, ni trous de vers; les quartiers doivent être égaux et de grosseur uniforme. Les fruits traités doivent être blancs, les quartiers complets et la liqueur claire. Il ne peut y avoir qu'une seule variété de pomme dans chaque récipient.

Les "pommes secondes" (*Seconds*) sont prises parmi les fruits inférieurs d'où l'on a enlevé tous les fruits décomposés, meurtris ou toutes les mauvaises parties. Les fruits doivent être bien pelés et vidés, mais il n'est pas nécessaire qu'ils soient de dimension égale ni uniforme en couleur ou en variété.

REMPLISSAGE.

Les récipients de toutes les dimensions doivent être remplis de fruits; on n'emploie que la quantité d'eau suffisante pour bien traiter les fruits.

POIDS.

Une boîte N° 2½ ne doit pas contenir moins de 17 onces net de pommes, une boîte N° 3, 20 onces et une boîte N° 10, pas moins de 60 onces.

Le poids net minimum du contenu d'une boîte N° 2½ doit être de 26 onces, celui d'une boîte N° 3, 29 onces et celui d'une boîte N° 10, de 94 onces.

ESPACE DE DESSUS.

L'espace de fond permis pour une boîte N° 2½ et une boîte N° 3 sera de ½ pouce et pour une boîte N° 10, de ¾ de pouce.

JUS.

Le jus qui sort des tomates après que celles-ci sont pelées, peut être ajouté à la masse lorsque l'on remplit les boîtes mais il faut que ce soit le jus de ce lot particulier de tomates. Ceci ne s'applique pas au jus ou à la pulpe provenant des rognures.

La "*pulpe de tomates*" peut être faite avec les rognures de tomates propres et saines qui ont été parfaitement lavées et triées avant d'être pelées. ORDER IN COUNCIL.

[1697]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday the 5th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS in the case of one Norman Earle Lewis the Supreme Court of the Province of Alberta, Appellate Division, decided on the 28th June, 1918, that the Order in Council of the 20th April, 1918, (P.C. 919), had not the force of law, and that consequently all exemptions cancelled by the Order in Council of the same day (P.C. 962) remained in full force and effect ;

And whereas the Acting Minister of Militia and Defence represents that military conditions make it imperatively necessary that the principle of this judgment should not be permitted to have effect, and that it is impossible to suspend the operation of the Orders in Council pending an appeal if the exigencies of the military situation are to be met ;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Acting Prime Minister, is pleased to order and direct and doth hereby order and direct that men whose exemptions were cancelled, pursuant to the provisions of the Orders in Council of the 20th April, 1918, above referred to, be dealt with in all respects as provided by the said Order in Council, notwithstanding the said judgment and notwithstanding any judgment or any Order that may be made by any Court, and that instructions be sent accordingly to the General and other officers commanding Military Districts in Canada.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que dans le cas d'un certain Norman Earle Lewis, la Cour Suprême de la province d'Alberta, division d'appel, a décidé le 28 juin 1918 que l'arrêté en conseil du 20 avril 1918 (C.P. 919) n'avait pas force de loi et que, conséquemment, toutes les exemptions annulées par l'arrêté en conseil du même jour (C.P. 962) restaient en pleine vigueur ;

Et attendu que le ministre suppléant de la Milice et de la Défense représente que les conditions militaires sont telles qu'il est de nécessité impérieuse qu'il ne soit pas permis que le principe de ce jugement ait d'effet, et qu'il est impossible de suspendre la mise en vigueur des arrêtés en conseil en attendant un appel s'il faut répondre aux exigences de la situation militaire ;

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre suppléant de la Milice et de la Défense, de décréter et d'ordonner et il décrète et ordonne par les présentes que les hommes dont les exemptions ont été annulées conformément aux dispositions des arrêtés en conseil du 20 avril 1918, ci-dessus mentionnés, soient traités sous tous rapports ainsi que prescrit par lesdits arrêtés en conseil, nonobstant le dit jugement et nonobstant tout jugement ou décret qui peut être rendu par une cour quelconque, et que les instructions soient adressées en conséquence aux officiers généraux et autres officiers commandant les districts militaires en Canada.

ORDER IN COUNCIL.

[1647]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 12th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it is deemed expedient to provide for the issue of special temporary certificates of compliance with the Military Service Act, 1917, and the regulations thereunder by those eligible for orders to report for duty, but whose orders have, in the administration of the Act, for the time being, been postponed, so that these men may be enabled to produce evidence in the form of a certificate for inspection of the police officers who are engaged in the duty of apprehending defaulters ;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Justice, and under the powers conferred on the Governor in Council by the Military Service Act, 1917, or the War Measures Act, 1914, is pleased to make the following regulation and the same is hereby made and established accordingly :

Regulation.

Special temporary certificates in a form to be departmentally prescribed may be issued by the registrars and deputy registrars under the Military Service Act, 1917, to men who have complied with the requirements of the Act and Regulations and who are eligible for orders to report for military service but to whom for any reason justified by the due administration of the Act such orders have for the time being not been issued ; and the production of any such special temporary certificate to any military or civil police officer or constable engaged in search for or apprehension of defaulters shall be sufficient proof of the man's immunity from arrest so long as he is not in default in compliance with any order to report for duty which he shall have received.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

ARRÊTÉ EN CONSEIL.

HÔTEL DU GOUVERNEMENT A OTTAWA.

Vendredi, le 12e jour de juillet 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU qu'il est jugé opportun de pourvoir à l'émission de certificats temporaires spéciaux d'obéissance à la *Loi du service militaire, 1917*, et aux règlements sous le régime de cette loi par les hommes tenus de répondre à l'ordre de se présenter pour le service mais dans le cas desquels cet ordre, au cours de l'administration de la loi, a été temporairement différé, afin que ces hommes puissent donner une preuve sous forme d'un certificat pour l'inspection des agents de police chargés d'appréhender les transfuges.

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre de la Justice et sous l'empire des pouvoirs conférés au Gouverneur général en conseil par la *Loi du Service militaire, 1914*, ou la *Loi des mesures de guerre, 1917*, de faire le règlement suivant, et ce règlement est par les présentes fait et établi en conséquence :

RÈGLEMENTS.

Des certificats temporaires en la forme que prescrira le département peuvent être délivrés par les régistraires et sous-régistraires sous le régime de la *Loi du service militaire, 1917*, aux hommes qui se sont conformés aux prescriptions de la loi et des règlements et auxquels peut être donné l'ordre de se présenter pour le service militaire, mais à qui pour une raison justifiée par la bonne administration de la loi cet ordre n'a pas été donné pour le moment ; et la présentation de tel certificat temporaire spécial à un agent de la police militaire ou civile ou constable chargé de rechercher ou appréhender les transfuges sera une preuve suffisante de l'immunité de cet homme à l'arrestation tant qu'il n'a pas failli à l'observance d'un ordre qu'il a reçu de se présenter pour le service.

He at once seized the rifle and tore it from the enemy's hands, dragging the plate with it. He then jumped over the parapet, killed the enemy sniper, and then pursued and killed another who had made off. Later on the same day he went forward again in daylight and bombed and put out of action four of the enemy who had been seen entering the post. ORDERS IN COUNCIL.

[1575.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 2nd day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 5th June, 1918, from the Minister of the Naval Service, stating that the Technical Officers of the Department of the Naval Service have reported that periodical increases of pay are considered desirable in the various ranks in the Royal Canadian Navy on similar lines to those approved in the Royal Navy; also that progressive pay be granted to officers of the Royal Naval Canadian Volunteer Reserve after the same period of service as similar ranks in the Royal Canadian Navy, observing that when the various ranks were instituted in the Royal Naval Canadian Volunteer Reserve rates of pay on promotion only were laid down.

The Technical Officers further submit that small increases of pay to warrant officers and the institution of several new warrant ranks are considered desirable. All ratings are now paid on the same scale as soldiers of the C.E.F., and it is desirable, therefore, to make these small increases in the pay of warrant officers in order that there may be a suitable gain in pay to a rating promoted to warrant rank.

[1101]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday the 3rd day of June, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency the Governor General in Council, on the recommendation of the Minister of the Interior, is pleased to order and it is hereby ordered that Section 27 of the regulations governing the granting of yearly licenses and permits to cut timber on Dominion Lands, established by Order in Council of the 1st July, 1898, and subsequent Orders in Council, be rescinded and the following substituted therefor :—

27. Licensees are required to keep a bush count of all saw logs and other timber cut upon a berth, as well as the number of pieces hauled therefrom, in the form of a book to be furnished for the purpose by the Crown Timber Agent. The books covering operations for twelve months ending the 30th April in each year are to be returned to the said Agent duly completed by the foreman in charge of operations, who shall subscribe to the affidavit therein.

(*a*) All saw logs and other timber cut upon a licensed or permit berth, or upon unpatented homestead lands within the Railway Belt of the Province of British Columbia, whether merchantable or cull, must be clearly marked with a distinguishing number on scaling end with crayon, chalk or pencil, at the time of scaling.

Numbering will be necessary even when the logs will be sawn immediately or before being placed in the water. The scale of each log and length will be entered opposite its number in consecutive order in a scale book, cull logs being identified by the addition of the letter "C".

Where operations are carried on to such an extent as to require the use of more than one scale book, the books are to be numbered serially with letters of the alphabet in the order in which they are used. These books are to be carefully preserved by the licensee for inspection by the Crown Timber Agent or other officer of the Crown.

No person is authorized to scale timber cut upon Dominion Lands other than those authorized in writing by the Minister or his appointed agent.

(*b*) The requirements in the next preceding subclause will not apply to timber cut on Dominion Lands within the Railway Belt lying south of a line drawn East and West from the Town of Yale

All timber cut within said tract, which is subject to Crown dues, shall be scaled by a Dominion Timber Scaler holding a scaler's license from the British Columbia Government, and in accordance with the British Columbia log rule.

(*c*) The following fees, to which shall be added reasonable expenses, shall be paid for the scaler's services by the licensee or permittee conducting operations :—

For scaling saw logs and spars, 5 cents per thousand feet board measure; for measuring piles and poles, 5 cents for each 200 lineal feet; for measuring railway ties, pulpwood, shingle bolts or cordwood, 5 cents for each cord of 128 cubic feet.

When the fees and reasonable expenses are not paid promptly on completion of the work, the amount due shall be made a lien upon the timber with respect to which the work was done, or upon the berth from which the timber was taken.

In the event of a licensee or permittee disputing the Inspector's scale, on application to the Crown Timber Agent for the district, a re-scale of the timber will be made by another Dominion Scaler, and in such case the person requiring his services must pay such additional expense or cost as may be occasioned thereby.

Provided that if the original scale made be proved inaccurate to an extent of five per cent on the total scale, a second charge for the work shall not be made.

(*d*) The scaling officer shall deliver a copy of any scale made by him to the owner of the timber scaled, upon demand and upon payment of his fees and expenses.

(*e*) The Crown Timber Agent, or other duly authorized officer of the Department, shall act as arbiter in any dispute that may arise between a licensee or permittee and the official scaler, as to the measurements of any timber and his award shall be binding upon all parties without appeal.

(*f*) All diameters of logs shall be measured inside of the bark at the top end of the log.

(*g*) No timber or saw logs shall be manufactured or sawn until the same have been scaled in accordance with the requirements of these regulations, and any person violating this provision shall be liable to have such timber or product of manufacture therefrom seized and forfeited, wholly or in part, to the Crown, or pay dues thereon at the rate of five dollars per thousand feet board measure, according as the Minister may direct.

1–4 Clerk of the Privy Council.

RODOLPHE BOUDREAU,
3–2 Clerk of the Privy Council.

[1832]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 19th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 19th July, 1918, from the Minister of Labour, representing that in numerous cases, especially in certain industries, the provisions of The Industrial Disputes Investigation Act, of 1917, making it unlawful for any employer to declare or cause a lockout or for any employee to go on strike, on account of any dispute, prior to or during a reference of such dispute to a Board of Conciliation and Investigation under the provisions of that Act, have been entirely ignored by one or other party to the dispute. Recently this course has been more frequently followed, resulting in cessation of work in essential industries, which might, and in many cases probably would, have been avoided had the provisions of the said Act been observed.

The Minister further observes that the Federal Government has not at any time since the enactment of that statute instituted any legal prosecution for the violation of its provisions, nor have any such been otherwise begun except in a few cases—by private parties. And, the Minister is convinced that should the Federal Government proceed to enforce the said provisions of that Act it would increase its effectiveness in the best interests of the public.

The Minister is further of the opinion that an announcement by the Government that immediate steps to this end will be taken would tend to prevent interruption of work and avert the evils caused thereby.

The Minister, therefore, recommends that such action by the Government as may be necessary to ensure the prompt prosecution of any violation of the provisions of the said Act should be taken forthwith.

The Committee concur in the foregoing recommendation and submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

Thursday, the 18th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Secretary of State and under the provisions of The War Measures Act, 1914, is pleased to authorize and doth hereby authorize the Secretary of State of Canada to grant licenses permitting the transmission of money to enemies, allies and neutrals in enemy or enemy-occupied territory, to authorize communication or intercourse with enemies or persons in enemy or enemy-occupied territory, to authorize the expenditure of moneys in Canada on behalf of or for the benefit of enemies or persons in enemy-occupied territory, and to carry out such financial transactions as may be advisable and necessary for the purpose of protecting property or securities held or situate in Canada;

And, His Excellency the Governor General in Council, is further pleased to order and doth hereby order that the Orders in Council aforesaid, of the 3rd of October, 1917 (P.C. 2731), and (P.C. 199) of the 24th day of January, 1918, shall be and the same are hereby revoked; provided, however, that such revocation of said Orders in Council shall not:—

(*a*) Affect the previous operation of the Orders so revoked or anything duly done or suffered thereunder;

(*b*) Affect any right, privilege, obligation or liability acquired, accrued or incurred under the said Orders;

(*c*) Affect any penalty, forfeiture or punishment incurred in respect of any offence committed against the said Orders, or

(*d*) Affect any proceedings or remedy in respect of any right, privilege, obligation, liability, penalty, forfeiture or punishment aforesaid; and any permission or direction given or order or requirement made or other action taken under the said Orders so revoked shall be deemed to have been given, made or taken under this Order.

Ottawa, Friday, 28th June, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 21st June, 1918, from the Minister of the Interior, stating that it has been represented to the Department of the Interior that Mr. George Ross who entered for the East ½ of the Southwest ¼ of Section 24, Township 10, Range 10, West of Principal Meridian, on the 10th August, 1915, became permanently disabled through illness after obtaining entry, and was, therefore, unable to perform his residence duties in pursuance of the provisions of the Dominion Lands Act of 1908.

Evidence has been submitted that Mr. Ross performed two months' residence, erected a house and broke one acre in 1916, and was admitted to the Home for Incurables at Portage la Prairie, Manitoba, on the 17th February, 1917.

A certificate from the Superintendent of that institution, dated the 8th June, has now come to hand, setting out that Mr. Ross is over seventy-five years of age and will never be able to do any further work on the land referred to.

The Minister, therefore, recommends that Mr. Ross be relieved from the performance of any further residence duties, under the provisions of Clause 2, Section 20 of the Act, and that authority be given for the issue of a free patent for the land described, upon proof being furnished in the ordinary way that the other requirements of the law have been complied with.

The Committee concur in the foregoing recommendation and submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

Cancellation of reservation.

10. If in the opinion of the Board any parcel of land which has been reserved under the Act is not suitable for the purposes of soldier settlement, the Board may request the cancellation of such reservation.

Lapse of all reservations.

11. All reservations of lands under the Act shall lapse three years after the close of the present war.

Timbered lands not open to entry.

12. A quarter-section containing more than twenty-five acres of "merchantable timber" is not open to entry, and if entry is obtained for land which, though not reserved at the time, is ascertained to be valuable on account of merchantable timber upon it, the entry may be cancelled, provided that in the case an entry is so cancelled no compensation shall be made to the entrant for the value to him of the timber on the land.

Surveying and advertising.

13. No land shall be open for entry under the provisions of these regulations until it has been surveyed in accordance with the provisions of the Dominion Lands Survey Act, and until notice that it is to be open for entry upon a date to be set forth in the notice has been posted for at least thirty days in the land office of the District in which the land is situated, and has been published in at least one newspaper in that District and in one newspaper in the provincial capital; and the printing and publication of the notice shall be made in such manner as is determined by the Board.

Thirty days' notice in case of new surveys.

It shall be the duty of the Agent, when requested to do so by the Board, to advertise any newly surveyed land reserved under the Act, and to post notices promptly in his office and in each of the offices of the Sub-agents in his district.

Ten days' notice in all other cases.

14. Soldier entry on lands not reserved.

17. The right of soldier entry may be exercised by any settler qualified as such under the Act on any parcel of land which although not reserved for the purposes of the Act at the time, is open to homestead entry under the provisions of the Dominion Lands Act. An application for soldier entry on such land by any person eligible shall *ipso facto* reserve the same for the purpose of the Act.

Information as to lands.

18. General information concerning lands for soldier settlement may be obtained by any prospective settler on application to the Soldier Settlement Board, Ottawa, or to any representative of the Board elsewhere.

Precise information as to whether any particular parcel of land is open to soldier entry may be secured on application to the Agent of Dominion Lands for the district within which the land is situated.

APPLICATION FOR ENTRY.

Office of record.

Application made elsewhere.

20. Application for a soldier entry may be made also before any Agent or Sub-agent of Dominion Lands or before a local representative of the Board or any other person authorized by the Board to receive such application for transmission to the office of record, but any application so made shall have no force or effect until received at the office of record;

Notice may be wired.

Provided that where an application for a soldier entry is so made, the person receiving the same may, at the expense of the applicant, wire notice of receipt of the application to the office of record, whereupon, if the land is available, it shall be held for the applicant until the application papers are received.

No second application.

21. Where an application for soldier entry is made at any place other than the office of record, the person receiving the application shall not receive another application for entry on the same land until first application has been disposed of by the office of record.

Personal application.

22. Every application for a soldier entry shall, except as hereinafter provided, be made by the settler in person.

Application by proxy.

23. Application for entry by proxy is permitted only in the case of a person making entry on behalf of a husband, wife, father, mother, son, daughter, brother or sister, when duly authorized to do so in the form prescribed, or in the case of a person who, for special reasons, has been given permission by the Board to make entry on behalf of a settler.

The proxy must appear before the Agent of Dominion Lands for the district; sub-agents and local representatives are not authorized to accept applications for entry by proxy.

The settler on whose behalf such entry is made must, before the expiration of six months from the date of the entry, appear personally before the agent and satisfy him by declaration that he is already in residence or on his way to commence such residence, and in the latter case that he will be in residence before the end of the six months. Should he fail to make appearance, the agent shall, unless otherwise determined by the Board, cancel the entry without notice at the end of six months from the date of entry.

Time.

24. Application for soldier entry shall be made only during the regular office hours on every day except Sunday and statutory holidays.

Declaration by applicant.

25. Every applicant for a soldier entry shall make a declaration in the form prescribed by the Board that to the best of his knowledge and belief the land with respect to which his application is made is of the class open to entry and that there is no one in residence thereon, and shall state the improvements on the same, if any, and the value thereof; provided that where such declaration is subsequently found incorrect in any material particular, the entry shall be liable to cancellation.

No fees.

26. No fees shall be charged in connection with a soldier entry, but the applicant may be required to pay the value of the improvements, if any, on the land, and any charge or indebtedness against the land.

Application for lands not available.

27. An application for entry on land which is not available for entry at the time the same is made shall not give the applicant any priority of right in the event of the land becoming available.

CERTIFICATE OF ENTRY.

What constitutes entry.

28. When application is made in the manner hereinbefore described for land open to entry under the provisions of these regulations, the agent or officer acting for him shall accept it and issue to the applicant a Certificate of Entry, and the acceptance by the agent, or officer acting for him, of the said application and the issue of the Certificate of Entry shall constitute a soldier entry under the provisions of these regulations.

Certificate.

29. The Certificate of Entry shall entitle the recipient to take, occupy, use and cultivate the land entered for, and to hold possession thereof to the exclusion of any other person, and to bring and maintain actions for trespass committed on the said land; and the land shall not be liable to be taken in execution before the issue of letters patent therefor; provided that occupancy, use and possession of land so entered for shall be subject to the provisions of the Act, or regulations thereunder or amendments thereto.

PRIOR RIGHT OF ENTRY.

Squatter and Adjoining Settler.

Squatter before survey.

30. A person who has bona fide settled and made improvements on agricultural land before the survey thereof and was in occupation of and ordinarily resident on the land at the time of survey shall, if eligible to make entry for a soldier grant under these regulations, have a prior right to obtain entry for the land so settled on; Provided that this right is exercised within six months after notice in writing that the land is open for entry has been given by the Agent to such settler, or has been posted in a conspicuous place on the land; and that entry shall not be allowed for more than a quarter-section as a soldier grant.

Squatter after survey.

31. The occupation of land after the survey thereof, without entry as provided by these regulations, gives the occupant no right thereto, and the occupant may be ejected as a trespasser, and his improvements forfeited to the Crown.

One day priority to adjoining settler.

32. On the day on which any land is to be made available for entry after being advertised or posted in the manner hereinbefore described, the privilege of entry thereon shall be restricted to a settler eligible to make entry who holds an adjoining quarter-section under homestead or soldier entry, or who obtained homestead patent for such quarter-section and is still the owner thereof, or who was a squatter before survey on such quarter-section.

Conflicting Claims.

Determining priority.

33. In the event of there being more than one applicant claiming the prior right to entry under the preceding section, the priority of their claims shall be determined by the priority of the dates of their respective entries, or the commencement of residence in the case of squatters before survey.

34. To ensure due consideration being given to the rights of all persons claiming priority, the Agent shall receive all applications for entry offering under the preceding section, if requested to do so, but shall issue no certificate of entry for such land until the close of the office hours of the day on which the prior right of entry is considered; or until the morning of the following day;

Application before sub-agent.

Provided that if the Agent is advised by wire or otherwise on such day by a Sub-agent or a local Representative of the receipt by him of an application for entry from a person claiming a prior right

of entry for the land affected, and it is evident from the records that such person, by reason of the priority of date of his entry for or commencement of residence on the adjoining homestead has a better claim than any of the other applicants appearing in person, the Agent shall hold the land until such application made before the sub-agent or local representative has been received;

Sickness of applicant.

Provided further that if on account of sickness or other satisfactory reason shown to the Agent, a settler who according to the records has a prior right of entry over all other applicants is unable to appear in person on such day, the Agent may hold the land for such settler for a reasonable length of time, reporting immediately all the circumstances of the case to the Board;

Doubtful cases.

Provided also that if the Agent is in doubt as to the priority of any applicant, he shall not grant entry on the land affected, but refer the matter to the Board for consideration.

Land available to any settler.

35. Any land which, after having been posted in the manner hereinbefore described, has not been entered for by an adjoining settler on the first day on which such land became available for entry, or if it has not been reserved for any of the reasons above mentioned, it shall be open for entry on the following day to any settler eligible to make entry under these regulations.

Conditions of Entry.

Area.

36. A soldier entry shall be for not more than a quarter-section of one hundred and sixty acres more or less.

Mineral and water right.

37. A soldier entry shall convey no right to salt, coal, petroleum, natural gas, gold, silver, copper, iron, or other minerals within or under the land covered by such entry or any exclusive or other property or interest in, or any exclusive right or privilege with respect to any lake, river, spring, stream or other body of water within or bordering or passing through the land covered by the entry.

39. Entry for land against which there is a charge in favour of the Crown may be granted only subject to the payment by the entrant of such indebtedness.

43. A quarter-section of land upon which there is not more than twenty-five acres of "merchantable timber," but upon which there is more than twenty-five acres of timber suitable for cord-wood or fence poles is not open for entry, unless such entry is granted on the condition that it will be subject to the issue of permits upon the remainder of the quarter section after the entrant has selected, subject to approval, twenty-five acres for his own use.

Lands required for water supply, etc.

44. If, after an entry is obtained, it is ascertained that the land entered for, or any portion thereof, is necessary for the protection of any water supply or for the location or construction of any works necessary to the development of any water-power, the Board may, at any time before the issue of letters patent, cancel the entry or withdraw from its application, any portion of the land entered for, but where the land is required for the location or construction of works necessary for the development of any water-power, only in so far as the land is necessary for that purpose; provided, however, that no entry shall be cancelled under the provisions of this paragraph until the entrant has been compensated for any improvements made by him upon the land, the amount of such compensation to be fixed by artibtration if the entrant refused to accept the compensation allowed by the Board.

A reasonable portion of cultivation is required to be done in each year.

Rough and wooded lands.

52. Where owing to the character of the land the requirements with respect to cultivation as stated would appear to be excessive, the Board may reduce the area required to be cultivated, after the land has been inspected by an officer of the Board.

STOCK.

Stock.

53. Where the land entered for is not suitable for cultivation but is adapted for stock raising, the Board may, on application from the entrant and after inspection of the land, allow the entrant to substitute stock in lieu of cultivation duties.

The requirements other than residence and naturalization shall be completed by the legal representative of such deceased entrant.

The requirements other than residence may be completed by his guardian, or committee, or any other person who in the event of his death, would be his legal representative.

PATENT.

Proof of completion of duties.

58. After the completion of the settlement duties hereinbefore prescribed, the settler may file proof of the completion thereof. Patent.

61. If the proof of the fulfillment of the conditions of entry has been submitted as herein prescribed, and such proof is satisfactory to the Board, the Board will, if there is no charge against the land by reason of a loan granted under the Soldier Settlement Loan Regulations, recommend the issue of patent to the entrant, or in the event of the death of the entrant, in the name of his legal representative, or in the name of the deceased direct, if the law of the province within which the land is situated makes no provision for the appointment of a personal representative.

No patent until loan repaid.

62. If the proof of the performance of the settlement duties has been accepted by the Board, but there is a charge against the land for advances made under the Act, the Board will withhold the issue of patent for such land until such time as the charge has been removed.

Certificate as to proof.

63. In the cases mentioned in the preceding section the entrant, or in the event of his death, such person as would be entitled to receive patent had all the conditions been completed, may receive a Certificate from the Board setting forth that the requisite settlement duties have been completed, and that upon the indebtedness incurred under the Act being discharged, patent shall issue in the name of the person entitled to receive the same under these regulations.

Interchange of Entries.

When two settlers may interchange.

64. For cause shown any two entrants whose entries are in good standing may be granted permission by the Board to interchange their respective entries, provided the Board is satisfied that the security furnished by a settler who has obtained a loan under the Act will not be impaired by such interchange.

Abandonment and re-entry.

65. An entrant may, in the discretion of the Board, be granted permission to abandon the land entered for by him upon executing a declaration in the form prescribed by the Board and obtain permission to make another entry for any land available for the purpose.

In case of loan.

66. Where the entrant, having secured a loan from the Board, has created a charge or lien on the land entered for which has not been discharged, the privilege of abandonment and re-entry may be granted only subject to the transfer of such indebtedness to the land on which re-entry is to be made and only where the Board is satisfied that the security for the loan will not be impaired by the transaction.

Abandonment in favour of a relative.

67. Where an entry is in good standing the entrant may in the discretion of the Board be granted permission to abandon the land held under entry in favour of a father, mother, sister, daughter, bother, wife, or husband, if eligible to make a soldier entry under these regulations subject to such terms and conditions as the Board may prescribe.

Cancellation of Entry.

Reason for cancellation.

68. An entry may be cancelled for any of the following reasons:

(*a*) If the entrant fails in any year to perform the prescribed settlement duties;

(*b*) If an entry has been obtained or granted through error, or misrepresentation, or other fraud;

(*c*) If an entrant, being one who has obtained a loan from the Soldier Settlement Board fails to pay the instalments of principal and interest at the times when they are payable, or fails to comply with any term or conditions subject to which the loan is made.

69. Where an entry has been cancelled for any reason, all the rights of the entrant with respect to the land held by him, shall thereupon cease and determine; but the Board may, at its discretion, refund to the person responsibe for the improvements, in whole or in part, the money collected on account of such improvements from any subsequent holder or occupant of the land.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 6th day of June, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS Regulations heretofore established for the administration and management of Dominion lands within the Railway Belt of British Columbia in pursuance of the authority conferred by Chapter 59, Revised Statutes of Canada, 1906, and Chapter 10, 1—2 George V, do not include any special provisions for the disposal and administration of lands required for the development of water-powers and other water privileges, and

Whereas administration of the waters within the said belt has recently, by Chapter 47, Statutes of Canada, 2 George V as amended by Chapter 45, 3-4 George V, been transferred to the authorities of the provinces of British Columbia to be administered under the Water Acts of British Columbia as if the said Acts were enacted by the Parliament of Canada, and will continue to be so administered during the pleasure of the Governor in Council, and

Whereas it appears desirable that Dominion lands in the said belt required for the development of water-powers and other water-privileges should be disposed of and administered under special regulations which shall harmonize with the said provincial water administration.

Therefore His Excellency the Governor General in Council on the recommendation of the Minister of the Interior and in virtue of the authority conferred by the said Chapter 59, Revised Statutes of Canada, 1906, and the said Chapter 10, 1-2 George V, is pleased to order and it is hereby ordered that the attached regulations, namely, The Water-Lands Regulations, shall be and the same are hereby made effective for disposing of and administering such Dominion lands within the said belt (excluding only lands within areas that are or may be set apart and designated as Dominion parks) as are required in the development of water-powers and other water-privileges.

Lands withdrawn from entry.

2. Notwithstanding any other provision of the said regulations, Dominion lands required for the protection of any water-supply, or upon or within or under which there are any waters from which power may be produced, or which bordering upon or being close to a water-power, will be required for the development and working of such water-power, or Dominion lands required for the development of water privileges other than power undertakings, including lands required for the storage or pondage of water for augmenting or regulating the flow of streams, shall not be open to entry for homestead, purchased homestead or pre-emption, or be sold or conveyed in fee, or disposal of in any way by the Crown except by lease under the provisions of these regulations,

Provided always that the timber on any such lands, if within any Dominion forest reserves, shall, notwithstanding the provisions of this section continue to be administered under the regulations governing the administration of the said reserves.

Minister to set out said lands.

3. The Minister may cause such surveys to be made, and may take such other steps as may be necessary from time to time to enable him to ascertain and set out the lands required as aforesaid, and his decision respecting the location and extent of the said lands shall be final.

Application may be filed.

4. (1) Any person who desires to acquire a right to use or occupy any Dominion lands for the diversion, storage or carriage of any water, or for the construction, maintenance or operation of any works for such diversion, storage or carriage of water, including lands to be flooded, shall file or cause to be filed with the Minister an application in writing for that purpose.

Contents of application.

(2) Such application shall set out—

(c) Any other evidence or information which the Minister may require respecting such water-application, water-claim or water-right.

Minister may withdraw particular lands.

5. Pending the consideration of any such application for the use and occupation of Dominion lands, the Minister may, from time to time, reserve the lands applied for from any disposition not consistent with the rights desired under such application.

6. (1) The applicant, before commencing the construction of any works upon Dominion lands, shall cause to be filed with the Minister a plan prepared from an actual survey by a qualified Dominion land surveyor, and signed and certified correct by him, showing the location and extent of the lands so required, and shall obtain the Minister's approval thereof. Before any such survey is proceeded with, instructions therefor must first be obtained from the Surveyor General.

Minister may grant Interim Permit.

8. (1) Upon the filing of the application, plan and report set out in the last three preceding sections, and subject always to these and any further regulations on the subject, the Minister may, if he deems such action advisable, grant to the applicant an interim permit authorizing entry upon or the use or occupation of any Dominion lands subject to such conditions as may, in his opinion, be required by such applicant for the purpose of making surveys and constructing works, but such interim permit shall, in every case, be subject to the provisions of these regulations respecting leases so far as applicable.

Term and nature of Interim Permit.

(2) The term of the interim permit shall be as nearly as possible concurrent with that of the conditional-water-license granted to the applicant under the British Columbia Water Acts, it being the intent of these regulations that the applicant shall secure his water-rights from the provincial authorities before the corresponding land-rights shall be granted, and it being the general purpose of the said permit to supply such applicant with such rights in Dominion lands, as, in the opinion of the Minister, may be required by him in the exercise of the rights conferred by the said conditional water-license.

Surveys may be delayed in certain cases.

9 (1) If the Minister is of the opinion that a strict compliance with sections 6 and 7 would seriously interfere with the immediate and necessary construction of works or with the exercise of water rights acquired or in process of being acquired by the applicant, he may, by a writing under his hand, grant the applicant such temporary rights of entry upon or of the occupation or use of any Dominion lands as are, in his opinion, required by the applicant pending the time when the plans and report called for in the said sections 6 and 7 shall have been completed. The applicant shall, however, in such case pursue the preparation and completion of the said plans and reports with due diligence, and upon the filing and approval of the same, and upon compliance otherwise by the applicant with the terms laid down by the Minister, the interim permit mentioned in the last preceding section may be issued.

---

1. The Department of the Interior in order to facilitate the preparation of plans by applicants will endeavour to have a qualified member of the British Columbia Hydrometric Survey available for making the necessary surveys at reasonable cost to the applicants.

(2) The location of any works so constructed by the applicant prior to the filing and approval of the said plans and reports shall be subject to the approval of the Minister and the permittee shall and will make any changes with respect thereto which the Minister may require after the said plans and reports are filed. The temporary rights granted by the Minister under this section shall, in every case be subject to the provisions of these regulations respecting leases in so far as applicable and shall further be subject to cancellation at the at the discretion of the Minister.

Dispensation from Surveys by D.L.S. in certain cases.

10. Notwithstanding any other provision of these regulations, if the Minister considers that any application is not of sufficient importance to warrant the surveys and report by a Dominion land surveyor called for in sections 6 and 7, he may, by letter or other writing, authorize such applicant to dispence with the requirements of either or both of the said sections, but may, in such case, call for such plans and information as he may deem necessary, and upon satisfactory compliance by the applicant with all such requirements, the Minister may grant the interim permit mentioned in the last preceeding section, but in every case where works are constructed without plans being submitted and approved showing exact locations, such works shall be subject to approval as to location by the Minister and the applicant shall and will make any changes therein which the Minister may subsequently require.

Lease, when may be issued.

11. Upon the receipt by the Minister of a notice from the Comptroller of Water Rights or other proper provincial authority that the said applicant has completed his works and is in all respects other than the acquirement of the neeessary interests in Dominion lands, entitled to a final water license under the provincial Water Acts, together with a copy of such license or a statement of the proposed terms thereof, and upon it being shown to the satisfaction of the Minister that the applicant has observed and fulfilled all the terms and conditions required by the Minister or by these regulations to be by such applicant observed and fulfilled, the Minister may, subject always to these regulations, issue in favor of the applicant a lease, a license of occupation or other form of grant conferring such rights in Dominion lands as are in the opinion of the Minister, necessary for the proper maintenance and operation of the said works, and subject to such special terms and conditions, not inconsistent with these regulations, as the Minister may impose.

Lease concurrent with water-license.

12. The lease shall be for the same term of years as such final water-license and shall run concurrently therewith ; provided always, that in no case shall any lease authorize entry upon or use or occupation of any Dominion lands for a period exceeding fifty years from the date thereof.

Lease or permit to depend on water-license.

13. The easements, rights and privileges acquired under any interim permit or lease shall be subject always to compliance by the permittee or lessee with all the terms and conditions of the water-license in connection with which such interim permit or lease is issued, and if, under the provisions of the Water Acts of British Columbia or the regulations made pursuant thereto, or by other lawful means such water-license is terminated or cancelled, or becomes null and void, then such interim permit or lease shall, *ipso facto*, become void and of no effect, and all the rights granted thereunder shall cease and determine.

Lease voided when lands no longer needed.

14. (1) Every lease shall be valid or effective to authorize the entry upon or the use or occupation of any Dominion lands only in such manner and to such extent as may be necessary for the purpose of constructing, maintaining and operating the works authorized to be constructed, maintained and operated under the water-license in respect of which such lease is granted and no further.

Procedure when lease voided for non-use or abandonment.

(2) If, because of a change in the location of the said works, or because of their non-use or abandonment, or for any other reason continued or further entry upon, use of, or occupation of such lands in whole or in part for the said purpose becomes, in the opinion of the Minister, unnecessary, he shall give the lessee written notice of the contemplated withdrawal of such lands from the operation of the lease and his reasons therefor. The lessee may within sixty days after the giving of such notice file a written objection to such withdrawal of lands. The Minister may, after the consideration of such objection, or after the expiry of the time allowed for objection, if no objection is filed, make an order withdrawing such lands from the operation of the lease.

Termination of works when lease voided.

15. If any lease issued under these regulations is voided, terminated or cancelled in whole or in part by any lawful process, the lessee shall not be privileged to remove any works, buildings or other improvements constructed by him on the said lands unless the Minister's consent in writing is first obtained. The Minister may make any provision which he deems advisable for arriving at the compensation, if any, which is to be paid to the lessee for such of the said works, buildings or other improvements as are taken over by His Majesty and as are considered serviceable in the future disposition which is to be made of the said lands.

Rentals.

16. The sum to be paid as annual rental shall be fixed by the Minister and specified in the lease, but such rental shall be subject to revision at the same times and, at the discretion of the Minister, in the same manner as if the lease were subject to the statutes, regulations and general practice of the province governing of leases of lands valuable in the development of water privileges, providing always that the Minister shall act in the place of any provincial authority empowered or required to take action under the provisions of the said regulations in respect of such revision of rentals.

Lease not exclusive.

17. Every such lease shall be subject to the right of His Majesty to grant liberty or privilege to other persons for any purpose to enter upon, use or occupy the lands so leased or to use any existing works upon such lands in common with the lessee ; provided always that, in such case, if it is proposed to move or alter or in any way affect the lessee's works, the rights of the lessee in respect of the said works shall not be, in the opinion of the Minister, prejudicially interfered with, nor shall other works be substituted which, in so far as the lessee is concerned are less fitted to accomplish the purposes of the said works as set out in the water-license.

Grants not to be capitalized.

18. The lessee, in estimating the value of the lands, works, and properties, held by him in connection with his lease, whether for the purpose of fixing the tolls or rates which may be charged for power or for the purpose of appraising the property upon which he is entitled to earn or receive any return, income, price or compensation or for any other purpose, shall in no case give any pecuniary value to or claim any pecuniary value for the rights and privileges granted by his lease.

Transfers.

19. Before any assignment or transfer of any lease or of the rights and privileges conferred thereby or of the works or undertaking connected therewith becomes valid or effective the assignee or transferree must have executed and filed with the Minister an undertaking or agreement to comply with the provisions of these regulations in so far as applicable and to observe and fulfil all the terms and conditions of such lease as amended by any additional terms and conditions which the Minister may then see fit to impose, and the Minister's approval in writing of such assignment or transfer and of such undertaking or agreement must have been

obtained. No such approval shall be given by the Minister unless it is shown to his satisfaction that such assignment or transfer is expedient in the public interest and that no compensation whatever is to be paid for the rights and privileges conferred by such lease.

Care of Dominion Lands.

20. The lessee shall in the construction, maintenance and operation of his works, take such steps and do such acts and things, as are necessary for the proper care, maintenance and protection of any Dominion lands affected thereby, and shall comply with any instructions of the Minister or of any person acting for the Minister in that behalf.

Roads, trails, &c.

21. No roads, trails, telephone lines, buildings or other improvements the property of the Crown in the right of the Dominion shall be removed, altered or in any way affected by any lessee in the construction of his works without the Minister's consent in writing having been first obtained. Such lessee shall in every case replace or reconstruct such improvements and shall build and maintain necessary and suitable crossings for all such roads and trails existing or that may be established intersecting any water conduits of such lessee to the Minister's satisfaction. The Minister may, if he deems it necessary, require the applicant or lessee to furnish a bond for the satisfactory carrying out of the provisions of this section. 27. If it is shown to the satisfaction of the Minister that any homestead entry, agreement to sell or other existing interest less than a fee in any Dominion lands required for the proposed works of any applicant has been secured by any person with a knowledge that the said lands would be required in connection with the development of a water privilege, and with the object of deriving gain from such interest by reason of the future development of such water privilege, the Minister may fix the terms upon which so much of the said lands as may be required for the proposed works may be withdrawn from the said entry, agreement of sale or other interest less than a fee, and secured by such applicant.

Water applicants not under B. C. Water Act.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS in the case of one Norman Earle Lewis the Supreme Court of the Province of Alberta, Appellate Division, decided on the 28th June, 1918, that the Order in Council of the 20th April, 1918, (P.C. 919), had not the force of law, and that consequently all exemptions cancelled by the Order in Council of the same day (P.C. 962) remained in full force and effect ;

And whereas the Acting Minister of Militia and Defence represents that military conditions make it imperatively necessary that the principle of this judgment should not be permitted to have effect, and that it is impossible to suspend the operation of the Orders in Council pending an appeal if the exigencies of the military situation are to be met ;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Acting Prime Minister, is pleased to order and direct and doth hereby order and direct that men whose exemptions were cancelled, pursuant to the provisions of the Orders in Council of the 20th April, 1918, above referred to, be dealt with in all respects as provided by the said Order in Council, notwithstanding the said judgment and notwithstanding any judgment or any Order that may be made by any Court, and that instructions be sent accordingly to the General and other officers commanding Military Districts in Canada.

Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 2nd day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Dominion Lands Act (chapter 20 of the statutes of 1908) provides that every application for entry for a homestead shall be made by the applicant in person, unless otherwise provided by regulations made by the Governor in Council;

And whereas under regulations approved by Orders in Council dated the 26th of August, 1908, and the 11th of January, 1915, homestead entry may be made by proxy on behalf of a husband, father, mother, son, daughter, brother or sister;

And whereas it is represented that cases are likely to arise where a number of soldiers eligible for soldier grant entry under the terms of the Soldier Settlement Act, 1917, and eligible also to make ordinary homestead entry, desire to send one of their number in advance to select and enter for land on their behalf;

And whereas authority has already been taken under section 23 of the Soldier Settlement Regulations to meet a case of this kind in so far as the soldier grant entry is concerned, but there is no corresponding provision in the case of an application for ordinary homestead entry by proxy on behalf of a "settler," as defined by the Soldier Settlement Act;

Therefore His Excellency the Governor General in Council, in view of the above, is pleased, on the recommendation of the Acting Minister of the Interior, to make the following regulation and the same is hereby made and established accordingly:—

In the case of a "settler" as defined by the Soldier Settlement Act, 1917, who is eligible to make ordinary homestead entry, application for entry by proxy may be permitted not only in the case of a person making entry on behalf of a husband, father, mother, son, daughter, brother or sister, but also in the case of a person who for special reasons has been authorized by the Department of the Interior to make entry on behalf of such "settler."

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency the Governor General in Council on the recommendation of the Acting Minister of the Interior is pleased to order and it is hereby ordered that the regulations for the survey, administration, disposal and management of Dominion Lands within the Forty-five Railway Belt, in the Province of British Columbia, established by Order in Council of 17th September, 1889, shall be and the same are hereby amended by rescinding section 9 thereof and substituting the following therefore:—

9. (1) The word "highway" as used in this section shall mean all public wagon-roads, streets, roads, trails, lanes, bridges and trestles, but shall not include canals, towing-paths or other like public ways.

(2) The authorities of the Province of British Columbia shall, during the pleasure of the Governor in Council and subject to the provisions of these regulations, be authorized and empowered to make and establish such public highways through or over Dominion lands in the railway belt, exclusive of areas set apart as Dominion forest reserves and parks, but including lands held under homestead entry, contract of sale, lease, license or any other form of occupancy, and also including foreshores and lands covered with water, as if the British Columbia Highway Act, chap. 99, of the Revised Statutes of British Columbia, 1911, as amended by chap. 29 of the Statutes of 1913, were applicable to the said Dominion lands.

(3) Notwithstanding the powers conferred upon the Provincial authorities by the preceeding subsection, the Governor in council may authorise the location and construction by any person of such public highways as he may deem expedient through any land subject to these regulations, and for that purpose may take or authorise to be taken without any notice and without any consent on the part of the person owning or occupying such land or having any claim, estate, right, title or interest therein, any requisite area of land, and any existing roads whether the area so taken be or be not in excess of the Provincial allowance for roads, in any section, quarter section or legal subdivision, and may also enter upon or authorise entry upon any such lands and the taking therefrom of any gravel, stone, timber or other material required for the construction of such highway or for the purpose of cutting and maintaining any drains that may be considered necessary.

(4) Whenever any highway is made and declared and has been put into actual use by the Public or whenever the Governor-in-Council has established a highway as provided in the last preceeding sub-section such public highway shall become the property of the Province, the legal title thereto remaining in the Crown for the public use of the Province subject to reversion in the case of closing or abandonment as hereinafter specified, provided that the ownership of any minerals under such roads shall not be affected by the making or establishing of any such highway.

(5) No road so established by the Governor in Council shall be closed up or its direction varied or any part of the land occupied by it sold or otherwise alienated without the consent of the Governor in Council.

(6) Whenever any road constructed by the Provincial authorities over any of the lands subject to these regulations is later closed by the same authorities or by reason of abandonment or otherwise ceases to be a public highway, or whenever any road established by the Governor in Council is closed in the manner specified herein, then, in either such case, the part of such highway, if any, which was comprised of Dominion lands when constructed and which at the time of such closing or ceasing to be used as a public highway, is still situated across or adjacent to Dominion lands, shall revert to and become the property of the Crown in the right of Canada and may be dealt with by the Minister subject to these regulations.

(7) Until necessary highways providing means of egress and ingress to the lands of settlers and landholders shall have been located and constructed, a convenient right of way not exceeding sixty-six feet in width over any Dominion lands disposed of is hereby reserved for the use and convenience of settlers and land-holders in passing from time to time to and from their locations or lands, to and from any now existing public highways, providing always that such settler or landholder making use of the aforesaid privilege shall not damage the fences or crops of the occupier located on the land over which such right of way is reserved.

(8) Notwithstanding any other provisions of these regulations, in case the Provincial authorities and the Governor in Council should both establish highways across the land of any owner or occupier, no greater area shall be taken without compensation from such owner or occupier for the purpose of the said highways than is permitted to be taken by the Provincial authorities under the said British Columbia Highway Act.

(9) Every homestead entry, contract of sale, lease, license or any other form of company, patent or other grant hereafter issued of any Dominion lands within the Railway Belt shall be subject to a reservation providing for the taking of an area for road purposes and compensation for the same as provided herein.

WHEREAS under the provisions of the Order in Council of the 7th December, 1907, certain Dominion lands were set apart to be reserved for the Doukhobor communities during the pleasure of the government ;

And whereas from time to time certain of lands so reserved have been withdrawn from reservation as being no longer required for the purpose for which they were set apart and homestead entries were granted thereon to members of the Doukhobor communities participating in the reserves and to the general public ;

That certain parcel or tract of land, being part of the bed of Oldman river, situate in the southeast quarter of section thirteen, in the ninth township, in the twenty-sixth range, west of the fourth meridian, in the Province of Alberta, on the said section thirteen is shown on a plan of the southeast quarter of the said township approved and confirmed by E. Deville, Surveyor-General of Dominion lands, on the eleventh day of January, one thousand nine hundred and fifteen, which said parcel may be more particularly described as follows :—

S. The plan and description of the sight and of the bridge as filed by the company with the Department of Public Works was approved by Order in Council of the 31st July, 1916, under the provisions of Section 233 of the Railway Act, Chapter 37, Revised Statutes of Canada, 1906, such approval being conditional on the company securing from the Department of the Interior a license of occupation of the bed of the river required for the bridge site.

The Minister, therefore, recommends that he be authorized to issue to the Canadian Northern Railway Company, a license of occupation for that portion of the bed of the Oldman River described above ; the said license to be for such time as the Company may require the bridge site in connection with the operation of the railway and to be at an annual rental of one dollar, payable to the Department of the Interior.

The Committee concur in the foregoing recommendation, and submit the same for approval.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS attention is drawn to the abnormal demand for butter due to war conditions and the very great probability that such abnormal demand and consequent high prices will prevail for this product for some time to come ;

And whereas it is in the public interest, under the special conditions above named, that other fats should be available in Canada under strict and reasonable conditions as a substitute for butter ;

RODOLPHE BOUDREAU,
4–2 Clerk of the Privy Council.

[1743.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday the 11th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council has had before them a report, dated 9th July, 1918, from the Minister of Labour, representing that industrial unrest during the past few months has become more general than formerly, thus causing serious interruption in some lines of war work, and indications are that it will become more widespread still unless successful efforts be made to check it. This unrest has many causes among which are the shortage of labour, rapid advance in the cost of many of the necessaries of life, employers denying their workmen the right to organize or to meet them in joint conference to discuss requests for improved conditions or to negotiate adjustments of differences ; and in others from too hasty action on the part of working men in ignoring the provisions of The Industrial Disputes Investigation Act and in adopting drastic measures before exhausting every reasonable effort to reach a satisfactory settlement. Wages alleged to be inadequate together with length of the work day said to be too long, are among other frequent causes of such unrest.

The Minister, realizing the necessity of steady work and close and sympathetic co-operation between employers and employees to secure maximum results from war efforts, is of opinion that the Government should forthwith adopt such means as may seem practicable for the prevention of such interruption during the continuance of the war, whether caused by lockouts or strikes, and the establishments of such co-operation, while at the same time striving to ensure to the workman adequate compensation for their labour and reasonable safeguards for their health and safety, and to employers fair and reasonable treatment.

The Minister is further of opinion that a declaration by the Government of a war labour policy, fair and equitable to all concerned, governing relations between employers and workmen in all industries engaged in war work and including all those mentioned in The Industrial Disputes Investigation Act (except railways), and amendments thereto by Parliament or extensions thereof by Order in Council, for the duration of the war, would materially contribute to the attainment of these objects.

The Minister, therefore, recommends that the Governor in Council declare the following principles and policies and urge their adoption upon both employers and workmen for the period of the war.

1. That there should be no strike or lockout during the war.
2. That all employees have the right to organize in trade unions, and this right shall not be denied or interfered with in any manner whatsoever, and through their chosen representatives should be permitted and encouraged to negotiate with employers concerning working conditions, rates of pay, or other grievances.
3. That employers shall have the right to organize in associations of groups, and this right shall not be denied or interfered with by workers in any manner whatsoever.

4. That employers should not discharge or refuse to employ workers merely by reason of membership in trade unions or for legitimate trade union activities outside working hours.
5. That workers in the exercise of their right to organize shall use neither coercion nor intimidation of any kind to influence any person to join their organizations or employers to bargain or deal therewith.
6. That in establishments where the union shop exists by an agreement the same shall continue and the union standards as to wages, hours of labour and other conditions of employment shall be maintained.
7. That in establishments where union and non-union men and women work together, and the employer meets only with employees or representatives engaged in such establishments, the continuance of such conditions shall not be deemed a grievance.

This declaration, however, is not intended in any manner to deny the right, or discourage the practice of forming labour unions, or the joining of the same by workers in said establishments as aforesaid, nor to prevent a Board of Conciliation or other body or adjuster from recommending improvements in the matter of wages, hours of labour, or other conditions, as shall from time to time be found desirable.

8. That established safeguards and regulations for the protection of health and safety of workers shall not be relaxed.
9. That all workers, including common labourers, shall be entitled to a wage ample to enable them with thrift to maintain themselves and families in decency and comfort, and to make reasonable provision for old age.
10. That in fixing wages, minimum rates of pay should be established.
11. That women on work ordinarily performed by men should be allowed equal pay for equal work and should not be allotted tasks disproportionate to their strength.
12. That in all cases where eight hours is by law or agreement the basic day, it shall so continue. In all other cases the question of hours of labour should be settled with due regard to governmental necessities and the welfare, health and proper comfort of the workers.
13. That a maximum production from all war industries should be sought and methods of work and operation on the part of employers or workers which operate to delay or limit production or which tend to artificially increase the cost thereof should be discouraged.
14. That for the purpose of mobilizing the available labour supply with a view to its rapid and effective distribution as well as constant employment; the Managers and Operators of industrial establishments and the trade unions concerned should keep Provincial or Municipal Employment Agencies and the Canada Registration Board fully informed as to labour required or available. Those agencies should be given opportunity to aid in the distribution of labour.
15. That in fixing wages, hours and conditions of labour regard should be had to the labour standards, wage scales, and other conditions, prevailing in the locality affected, always mindful, however, of the necessity of payment of living wages.
16. That to better preserve industrial peace during the war, employers and employees should, after once establishing an agreement as to wages and working conditions, agree to its continuance during the war, subject only to such changes in rates of pay as fluctuation in cost of living may justify.
17. That when employers and employees are unable to arrive at a mutual agreement concerning any existing dispute, unless some other means of settlement is agreed upon by the parties, they should use the machinery provided for in the Industrial Disputes Investigation Act in an endeavour to reach an adjustment.

Should the recommendation of the Board of Conciliation not be accepted either party may appeal to the Board of Appeal who shall review the findings of the Board of Conciliation and hear such further evidence as either party to the dispute may desire to submit at their own expense, the decision of the Board of Appeal to be final.

Any settlement of a dispute referred to the Board of Conciliation, or carried in appeal to the Board of Appeal, shall be effective not later than the date on which the application for a Board of Conciliation was filed.

The Board of Appeal shall be composed of two representatives of labour, nominated by the Executive Council of the Trades and Labour Congress of Canada, two representatives of the employers, nominated by the Executive of the Canadian Manufacturers Association, and a Chairman nominated by the said members of the Board, or, in case of failure to agree upon a Chairman, then the Minister of Labour shall appoint such Chairman.

The Minister further recommends that the Minister of Labour be authorized to make regulations governing procedure on appeal provided for by paragraph 17 of the above recommendations.

The Committee concur in the foregoing recommendations, and submit the same for Your Excellency's approval.

WHEREAS the War Trade Board of the United States has placed under license the export of various commodities and whereas the list of such commodities is being modified and extended from time to time as the exigencies of the war require, and chiefly for the purpose of conserving tonnage, and that additional shipping be made available for the transportation of troops and supplies to Europe;

And whereas it has been represented by the War Trade Board of the United States that the purpose of such restrictions upon exports is to some extent defeated owing to the lack of similar restrictions upon exports on the part of the Government of Canada;

And whereas it is desirable that the Goverment of Canada should co-operate as far as possible with the Government of the United States in controlling exports for the purpose mentioned;

Therefore, His Excellency the Governor-General in Council, on the recommendation of the Minister of Finance, is pleased to order and it is hereby ordered that the export from Canada of all articles, the export of which from the United States is subject to license, and which are set out in the schedule attached hereto, shall be and the same is hereby prohibited, except under license approved by the War Trade Board.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 18th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the President of the United States, on February 14th, 1918, issued a proclamation requiring an import license for all articles imported from all countries, the chief purpose of which was to enable the Government of the United States to eliminate less essential imports to the end that tonnage might be conserved and additional shipping be made available for the transportation of troops and supplies to Europe, and in order to most effectively devote shipping to the successful prosecution of the war;

AND WHEREAS on February 20th, 1918, a general license was issued permitting without individual import licenses, the importation of all commodities from Canada, with the exception of those mentioned in the President's proclamation of November 28th, 1917, this to be in force until revoked by the Bureau of Importations of the War Trade Board of the United States;

AND WHEREAS the War Trade Board of the United States represents that evasions of the terms of this proclamation are being made from time to time by the importation of restricted articles into the United States from foreign countries through Canada, and that for the proper and effectual administration of the terms of the said proclamation and the accomplishment of the purposes of the same, it is desirable and necessary that Canada control by license the importation of such articles as are similarly controlled by license in the United States under and by virtue of the said proclamation of the President of the United States;

AND WHEREAS it is desirable that the Government of Canada co-operate so far as is possible with the Government of the United States in controlling imports for the accomplishment of the declared purposes of the said proclamation of the President of the United States.

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, is pleased to order and it is hereby ordered that the importation into Canada of all articles contained in lists numbered 1 and 2, promulgated by the United States schedule of which is hereto attached shall be and the same is hereby prohibited except under license approved by the War Trade Board.

APPLICATIONS TO PARLIAMENT.

THE SENATE.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

As Revised and brought in force 22nd March, 1916.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during at least three months before the consideration by the Committee on Divorce of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the district in Quebec, Manitoba, Saskatchewan, Alberta, British Columbia or the Northwest Territories, or in the county or union of counties in other provinces, wherein such applicant usually resided at the time of the separation of the parties; but if the requisite number of papers cannot be found therein, then in an adjoining district or county or union of counties.

Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the district, but otherwise shall be published in one newspaper in both languages. If a notice given for any session of Parliament is not completed in time to allow the petition to be dealt with during that session the petition may be presented and dealt with during the next ensuing session, without any further publication of such notice.

A copy of the said notice and a copy of the petition to be presented shall, at the instance of the applicant, and not less than two months before the consideration by the Committee of the petition, be served personally, when that can be done, on the person from whom the divorce is sought, who is hereinafter called "the respondent."

If the residence of the respondent is not known or personal service cannot be effected, then, if it be shown to the satisfaction of the Committee that all reasonable efforts have been made to effect personal service, and, if unsuccessfull, to bring such notice and petition to the knowledge of the respondent, what has been done may be deemed and taken by the Committee sufficient service.

The petition should also negative connivance at, or condonation of the wrong complained of and collusion in the application for divorce.

The allegations of the petition must be verified by declaration of the petitioner, under *The Canada Evidence Act, 1893*.

The copy of the petition served upon the respondent shall have endorsed thereon, or appended thereto, he following information:—

(*4*) If such solicitor's address is not at Ottawa, the name and address of some agent for him at Ottawa, upon whom all notices and papers may be served.

(*5*) That if the respondent desires to oppose the granting of the divorce and to be heard by the Senate Committee on Divorce, the respondent must send a notice to that effect to the Clerk of the Senate at the Parliament Buildings, Ottawa, within two months from the date of service upon the respondent, and must in the notice to the Clerk of the Senate give:—

(*a*) The respondent's residence at the time of sending such notice.

(*b*) A Post Office address in Canada at which letters and notices for the respondent may be delivered.

(*c*) The name and address of the solicitor, if any, acting for the respondent.

(*d*) If such solicitor's address is not at Ottawa, the name and address of some agent for him at Ottawa upon whom all notices and papers may be served.

(*6*) That, if the respondent does not so notify the Clerk of the Senate, the petition may be considered, and a bill of divorce founded thereon may be passed, without any further notice to the respondent.

(*7*) When the petition is one by a husband for a divorce from his wife, that, if the wife shows to the

satisfaction of the Senate Committee on Divorce that she has, and is prepared to establish upon oath, a good defence to the charges made by the petition, and that she has not sufficient money to defend herself, the Committee may make an order that her husband shall provide her with the necessary means to sustain her defence, including the cost of retaining Counsel and the travelling and living expenses of herself and of witnesses summoned to Ottawa on her behalf.

No petition for a bill of Divorce shall be considered by the Committee unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred and ten dollars, ($210).

The petition when presented to the Senate shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy of the notice and of a copy of the petition.

ARRÊTÉS EN CONSEIL.

1510

HOTEL DU GOUVERNEMENT A OTTAWA.

Jeudi, le 20e jour de juin 1018.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du Ministre suppléant de l'Intérieur, daté le 8 juin 1918, représentant que le 13 novembre 1913, Raoul Pirmez et George Roels, de la ville de Calgary, dans la province d'Alberta, ont demandé la permission d'acheter certains terrains sous le lac Kleskun et y aboutissant, township 73, rangs 3, 4 et 5, à l'ouest du 6e méridien, comprenant 18,400 acres, plus ou moins, pour assèchement par le drainage.

Le projet de drainage et d'asséchement des requérants a été approuvé par le directeur des arpentages de la province d'Alberta, au nom du gouvernement de cette province, et les travaux d'assèchement ne nuiront à aucun intérêt connu.

Il résulte d'enquêtes faites par l'ingénieur du département de l'Intérieur que le lac n'est d'aucune utilité comme source d'approvisionnement d'eau et que l'assèchement des terrains adjacents et de ceux qu'il recouvre seraient d'intérêt public.

Le terrain n'est d'aucune valeur dans sa condition actuelle.

Les enquêtes nécessaires pour déterminer la practicabilité du projet et les conditions auxquelles la vente pouvait être recommandée n'ont été complétées qu'en juillet 1914, et la déclaration de la guerre força M. Roels à retourner en Belgique, au commencement du mois d'août 1914, et M. Pirmez, en décembre de la même année. M. Roels est officier de réserve dans l'armée belge et M. Pirmez était le consul belge à Calgary, Alberta.

Vu que le projet d'assèchement avait été reconnu praticable et d'intérêt public et que ne pouvait être mise en doute l'intention des requérants de construire les travaux nécessaires et de procéder à l'assèchement du terrain dès qu'ils en auraient l'autorisation, le ministre a réservé le terrain afin de respecter la priorité d'intérêts de ces requérants.

Le 31 décembre 1915, les requérants transférèrent leurs droits à Charles Frédérick Adams, et le 25 août 1917, Adams transféra lui-même ses droits à Edmund Thompson, de Kingman, Alberta. Ces deux transfers ont été inscrits au Département de l'Intérieur.

Il a été établi d'une manière satisfaisante que M. Thompson est en position de mener à bonne fin l'exécution du projet.

Le Ministre, par conséquent, recommande que la vente dudit terrain audit Edmund Thompson soit autorisée et que le Ministre de l'Intérieur, à titre de représentant de Sa Majesté le Roi George V, et le requérant souscrivent à une convention contenant les conditions et restrictions stipulées dans la formule de convention annexée

Le comité agrée cette recommandation et la soumet pour approbation.

RODOLPHE BOUDREAU,
1-4 Greffier du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre de l'Intérieur, daté le 21 juin 1918, représentant que le département de l'Intérieur a été saisi du fait que M. George Ross qui, le 10 août 1915, a obtenu une inscription de homestead pour la moitié est du quart sud-ouest de la section 24, township 10, rang 10, à l'ouest du méridien principal, a été frappé d'invalidité permanente par la maladie après avoir obtenu son inscription et qu'il lui a été par conséquent impossible de remplir ses obligations de résidence conformément aux dispositions de la *Loi des terres fédérales.*

Il a été établi que M. Ross a accompli deux mois de résidence, a érigé une maison et fait un acre de défoncement en 1916. Il a été admis à l'hospice des incurables à Portage-la-Prairie, Manitoba, le 17 février 1917.

Un certificat du surintendent de l'institution, daté le 8 juin, déclare que M. Ross est âgé de plus de 75 ans et ne sera jamais plus capable de faire aucun travail sur le dit terrain.

Le Ministre, par conséquent, recommande que M. Ross soit relevé de toute obligation de résidence à venir, en vertu des dispositions du paragraphe 2, article 20 de la loi, et que l'émission d'une patente gratuite du dit terrain soit autorisée sur preuve fournie de la manière ordinaire que les autres conditions de la loi ont été remplies.

Le comité agrée cette recommandation et la soumet pour approbation.

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

SON Excellence le Gouverneur Général en conseil sur la recommandation du ministre intérimaire du Service Naval, et en vertu des dispositions de l'article 45 de la *Loi des pêcheries*, 4-5 George V, chapitre 8, se plaît à décréter les dispositions suivantes :

Les règlements de pêche particuliers à la province d'Ontario, édictés par le décret du conseil en date du 29 octobre 1915, sont par les présentes amendés par l'addition de l'article suivant :

Article 3a—Cisco ou hareng des lacs.

"Il est défendu de garder captif ou de pêcher du cisco ou hareng des lacs d'un poids inférieur à six onces avoir-du-poids, non apprêté, et toute personne qui capture un poisson de cette espèce d'un poids inférieur à six onces, est tenue de le remettre à l'eau vivant et indemne. Afin de prévenir les blessures susceptibles de se produire durant le classement des individus de taille diverse, le triage du cisco ou hareng des lacs doit se faire dans l'eau, et avant qu'on n'ait retiré ces poissons de l'engin ou de l'appareil de pêche par lequel on les a capturés."

Ce règlement doit entrer en vigueur le 1er juillet 1918.

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre suppléant de l'Intérieur, daté le 6e jour de juin 1918, représentant que mademoiselle Margaret Reith, d'Edmonton, Alberta, a demandé la permission de s'inscrire par procuration pour un homestead, dans l'intérêt de ses deux neveux, William John Franklin Reith et James Wilbert Reith, qui sont actuellement avec le corps expéditionnaire canadien outremer.

Mademoiselle Reith représente que ses deux neveux sont âgés de 35 et 27 ans respectivement ; ils sont orphelins, elle est leur plus proche parente et ils l'ont priée de s'inscrire par procuration pour un homestead dans leur intérêt.

Vu la parenté et les circonstances précitées, le Ministre recommande que mademoiselle Margaret Reith soit autorisée à s'inscrire par procuration pour un homestead dans l'intérêt de ses neveux William John Franklin Reith et James Wilbert Reith.

Le comité agrée cette recommandation et la soumet pour approbation.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU qu'il est jugé opportun de pourvoir à l'émission de certificats temporaires spéciaux d'obéissance à la *Loi du service militaire, 1917*, et aux règlements sous le régime de cette loi par les hommes tenus de répondre à l'ordre de se présenter pour le service mais dans le cas desquels cet ordre, au cours de l'administration de la loi, a été temporairement différé, afin que ces hommes puissent donner une preuve sous forme d'un certificat pour l'inspection des agents de police chargés d'appréhender les transfuges.

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre de la Justice et sous l'empire des pouvoirs conférés au Gouverneur général en conseil par la *Loi du Service militaire, 1914*, ou la *Loi des mesures de guerre, 1917*, de faire le règlement suivant, et ce règlement est par les présentes fait et établi en conséquence :

RÈGLEMENTS.

Des certificats temporaires en la forme que prescrira le département peuvent être délivrés par les régistraires et sous-régistraires sous le régime de la *Loi du service militaire, 1917*, aux hommes qui se sont conformés aux prescriptions de la loi et des règlements et auxquels peut être donné l'ordre de se présenter pour le service militaire, mais à qui pour une raison justifiée par la bonne administration de la loi cet ordre n'a pas été donné pour le moment ; et la présentation de tel certificat temporaire spécial à un agent de la police militaire ou civile ou constable chargé de rechercher ou appréhender les transfuges sera une preuve suffisante de l'immunité de cet homme à l'arrestation tant qu'il n'a pas failli à l'observance d'un ordre qu'il a reçu de se présenter pour le service.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que dans le cas d'un certain Norman Earle Lewis, la Cour Suprême de la province d'Alberta, division d'appel, a décidé le 28 juin 1918 que l'arrêté en conseil du 20 avril 1918 (C.P. 919) n'avait pas force de loi et que, conséquemment, toutes les exemptions annulées par l'arrêté en conseil du même jour (C.P. 962) restaient en pleine vigueur ;

Et attendu que le ministre suppléant de la Milice et de la Défense représente que les conditions militaires sont telles qu'il est de nécessité impérieuse qu'il ne soit pas permis que le principe de ce jugement ait d'effet, et qu'il est impossible de suspendre la mise en vigueur des arrêtés en conseil en attendant un appel s'il faut répondre aux exigences de la situation militaire ;

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre suppléant de la Milice et de la Défense, de décréter et d'ordonner et il décrète et ordonne par les présentes que les hommes dont les exemptions ont été annulées conformément aux dispositions des arrêtés en conseil du 20 avril 1918, ci-dessus mentionnés, soient traités sous tous rapports ainsi que prescrit par lesdits arrêtés en conseil, nonobstant le dit jugement et nonobstant tout jugement ou décret qui peut être rendu par une cour quelconque, et que les instructions soient adressées en conséquence aux officiers généraux et autres officiers commandant les districts militaires en Canada.

ATTENDU que de certains électeurs du comté d'Alberta, dans la province du Nouveau-Brunswick, a été reçue une requête demandant la révocation de l'arrêté en conseil promulguant la partie II de la *Loi de tempérance du Canada* dans le dit comté, et que la dite requête paraît être conforme aux prescriptions de la *Loi de tempérance du Canada* dans ses termes et son contenu ;

Et attendu que le Secrétaire d'Etat est d'avis que les requérants atteindront leur but si l'application de la *Loi de tempérance du Canada* est suspendue, en conformité des dispositions à cet effet du chapitre 30, 7–8 George V, *Loi modifiant la loi pour aider la législation provinciale prohibant ou restreignant la vente ou l'usage des boissons enivrantes;*—

Par conséquant, il plaît à Son Excellence le Gouverneur général en conseil, en conformité des dispositions de la loi susdite, de déclarer par les présentes que l'application de la *Loi de tempérance du Canada*, dans le comté d'Alberta, dans la province du Nouveau-Brunswick, est par les présentes suspendue pour une période commençant dix jours après la date de la publication du présent décret dans la *Gazette du Canada*, et se continuant aussi longtemps que la loi provinciale continuera à imposer les restrictions de la *Loi de tempérance du Canada*, ce qu'elle fait actuellement de l'avis du département de la Justice.

HÔTEL DU GOUVERNEMENT À OTTAWA

MARDI, le 14e jour de mai 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Ministre de l'Intérieur, d'approuver par les présentes les règlements suivants régissant la concession gratuite de terres fédérales aux colons sous le régime de la Loi d'établissement de soldats, 1917.

RODOLPHE BOUDREAU,
Greffier du Conseil privé.

RÉGLEMENTS RÈGISSANT L'ÉTABLISSEMENT DES SOLDATS, CANADA, 1918

AUTORITÉ.

1. Les présents règlements sont faits et approuvés sous l'empire de la Loi d'établissement de soldats, 1917, soit la "Loi ayant pour objet d'aider les soldats revenus au pays à s'établir sur des terres, et ayant aussi pour objet d'augmenter la production agricole".

INTERPRÉTATION.

2. Dans les présents règlements, à moins que le texte n'exige autrement:

(*a*) "Loi" signifie la Loi d'établissement de soldats, 1917;

(*b*) "Commission" signifie la Commission d'établissement de soldats;

(*c*) "colon" signifie toute personne à laquelle s'applique la définition de ce mot dans la loi;

(*d*) "agent" ou "agent des terres fédérales" signifie une personne employée à ce titre sous le régime des dispositions de la Loi des terres fédérales;

(*e*) "sous-agent" signifie un sous-agent sous le régime des terres fédérales;

(*f*) "représentant local" signifie toute personne nommée par la Commission d'établissement de soldats pour agir en qualité de représentant de la Commission dans un district particulier quelconque, et ayant tels devoirs et pouvoirs qui peuvent lui être assignés par la Commission;

(*g*) "terres fédérales", ou "terres" ou "terre" signifie toutes terres du Canada auxquelles s'appliquent les présents règlements;

(*h*) "inscription de soldat" signifie une inscription gratuite sur les terres fédérales accordée par le Ministre à un colon recommandé par la Commission;

(*i*) "inscription" peut signifier une inscription de soldat ou une inscription accordée sous l'empire de la Loi des terres fédérales;

(*j*) "concession de soldat" signifie le terrain pour lequel une inscription de soldat a été accordée sous l'empire des dispositions des présents règlements;

(*k*) "homestead", "homestead acheté", "préemption" signifie un terrain possédé par inscription de homestead, de homestead acheté ou de préemption, respectivement, sous le régime de la Loi des terres fédérales.

DÉFINITION DE "COLON".

3. L'inscription sur les terres fédérales sous le régime des dispositions des présents règlements peut être accordée à toute personne recommandée par la Commission qui est un "colon" ainsi que défini par la loi.

4. Les personnes suivantes sont des "colons" aux termes de la loi:

(*a*) Toute personne qui a servi dans les forces navales ou militaires expéditionnaires du Canada au cours de la présente guerre et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*b*) Toute personne qui a été engagée en service actif au cours de la présente guerre dans les forces navales ou militaires du Royaume-Uni ou de tous dominions ou toutes colonies autonomes britanniques et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*c*) Toute personne qui, étant sujet britannique résidant au Canada avant la guerre, a été engagée en service actif à l'un des théâtres de la guerre dans l'une ou l'autre des forces navales ou militaires d'aucun des alliés de Sa Majesté dans la présente guerre et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*d*) La veuve de toute telle personne décrite au paragraphe (*a*), (*b*) ou (*c*) ci-dessus qui est décédée en service actif.

COMMENT ÉTABLIR SON DROIT COMME "COLON".

5. Toute personne qui se considère qualifiée comme colon et désire jouir des privilèges des présents règlements doit soumettre à la Commission tous renseignements qui permettront à la Commission de déterminer qu'il est une personne à laquelle s'applique

Formule de renseignements préliminaires.

la loi. Ces renseignements doivent être donnés sur la formule de renseignements préliminaires émise par la Commission et qu'on peut obtenir en s'adressant à la Commission d'établissement de soldats à Ottawa ou à un quelconque de ses représentants locaux qui, au besoin, doit aider le colon à remplir la formule.

Certificats de congé.

6. Dans le cas d'un colon qui a servi dans les forces expéditionnaires canadiennes, la Commission consultera le Département de la Milice concernant ses états de service; dans tous les autres cas la personne qui demande un prêt doit envoyer son certificat de congé honorable (on conseille pour cette fin de se servir de lettres chargées seulement), ou une copie certifiée par le représentant local ou par un notaire public dûment autorisé et pratiquant, ou tout autre témoignage jugé nécessaire pour permettre à la Commission de se prononcer sur son droit.

Attestation du droit.

7. Après que le droit au titre de colon a été établi d'une manière satisfaisante, une déclaration de tel droit sur une formule "d'attestation" signée par le président de la Commission est délivrée au colon. Cette "attestation" n'est pas transférable et doit être présentée et remise lorsque la demande formelle d'inscription est faite.

RÉSERVES DE TERRAINS.

Réserve de terrains.

8. La Commission peut demander la mise en réserve de terres fédérales disponibles pour les fins de la Loi.

Terrains spécialement réservés.

9. Dans le cas où un terrain réservé sous l'empire de la Loi est requis pour quelque fin spécifique en rapport avec l'établissement des soldats, ou s'il a une valeur particulière à cause de sa situation ou autrement, ou s'il est constaté que quelqu'un a sur ce terrain un droit qui n'était pas connu lorsqu'il a été réservé pour l'établissement des soldats, la Commission peut soustraire ce terrain à l'inscription de soldats, soit avant ou après qu'il a été ouvert à l'inscription, et le réserver pour en disposer comme il peut être jugé à propos.

Annulation de la réserve.

10. Si, de l'avis de la Commission, un terrain quelconque qui a été réservé sous l'empire de la Loi n'est pas propre à l'établissement des soldats, la Commission peut demander l'annulation de la réserve.

Déchéance de toutes réserves.

11. Toutes les réserves de terrain sous l'empire de la Loi tomberont en déchéance trois ans après la fin de la présente guerre.

Terres boisées closes à l'inscription.

12. Un quart de section contenant plus de vingt-cinq acres de "bois marchand" n'est pas ouvert à l'inscription, et si on obtient l'inscription d'un terrain qui, quoiqu'il ne soit pas réservé à l'époque, a une certaine valeur à cause du bois marchand qui s'y trouve, l'inscription peut être annulée; toutefois, dans le cas où une inscription est ainsi annulée aucune compensation n'est donnée à l'inscrit pour la valeur du bois sur le terrain.

Arpentage et annonce.

13. Nulle terre ne peut faire l'objet d'une inscription sous le régime des présents règlements tant qu'elle n'a pas été arpentée en conformité des dispositions de la Loi des arpentages fédéraux, et tant qu'avis du fait qu'elle doit faire l'objet d'une inscription à une date à être énoncée dans cet avis n'a pas été affiché durant au moins trente jours dans le bureau des terres du district dans lequel la terre est située, et n'a pas été inséré dans au moins un journal publié dans ce district et un journal publié dans la capitale provinciale; et l'impression et la publication de l'avis doivent être faites de la manière réglée par la Commission.

Trente jours d'avis dans le cas de nouveaux arpentages.

Il est du devoir de l'agent, à la demande de la Commission, d'annoncer toute nouvelle terre arpentée réservée sous le régime de la loi et d'afficher promptement des avis dans son bureau et dans chacun des bureaux des sous-agents dans son district.

Avis de dix jours dans tous autres cas.

14. Dans le cas d'autres terres que des terres nouvellement arpentées l'agent, lorsqu'il sera notifié par la Commission d'ouvrir à l'inscription un terrain quelconque sous le régime des présents règlements, en fera l'annonce pendant dix jours, à moins que la Commission n'ordonne autrement, en affichant dans son bureau un avis exposé à l'inspection publique, donnant la date et l'heure de l'affichage et la date où le terrain sera ouvert à l'inscription. Cet avis sera en la forme prescrite par la Commission et une copie en sera promptement adressée par l'agent à chacun des sous-agents et aux représentants de la Commission dans son district, ainsi qu'au maître de poste le plus rapproché du terrain, afin que cet avis soit affiché dans leurs bureaux respectifs.

Inscription de soldats sur terres réservées.

15. Les terres réservées sous le régime de la loi, qui de l'avis de la Commission ne conviennent pas aux fins générales de l'établissement des soldats, seront de temps à autre ouvertes à l'inscription des soldats pour tout colon qualifié à faire cette inscription sous le régime des présents règlements, sauf lorsque les présents règlements prescrivent ou que la Commission ordonne autrement.

Inscription de homestead sur terres réservées.

16. Excepté lorsque les présents règlements prescrivent autrement, aucun terrain réservé sous le régime de la loi et disponible pour l'inscription des soldats ne sera censé être réservé à l'exclusion de toute personne qui, étant un colon ou un membre d'un corps ou effectif quelconque servant avec les forces de la Grande-Bretagne ou d'un de ses alliés durant la présente guerre, désire exercer son droit de homestead sur ce terrain sous l'empire des dispositions de la Loi des terres fédérales.

Inscription de soldats sur terres non réservées.

17. Le droit d'inscription de soldat peut être exercé par tout colon qualifié comme tel sous le régime de la Loi sur tout fonds qui, bien que réservé alors pour les fins de la loi, est ouvert à l'inscription de homestead sous l'empire des dispositions de la Loi des

terres fédérales. Une demande d'inscription de soldat sur tel terrain par une personne qualifiée réservera ce terrain *ipso facto* pour les fins de la loi.

Renseignements quant aux terres.

18. Tout colon en perspective peut se procurer des renseignements généraux concernant les terres ouvertes pour l'établissement des soldats en s'adressant à la Commission d'établissement des soldats, Ottawa, ou à tout représentant de la Commission ailleurs.

On peut se procurer des renseignements précis quant à savoir si un terrain particulier est ouvert à l'inscription de soldats en s'adressant à l'agent des terres fédérales du district où le terrain est situé.

DEMANDE D'INSCRIPTION.

Bureau d'enregistrement.

19. La demande d'inscription de soldat peut être faite en la forme prescrite par la Commission par celui qui a reçu une attestation sous le régime de la loi au bureau de l'agent des terres fédérales pour le district où le terrain est situé, qui sera le bureau d'enregistrement des inscriptions de soldat pour tel district.

Demande faite ailleurs.

20. La demande d'inscription de soldat peut aussi être faite à un agent ou sous-agent des terres fédérales ou à un représentant local de la Commission ou à toute autre personne autorisée par la Commission à recevoir telle demande pour transmission au bureau d'enregistrement, mais nulle demande ainsi faite n'aura d'effet avant d'avoir été reçue à ce bureau.

Avis par télégraphe.

Toutefois, lorsqu'une demande d'inscription de soldat est ainsi faite, la personne qui la reçoit peut aux frais de l'inscrit envoyer par télégraphe un avis de la réception de la demande au bureau d'enregistrement; si le terrain est alors disponible il sera réservé pour le requérant jusqu'à ce que la demande ait été reçue.

Aucune autre demande.

21. Lorsque la demande d'inscription de soldat est faite à un endroit quelconque autre que le bureau d'enregistrement, la personne qui reçoit la demande n'en acceptera aucune autre pour inscription sur le même terrain avant qu'il ait été décidé de la première demande au bureau d'enregistrement.

Demande en personne.

22. Toute demande d'inscription de soldat, sauf ainsi que ci-dessous prescrit, se fera par le colon en personne.

Demande par procuration.

23. La demande d'inscription par procuration n'est permise que dans le cas d'une personne qui fait l'inscription pour un époux, une épouse, un père, une mère, un fils, une fille, un frère ou une sœur, lorsqu'elle est dûment autorisée à le faire en la forme prescrite, ou dans le cas d'une personne qui, pour des raisons spéciales, a obtenu la permission de la Commission de faire l'inscription en faveur d'un colon.

Le fondé de pouvoirs doit se présenter devant l'agent des terres fédérales du district; les sous-agents et représentants locaux ne sont pas autorisés à accepter les demandes d'inscription par procuration.

Le colon en faveur duquel l'entrée est faite doit avant l'expiration de six mois de la date de l'inscription se présenter en personne à l'agent et lui faire une déclaration qu'il réside déjà ou qu'il doit commencer à résider sur le terrain, et dans ce dernier cas qu'il y résidera avant l'expiration des six mois. Si le colon ne se présente pas l'agent, à moins que la Commission ne décide autrement, annulera l'inscription sans avis à l'expiration de six mois après la date de l'inscription.

Temps.

24. La demande d'inscription de soldat ne doit se faire que dans les heures régulières du bureau tous les jours excepté les dimanches et les jours de fête établis par la loi.

Déclaration de l'inscrit.

25. Quiconque demande une inscription de soldat doit faire une déclaration en la forme prescrite par la Commission qu'au meilleur de sa connaissance le terrain pour lequel il s'inscrit appartient à la classe des terres ouvertes à l'inscription et qu'il n'y réside personne, et il doit dire quelles améliorations y ont été faites, s'il y en a, et leur valeur; pourvu que lorsque telle déclaration est subséquemment trouvée incorrecte en quelque point important l'inscription soit sujette à l'annulation.

Ancien honoraire.

26. Aucun honoraire ne sera exigé pour l'inscription de soldat, mais on peut exiger du colon qu'il paie la valeur des améliorations sur le terrain, s'il y en a, ainsi que toute charge ou dette sur le terrain.

Demande de terrains non disponibles.

27. Une demande d'inscription sur un terrain qui n'est pas disponible pour l'inscription lorsque cette demande est faite ne donnera pas au colon une priorité de droit dans le cas où le terrain deviendrait disponible.

CERTIFICAT D'INSCRIPTION.

Ce qui constitue une inscription.

28. Lorsqu'une demande est faite en la manière ci-dessus décrite pour un terrain ouvert à l'inscription sous le régime des dispositions des présents règlements, l'agent ou le fonctionnaire qui agit pour lui acceptera cette demande et délivrera au colon un certificat d'inscription, et l'acceptation par l'agent, ou le fonctionnaire agissant pour lui, de ladite demande et l'émission du certificat constituent une inscription de soldat sous le régime des dispositions des présents règlements.

Certificat.

29. Le certificat d'inscription donne droit au colon de prendre, occuper, employer et cultiver le terrain pour lequel il est inscrit et d'en garder possession à l'exclusion de toute autre personne et d'intenter des poursuites pour violation de propriété; et le terrain ne peut être saisi en exécution de jugement avant l'émission des lettres patentes;

toutefois, l'occupation, l'usage et la possession du terrain pour lequel l'inscription est ainsi faite sont sujets aux dispositions de la loi ou des règlements établis sous l'empire de cette loi ou de leur modification.

PROPRIÉTÉ DU DROIT D'INSCRIPTION.

Squatter et colon voisin.

Squatter avant l'arpentage.

30. Une personne qui s'est de bonne foi établie sur un terrain agricole et y a fait des améliorations avant l'arpentage et qui l'occupait et y résidait ordinairement lors de l'arpentage, si elle est qualifiée pour une inscription de soldat sous le régime des présents règlements, aura le premier droit à l'inscription pour le terrain sur lequel elle est ainsi établie; pourvu que ce droit soit exercé dans les six mois après qu'un avis par écrit que le terrain est ouvert à l'inscription a été donné par l'agent à tel colon, ou a été affiché dans un endroit bien en vue sur le terrain. Toutefois, l'inscription de soldat ne sera pas permise pour plus d'un quart de section.

Squatter après l'arpentage.

31. L'occupation du terrain après l'arpentage, sans inscription ainsi que prescrit par les présents règlements, ne donne aucun droit sur ce terrain à celui qui l'occupe, et il peut être expulsé comme violateur de la propriété et les améliorations qu'il y a faites peuvent être confisquées au bénéfice de la Couronne.

Un jour de priorité au colon voisin.

32. Le jour où un terrain quelconque doit être ouvert à l'inscription après qu'un avis a été donné ou affiché en la manière ci-dessus décrite, le privilège d'inscription sur ce terrain est restreint à un colon qualifié pour l'inscription qui occupe un quart de section voisin soit comme homestead ou en vertu d'une inscription de soldat, ou qui a obtenu la patente de homestead pour tel quart de section et en est encore le propriétaire, ou qui était un squatter avant l'arpentage de ce quart de section.

CONFLITS DE DEMANDES.

Détermination de la priorité.

33. Dans le cas où il y a plus qu'un colon qui réclame le premier droit à l'inscription sous l'empire de l'article précédent, la priorité des demandes sera déterminée par la priorité des dates de leurs inscriptions respectives, ou par le commencement de leur résidence dans le cas de squatters avant l'arpentage.

34. Afin d'assurer la considération voulue des droits des personnes qui réclament la priorité, l'agent recevra toutes les demandes d'inscription qui lui sont offertes sous l'empire de l'article précédent, s'il en est requis, mais il ne délivrera aucun certificat d'inscription pour le terrain avant la fermeture des bureaux le jour où le premier droit d'inscription est examiné, ou avant le matin du jour suivant.

Demande à un sous-agent.

Toutefois, si l'agent est averti ce jour-là par télégraphe ou autrement, par un sous-agent ou un représentant local, que ce dernier a reçu une demande d'inscription d'une personne réclamant priorité de droit d'inscription pour le terrain concerné, et s'il est évident d'après les registres que cette personne, en raison de la priorité de la date de son inscription ou du commencement de sa résidence sur le homestead voisin a un meilleur droit que tout autre qui se présente en personne pour l'inscription, l'agent retiendra le terrain jusqu'à ce que la demande faite au sous-agent ou représentant local ait été reçue.

Maladie de l'inscrit.

De plus, si à cause de maladie ou pour une autre raison suffisante donnée à l'agent, un colon qui d'après les registres a un premier droit d'inscription sur tous les autres qui la demandent est incapable de se présenter en personne ce jour-là, l'agent peut retenir le terrain pour ce colon pendant un délai raisonnable en faisant rapport immédiatement de toutes les circonstances du cas à la Commission.

Cas douteux.

Si l'agent doute de la priorité du droit d'un colon, il n'accordera pas l'inscription du terrain concerné, mais saisira la Commission de la question.

Terrain ouvert à tout colon.

35. Tout terrain qui après avoir été annoncé par un avis affiché de la manière ci-dessus prescrite n'a pas fait l'objet d'une inscription par un colon voisin le premier jour où ce terrain a été ouvert à l'inscription, ou qui n'a pas été réservé pour une des raisons ci-dessus mentionnées, sera ouvert à l'inscription le jour suivant à tout colon qualifié pour l'inscription sous le régime des présents règlements.

CONDITIONS DE L'INSCRIPTION.

Etendue.

36. Une inscription de soldat ne sera pas pour plus qu'un quart de section de cent soixante acres plus ou moins.

Minéraux et eau.

37. Une inscription de soldat ne donne aucun droit au sel, à la houille, le pétrole, le gaz naturel, l'or, l'argent, le cuivre, le fer, ou autres minéraux dans ou sous le terrain couvert par telle inscription, ni propriété ou intérêts exclusifs ou autres, ni droit ou privilège exclusifs en rapport avec un lac quelconque, une rivière, une source, un ruisseau ou autre cours d'eau dans ou bornant ou traversant le terrain couvert par l'inscription.

Terres améliorées.

38. L'inscription pour un terrain sur lequel des améliorations ont été faites ne peut être accordée que sur paiement par l'inscrit de la valeur de telles améliorations, ainsi que déterminée par la Commission. Si l'inscrit ne paie pas cette valeur, l'inscription peut être annulée.

Grain de semence et autres charges.

39. L'inscription pour un terrain grevé d'une charge en faveur de la Couronne ne peut être accordée que sur paiement de telle dette par l'inscrit.

Réserve pour chemins.

40. Toute inscription de soldat peut être accordée subordonnément aux droits de la province de prendre sans compensation, en tout temps avant l'émission des lettres patentes, tout terrain qui peut être requis pour des chemins, mais n'excédant pas quatre acres dans un même quart de section.

Inscription pour seul bénéfice du colon.

41. Toute inscription sera pour le seul usage et bénéfice de celui qui l'obtient et non pour l'usage ou le bénéfice d'une autre personne ou d'autres personnes quelconques.

Déclaration quant aux obligations.

42. La Commission, s'il est jugé nécessaire, peut exiger qu'un inscrit pour un homestead de soldat fournisse la preuve, par déclaration ou autrement, qu'il remplit ses obligations d'établissement dans chaque année qui suit la date de son inscription.

Nulle compensation pour bois.

43. Un quart de section de terrain sur lequel ne se trouve pas plus que 25 acres de "bois marchand," mais sur lequel se trouve plus que 25 acres de bois de chauffage ou de bois dont on peut faire des poteaux de clôture, n'est pas ouvert à l'inscription, à moins que l'inscription ne soit accordée à la condition qu'elle sera sujette à l'émission de permis sur le reste du quart de section après que l'inscrit aura choisi, sujet à approbation, vingt-cinq acres pour son propre usage.

Terrains requis pour eau, etc.

44. Si après qu'une inscription a été obtenue on constate que le terrain ou une partie du terrain concédé est nécessaire pour la protection de sources d'approvisionnement d'eau ou pour l'établissement ou la construction d'usines nécessaires au développement de l'énergie hydraulique, la commission peut en tout temps avant l'émission des lettres patentes annuler l'inscription ou en soustraire toute partie du terrain pour lequel elle a été accordée, mais lorsque le terrain est requis pour l'emplacement ou la construction d'usines nécessaires au développement de l'énergie hydraulique, en autant seulement que le terrain est nécessaire pour cette fin; toutefois, aucune inscription ne sera annulée sous l'empire des dispositions de ce paragraphe avant que l'inscrit ait reçu une compensation pour toutes améliorations qu'il a faites sur le terrain, le chiffre de cette compensation devant être fixé par arbitrage si l'inscrit refuse d'accepter la compensation offerte par la Commission.

OBLIGATIONS D'ÉTABLISSEMENT.

Conditions générales.

Conditions générales.

45. De tout inscrit pour un homestead de soldat il sera exigé, avant l'émission des lettres patentes, sauf ainsi que ci-après prescrit:

(*a*) qu'il ait possédé le fonds pour ses propres compte et avantage exclusifs durant trois années;

(*b*) qu'il ait résidé sur le fonds ou dans son voisinage ainsi que ci-dessous prescrit au moins six mois au cours de chacune de trois années à compter de la date de l'inscription ou de la date du commencement de résidence;

(*c*) qu'il ait cultivé chaque année telle étendue de ce fonds que la Commission trouve suffisante;

(*d*) qu'il y ait construit une maison habitable;

(*e*) qu'il ait complètement payé le prêt qui lui a été fait sur ce fonds sous le régime des dispositions des règlements régissant les prêts pour l'établissement de soldats, ainsi que l'intérêt sur ce prêt et autres charges s'il y en a;

(*f*) qu'il soit sujet britannique, sauf ainsi qu'autrement prescrit.

RÉSIDENCE.

Inscription parfaite.

46. Tout inscrit sera requis de remplir les conditions de son inscription dans les six mois de la date de telle inscription en prenant possession du terrain en personne et en y établissant sa résidence; si les conditions de l'inscription ne sont pas ainsi remplies dans ce délai, elle est sujette à annulation.

Toutefois, la Commission peut prolonger le délai pour compléter l'inscription de six mois additionnels pour cause suffisante.

Résidence.

47. "Résidence" pour les fins des présents règlements sera par le colon en personne sur le terrain pour lequel il s'est inscrit ou dans le voisinage du terrain ainsi que ci-dessus prescrit. Cette résidence sera dans une maison qui est le véritable domicile du colon pendant telle période de résidence. Ne sera pas acceptée la résidence par un membre de la famille du colon ou par toute autre personne comme fondé de pouvoirs.

Voisinage.

48. L'inscrit peut remplir ses obligations de résidence en résidant sur une ferme d'une étendue d'au moins 80 acres située à une distance d'au plus neuf milles de son homestead en ligne directe (à l'exclusion de la largeur des réserves pour chemins rencontrées dans le mesurage):

(*a*) s'il est le seul propriétaire de telle ferme;

(*b*) si cette ferme lui appartient par inscription de homestead ou autrement sous le régime des dispositions de la Loi des terres fédérales;

(*c*) si cette ferme appartient exclusivement au père, à la mère, l'épouse, le mari, le fils, les filles, le frère ou la sœur de l'inscrit et est occupée par lui ou par elle, ou si elle est possédée et occupée par tel parent sous le régime des dispositions de la Loi des terres fédérales ou des présents règlements.

Résidence concurrente ne compte pas.

49. Nulle période de résidence que réclame un colon pour obtenir la patente d'un terrain qu'il occupe sous l'empire de la Loi des terres fédérales ne peut en même temps être comptée comme résidence en rapport avec sa concession de soldat.

CULTURE.

Si le colon réside sur le homestead.

50. Lorsqu'un colon réside sur le terrain pour lequel il s'est inscrit sous le régime des présents règlements il doit mettre en culture un total d'au moins trente acres de ce terrain, dont vingt acres doivent être récoltés.

Si résidence ailleurs.

51. Si la résidence du colon est ailleurs ainsi que prescrit il doit mettre en culture au moins cinquante acres, dont trente doivent être récoltés.

La mise en culture d'une étendue raisonnable est requise durant chaque année.

Terrains pierreux et boisés.

52. Lorsqu'en raison de la nature du terrain les conditions relatives à la culture sembleraient excessives, la Commission peut réduire l'étendue du terrain à cultiver, après que ce terrain a été inspecté par un des fonctionnaires de la Commission.

BÉTAIL.

Bétail.

53. Lorsque le homestead ne convient pas à la culture mais est propre à l'élevage du bétail, la Commission, sur demande de l'inscrit et après inspection du terrain, peut permettre à l'inscrit de substituer l'élevage du bétail à la culture.

L'inscrit qui a obtenu le privilège de substituer l'élevage du bétail à la culture devra garder sur le terrain dans chacune des trois années, soit pour le pâturage d'été ou pour l'alimentation en hiver, le bétail suivant qui doit lui appartenir exclusivement:

(*a*) la première année, cinq têtes;

(*b*) la deuxième année, dix têtes;

(*c*) la troisième année, et chaque année subséquente jusqu'à ce qu'il obtienne la patente, seize têtes.

L'inscrit qui élève ainsi du bétail devra entourer tout le terrain d'une clôture solide à la satisfaction de la Commission.

Bâtiments pour bétail.

54. Des bâtiments convenables pour l'accommodation du nombre de bestiaux qu'a le colon en toute année seront érigés sur le homestead, mais si les conditions de résidence sont remplies conformément aux dispositions relatives aux homesteads voisins, ces bâtiments peuvent se trouver sur le terrain où réside le colon.

INSCRITS DÉCÉDÉS.

Représentant légal peut remplir conditions.

55. Advenant le décès d'une personne inscrite sous le régime des présents règlements avant le parfait accomplissement des conditions nécessaires à l'obtention des lettres patentes, les obligations de résidence seront suspendues. Les conditions autres que la résidence et la naturalisation seront remplies par le représentant légal de l'inscrit décédé.

Inscriptions incomplètes.

56. Si l'inscrit meurt avant le parfait accomplissement des conditions de l'inscription de la manière prescrite par les présents règlements, son inscription peut être annulée. Toutefois, si l'assurance satisfaisante est donnée que la succession sera administrée et que les prescriptions des règlements seront observées, la Commission peut prolonger le délai pour remplir les conditions d'inscription.

INSCRITS ALIÉNÉS.

Inscrits aliénés.

57. Si un inscrit devient aliéné ou mentalement incapable et, pour cause de cette aliénation ou incapacité mentale, dans l'impossibilité d'achever de remplir les conditions nécessaires pour obtenir les lettres patentes, les obligations de résidence et de naturalisation seront suspendues. Les conditions autres que celles de la résidence peuvent être remplies par le curateur ou le curateur aux biens de l'inscrit ou par quiconque, à la mort de ce dernier, aurait été son représentant légal.

LETTRES PATENTES.

Preuve de l'accomplissement des obligations.

58. Après que l'inscrit a rempli les conditions d'établissement ci-dessus prescrites il peut en présenter la preuve. Cette preuve sera sous forme de déclaration sous serment par l'inscrit, corroborée par une déclaration sous serment de deux personnes désintéressées résidant dans le voisinage.

La déclaration de l'inscrit et de ses témoins sera faite devant un fonctionnaire dûment autorisé par la Commission à recevoir telle preuve.

Inscrits décédés et aliénés.

59. Advenant le décès d'un inscrit, ou dans le cas où un inscrit devient aliéné ou mentalement incapable, la preuve de l'accomplissement des conditions de la concession sera faite par telle personne ou telles personnes et de telle manière que la Commission jugera satisfaisante.

Perte de droits à défaut de preuve.

60. Si la preuve de l'accomplissement des conditions d'inscription n'a pas été fournie, ainsi que prescrit, dans les cinq ans de la date de l'inscription, le droit de l'inscrit en rapport avec le homestead est sujet à déchéance sur l'ordre de la Commission.

Lettres patentes.

61. Si la preuve de l'accomplissement des conditions d'inscription a été soumise ainsi que prescrit, et que la Commission est satisfaite de cette preuve, la Commission s'il n'y a aucune charge sur le terrain pour un prêt fait sous le régime des règlements régissant les prêts pour l'établissement des soldats, recommandera l'émission de la

patente à l'inscrit, ou au cas du décès de l'inscrit, à son représentant légal, ou au nom du défunt lui-même, si la loi de la province où le terrain est situé ne pourvoit pas à la nomination d'un représentant personnel.

Patente émise qu'après remboursement du prêt.

62. Si la preuve de l'accomplissement des conditions d'établissement a été acceptée par la Commission, mais qu'il y a une charge sur le terrain pour des avances faites sous l'empire de la loi, la Commission retardera l'émission de la patente jusqu'à ce que le terrain ait été dégrevé de cette charge.

Certificat quant à la preuve.

63. Dans les cas mentionnés dans l'article précédent l'inscrit, ou au cas de son décès la personne qui aurait droit de recevoir la patente si toutes les conditions avaient été remplies, peut recevoir un certificat de la Commission déclarant que les conditions d'établissement ont été remplies et que sur paiement de la dette contractée sous le régime de la loi les lettres patentes seront délivrées à la personne qui a droit de les recevoir conformément aux présents règlements.

ÉCHANGE D'INSCRIPTIONS.

Quand deux colons peuvent échanger.

64. Deux inscrits quelconques dont les inscriptions sont en règle peuvent pour cause obtenir de la Commission la permission d'échanger leurs inscriptions respectives pourvu que la Commission soit satisfaite que la garantie donnée par un colon qui a obtenu un prêt sous le régime de la loi n'est pas diminuée par cet échange.

ABANDON DE L'INSCRIPTION.

Abandon et réinscription.

65. A la discrétion de la Commission, permission peut être accordée à l'inscrit d'abandonner le terrain pour lequel il s'est inscrit en faisant une déclaration en la forme prescrite par la Commission et il peut lui être permis de s'inscrire pour un autre terrain disponible pour cette fin.

En cas de prêt.

66. Lorsque l'inscrit, ayant obtenu un prêt de la Commission, a créé sur le homestead une charge ou un lien qui n'a pas été acquitté, le privilège d'abandon et de réinscription ne peut être accordé qu'à condition que la dette soit transférée au terrain pour lequel la nouvelle inscription est faite et seulement lorsque la Commission est satisfaite que la garantie du prêt ne sera pas diminuée par la transaction.

Abandon en faveur d'un parent.

67. Lorsqu'une inscription est en règle l'inscrit peut à la discrétion de la Commission obtenir la permission d'abandonner son homestead en faveur d'un père, une mère, une sœur, une fille, un frère, une épouse, ou un mari qui est qualifié pour l'inscription de soldat sous le régime des présents règlements, aux conditions que la Commission peut prescrire.

ANNULATION DE L'INSCRIPTION.

Raisons pour annulation.

68. Une inscription peut être annulée pour une des raisons suivantes:—

(*a*) Si l'inscrit en une année quelconque ne remplit pas les conditions d'établissement prescrites;

(*b*) Si une inscription a été obtenue ou accordée par erreur, ou sous de fausses représentations ou par fraude;

(*c*) Si un inscrit qui a obtenu un prêt de la Commission d'établissement de soldats ne paie pas les versements sur le principal et l'intérêt aux dates où ils sont payables, ou ne se conforme pas aux conditions du prêt;

(*d*) Si l'inscrit ne paie pas les améliorations ou les charges sur le terrain en rapport avec le grain de semence ou les secours accordés, ou autre dette d'un inscrit ou d'un propriétaire précédent du terrain;

(*e*) Si l'inscrit a cédé, hypothéqué ou transféré, ou s'il a consenti à céder, hypothéquer ou transférer son homestead, à moins qu'il ne soit autrement prescrit.

Effet de l'annulation.

69. Lorsqu'une inscription a été annulée pour une raison quelconque, tous les droits de l'inscrit sur son homestead cessent et se terminent dès lors; mais la Commission peut à sa discrétion rembourser à la personne qui a fait les améliorations, en tout ou en partie, l'argent reçu à compte de telles améliorations de celui qui possède ou occupe subséquemment le terrain.

ADMINISTRATION.

70. En ce qui concerne les règlements ci-dessus qui ont rapport à la mise en réserve des terrains, à l'annulation de ces réserves, aux catégories de terrains ouverts à l'inscription, à l'annonce ou l'affichage, aux inscriptions, au règlement des conflits dans les demandes de terrain, à l'accomplissement des conditions d'inscription, à la preuve de l'accomplissement de ces conditions, à l'émission des lettres patentes, à l'échange des inscriptions, à l'abandon des inscriptions soit sans conditions ou en faveur d'un parent, et à l'annulation des inscriptions, partout où il est prescrit que la Commission doit agir, elle le fera par l'entremise du département de l'Intérieur.

DATE DE LA MISE EN VIGUEUR.

71. Les présents règlements entreront en vigueur à une date qui sera fixée par la Commission.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU qu'il a été représenté que l'état de la récolte dans le sud et l'ouest de la Saskatchewan et dans le sud et une grande partie du centre de l'Alberta est excessivement critique à cause de la sècheresse continue;

Et attendu que la situation devient très sérieuse en ce qui concerne l'alimentation du bétail, particulièrement pour l'hiver prochain;

Et attendu qu'en vue de ce fait il est jugé opportun et d'intérêt public qu'il soit immédiatement défendu de brûler les meules de paille restant de la moisson de l'an dernier dans les provinces de Manitoba, Saskatchewan et Alberta, aussi bien que la paille de la récolte de cette année dans ces provinces.

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre suppléant de l'Agriculture et en vertu de la *Loi des mesures de guerre, 1914*, de décréter qu'il soit défendu de brûler toute paille ou toutes meules de paille dans les provinces de Manitoba, Saskatchewan et Alberta, ce qui est par les présentes défendu de la date du présent arrêté.

Le présent arrêté sera publié deux fois dans la *Gazette du Canada*.

HOTEL DU GOUVERNEMENT A OTTAWA.

Jeudi, le 2e jour de juillet 1918.

PRESENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre du Service Naval, daté le 6e jour de juin 1918, représentant que les fonctionnaires techniques du département du Service Naval ont fait rapport qu'il est désirable que soit périodiquement augmentée la solde dans les divers grades de la Marine Royale Canadienne, selon la méthode approuvée dans la Marine Royale; aussi qu'une solde progressive soit payée aux officiers de la Réserve Volontaire de la Marine Royale Canadienne après la même période de service que dans les mêmes grades de la Marine Royale Canadienne, alléguant que lorsque furent institués les divers grades dans la Réserve Volontaire de la Marine Royale Canadienne l'échelle de solde n'a été basée que sur la promotion.

Les fonctionnaires techniques représentent de plus que de légères augmentations de la solde des sous-officiers et l'institution de plusieurs nouvelles clauses de sous-officiers sont considérées désirables. Tous les marins reçoivent actuellement la même solde que les soldats du corps expéditionnaire canadien, et il est désirable, par conséquent, d'accorder ces légères augmentations aux sous-officiers afin que la solde soit raisonnablement plus élevée pour un matelot promu au grade de sous-officier.

Le ministre, agréant ces suggestions des fonctionnaires techniques du département du Service Naval, recommande que l'échelle de solde suivante soit autorisée à partir du 1er juillet 1918:

Branche militaire.

(NOTA—L'allocation au taux de $300.00 par année payable en vertu des présents règlements aux chirurgiens, M.R.C., sera retranchée de la date à laquelle l'officier commence à toucher la solde de chirurgien d'état-major ainsi qu'autorisée ci-haut.)

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

IL plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre des Douanes et du Revenu de l'Intérieur, et en vertu des dispositions de la *Loi des falsifications*, chapitre 133 des Statuts revisés du Canada, 1906, d'établir par les présentes les types de qualité suivants pour les poudres-levains à pâtisserie.

1. La poudre-levain est essentiellement un mélange de bicarbonate de soude avec un acide, soit libre soit

en combinaison avec un sel acide, ainsi qu'avec de l'amidon ou autre matière neutre. Elle est destinée à être employée comme levain dans la pâtisserie ; l'agent de fermentation est le gaz acide carbonique dégagé par l'action réciproque de la matière acide et du bicarbonate de soude sous les conditions de la cuisson.

2. Les composés contenant du sulfate d'alumine, comme un sel double avec un sulfate d'alcali, seront désignés comme aluns, soit alun de potassium, alun de sodium, alun d'ammonium, selon le cas.

3. La poudre-levain doit pouvoir dégager dix (10) pour cent de son poids de sous-oxyde de carbone au traitement décrit et recommandé dans le bulletin n° 360 du département du Revenu de l'Intérieur (série du laboratoire).

Vendredi, le 19e jonr de juillet 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre du Travail, daté le 19 juillet 1918, représentant que dans nombre de cas, particulièrement dans certaines industries, les dispositions de la *Loi des enquêtes en matière de différends industriels, 1917*, prescrivant qu'il est illégal pour un patron de déclarer ou causer une contre-grève ou pour un employé de se mettre en grève au sujet d'un différend avant que ce dernier soit soumis à un conseil de conciliation et d'enquête sous le régime des dispositions de cette loi, ont été complètement ignorés par l'un ou l'autre des intéressés au différend. Récemment cette attitude a été plus fréquemment prise et le chômage en est résulté dans des industries essentielles, ce qui aurait pu être évité, et l'aurait probablement été, si les prescriptions de ladite loi eussent été observées.

Le Ministre représente de plus que depuis la promulgation de cette loi le Gouvernement fédéral n'a pas intenté de poursuite pour infraction de ces prescriptions, ni de telles poursuites ont-elles été intentées, sauf en quelques cas, par des particuliers. Le Ministre est convaincu que si le Gouvernement fédéral appliquait les dispositions de cette loi il en augmenterait l'efficacité pour le meilleur intérêt du public.

Le Ministre est de plus d'avis que le fait pour le Gouvernement d'annoncer que des mesures immédiates seront prises dans ce but tendrait à empêcher l'interruption du travail et à prévenir les maux qui en résultent.

Par conséquent, le Ministre recommande que le Gouvernement prenne immédiatement telles mesures qui peuvent être nécessaires pour assurer des poursuites immédiates dans tous les cas d'infraction des prescriptions de ladite loi.

Le comité agrée cette recommandation et la soumet pour approbation.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que par l'arrêté en conseil (C.P. 2731), daté le 3 octobre 1917, promulgué sous le régime de la *Loi des mesures de guerre*, le Secrétaire d'Etat du Canada a été autorisé à accorder une licence aux agences canadiennes de "Thomas Cook & Son," de Londres, Angleterre, leur permettant de transmettre aux sujets de pays alliés ou neutres en territoire occupé par l'ennemi, pour leur soutien, toute somme n'excédant pas vingt-cinq livres sterling par mois dans le cas d'une seule transaction, et que le 24e jour de janvier 1918 a été adopté un arrêté en conseil (C.P. 199), autorisant le Secrétaire d'Etat à accorder des permis en vertu desquels pourraient être faits à des personnes, firmes ou corporations résidant ou exerçant leur industrie en Canada et dans des pays alliés ou neutres des paiements de sommes destinées aux ennemis, ainsi que définir par le code des Ordonnances concernant le commerce avec l'ennemi, et pourraient se faire telles transactions financières opportunes et nécessaires pour la protection de la propriété située en Canada ou des valeurs qui y sont détenues;

Et attendu que le développement de la guerre et le changement des conditions en Russie exigent que des mesures soient prises pour accorder des permis généraux pour la transmission d'argent aux pays ennemis et au territoire occupé par l'ennemi, afin de permettre à des personnes résidant en Canada d'entrer en communication avec des personnes en territoire occupé par l'ennemi, et afin d'autoriser le paiement en Canada de sommes au bénéfice d'un ennemi,—

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Secrétaire d'Etat et en vertu des dispositions de la *Loi des mesures de guerre, 1914*, d'autoriser par les présentes le Secrétaire d'Etat du Canada à accorder des permis autorisant la transmission d'argent à des ennemis, alliés et neutres en territoire ennemi ou occupé par l'ennemi, d'autoriser les communications avec des ennemis ou des personnes en territoire ennemi ou occupé par l'ennemi, d'autoriser la dépense d'argent en Canada au nom ou au bénéfice d'ennemis ou de personnes en territoire occupé par l'ennemi, et de faire telles transactions financières qui peuvent être opportunes et nécessaires pour protéger la propriété située en Canada ou les valeurs qui y sont détenues ;

Et il plaît de plus à Son Excellence le Gouverneur général en conseil de décréter par les présentes que les arrêtés en conseil susdit du 3 octobre 1917 (C.P. 2731) et du 24 janvier 1918 (C.P. 199) soient par les présentes révoqués, pourvu, toutefois, que telle révocation desdits arrêtés en conseil n'affecte pas :

(*a*) L'application antérieure des arrêtés ainsi révoqués ou ce qui a été dûment fait ou affecté par ces arrêtés ;

(*b*) Un droit ou privilège acquis ou une obligation quelconque contractée sous le régime des dits arrêtés ;

(*c*) Une amende, déchéance ou peine quelconque encourue pour une infraction des dits arrêtés ; ou

(*d*) Les poursuites ou recours quant à un droit ou privilège, une obligation, amende, déchéance ou peine susdits ;

Et toute permission ou instruction donnée ou prescription faite ou mesure prise en vertu des dits règlements ainsi révoqués seront censées avoir été donnée, faite ou prise sous l'empire du présent arrêté.

Jeudi, le 11e jour de juillet 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité de Conseil privé a été soumis un rapport du ministre du Travail, daté le 9 juillet 1918, représentant que le malaise industriel est devenu plus général au cours des quelques derniers mois, causant une interruption sérieuse dans certaines branches des industries travaillant pour les fins de la guerre, et qu'il semble que ce malaise se propagera à moins que ne soient faits des efforts efficaces pour l'enrayer. Ce malaise est dû à diverses causes; comme la rareté de la main-d'œuvre, la cherté rapidement croissante de la vie, le refus des patrons de reconnaître à leurs ouvriers le droit de s'associer ou de les rencontrer en conférence pour discuter leurs demandes de meilleures conditions ou négocier le règlement des différents, le fait que les ouvriers ignorent les prescriptions de la *Loi des différents nidustriels* et ont trop vite recours aux procédé rigoureux avant d'épuiser tous les efforts raisonnables pour atteindre un règlement satisfaisant. L'insuffisance des salaires et la longueur de la journée de travail sont aussi des causes fréquentes de ce malaise.

Le Ministre, réalisant la nécessité d'un travail continue et de la coopération étroite et sympathique entre les employés et les patrons pour assurer les meilleurs résultats possibles de l'effort de la guerre, est d'avis que le Gouvernement devrait immédiatement prendre tous les moyens qui peuvent sembler pratiques pour empêcher toute interruption de travail pendant la guerre, qu'elle soit causée par des grèves ou des contre-grèves (lockouts), et établir une telle coopération, et en même temps s'efforcer d'assurer à l'ouvrier une compensation adéquate de son travail et des sauvegardes raisonnables de sa santé et sa sûreté, et au patron un traitement juste et raisonnable.

Le Ministre est de plus d'avis qu'une déclaration par le Gouvernement d'une politique ouvrière de guerre, juste et équitable pour tous les intéressés, régissant les patrons et les ouvriers dans toutes les industries engagées dans le travail de guerre et comprenant toutes celles mentionnées dans la *Loi des enquêtes en matière de différends industriels* (sauf les chemins de fer), et les modifications qui y ont été faites par le parlement ou par arrêté en conseil, pour la durée de la guerre, contribuerait efficacement à atteindre ce but.

Par conséquent, le Ministre recommande que le Gouverneur en conseil déclare les principes suivants et exhorte les patrons et les ouvriers à les adopter pour la durée de la guerre :

1. La suppression des grèves et des contre-grèves (lockouts) au cours de la guerre.
2. Le droit pour les ouvriers de s'organiser en unions ouvrières, droit qui ne doit être nié ou enfreint d'aucune manière, et permission et encouragement aux ouvriers de traiter avec les patrons, par l'entremise de leurs représentants, concernant les conditions de travail, les salaires ou les griefs.
3. Le droit pour les patrons de s'organiser en associations, droit qui ne doit être nié ni enfreint de manière quelconque par les ouvriers.
4. Les patrons ne doivent pas congédier les ouvriers ou leur refuser de l'emploi pour la seule raison qu'ils sont membres d'unions ouvrières ou s'occupent activement hors des heures de travail de l'œuvre légitime de l'unionisme ouvrier.
5. Les ouvriers dans l'exercice de leurs droits de s'organiser s'abstiendront de toute contrainte ou intimidation pour influencer une personne quelconque à se joindre à leur union ou les patrons à traiter avec elle.
6. Les établissements où l'union est reconnue par une convention continueront à maintenir le système de l'union quant aux gages, aux heures de travail et autres conditions d'emploi.
7. Dans les établissements où des hommes et des femmes n'appartenant pas à l'union travaillent ensemble, et où le patron ne rencontre que les employés ou leurs représentants travaillant dans ces

établissements, le maintien de telles conditions ne sera pas censé être un grief.

Cette déclaration, toutefois, n'a pas pour but de nier le droit ou décourager la pratique de former des unions ouvrières ou de s'y joindre pour les ouvriers de ces établissements, ni d'empêcher un conseil de conciliation ou autre corps ou arbitre de recommander des améliorations en ce qui concerne les salaires, les heures de travail ou autres conditions, ainsi qu'on pourra juger opportun de temps à autre.

8. Le maintien de sauvegardes et de règlements pour la protection de la sante et la sûreté des ouvriers.

9. Tous les travailleurs, y compris les simples journaliers, ont droit à un salaire suffisant pour leur permettre, en pratiquant l'économie, de faire vivre convenablement leurs familles et d'épargner raisonnablement pour leur vieillesse.

10. En fixant les salaires un minimum devrait être établi.

11. Les femmes employées à un travail ordinairement fait par des hommes devraient recevoir le même salaire que les hommes pour la même besogne et ne devraient pas être employées à des tâches excédant leurs forces.

12. Dans tous les cas où la journée de 8 heures est reconnue par la loi ou par une convention, elle continuera ainsi. Dans tous les autres cas, la question des heures de travail devrait être réglée en ayant égard aux exigences gouvernementales et au bien-être, à la santé et au confort des ouvriers.

13. On doit s'efforcer d'atteindre un maximum de production dans toutes les industries et décourager toute méthode de travail et d'exploitation qui tend à retarder ou limiter la production ou à en hausser artificiellement le prix.

14. Afin de mobiliser la main-d'œuvre disposible pour sa répartition rapide et efficace ainsi que pour un travail constant, les gérants et directeurs d'établissements industriels et les unions ouvrières concernées devraient renseigner les bureaux de placement provinciaux ou municipaux et la Commission d'enregistrement quant à la main-d'œuvre requise ou disponible. Ces bureaux devraient avoir toutes les facilités pour la répartition de la main-d'œuvre.

15. En fixant les salaires, les heures et les conditions de travail on devrait tenir compte des salaires et autres conditions dans la la localité affectée, mais en ayant toujours égard à la nécessité du paiement d'un salaire suffisant.

16. Afin d'assurer la paix industrielle pendant la guerre les patrons et les ouvriers devraient, après avoir adopté une convention quant aux salaires et aux conditions de travail, consentir à sa continuation durant la guerre, sauf les modifications dans les salaires que pourraient justifier les fluctuations du coût de la vie.

17. Quand les patrons et les ouvriers ne peuvent en venir à une entente mutuelle concernant un différend ils devraient, à moins qu'ils n'adoptent un autre moyen de règlement, utiliser les moyens que leur donne la *Loi des différends industriels* afin d'assurer un règlement.

Si la recommandation du conseil de conciliation n'est pas acceptée, une ou l'autre des parties peut en appeler à un conseil d'appel qui revisera les décisions du conseil de conciliation et entendra toute déposition que l'une ou l'autre des parties au différend peut désirer faire à ses propres frais, la décision du conseil d'appel devant être finale.

Tout règlement d'un différend soumis au conseil d'appel entrera en vigueur dès la date où a été faite la demande au conseil de conciliation.

Le conseil d'appel sera composé de deux représentants des ouvriers nommés par le comité exécutif du Congrès des Métiers et du Travail du Canada, deux représentants des patrons nommés par le comité exécutif de l'Association des patrons du Canada, et un président nommé par les dits membres du conseil, ou, au cas où l'on ne pourrait s'entendre sur le choix d'un président, par le ministre du Travail.

Le Ministre recommande de plus que le ministre du Travail soit autorisé à faire des règlements régissant la procédure en appel sous le régime du paragraphe 17 des présentes recommandations.

Le comité agrée les recommandations qui précèdent et les soumet à l'approbation de Votre Excellence.

RODOLPHE BOUDREAU,
4–2 Greffier du Conseil privé.

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que le Président des Etats-Unis, le 14 février 1918, a promulgué une proclamation exigeant une licence d'importation pour tous les articles importés de tous les pays, dont le but principal était de permettre au gouvernement des Etats-Unis d'éliminer les importations moins sssentielles afin de conserver le tonnage et de procurer des moyens de transport additionnels pour les troupes et les approvisionnements à destination d'Europe, et afin que la marine marchande puisse contribuer plus efficacement à la poursuite de la guerre :

Et attendu que le 20 février 1918 a été émise une licence générale permettant, sans permis individuels d'importation, l'importation du Canada de toutes commodités, excepté celles mentionnées dans la proclamation du Président du 28 novembre 1917, cette licence devant être efficace jusqu'à sa révocation par le Bureau des importations de la Commission du Commerce de guerre des Etats-Unis ;

Et attendu que la Commission du Commerce de guerre des Etats-Unis représente que des importateurs échappent de temps à autre aux prescriptions de cette proclamation en important des articles sujets à restriction aux Etats-Unis de pays étrangers par le territoire canadien, et que par l'application efficace des prescriptions de ladite proclamation et pour en atteindre le but il est désirable et nécessaire que le Canada contrôle par licence l'importation des articles sur lesquels les Etats-Unis exercent aussi un contrôle par licence sous l'empire et en vertu de ladite proclamation du Président des Etats-Unis ;

Et attendu qu'il est désirable que le Gouvernement du Canada coopère autant que possible avec le gouvernement des Etats-Unis dans le contrôle des importations afin d'atteind e le but déclaré dans ladite proclamation du Président des Etats-Unis,—

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommantion du ministre des Finances, de décréter par les présentes que l'importation au Canada de tous les articles contenus dans les listes Nos 1 et 2 promulguées par les Etats-Unis et compris dans le tableau ci-annexé soit par les présentes prohibée, sauf sur une licence approuvée par la Commission du Commerce de guerre.

DEMANDES AU PARLEMENT.

SENAT.

SUBSTANCES DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

Telles que revisées et mises en vigueur le 22 mars 1916.

Tout pétitionnaire en divorce doit annoncer son intention de demander un bill de divorce, par un avis spécifiant contre qui et pour quelle cause le divorce sera demandé; il fait insérer cet avis, pendant trois mois au moins avant la prise en considération par le comité des divorces de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux—du district où il avait sa résidence habituelle à l'époque de sa séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Saskatchewan, l'Alberta, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; et à défaut de ce nombre de journaux, l'avis doit se publier dans le district, dans le comté ou les comtés-unis voisins.

Dans les provinces de Québec et du Manitoba, les insertions doivent se faire dans un journal anglais et un journal français, s'il en existe des deux langues dans le district; autrement, elles se font en anglais et en français au même journal. Si l'avis donné pour une session expire trop tard pour qu'il puisse être statué sur la pétition pendant cette session, la pétition pourra être présentée et accueillie à la session suivante sans nouvelle publication d'avis.

Une copie de cet avis et une copie de la pétition qui sera présentée doit, à la diligence du pétitionnaire et au moins deux mois avant la prise en considération de la pétition par le comité, être signifiée en main propre si cela est possible, à la personne contre laquelle le divorce sera demandé, ci-après appelée "partie défenderesse".

Si la résidence de la partie défenderesse n'est pas connue, ou que la remise de l'avis ne peut être faite en ses mains, s'il est prouvé, d'une manière jugée satisfaisante par le comité, que tous les efforts raisonnables ont été faits pour opérer la signification en main propre, et, en cas d'inutilité de ces efforts, pour porter l'avis et la pétition à la connaissance de la partie défenderesse, ces diligences peuvent être tenues pour une suffisante notification.

Aucune pétition en divorce n'est recevable après l'expiration des soixante premiers jours de la session.

Toute pétition en divorce doit être écrite lisiblement et porter la signature du pétitionnaire. Elle énonce sommairement le fait du mariage, en indiquant les noms au long, l'âge et l'état des parties, en quel temps, en quel lieu et par qui a été faite la célébration; le domicile et la résidence de chacune des parties à l'époque du mariage, leur domicile conjugal, leur résidence et tout changement qui en aurait eu lieu; les traits essentiels sur lesquels est fondée la demande de redressement et la nature du redressement demandé.

La pétition doit aussi contenir l'assurance qu'il n'y a pas eu ni connivence, ni pardon pour les torts qui donnent lieu à la plainte, ni collusion dans la demande en divorce.

Les allégations de la pétition doivent être appuyées d'une déclaration du pétitionnaire, faite conformément à l'*Acte de la preuve en Canada, 1893*.

La copie de la pétition signifiée à la partie défenderesse portera en endos ou en annexe les renseignements suivants:

(*1*) La résidence du étitionnaire à l'époque de la signification.

(*2*) Une adresse postale en Canada à laquelle les lettres et avis pour le pétitionnaire puissent être délivrés.

(*3*) Le nom et l'adresse de l'avocat, s'il y en a un, agissant pour le pétitionnaire.

(*4*) Si cet avocat n'a pas d'adresse à Ottawa, le nom et l'adresse de quelque agent le représentant à Ottawa à qui tous avis et pièces puissent être signifiés.

(*5*) Si la partie défenderesse veut s'opposer à la demande en divorce et être entendue par le comité des divorces du Sénat, elle doit adresser un avis à cet effet au greffier du Sénat aux édifices du Parlement, Ottawa, dans les deux mois de la signification faite à la partie défenderesse et donner dans cet avis au greffier du Sénat:

(*a*) La résidence de la partie défenderesse à l'époque de l'envoi de l'avis.

(*b*) Une adresse postale en Canada à laquelle les lettres et avis pour la partie défenderesse puissent être délivrés.

(*c*) Le nom et l'adresse de l'avocat, s'il y en a un agissant pour la partie défenderesse.

(*d*) Si cet avocat n'a pas d'adresse à Ottawa, le nom et l'adresse de quelque agent le représentant à Ottawa, à qui tous avis et pièces puissent être signifiés.

(*6*) Si la partie défenderesse ne notifie pas ainsi le greffier du Sénat, la pétition peut être prise en considération, et un bill de divorce basé sur cette pétition peut suivre son cours sans autre avis à la partie défenderesse.

(7) Lorsque la pétition est présentée par un mari pour obtenir le divorce contre sa femme, si celle-ci fait voir au comité d'une manière satisfaisante qu'elle peut opposer et qu'elle est prête à produire sous serment de bons moyens de défense contre les accusations portées dans la pétition, et qu'elle n'a pas l'argent nécessaire pour faire valoir ces moyens, le comité peut rendre un ordre que son mari ait à lui fournir la somme nécessaire pour qu'elle puisse présenter sa défense en retenant les services d'un conseil, payer ses frais de voyage et de séjour et ceux des témoins assignés de sa part à Ottawa.

La pétition en obtention d'un bill de divorce n'est prise en considération par le comité que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $210.

La pétition, au moment de sa présentation au Sénat doit être accompagnée de la preuve de la publication d'avis et d'une déclaration établissant qu'une copie de l'avis de la pétition a été signifiée.

Une copie de toute pétition en obtention d'un bill de divorce, ou relative à quelque demande de divorce,—et une copie de tous documents et papiers accompagnant cette pétition, ou à produire devant le comité, devra être fournie par la personne au nom de laquelle la pétition, les documents ou les papiers seront présentés ou produits.

A. E. BLOUNT,
Greffier du Sénat.

SENAT.

Avis de bills privés.

EXTRAIT DES RÈGLES DU SÉNAT.

107. Toute demande au Parlement, pour obtenir un bill privé, de quelque nature qu'il soit, doit être annoncée par avis inséré à la *Gazette du Canada;* cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et contenir l'adresse des signataires; et si elle a pour objet l'obtention d'un acte constitutif, il faut donner aussi dans l'avis le nom de la compagnie projetée.

Outre l'avis à insérer dans la *Gazette du Canada*, il doit en être publié un semblable, comme il suit:—

A) Lorsque la demande a pour objet l'obtention d'un acte constituant en corporation,—

1. Une *compagnie de chemin de fer ou de canal*, —dans un des principaux journaux de la principale cité ou ville ou le principal village de chaque comté ou district par où passerait le chemin de fer ou le canal dont la construction est projetée;

2. Une *compagnie de télégraphe ou de téléphone*, —dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire où elle se propose d'opérer;

3. Une *compagnie pour la confection de travaux quelconques*, dont la confection ou l'exploitation intéresserait spécialement telle localité particulière; ou une compagnie tendant à obtenir des droits ou privilèges exclusifs, ou l'autorisation de faire une chose dont l'opération pourrait porter atteinte aux droits ou à la propriété d'autrui,—dans un des principaux journaux de l'endroit ou des endroits que l'acte demandé intéresse;

4. Une *compagnie de banque;* une *compagnie d'assurance;* une *compagnie de crédit;* une *compagnie de prêt;* ou une *compagnie industrielle*, sans pouvoirs exclusifs,—dans la *Gazette du Canada* seulement.

5. Et si les travaux d'une compagnie (constituée ou à constituer) doivent être déclarés d'utilité générale pour le Canada, cette intention sera spécifiquement mentionnée dans l'avis; et les requérants feront envoyer par lettre enregistrée une copie de cet avis au secrétaire de chaque conseil de comté et de chaque corporation municipale spécialement intéressée dans la construction ou l'exploitation de ces travaux, ainsi qu'au secrétaire de la province dans laquelle ces travaux sont ou seront situés; et la preuve de l'accomplissement de cette prescription par les requérants devra s'établir par une déclaration statutaire.

B) Lorsque la demande a pour objet de modifier un acte existant,—

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient, l'avis sera le même, *mutatis mutandis*, que celui pour l'obtention d'un acte constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la confection ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres travaux quelconques déjà autorisés,—dans un des principaux journaux de l'endroit où la compagnie a son siège ou est autorisée à avoir son siège;

3. Afin d'étendre les pouvoirs d'une compagnie (sans attribution de pouvoirs exclusifs); d'accroître ou de réduire le capital-actions d'une compagnie, ou d'augmenter ou modifier sa faculté d'émettre des obligations ou de faire des emprunts, ou d'effectuer des changements pouvant porter atteinte aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie,—dans un des principaux journaux du lieu de la situation de son siège.

C) Dans tous ces cas, les avis insérés soit à la *Gazette du Canada* ou dans les journaux, doivent se publier au moins une fois par semaine pendant cinq semaines consécutives; et, lorsqu'ils se publient dans les provinces de Québec et du Manitoba, ils doivent être en langue anglaise et en langue française. Il faut envoyer au greffier du Sénat des exemplaires *marqués* de chaque numéro de tous les journaux contenant l'avis, avec, sur le pli de la feuille, les mots: *"Avis de bill privé"*; ou l'on peut transmettre, au lieu des journaux, une déclaration statutaire que l'avis a été dûment publié.

Tout avis par lettre enregistrée sera déposé à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale cinq semaines au moins avant la considération de la pétition par le comité des Ordres permanents; et une déclaration statutaire établissant le fait du dépôt à la poste sera transmise au greffier du Sénat.

108. Nulle pétition pour la constitution en corporation d'une compagnie de chemin de fer ou d'un canal existant ou autorisé, n'est prise en considération par le comité des Ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé des travaux ainsi que les comtés ou les districts par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement qu'on veut construire.

109. Avant d'adresser au Sénat la pétition pour en obtenir la permission de présenter un bill privé ayant pour objet la construction d'un pont de péage, la ou les personnes qui ont l'intention de faire cette pétition doivent, en donnant l'avis prescrit par les règles précédentes mentionner en même temps et de la même manière, les péages qu'elles se proposent de percevoir, l'étendue du privilège, la hauteur des arches, l'espace libre entre les culées ou les piles pour le passage des trains de bois et des bateaux; en outre, mentionner si le pont sera mobile ou non, et indiquer les dimensions de la partie mobile.

110. Aucune pétition en obtention d'un bill privé n'est reçue par le Sénat après les trois premières semaines de la session; aucun bill privé ne peut lui être présenté après les quatre premières semaines de la session; aucun rapport d'un comité permanent ou spécial sur un bill n'est reçu après les six premières semaines de la session.

114. Toute personne qui voudra obtenir un bill privé, si elle se propose de la présenter au Sénat, devra déposer entre les mains du greffier de cette Chambre, huit jours avant la réunion du Parlement, une copie du bill en langue anglaise ou en langue française avec une somme d'argent suffisante pour en payer la traduction, laquelle sera faite par les traducteurs du Sénat, et payer l'impression de 600 exemplaires anglais et de 200 exemplaires français; elle aura pareillement à verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant la prise en considération par le comité auquel il aura été renvoyé, une somme de $200, avec les frais d'insertion de l'acte au corps des Statuts; et elle remettra au commis-greffier du comité un reçu constatant le versement de ces sommes.

A. E. BLOUNT,
Greffier du Sénat.

CHAMBRE DES COMMUNES.

RÈGLES RELATIVES AUX PÉTITIONS ET AUX BILLS PRIVÉS.

88. (1) Les pétitions pour bills privés ne sont reçues par la Chambre que si elles sont présentées pendant les six premières semaines de la session, Mettout bill privé sera présenté à la Chambre dans les deux semaines à compter de l'époque où l'examinateur ou le comité des ordres permanents auront fait un rapport favorable sur la pétition, et nulle motion à l'effet de suspendre cette règle ne sera acceptée, à moins qu'au préalable le comité des ordres permanents n'ait présenté un rapport recommandant cette suspension et exposant les raisons la motivant.

Instructions aux comités.

97. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être discutées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommendation que ces bills soient retirés.

Dépôt de bills et honoraires.

89. (1) Toute personne qui voudra obtenir un bill privé sera tenu de déposer entre les mains du greffier de la Chambre, au moins huit jours avant la réunion de la Chambre, un exemplaire de ce bill en anglais ou en français, avec une somme suffisante pour en payer la traduction et l'impression, la traduction en devant être faite par les fonctionnaires de la Chambre, et l'impression par le département des impressions publiques, et si pareil bill n'est pas déposé dans le délai ci-dessus prescrit, le solliciteur devra, en sus des frais d'impression et de traduction, payer la somme de cinq dollars pour chaque jour qui s'écoulera entre le dit huitième jour avant la réunion de la Chambre et la date de la présentation du bill; mais ces taxes additionnelles ne devront pas dépasser en totalité la somme de deux cents dollars.

2. Après la deuxième lecture d'un bill et avant son examen par le comité auquel il a été renvoyé, celui qui en fait la demande doit dans tous les cas verser le prix de l'impression de la loi dans les statuts ainsi qu'un droit de deux cents dollar

Taxes supplémentaires

3. Les taxes suivantes seront également imposées et payées, en sus de celles qui précèdent, savoir:—

(*a*) Lorsqu'une règle de la Chambre est suspendue relativement à un bill, ou à la pétition de ce bill pour chaque suspension.....	$100 00
(*b*) Lorsqu'un bill est présenté dans la Chambre après la huitième Semaine de la session et avant la fin de la douzième.....	100 00
(*c*) Lorsqu'un bill est présenté dans la Chambre après la douzième semaine de la session.....	200 00
(*d*) Lorsque le capital social projeté d'une compagnie dépasse $250,000, et n'excède pas $500,000.....	100 00

5. Quand un bill est à l'effet d'augmenter ou tend augmenter pour une compagnie sa faculté d'emprunter sans qu'il y ait augmentation du capital social, le droit additionnel est de $300.

6. Si, à quelque phase d'un bill, il est apporté quelque augmentation au chiffre du capital social projeté d'une compagnie, ou à celui de sa faculté d'emprunter, le bill ne passe pas à la phase subséquente tant que les droits découlant de ce changement n'ont pas été versés.

8. Les taxes supplémentaires prescrites en la présente règle s'appliqueront aussi aux bills privés prenant naissance au Sénat, sauf, toutefois, que si une pétition demandant pareil bill privé a été présentée en cette Chambre dans les six premières semaines de la session, la taxe supplémentaire imposée sous l'empire des alinéas *b* ou *c* de l'article 3, ne sera pas exigée.

W. B. NORTHRUP,
Greffier des Communes.

DESPATCHES, ETC.

[*Extract from the 6th Supplement to* THE LONDON GAZETTE *of the 25th June, 1918.*]

WAR OFFICE,
28th June, 1918.

HIS Majesty the KING has been graciously pleased to approve of the award of the Victoria Cross to the undermentioned officer :

Lt. George Burdon McKean, Can. Inf.

For most conspicuous bravery and devotion to duty during a raid on the enemy's trenches.

Lt. McKean's party which was operating on the right flank, was held up at a block in the communication trench by the most intense fire from hand grenades and machine guns. This block which was too close to our trenches to have been engaged by the preliminary bombardment, was well protected by wire and covered by a well protected machine gun 30 yards behind it. Realising that if this block were not destroyed, the success of the whole operation might be marred he ran into the open to the right flank of the block, and with utter disregard of danger leaped over the block head first on top of the enemy. Whilst lying on the ground on top of one of the enemy, another rushed at him with fixed bayonet ; Lt. McKean shot him through the body and then shot the enemy underneath him, who was struggling violently. This very gallant action enabled this position to be captured. Lt. McKean's supply of bombs ran out at this time, and he sent back to our front line for a fresh supply. Whilst waiting for them he engaged the enemy single-handed.

When the bombs arrived, he fearlessly rushed the second block, killing two of the enemy, captured four others and drove the remaining garrison, including a hostile machine gun section, into a dug-out. The dug-out, with its occupants and machine gun, was destroyed.

This officer's splendid bravery and dash undoubtedly saved many lives, for had not this position been captured, the whole of the raiding party would have been exposed to dangerous enfilading fire during the withdrawal. His leadership at all times has been beyond praise.

[1832]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 19th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 19th July, 1918, from the Minister of Labour, representing that in numerous cases, especially in certain industries, the provisions of The Industrial Disputes Investigation Act, of 1917, making it unlawful for any employer to declare or cause a lockout or for any employee to go on strike, on account of any dispute, prior to or during a reference of such dispute to a Board of Conciliation and Investigation under the provisions of that Act, have been entirely ignored by one or other party to the dispute. Recently this course has been more frequently followed, resulting in cessation of work in essential industries, which might, and in many cases probably would, have been avoided had the provisions of the said Act been observed.

The Minister further observes that the Federal Government has not at any time since the enactment of that statute instituted any legal prosecution for the violation of its provisions, nor have any such been otherwise begun except in a few cases—by private parties. And, the Minister is convinced that should the Federal Government proceed to enforce the said provisions of that Act it would increase its effectiveness in the best interests of the public.

The Minister is further of the opinion that an announcement by the Government that immediate steps to this end will be taken would tend to prevent interruption of work and avert the evils caused thereby.

The Minister, therefore, recommends that such action by the Government as may be necessary to ensure the prompt prosecution of any violation of the provisions of the said Act should be taken forthwith.

The Committee concur in the foregoing recommendation and submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

Thursday, the 18th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by Order in Council (P.C. 2731) dated 3rd October, 1917, issued under the provisions of the War Measures Act, the Secretary of State of Canada was authorized to issue a license to the Canadian branches of Thomas Cook & Son, of London, England, to transmit to British, allied or neutral subjects in enemy-occupied territory, for their maintenance, any sum not exceeding twenty-five pounds per month in the case of any one individual transaction, and on the 24th day of January, 1918, an Order in Council was passed (P.C. 199) authorizing the Secretary of State to issue licenses under which payments might be made to persons, firms or corporations residing and carrying on business in Canada, and in allied or neutral countries, of sums on behalf of enemies, as defined by the Consolidated Orders respecting Trading with the Enemy, and to carry out such financial transactions as might be advisable and necessary for the purpose of protecting property or securities held or situate in Canada.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Secretary of State and under the provisions of The War Measures Act, 1914, is pleased to authorize and doth hereby authorize the Secretary of State of Canada to grant licenses permitting the transmission of money to enemies, allies and neutrals in enemy or enemy-occupied territory, to authorize communication or intercourse with enemies or persons in enemy or enemy-occupied territory, to authorize the expenditure of moneys in Canada on behalf of or for the benefit of enemies or persons in enemy-occupied territory, and to carry out such financial transactions as may be advisable and necessary for the purpose of protecting property or securities held or situate in Canada;

And, His Excellency the Governor General in Council, is further pleased to order and doth hereby order that the Orders in Council aforesaid, of the 3rd of October, 1917 (P.C. 2731), and (P.C. 199) of the 24th day of January, 1918, shall be and the same are hereby revoked; provided, however, that such revocation of said Orders in Council shall not:—

(*a*) Affect the previous operation of the Orders so revoked or anything duly done or suffered thereunder;

(*b*) Affect any right, privilege, obligation or liability acquired, accrued or incurred under the said Orders;

(*c*) Affect any penalty, forfeiture or punishment incurred in respect of any offence committed against the said Orders, or

(*d*) Affect any proceedings or remedy in respect of any right, privilege, obligation, liability, penalty, forfeiture or punishment aforesaid; and any permission or direction given or order or requirement made or other action taken under the said Orders so revoked shall be deemed to have been given, made or taken under this Order.

Clerk of the Privy Council.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it is deemed expedient to provide for the issue of special temporary certificates of compliance with the Military Service Act, 1917, and the regulations thereunder by those eligible for orders to report for duty, but whose orders have, in the administration of the Act, for the time being, been postponed, so that these men may be enabled to produce evidence in the form of a certificate for inspection of the police officers who are engaged in the duty of apprehending defaulters;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Justice, and under the powers conferred on the Governor in Council by the Military Service Act, 1917, or the War Measures Act, 1914, is pleased to make the following regulation and the same is hereby made and established accordingly:

Cancellation of reservation.

10. If in the opinion of the Board any parcel of land which has been reserved under the Act is not suitable for the purposes of soldier settlement, the Board may request the cancellation of such reservation.

Lapse of all reservations.

11. All reservations of lands under the Act shall lapse three years after the close of the present war.

Timbered lands not open to entry.

12. A quarter-section containing more than twenty-five acres of "merchantable timber" is not open to entry, and if entry is obtained for land which, though not reserved at the time, is ascertained to be valuable on account of merchantable timber upon it, the entry may be cancelled, provided that in the case an entry is so cancelled no compensation shall be made to the entrant for the value to him of the timber on the land.

Surveying and advertising.

13. No land shall be open for entry under the provisions of these regulations until it has been surveyed in accordance with the provisions of the Dominion Lands Survey Act, and until notice that it is to be open for entry upon a date to be set forth in the notice has been posted for at least thirty days in the land office of the District in which the land is situated, and has been published in at least one newspaper in that District and in one newspaper in the provincial capital; and the printing and publication of the notice shall be made in such manner as is determined by the Board.

Thirty days' notice in case of new surveys.

It shall be the duty of the Agent, when requested to do so by the Board, to advertise any newly surveyed land reserved under the Act, and to post notices promptly in his office and in each of the offices of the Sub-agents in his district.

Ten days' notice in all other cases.

14. In the case of other then newly surveyed lands, the Agent shall, when notified by the Board to make any land available for entry under these regulations, advertise such land for ten clear days, unless otherwise directed by the Board, by posting a notice in his office, available for public inspection, giving date and hour of the posting and the date on which the land will become available. Such notice shall be in the form prescribed by the Board, and a copy of same shall be promptly mailed by the Agent to each of the Sub-agents and to the representatives of the Board in his district, and to

15. Lands reserved under the Act which in the opinion of the Board are of a class suitable for the general purposes of soldier settlement, shall, except as herein provided, or as otherwise determined by the Board, be made available for soldier entry from time to time to any settler who is eligible to make such entry under these regulations.

Homestead entry on reserved lands.

16. Except as herein otherwise provided, any land reserved under the Act which is available for soldier entry, shall not be deemed reserved as against any person who, being a settler or a member of any body or force serving with the forces of Great Britain or of any of her allies during the present war, is desirous of exercising his homestead right thereon under the provisions of the Dominion Lands Act.

Soldier entry on lands not reserved.

17. The right of soldier entry may be exercised by any settler qualified as such under the Act on any parcel of land which although not reserved for the purposes of the Act at the time, is open to homestead entry under the provisions of the Dominion Lands Act. An application for soldier entry on such land by any person eligible shall *ipso facto* reserve the same for the purpose of the Act.

Information as to lands.

18. General information concerning lands for soldier settlement may be obtained by any prospective settler on application to the Soldier Settlement Board, Ottawa, or to any representative of the Board elsewhere.

Precise information as to whether any particular parcel of land is open to soldier entry may be secured on application to the Agent of Dominion Lands for the district within which the land is situated.

APPLICATION FOR ENTRY.

Office of record.

19. Application for a soldier entry may be made in the form prescribed by the Board by the holder of an attestation under the Act at the office of the Agent of Dominion Lands for the district within which the land is situated which shall be the office of record for soldier entries for such district.

Application made elsewhere.

20. Application for a soldier entry may be made also before any Agent or Sub-agent of Dominion Lands or before a local representative of the Board or any other person authorized by the Board to receive such application for transmission to the office of record, but any application so made shall have no force or effect until received at the office of record;

Notice may be wired.

Provided that where an application for a soldier entry is so made, the person receiving the same may, at the expense of the applicant, wire notice of receipt of the application to the office of record, whereupon, if the land is available, it shall be held for the applicant until the application papers are received.

No second application.

21. Where an application for soldier entry is made at any place other than the office of record, the person receiving the application shall not receive another application for entry on the same land until first application has been disposed of by the office of record.

Personal application.

22. Every application for a soldier entry shall, except as hereinafter provided, be made by the settler in person.

Application by proxy.

23. Application for entry by proxy is permitted only in the case of a person making entry on behalf of a husband, wife, father, mother, son, daughter, brother or sister, when duly authorized to do so in the form prescribed, or in the case of a person who, for special reasons, has been given permission by the Board to make entry on behalf of a settler.

The proxy must appear before the Agent of Dominion Lands for the district; sub-agents and local representatives are not authorized to accept applications for entry by proxy.

The settler on whose behalf such entry is made must, before the expiration of six months from the date of the entry, appear personally before the agent and satisfy him by declaration that he is already in residence or on his way to commence such residence, and in the latter case that he will be in residence before the end of the six months. Should he fail to make appearance, the agent shall, unless otherwise determined by the Board, cancel the entry without notice at the end of six months from the date of entry.

Time.

24. Application for soldier entry shall be made only during the regular office hours on every day except Sunday and statutory holidays.

Declaration by applicant.

25. Every applicant for a soldier entry shall make a declaration in the form prescribed by the Board that to the best of his knowledge and belief the land with respect to which his application is made is of the class open to entry and that there is no one in residence thereon, and shall state the improvements on the same, if any, and the value thereof; provided that where such declaration is subsequently found incorrect in any material particular, the entry shall be liable to cancellation.

No fees.

26. No fees shall be charged in connection with a soldier entry, but the applicant may be required to pay the value of the improvements, if any, on the land, and any charge or indebtedness against the land.

Application for lands not available.

27. An application for entry on land which is not available for entry at the time the same is made shall not give the applicant any priority of right in the event of the land becoming available.

CERTIFICATE OF ENTRY.

What constitutes entry.

28. When application is made in the manner hereinbefore described for land open to entry under the provisions of these regulations, the agent or officer acting for him shall accept it and issue to the applicant a Certificate of Entry, and the acceptance by the agent, or officer acting for him, of the said application and the issue of the Certificate of Entry shall constitute a soldier entry under the provisions of these regulations.

Certificate.

29. The Certificate of Entry shall entitle the recipient to take, occupy, use and cultivate the land entered for, and to hold possession thereof to the exclusion of any other person, and to bring and maintain actions for trespass committed on the said land; and the land shall not be liable to be taken in execution before the issue of letters patent therefor; provided that occupancy, use and possession of land so entered for shall be subject to the provisions of the Act, or regulations thereunder or amendments thereto.

PRIOR RIGHT OF ENTRY.

Squatter and Adjoining Settler.

Squatter before survey.

30. A person who has bona fide settled and made improvements on agricultural land before the survey thereof and was in occupation of and ordinarily resident on the land at the time of survey shall, if eligible to make entry for a soldier grant under these regulations, have a prior right to obtain entry for the land so settled on; Provided that this right is exercised within six months after notice in writing that the land is open for entry has been given by the Agent to such settler, or has been posted in a conspicuous place on the land; and that entry shall not be allowed for more than a quarter-section as a soldier grant.

Squatter after survey.

31. The occupation of land after the survey thereof, without entry as provided by these regulations, gives the occupant no right thereto, and the occupant may be ejected as a trespasser, and his improvements forfeited to the Crown.

One day priority to adjoining settler.

32. On the day on which any land is to be made available for entry after being advertised or posted in the manner hereinbefore described, the privilege of entry thereon shall be restricted to a settler eligible to make entry who holds an adjoining quarter-section under homestead or soldier entry, or who obtained homestead patent for such quarter-section and is still the owner thereof, or who was a squatter before survey on such quarter-section.

Conflicting Claims.

Determining priority.

33. In the event of there being more than one applicant claiming the prior right to entry under the preceding section, the priority of their claims shall be determined by the priority of the dates of their respective entries, or the commencement of residence in the case of squatters before survey.

34. To ensure due consideration being given to the rights of all persons claiming priority, the Agent shall receive all applications for entry offering under the preceding section, if requested to do so, but shall issue no certificate of entry for such land until the close of the office hours of the day on which the prior right of entry is considered; or until the morning of the following day;

Application before sub-agent.

Provided that if the Agent is advised by wire or otherwise on such day by a Sub-agent or a local Representative of the receipt by him of an application for entry from a person claiming a prior right

of entry for the land affected, and it is evident from the records that such person, by reason of the priority of date of his entry for or commencement of residence on the adjoining homestead has a better claim than any of the other applicants appearing in person, the Agent shall hold the land until such application made before the sub-agent or local representative has been received;

Sickness of applicant.

Provided further that if on account of sickness or other satisfactory reason shown to the Agent, a settler who according to the records has a prior right of entry over all other applicants is unable to appear in person on such day, the Agent may hold the land for such settler for a reasonable length of time, reporting immediately all the circumstances of the case to the Board;

Doubtful cases.

Provided also that if the Agent is in doubt as to the priority of any applicant, he shall not grant entry on the land affected, but refer the matter to the Board for consideration.

Land available to any settler.

35. Any land which, after having been posted in the manner hereinbefore described, has not been entered for by an adjoining settler on the first day on which such land became available for entry, or if it has not been reserved for any of the reasons above mentioned, it shall be open for entry on the following day to any settler eligible to make entry under these regulations.

Conditions of Entry.

Area.

36. A soldier entry shall be for not more than a quarter-section of one hundred and sixty acres more or less.

Mineral and water right.

37. A soldier entry shall convey no right to salt, coal, petroleum, natural gas, gold, silver, copper, iron, or other minerals within or under the land covered by such entry or any exclusive or other property or interest in, or any exclusive right or privilege with respect to any lake, river, spring, stream or other body of water within or bordering or passing through the land covered by the entry.

Improved lands.

38. Entry for land on which there are improvements may be granted only subject to payment by the entrant of the value of such improvements, as determined by the Board. Should the entrant fail to pay such value, his entry may be cancelled.

Seed grain and other charges.

39. Entry for land against which there is a charge in favour of the Crown may be granted only subject to the payment by the entrant of such indebtedness.

Reservation for roads.

40. Every soldier entry shall be granted subject to the right of the province to take without compensation at any time prior to the issue for letters patent any land which may be required for road purposes, not exceeding four acres in a quarter-section.

Entry for the sole use of settler.

41. Every entry shall be for the sole use and benefit of the holder of the same and not for the use or benefit of any other person or persons whomsoever.

Declaration as to duties.

42. The Board may, if it is deemed necessary, require the holder of a soldier entry to furnish proof, by declaration or otherwise, that he is duly performing his settlement duties in each year subsequent to the date of his entry.

No compensation for timber.

43. A quarter-section of land upon which there is not more than twenty-five acres of "merchantable timber," but upon which there is more than twenty-five acres of timber suitable for cord-wood or fence poles is not open for entry, unless such entry is granted on the condition that it will be subject to the issue of permits upon the remainder of the quarter section after the entrant has selected, subject to approval, twenty-five acres for his own use.

Lands required for water supply, etc.

44. If, after an entry is obtained, it is ascertained that the land entered for, or any portion thereof, is necessary for the protection of any water supply or for the location or construction of any works necessary to the development of any water-power, the Board may, at any time before the issue of letters patent, cancel the entry or withdraw from its application, any portion of the land entered for, but where the land is required for the location or construction of works necessary for the development of any water-power, only in so far as the land is necessary for that purpose; provided, however, that no entry shall be cancelled under the provisions of this paragraph until the entrant has been compensated for any improvements made by him upon the land, the amount of such compensation to be fixed by artibtration if the entrant refused to accept the compensation allowed by the Board.

Residence by a member of the settler's family or by any other person as proxy on his behalf will not be accepted.

Vicinity.

48. The entrant may perform the required residence duties by living on a farm of an area of at least eighty acres, situated within a distance of nine miles from the land entered for, in a direct line, exclusive of the width of road allowance crossed in the measurement of the following cause:—

(*a*) if he is the sole owner of such farm;

(*b*) if such farm is held by him under homestead entry or otherwise under the provisions of the Dominion Lands Act;

(*c*) if such farm is owned solely and occupied by the father, mother, wife, husband, son, daughters, brother or sister of the entrant, or if it is held and occupied by such relative under provisions of the Dominion Lands Act or of these regulations.

Concurrent residence not counted.

49. Any period of residence claimed by a settler towards obtaining patent for any land held by him under the Dominion Lands Act, cannot at the same time be counted as residence in connection with his soldier grant.

CULTIVATION DUTIES.

If residence on grant.

50. Where the settler is residing on the land entered for under these regulations, he shall be required to bring a total of at least thirty acres of the land under cultivation, twenty of which must be cropped.

If residence in vicinity.

51. If residence is performed elsewhere as provided the entrant is required to bring at least fifty acres under cultivation, thirty of which must be cropped.

A reasonable portion of cultivation is required to be done in each year.

Rough and wooded lands.

52. Where owing to the character of the land the requirements with respect to cultivation as stated would appear to be excessive, the Board may reduce the area required to be cultivated, after the land has been inspected by an officer of the Board.

STOCK.

Stock.

53. Where the land entered for is not suitable for cultivation but is adapted for stock raising, the Board may, on application from the entrant and after inspection of the land, allow the entrant to substitute stock in lieu of cultivation duties.

The entrant who has been granted the privilege of substituting stock in lieu of cultivation shall keep on the land in each of three years, either for summer grazing or for winter feeding, the following stock which would be solely owned by him:

(*a*) in the first year, five head;

(*b*) in the second year, ten head;

(*c*) in the third year, and in each subsequent years until he obtains patent, sixteen head.

The entrant keeping stock will have the entire land entered for enclosed with a substantial fence to the satisfaction of the Board.

Buildings for stock.

54. Suitable buildings for the accommodation of the number of stock kept by the settler in any year shall be erected on the soldier grant, but if his residence duties are being performed under the vicinity provisions, such buildings may be upon land on which he is residing.

DECEASED ENTRANTS.

Completion of duties by legal representative.

55. In the event of the death of any person holding entry under these regulations before the completion of the requirements for obtaining patent, the requirements as to residence shall be waived. The requirements other than residence and naturalization shall be completed by the legal representative of such deceased entrant.

Unperfected entries.

56. If the entrant dies before perfecting the entry in the manner prescribed by these regulations, his entry shall be liable to cancellation. The Board may, however, on satisfactory assurance being furnished that the estate will be administered, and that the requirements of the regulations will be complied with extend the time for the performance of duties.

INSANE ENTRANTS.

Insane entrants.

57. In the event of an entrant becoming insane or mentally incapable, and by reason of such insanity or mental incapacity unable to complete the requirements for obtaining patent, the requirements as to residence and naturalization are waived. The requirements other than residence may be completed by his guardian, or committee, or any other person who in the event of his death, would be his legal representative.

PATENT.

Proof of completion of duties.

58. After the completion of the settlement duties hereinbefore prescribed, the settler may file proof of the completion thereof. Such proof shall be in the form of a sworn statement by the entrant, corroborated by the sworn statement of two disinterested parties resident in the vicinity. The statement of the applicant and his witnesses shall be given before an officer duly authorized by the Board to receive such evidence.

Deceased and insane entrants.

59. In the event of the death of an entrant, or in the event of an entrant becoming insane or mentally incapable, the proof of the performance of the conditions of the grant shall be made by such person or persons, and in such manner as may be satisfactory to the Board.

Forfeiture of right on failure to submit proof.

60. If the proof of the completion of the conditions of entry has not been furnished as herein prescribed, within five years from the date of entry, the right of the entrant in connection with the land entered for shall be liable to forfeiture on the order of the Board.

Patent.

61. If the proof of the fulfillment of the conditions of entry has been submitted as herein prescribed, and such proof is satisfactory to the Board, the Board will, if there is no charge against the land by reason of a loan granted under the Soldier Settlement Loan Regulations, recommend the issue of patent to the entrant, or in the event of the death of the entrant, in the name of his legal representative, or in the name of the deceased direct, if the law of the province within which the land is situated makes no provision for the appointment of a personal representative.

No patent until loan repaid.

62. If the proof of the performance of the settlement duties has been accepted by the Board, but there is a charge against the land for advances made under the Act, the Board will withhold the issue of patent for such land until such time as the charge has been removed.

Certificate as to proof.

63. In the cases mentioned in the preceding section the entrant, or in the event of his death, such person as would be entitled to receive patent had all the conditions been completed, may receive a Certificate from the Board setting forth that the requisite settlement duties have been completed, and that upon the indebtedness incurred under the Act being discharged, patent shall issue in the name of the person entitled to receive the same under these regulations.

Interchange of Entries.

When two settlers may interchange.

64. For cause shown any two entrants whose entries are in good standing may be granted permission by the Board to interchange their respective entries, provided the Board is satisfied that the security furnished by a settler who has obtained a loan under the Act will not be impaired by such interchange.

Abandonment of Entry.

Abandonment and re-entry.

65. An entrant may, in the discretion of the Board, be granted permission to abandon the land entered for by him upon executing a declaration in the form prescribed by the Board and obtain permission to make another entry for any land available for the purpose.

In case of loan.

66. Where the entrant, having secured a loan from the Board, has created a charge or lien on the land entered for which has not been discharged, the privilege of abandonment and re-entry may be granted only subject to the transfer of such indebtedness to the land on which re-entry is to be made and only where the Board is satisfied that the security for the loan will not be impaired by the transaction.

Abandonment in favour of a relative.

67. Where an entry is in good standing the entrant may in the discretion of the Board be granted permission to abandon the land held under entry in favour of a father, mother, sister, daughter, bother, wife, or husband, if eligible to make a soldier entry under these regulations subject to such terms and conditions as the Board may prescribe.

Cancellation of Entry.

Reason for cancellation.

68. An entry may be cancelled for any of the following reasons:

(*a*) If the entrant fails in any year to perform the prescribed settlement duties;

(*b*) If an entry has been obtained or granted through error, or misrepresentation, or other fraud;

(*c*) If an entrant, being one who has obtained a loan from the Soldier Settlement Board fails to pay the instalments of principal and interest at the times when they are payable, or fails to comply with any term or conditions subject to which the loan is made.

(*d*) If he fails to pay for improvements or any charge outstanding against the land in connection with seed grain, relief, or other liability of any previous entrant or holder of the land;

(*e*) If an entrant has assigned, mortgaged, or transferred, or agreed to assign, mortgage, or transfer the land held by him under entry, unless otherwise provided.

Effect of cancellation.

69. Where an entry has been cancelled for any reason, all the rights of the entrant with respect to the land held by him, shall thereupon cease and determine; but the Board may, at its discretion, refund to the person responsibe for the improvements, in whole or in part, the money collected on account of such improvements from any subsequent holder or occupant of the land.

Administration.

70. In respect of such of the foregoing regulations as have reference to the reservation of lands, and the cancellation of such reservations, the classes of lands open to entry, the advertising or posting of lands, the granting of entry, the setlement of conflicting claims to land, the performance of the conditions of entry, the proof of the completion of duties, the issue of patent, the interchange of entries, the abandonment of entries either unconditionally or in favour of a relative and the cancellation of entries, wherever it is provided that action is to be taken by the Board, such action will be carried out through the Department of the Interior.

Effective Date.

71. These regulations shall become effective on a date to be fixed by the Board.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 6th day of June, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS Regulations heretofore established for the administration and management of Dominion lands within the Railway Belt of British Columbia in pursuance of the authority conferred by Chapter 59, Revised Statutes of Canada, 1906, and Chapter 10, 1—2 George V, do not include any special provisions for the disposal and administration of lands required for the development of water-powers and other water-privileges, and

Whereas administration of the waters within the said belt has recently, by Chapter 47, Statutes of Canada, 2 George V as amended by Chapter 45, 3-4 George V, been transferred to the authorities of the provinces of British Columbia to be administered under the Water Acts of British Columbia as if the said Acts were enacted by the Parliament of Canada, and will continue to be so administered during the pleasure of the Governor in Council, and

Whereas it appears desirable that Dominion lands in the said belt required for the development of water-powers and other water-privileges should be disposed of and administered under special regulations which shall harmonize with the said provincial water administration.

Therefore His Excellency the Governor General in Council on the recommendation of the Minister of the Interior and in virtue of the authority conferred by the said Chapter 59, Revised Statutes of Canada, 1906, and the said Chapter 10, 1-2 George V, is pleased to order and it is hereby ordered that the attached regulations, namely, The Water-Lands Regulations, shall be and the same are hereby made effective for disposing of and administering such Dominion lands within the said belt (excluding only lands within areas that are or may be set apart and designated as Dominion parks) as are required in the development of water-powers and other water-privileges.

Clerk of the Privy Council

Surveys may be delayed in certain cases.

Procedure when lease voided for non-use or abandonment.

(2) If, because of a change in the location of the said works, or because of their non-use or abandonment, or for any other reason continued or further entry upon, use of, or occupation of such lands in whole or in part for the said purpose becomes, in the opinion of the Minister, unnecessary, he shall give the lessee written notice of the contemplated withdrawal of such lands from the operation of the lease and his reasons therefor. The Minister may, after the consideration of such objection, or after the expiry of the time allowed for objection, if no objection is filed, make an order withdrawing such lands from the operation of the lease.

Termination of works when lease voided.

15. If any lease issued under these regulations is voided, terminated or cancelled in whole or in part by any lawful process, the lessee shall not be privileged to remove any works, buildings or other improvements constructed by him on the said lands unless the Minister's consent in writing is first obtained. The Minister may, if he deems it necessary, require the applicant or lessee to furnish a bond for the satisfactory carrying out of the provisions of this section. Tuesday, the 2nd day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Dominion Lands Act (chapter 20 of the statutes of 1908) provides that every application for entry for a homestead shall be made by the applicant in person, unless otherwise provided by regulations made by the Governor in Council;

And whereas under regulations approved by Orders in Council dated the 26th of August, 1908, and the 11th of January, 1915, homestead entry may be made by proxy on behalf of a husband, father, mother, son, daughter, brother or sister;

And whereas it is represented that cases are likely to arise where a number of soldiers eligible for soldier grant entry under the terms of the Soldier Settlement Act, 1917, and eligible also to make ordinary homestead entry, desire to send one of their number in advance to select and enter for land on their behalf;

And whereas authority has already been taken under section 23 of the Soldier Settlement Regulations to meet a case of this kind in so far as the soldier grant entry is concerned, but there is no corresponding provision in the case of an application for ordinary homestead entry by proxy on behalf of a "settler," as defined by the Soldier Settlement Act;

Therefore His Excellency the Governor General in Council, in view of the above, is pleased, on the recommendation of the Acting Minister of the Interior, to make the following regulation and the same is hereby made and established accordingly:—

In the case of a "settler" as defined by the Soldier Settlement Act, 1917, who is eligible to make ordinary homestead entry, application for entry by proxy may be permitted not only in the case of a person making entry on behalf of a husband, father, mother, son, daughter, brother or sister, but also in the case of a person who for special reasons has been authorized by the Department of the Interior to make entry on behalf of such "settler."

WHEREAS under the provisions of the Order in Council of the 7th December, 1907, certain Dominion lands were set apart to be reserved for the Doukhobor communities during the pleasure of the government ;

And whereas from time to time certain of lands so reserved have been withdrawn from reservation as being no longer required for the purpose for which they were set apart and homestead entries were granted thereon to members of the Doukhobor communities participating in the reserves and to the general public ;

And whereas the Doukhobor Commission which recently visited the reserves with a view to investigating the whole situation recommends the discontinuance of the reserves ;

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 6th July, 1918, from the acting Minister of the Interior, stating that the Canadian Northern Railway Company has applied for a license to occupy a portion of the bed of the Oldman River for the purpose of constructing and maintaining thereon a railway bridge across the said river, the land applied for being described as follows :

That certain parcel or tract of land, being part of the bed of Oldman river, situate in the southeast quarter of section thirteen, in the ninth township, in the twenty-sixth range, west of the fourth meridian, in the Province of Alberta, on the said section thirteen is shown on a plan of the southeast quarter of the said township approved and confirmed by E. Deville, Surveyor-General of Dominion lands, on the eleventh day of January, one thousand nine hundred and fifteen, which said parcel may be more particularly described as follows :—

Bounded on the north by the left bank and on the south by the right bank of Oldman River ; and on the east and west by lines parallel to and forty-nine feet and five tenths of a foot perpendicularly distant on opposite sides of the centre line of the right of way of the Canadian Northern Railway, as the said centre line is shown upon a plan of the said railway showing plan and elevation of proposed crossing of Oldman River, through the said quarter-section, which said plan is signed by A. S. Weekes, Dominion Land Surveyor, on the twenty-third day of July, one thousand nine hundred and seventeen, and of record in the Land Titles Office for the South Alberta Registration District under number R.W. 87 in Book B.T., a certified copy whereof is on record in the Department of the Interior under number 27050; the parcel herein described containing by admeasurement one acre and five-hundredths of an acre, more or less.

The plan and description of the sight and of the bridge as filed by the company with the Department of Public Works was approved by Order in Council of the 31st July, 1916, under the provisions of Section 233 of the Railway Act, Chapter 37, Revised Statutes of Canada, 1906, such approval being conditional on the company securing from the Department of the Interior a license of occupation of the bed of the river required for the bridge site.

The Minister, therefore, recommends that he be authorized to issue to the Canadian Northern Railway Company, a license of occupation for that portion of the bed of the Oldman River described above ; the said license to be for such time as the Company may require the bridge site in connection with the operation of the railway and to be at an annual rental of one dollar, payable to the Department of the Interior.

The Committee concur in the foregoing recommendation, and submit the same for approval.

[1743.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday the 11th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council has had before them a report, dated 9th July, 1918, from the Minister of Labour, representing that industrial unrest during the past few months has become more general than formerly, thus causing serious interruption in some lines of war work, and indications are that it will become more widespread still unless successful efforts be made to check it. This unrest has many causes among which are the shortage of labour, rapid advance in the cost of many of the necessaries of life, employers denying their workmen the right to organize or to meet them in joint conference to discuss requests for improved conditions or to negotiate adjustments of differences ; and in others from too hasty action on the part of working men in ignoring the provisions of The Industrial Disputes Investigation Act and in adopting drastic measures before exhausting every reasonable effort to reach a satisfactory settlement. Wages alleged to be inadequate together with length of the work day said to be too long, are among other frequent causes of such unrest.

The Minister, realizing the necessity of steady work and close and sympathetic co-operation between employers and employees to secure maximum results from war efforts, is of opinion that the Government should forthwith adopt such means as may seem practicable for the prevention of such interruption during the continuance of the war, whether caused by lockouts or strikes, and the establishments of such co-operation, while at the same time striving to ensure to the workman adequate compensation for their labour and reasonable safeguards for their health and safety, and to employers fair and reasonable treatment.

The Minister is further of opinion that a declaration by the Government of a war labour policy, fair and equitable to all concerned, governing relations between employers and workmen in all industries engaged in war work and including all those mentioned in The Industrial Disputes Investigation Act (except railways), and amendments thereto by Parliament or extensions thereof by Order in Council, for the duration of the war, would materially contribute to the attainment of these objects.

The Minister, therefore, recommends that the Governor in Council declare the following principles and policies and urge their adoption upon both employers and workmen for the period of the war.

1. That there should be no strike or lockout during the war.
2. That all employees have the right to organize in trade unions, and this right shall not be denied or interfered with in any manner whatsoever, and through their chosen representatives should be permitted and encouraged to negotiate with employers concerning working conditions, rates of pay, or other grievances.
3. That employers shall have the right to organize in associations of groups, and this right shall not be denied or interfered with by workers in any manner whatsoever.

4. That employers should not discharge or refuse to employ workers merely by reason of membership in trade unions or for legitimate trade union activities outside working hours.
5. That workers in the exercise of their right to organize shall use neither coercion nor intimidation of any kind to influence any person to join their organizations or employers to bargain or deal therewith.
6. That in establishments where the union shop exists by an agreement the same shall continue and the union standards as to wages, hours of labour and other conditions of employment shall be maintained.
7. That in establishments where union and non-union men and women work together, and the employer meets only with employees or representatives engaged in such establishments, the continuance of such conditions shall not be deemed a grievance.

This declaration, however, is not intended in any manner to deny the right, or discourage the practice of forming labour unions, or the joining of the same by workers in said establishments as aforesaid, nor to prevent a Board of Conciliation or other body or adjuster from recommending improvements in the matter of wages, hours of labour, or other conditions, as shall from time to time be found desirable.

8. That established safeguards and regulations for the protection of health and safety of workers shall not be relaxed.
9. That all workers, including common labourers, shall be entitled to a wage ample to enable them with thrift to maintain themselves and families in decency and comfort, and to make reasonable provision for old age.
10. That in fixing wages, minimum rates of pay should be established.
11. That women on work ordinarily performed by men should be allowed equal pay for equal work and should not be allotted tasks disproportionate to their strength
12. That in all cases where eight hours is by law or agreement the basic day, it shall so continue. In all other cases the question of hours of labour should be settled with due regard to governmental necessities and the welfare, health and proper comfort of the workers.
13. That a maximum production from all war industries should be sought and methods of work and opera ion on the part of employers or workers which operate to delay or limit production or which tend to artificially increase the cost thereof should be discouraged.
14. That for the purpose of mobilizing the available labour supply with a view to its rapid and effective distribution as well as constant employment; the Managers and Operators of industrial establishments and the trade unions concerned should keep Provincial or Municipal Employment Agencies and the Canada Registration Board fully informed as to labour required or available. Those agencies should be given opportunity to aid in the distribution of labour.
15. That in fixing wages, hours and conditions of labour regard should be had to the labour standards, wage scales, and other conditions, prevailing in the locality affected, always mindful, however, of the necessity of payment of living wages.
16. That to better preserve industrial peace during the war, employers and employees should, after once establishing an agreement as to wages and working conditions, agree to its continuance during the war, subject only to such changes in rates of pay as fluctuation in cost of living may justify.
17. That when employers and employees are unable to arrive at a mutual agreement concerning any existing dispute, unless some other means of settlement is agreed upon by the parties, they should use the machinery provided for in the Industrial Disputes Investigation Act in an endeavour to reach an adjustment.

Should the recommendation of the Board of Conciliation not be accepted either party may appeal to the Board of Appeal who shall review the findings of the Board of Conciliation and hear such further evidence as either party to the dispute may desire to submit at their own expense, the decision of the Board of Appeal to be final.

Any settlement of a dispute referred to the Board of Conciliation, or carried in appeal to the Board of Appeal, shall be effective not later than the date on which the application for a Board of Conciliation was filed.

The Board of Appeal shall be composed of two representatives of labour, nominated by the Executive Council of the Trades and Labour Congress of Canada, two representatives of the employers, nominated by the Executive of the Canadian Manufacturers Association, and a Chairman nominated by the said members of the Board, or, in case of failure to agree upon a Chairman, then the Minister of Labour shall appoint such Chairman.

The Minister further recommends that the Minister of Labour be authorized to make regulations governing procedure on appeal provided for by paragraph 17 of the above recommendations.

The Committee concur in the foregoing recommendations, and submit the same for Your Excellency's approval.

RODOLPHE BOUDREAU,
4–2 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 18th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the War Trade Board of the United States has placed under license the export of various commodities and whereas the list of such commodities is being modified and extended from time to time as the exigencies of the war require, and chiefly for the purpose of conserving tonnage, and that additional shipping be made available for the transportation of troops and supplies to Europe;

And whereas it has been represented by the War Trade Board of the United States that the purpose of such restrictions upon exports is to some extent defeated owing to the lack of similar restrictions upon exports on the part of the Government of Canada;

And whereas it is desirable that the Goverment of Canada should co-operate as far as possible with the Government of the United States in controlling exports for the purpose mentioned;

Therefore, His Excellency the Governor-General in Council, on the recommendation of the Minister of Finance, is pleased to order and it is hereby ordered that the export from Canada of all articles, the export of which from the United Stat s is subject to license, and which are set out in the schedule attached hereto, shall be and the same is hereby prohibited, except under license approved by the War Trade Board.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 18th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the President of the United States, on February 14th, 1918, issued a proclamation requiring an import license for all articles imported from all countries, the chief purpose of which was to enable the Government of the United States to eliminate less essential imports to the end that tonnage might be conserved and additional shipping be made available for the transportation of troops and supplies to Europe, and in order to most effectively devote shipping to the successful prosecution of the war ;

AND WHEREAS on February 20th, 1918, a general license was issued permitting without individual import licenses, the importation of all commodities from Canada, with the exception of those mentioned in the President's proclamation of November 28th, 1917, this to be in force until revoked by the Bureau of Importations of the War Trade Board of the United States ;

AND WHEREAS the War Trade Board of the United States represents that evasions of the terms of this proclamation are being made from time to time by the importation of restricted articles into the United States from foreign countries through Canada, and that for the proper and effectual administration of the terms of the said proclamation and the accomplishment of the purposes of the same, it is desirable and necessary that Canada control by license the importation of such articles as are similarly controlled by license in the United States under and by virtue of the said proclamation of the President of the United States ;

AND WHEREAS it is desirable that the Government of Canada co-operate so far as is possible with the Government of the United States in controlling imports for the accomplishment of the declared purposes of the said proclamation of the President of the United States.

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, is pleased to order and it is hereby ordered that the importation into Canada of all articles contained in lists numbered 1 and 2, promulgated by the United States schedule of which is hereto attached shall be and the same is hereby prohibited except under license approved by the War Trade Board.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Ottawa, Friday, 28th June, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 21st June, 1918, from the Minister of the Interior, stating that it has been represented to the Department of the Interior that Mr. George Ross who entered for the East ½ of the South-west ¼ of Section 24, Township 10, Range 10, West of Principal Meridian, on the 10th August, 1915, became permanently disabled through illness after obtaining entry, and was, therefore, unable to perform his residence duties in pursuance of the provisions of the Dominion Lands Act of 1908.

Evidence has been submitted that Mr. Ross performed two months' residence, erected a house and broke one acre in 1916, and was admitted to the Home for Incurables at Portage la Prairie, Manitoba, on the 17th February, 1917.

A certificate from the Superintendent of that institution, dated the 8th June, has now come to hand, setting out that Mr. Ross is over seventy-five years of age and will never be able to do any further work on the land referred to.

The Minister, therefore, recommends that Mr. Ross be relieved from the performance of any further residence duties, under the provisions of Clause 2, Section 20 of the Act, and that authority be given for the issue of a free patent for the land described, upon proof being furnished in the ordinary way that the other requirements of the law have been complied with.

The Committee concur in the foregoing recommendation and submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

One Day Priority to Adjoining Settler.

CONFLICTING CLAIMS.

Determining priority.

33. In the event of there being more than one applicant claiming the prior right of entry under the preceding section, the priority of their claims shall be determined by the priority of the dates of their respective entries, or the commencement of residence in the case or squatters before survey.

Due consideration of all claims.

34. To ensure due consideration being given to the rights of all persons claiming priority, the Agent shall receive all applications for entry offering under the preceding section, if requested to do so, but shall issue no certificate of entry for such land until the close of the office hours of the day on which the prior right of entry is considered, or until the morning of the following day.

Application before Sub-agent.

Provided that if the Agent is advised by wire or otherwise on such day by a Sub-agent or a Local Representative of the receipt by him of an application for entry from a person claiming a prior right of entry for the land affected, and it is evident from the records that such person, by reason of the priority of date of his entry for or commencement of residence on the adjoining homestead, has a better claim than any of the other applicants appearing in person, the Agent shall hold the land until such application made before the Sub-agent or Local Representative has been received.

Sickness of applicant.

Provided further that if on account of sickness or other satisfactory reason shown to the agent, a settler who according to the records has a prior right of entry over all other applicants is unable to appear in person on such day, the agent may hold the land for such settler for a reasonable length of time, reporting immediately all the circumstances of the case to the Board.

Doubtful cases.

Provided also that if the agent is in doubt as to the priority of any applicant, he shall not grant entry on the land affected, but refer the matter to the Board for consideration.

Land available to any Settler.

35. Any land which, after having been posted in the manner hereinbefore described has not been entered for by an adjoining settler on the first day on which such land became available for entry, or if it has not been reserved for any of the reasons above-mentioned, it shall be open for entry on the following day to any settler eligible to make entry under these regulations.

RODOLPHE BOUDREAU,
5-4 Clerk of the Privy Council.

[1823]

AT THE GOVERNMENT HOUSE AT OTTAWA

Thursday, the 25th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 11th July, 1918, from the Acting Minister of the Interior, stating that the Department of the Interior, has had before it the claims of a number of squatters to portions of the northwest quarter of Section 6 in Township 3 and Range 12, east of the Principal meridian, the land referred to being situated near the station of Badger on the Canadian Northern Railway, and that it was considered advisable to subdivide the land in question into small lots so as to cover the claimants' improvements and allow them to purchase the lots at a price to be fixed by valuation.

This subdivision has been surveyed under the instructions of the Surveyor-General of Dominion Lands and the plan thereof has been registered in the Winnipeg Land Titles Office.

The Minister, therefore, recommends that he be authorized to dispose of the lots in the said subdivision at the valuation placed thereon by an officer of the Interior and on the usual terms respecting Government townsites, namely, either the whole of the purchase price at the date of sale or one fourth of the purchase pice at that date and the remainder in three equal consecutive annual instalments, with interest at five per cent per annum.

The Committee concur in the foregoing recommendation, and submit the same for approval.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Ottawa, Thursday, 25th July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 9th July, 1918, from the Acting Minister of the Interior, stating that application has been made by the North American Reindeer Company (incorporated) with headquarters at South Bend, Indiana, for free grazing privileges for a period of thirty years, for the purpose of raising reindeer on the track outlined in pink on the attached map, and described as situated in the northern part of the Province of Manitoba, and in the Northwest Territories, and comprising that territory bounded on the north by the sixty-first degree of north latitude, on the east by Hudson's Bay, on the south by Churchill River, Indian and Granville Lakes and the waters connecting them, and on the west by Reindeer River, Reindeer Lake and the one hundred and second parallel of longitude, containing an area of 75,850 square miles more or less.

The introduction of reindeer into Alaska by the United States has resulted in an assured food supply for the natives and efficient means of transportation ; and within recent years a considerable quantity of reindeer meat has been available for export to Seattle and other pacific coast points. It is considered that the northern areas of the Northwest Territories are exceptionally suitable for reindeer. The development of reindeer herds in the Territories should be of great value in the matter of an assured food supply for the native population ; the utilization of trained reindeer will provide means of transportation and permit of effective exploration of the country ; and eventually the reindeer herds should contribute substantially to the meat supply of the rest of Canada. However, the introduction of reindeer into northern Canada will necessarily involve considerable risk and a large expenditure as well as expert handling and if the pioneer work is undertaken by private individuals or corporations on an extensive scale, sufficient to ensure reasonable success, the minister is of the opinion that such persons or corporations should receive encouragement from the Dominion to the extent of free grazing privileges for a limited term.

The minister, therefore, recommends that he be authorized to grant permits for free grazing privileges for reindeer in the area above described for a period not exceeding thirty years (30 years) to any persons or corporations who establish the bona fides of their enterprise to the satisfaction of the Minister of the Interior.

Provided that all such permits shall contain such conditions and restrictions as the minister may specify ; that in no case shall the privileges given be exclusive ; and that all permits shall be subject to such regulations as the Governor in Council may from time to time prescribe.

The Committee concur in the foregoing recommendation, and submit the same for approval.

RODOLPHE BOUDREAU
Clerk of the Privy Council.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a Report, dated 12th July, 1918, from the Acting Minister of the Interior, stating that the Regulations governing the Dominion Forest Reserves prohibit fishing in any other manner than by angling and trolling in those waters in Alberta, south of the north boundary of township 55.

It has been reported by the forest officers that there are a number of lakes in township 52, range 26, west 5th meridian, in the Athabaska Division of the Rocky Mountains Forest Reserve, which are well supplied with white and jackfish ; that these lakes have furnished a supply of fish to the surrounding settlers for some years past without any appreciable diminution of the supply, and that the enforcement of the prohibitive regulation referred to will, in view of the present shortage of food, result in hardship for the settlers who have been accustomed to use nets in obtaining a supply of fish from these lakes.

The Minister therefore recommends that authority be granted to issue domestic fishing permits for these lakes during the years 1918, 1919 and 1920, not to exceed a total of 12 such permits in each year, for the use of 100 feet of 5½ inch mesh gill net, at a fee of $4.00 for resident British subjects, each permit to cover only the summer or winter season as the case may be.

The committee concur in the foregoing recommendation and submit the same for approval.

As Revised and brought in force 22nd March, 1916.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during at least three months before the consideration by the Committee on Divorce of his or her petition for the said Bill, in the *Canada Gazette* and in two newspapers published in the district in Quebec, Manitoba, Saskatchewan, Alberta, British Columbia or the Northwest Territories, or in the county or union of counties in other provinces, wherein such applicant usually resided at the time of the separation of the parties; but if the requisite number of papers cannot be found therein, then in an adjoining district or county or union of counties.

A copy of the said notice and a copy of the petition to be presented shall, at the instance of the applicant, and not less than two months before the consideration by the Committee of the petition, be served personally, when that can be done, on the person from whom the divorce is sought, who is hereinafter called "the respondent."

If the residence of the respondent is not known or personal service cannot be effected, then, if it be shown to the satisfaction of the Committee that all reasonable efforts have been made to effect personal service, and, if unsuccessfull, to bring such notice and petition to the knowledge of the respondent, what has been done may be deemed and taken by the Committee sufficient service.

(*c*) The name and address of the solicitor, if any, acting for the respondent.

(*d*) If such solicitor's address is not at Ottawa, the name and address of some agent for him at Ottawa upon whom all notices and papers may be served.

(*6*) That, if the respondent does not so notify the Clerk of the Senate, the petition may be considered, and a bill of divorce founded thereon may be passed, without any further notice to the respondent.

(*7*) When the petition is one by a husband for a divorce from his wife, that, if the wife shows to the

satisfaction of the Senate Committee on Divorce that she has, and is prepared to establish upon oath, a good defence to the charges made by the petition, and that she has not sufficient money to defend herself, the Committee may make an order that her husband shall provide her with the necessary means to sustain her defence, including the cost of retaining Counsel and the travelling and living expenses of herself and of witnesses summoned to Ottawa on her behalf.

HOTEL DU GOUVERNEMENT A OTTAWA.

Vendredi, le 28e jour de juin 1918.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre de l'Intérieur, daté le 21 juin 1918, représentant que le département de l'Intérieur a été saisi du fait que M. George Ross qui, le 10 août 1915, a obtenu une inscription de homestead pour la moitié est du quart sud-ouest de la section 24, township 10, rang 10, à l'ouest du méridien principal, a été frappé d'invalidité permanente par la maladie après avoir obtenu son inscription et qu'il lui a été par conséquent impossible de remplir ses obligations de résidence conformément aux dispositions de la *Loi des terres fédérales.*

Il a été établi que M. Ross a accompli deux mois de résidence, a érigé une maison et fait un acre de défoncement en 1916. Il a été admis à l'hospice des incurables à Portage-la-Prairie, Manitoba, le 17 février 1917.

Un certificat du surintendent de l'institution, daté le 8 juin, déclare que M. Ross est âgé de plus de 75 ans et ne sera jamais plus capable de faire aucun travail sur le dit terrain.

Le Ministre, par conséquent, recommande que M. Ross soit relevé de toute obligation de résidence à venir, en vertu des dispositions du paragraphe 2, article 20 de la loi, et que l'émission d'une patente gratuite du dit terrain soit autorisée sur preuve fournie de la manière ordinaire que les autres conditions de la loi ont été remplies.

Le comité agrée cette recommandation et la soumet pour approbation.

RODOLPHE BOUDREAU,
2-4 Greffier du Conseil privé.

Vendredi, le 12e jour de juillet 1918.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que certains règlements et tarifs projetés pour les chemins de fer du gouvernement canadien ont été soumis par les gérants généraux des lignes de l'est et de l'ouest, respectivement, pour l'approbation du Gouverneur général en conseil ;

Et attendu que des tarifs semblables ont été déposés au bureau des Commissaires des chemins de fer pour le Canada pour les voies ferrées sous leur juridiction, savoir :

C. C. 191 Tarif spécial pour l'usage des wagons doubles et wagons-glacières, service de chauffage et outillage spécial.
C. C. 164 Règlements concernant la surestarie pour les wagons canadiens.
C. C. 104 Tarif spécial pour la détention des wagons-glacières.
C. C. 162 Règlements d'entreposage et tarif.
C. C. 184 Règlements et tarifs pour le chargement d'expéditions de marchandises par lots de wagons sur la ligne principale.

Et attendu qu'après avoir communiqué avec le bureau des Commissaires des chemins de fer, ces derniers ont déclaré que les tarifs en question avaient été déposés, mais qu'étant "des tarifs spéciaux" ils ne requéraient pas l'approbation de la Commission ;

Et attendu que les gérants généraux ont de plus déposé une copie de la classification du fret canadien n° 16, et son supplément n° 10, qui ont été approuvés par la Commission, et qu'ils ont demandé que ces derniers et tous autres suppléments ou nouvelles éditions de ces suppléments, ainsi qu'approuvés de temps à autre par la Commission des chemins de fer, soient adoptés pour les chemins de fer du gouvernement canadien ;

Et attendu que les gérants généraux présentent de plus pour approbation ce qui suit :

C. C. 160 Tarif maximum de droits de quaiage aux quais des chemins de fer du gouvernement, continuant le système d'appliquer les droits locaux dans chaque territoire aux quais de chemins de fer qui y sont situés.
C. C. 183 Tarifs applicables aux élévateurs, entrepôts et gares à Halifax et St-Jean.

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre des Chemins de fer et Canaux, sur l'avis du sous-ministre suppléant, d'approuver par les présentes les dits règlements et tarifs, ainsi que la classification n° 16 et ses suppléments (n° 10), et il lui plaît de plus d'approuver pour les chemins de fer du gouvernement canadien toute nouvelle édition de la dite classification et tout autre supplément qui peut être approuvé de temps à autre par la Commissiou des chemins de fer.

4-2 Greffier du Conseil privé.

HÔTEL DU GOUVERNEMENT À OTTAWA

MARDI, le 14e jour de mai 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

Il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Ministre de l'Intérieur, d'approuver par les présentes les règlements suivants régissant la concession gratuite de terres fédérales aux colons sous le régime de la Loi d'établissement de soldats, 1917.

RODOLPHE BOUDREAU,
Greffier du Conseil privé.

RÉGLEMENTS RÈGISSANT L'ÉTABLISSEMENT DES SOLDATS, CANADA, 1918

AUTORITÉ.

1. Les présents règlements sont faits et approuvés sous l'empire de la Loi d'établissement de soldats, 1917, soit la "Loi ayant pour objet d'aider les soldats revenus au pays à s'établir sur des terres, et ayant aussi pour objet d'augmenter la production agricole".

INTERPRÉTATION.

2. Dans les présents règlements, à moins que le texte n'exige autrement:

(*a*) "Loi" signifie la Loi d'établissement de soldats, 1917;

(*b*) "Commission" signifie la Commission d'établissement de soldats;

(*c*) "colon" signifie toute personne à laquelle s'applique la définition de ce mot dans la loi;

(*d*) "agent" ou "agent des terres fédérales" signifie une personne employée à ce titre sous le régime des dispositions de la Loi des terres fédérales;

(*e*) "sous-agent" signifie un sous-agent sous le régime des terres fédérales;

(*f*) "représentant local" signifie toute personne nommée par la Commission d'établissement de soldats pour agir en qualité de représentant de la Commission dans un district particulier quelconque, et ayant tels devoirs et pouvoirs qui peuvent lui être assignés par la Commission;

(*g*) "terres fédérales", ou "terres" ou "terre" signifie toutes terres du Canada auxquelles s'appliquent les présents règlements;

(*h*) "inscription de soldat" signifie une inscription gratuite sur les terres fédérales accordée par le Ministre à un colon recommandé par la Commission;

(*i*) "inscription" peut signifier une inscription de soldat ou une inscription accordée sous l'empire de la Loi des terres fédérales;

(*j*) "concession de soldat" signifie le terrain pour lequel une inscription de soldat a été accordée sous l'empire des dispositions des présents règlements;

(*k*) "homestead", "homestead acheté", "préemption" signifie un terrain possédé par inscription de homestead, de homestead acheté ou de préemption, respectivement, sous le régime de la Loi des terres fédérales.

DÉFINITION DE "COLON".

3. L'inscription sur les terres fédérales sous le régime des dispositions des présents règlements peut être accordée à toute personne recommandée par la Commission qui est un "colon" ainsi que défini par la loi.

4. Les personnes suivantes sont des "colons" aux termes de la loi:

(*a*) Toute personne qui a servi dans les forces navales ou militaires expéditionnaires du Canada au cours de la présente guerre et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*b*) Toute personne qui a été engagée en service actif au cours de la présente guerre dans les forces navales ou militaires du Royaume-Uni ou de tous dominions ou toutes colonies autonomes britanniques et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*c*) Toute personne qui, étant sujet britannique résidant au Canada avant la guerre, a été engagée en service actif à l'un des théâtres de la guerre dans l'une ou l'autre des forces navales ou militaires d'aucun des alliés de Sa Majesté dans la présente guerre et qui a quitté le service avec un dossier honorable ou qui a été honorablement licenciée;

(*d*) La veuve de toute telle personne décrite au paragraphe (*a*), (*b*) ou (*c*) ci-dessus qui est décédée en service actif.

COMMENT ÉTABLIR SON DROIT COMME "COLON".

5. Toute personne qui se considère qualifiée comme colon et désire jouir des privilèges des présents règlements doit soumettre à la Commission tous renseignements qui permettront à la Commission de déterminer qu'il est une personne à laquelle s'applique

Formule de renseignements préliminaires.

la loi. Ces renseignements doivent être donnés sur la formule de renseignements préliminaires émise par la Commission et qu'on peut obtenir en s'adressant à la Commission d'établissement de soldats à Ottawa ou à un quelconque de ses représentants locaux qui, au besoin, doit aider le colon à remplir la formule.

Certificats de congé.

6. Dans le cas d'un colon qui a servi dans les forces expéditionnaires canadiennes, la Commission consultera le Département de la Milice concernant ses états de service; dans tous les autres cas la personne qui demande un prêt doit envoyer son certificat de congé honorable (on conseille pour cette fin de se servir de lettres chargées seulement), ou une copie certifiée par le représentant local ou par un notaire public dûment autorisé et pratiquant, ou tout autre témoignage jugé nécessaire pour permettre à la Commission de se prononcer sur son droit.

Attestation du droit.

7. Après que le droit au titre de colon a été établi d'une manière satisfaisante, une déclaration de tel droit sur une formule "d'attestation" signée par le président de la Commission est délivrée au colon. Cette "attestation" n'est pas transférable et doit être présentée et remise lorsque la demande formelle d'inscription est faite.

RÉSERVES DE TERRAINS.

Réserve de terrains.

8. La Commission peut demander la mise en réserve de terres fédérales disponibles pour les fins de la Loi.

Terrains spécialement réservés.

9. Dans le cas où un terrain réservé sous l'empire de la Loi est requis pour quelque fin spécifique en rapport avec l'établissement des soldats, ou s'il a une valeur particulière à cause de sa situation ou autrement, ou s'il est constaté que quelqu'un a sur ce terrain un droit qui n'était pas connu lorsqu'il a été réservé pour l'établissement des soldats, la Commission peut soustraire ce terrain à l'inscription de soldats, soit avant ou après qu'il a été ouvert à l'inscription, et le réserver pour en disposer comme il peut être jugé à propos.

Annulation de la réserve.

10. Si, de l'avis de la Commission, un terrain quelconque qui a été réservé sous l'empire de la Loi n'est pas propre à l'établissement des soldats, la Commission peut demander l'annulation de la réserve.

Déchéance de toutes réserves.

11. Toutes les réserves de terrain sous l'empire de la Loi tomberont en déchéance trois ans après la fin de la présente guerre.

Terres boisées closes à l'inscription.

12. Un quart de section contenant plus de vingt-cinq acres de "bois marchand" n'est pas ouvert à l'inscription, et si on obtient l'inscription d'un terrain qui, quoiqu'il ne soit pas réservé à l'époque, a une certaine valeur à cause du bois marchand qui s'y trouve, l'inscription peut être annulée; toutefois, dans le cas où une inscription est ainsi annulée aucune compensation n'est donnée à l'inscrit pour la valeur du bois sur le terrain.

Arpentage et annonce.

13. Nulle terre ne peut faire l'objet d'une inscription sous le régime des présents règlements tant qu'elle n'a pas été arpentée en conformité des dispositions de la Loi des arpentages fédéraux, et tant qu'avis du fait qu'elle doit faire l'objet d'une inscription à une date à être énoncée dans cet avis n'a pas été affiché durant au moins trente jours dans le bureau des terres du district dans lequel la terre est située, et n'a pas été inséré dans au moins un journal publié dans ce district et un journal publié dans la capitale provinciale; et l'impression et la publication de l'avis doivent être faites de la manière réglée par la Commission.

Trente jours d'avis dans le cas de nouveaux arpentages.

Il est du devoir de l'agent, à la demande de la Commission, d'annoncer toute nouvelle terre arpentée réservée sous le régime de la loi et d'afficher promptement des avis dans son bureau et dans chacun des bureaux des sous-agents dans son district.

Avis de dix jours dans tous autres cas.

14. Dans le cas d'autres terres que des terres nouvellement arpentées l'agent, lorsqu'il sera notifié par la Commission d'ouvrir à l'inscription un terrain quelconque sous le régime des présents règlements, en fera l'annonce pendant dix jours, à moins que la Commission n'ordonne autrement, en affichant dans son bureau un avis exposé à l'inspection publique, donnant la date et l'heure de l'affichage et la date où le terrain sera ouvert à l'inscription. Cet avis sera en la forme prescrite par la Commission et une copie en sera promptement adressée par l'agent à chacun des sous-agents et aux représentants de la Commission dans son district, ainsi qu'au maître de poste le plus rapproché du terrain, afin que cet avis soit affiché dans leurs bureaux respectifs.

Inscription de soldats sur terres réservées.

15. Les terres réservées sous le régime de la loi, qui de l'avis de la Commission ne conviennent pas aux fins générales de l'établissement des soldats, seront de temps à autre ouvertes à l'inscription des soldats pour tout colon qualifié à faire cette inscription sous le régime des présents règlements, sauf lorsque les présents règlements prescrivent ou que la Commission ordonne autrement.

Inscription de homestead sur terres réservées.

16. Excepté lorsque les présents règlements prescrivent autrement, aucun terrain réservé sous le régime de la loi et disponible pour l'inscription des soldats ne sera censé être réservé à l'exclusion de toute personne qui, étant un colon ou un membre d'un corps ou effectif quelconque servant avec les forces de la Grande-Bretagne ou d'un de ses alliés durant la présente guerre, désire exercer son droit de homestead sur ce terrain sous l'empire des dispositions de la Loi des terres fédérales.

Inscription de soldats sur terres non réservées.

17. Le droit d'inscription de soldat peut être exercé par tout colon qualifié comme tel sous le régime de la Loi sur tout fonds qui, bien que réservé alors pour les fins de la loi, est ouvert à l'inscription de homestead sous l'empire des dispositions de la Loi des

terres fédérales. Une demande d'inscription de soldat sur tel terrain par une personne qualifiée réservera ce terrain *ipso facto* pour les fins de la loi.

Renseignements quant aux terres.

18. Tout colon en perspective peut se procurer des renseignements généraux concernant les terres ouvertes pour l'établissement des soldats en s'adressant à la Commission d'établissement des soldats, Ottawa, ou à tout représentant de la Commission ailleurs.

On peut se procurer des renseignements précis quant à savoir si un terrain particulier est ouvert à l'inscription de soldats en s'adressant à l'agent des terres fédérales du district où le terrain est situé.

DEMANDE D'INSCRIPTION.

Bureau d'enregistrement.

19. La demande d'inscription de soldat peut être faite en la forme prescrite par la Commission par celui qui a reçu une attestation sous le régime de la loi au bureau de l'agent des terres fédérales pour le district où le terrain est situé, qui sera le bureau d'enregistrement des inscriptions de soldat pour tel district.

Demande faite ailleurs.

20. La demande d'inscription de soldat peut aussi être faite à un agent ou sous-agent des terres fédérales ou à un représentant local de la Commission ou à toute autre personne autorisée par la Commission à recevoir telle demande pour transmission au bureau d'enregistrement, mais nulle demande ainsi faite n'aura d'effet avant d'avoir été reçue à ce bureau.

Avis par télégraphe.

Toutefois, lorsqu'une demande d'inscription de soldat est ainsi faite, la personne qui la reçoit peut aux frais de l'inscrit envoyer par télégraphe un avis de la réception de la demande au bureau d'enregistrement; si le terrain est alors disponible il sera réservé pour le requérant jusqu'à ce que la demande ait été reçue.

Aucune autre demande.

21. Lorsque la demande d'inscription de soldat est faite à un endroit quelconque autre que le bureau d'enregistrement, la personne qui reçoit la demande n'en acceptera aucune autre pour inscription sur le même terrain avant qu'il ait été décidé de la première demande au bureau d'enregistrement.

Demande en personne.

22. Toute demande d'inscription de soldat, sauf ainsi que ci-dessous prescrit, se fera par le colon en personne.

Demande par procuration.

23. La demande d'inscription par procuration n'est permise que dans le cas d'une personne qui fait l'inscription pour un époux, une épouse, un père, une mère, un fils, une fille, un frère ou une sœur, lorsqu'elle est dûment autorisée à le faire en la forme prescrite, ou dans le cas d'une personne qui, pour des raisons spéciales, a obtenu la permission de la Commission de faire l'inscription en faveur d'un colon.

Le fondé de pouvoirs doit se présenter devant l'agent des terres fédérales du district; les sous-agents et représentants locaux ne sont pas autorisés à accepter les demandes d'inscription par procuration.

Le colon en faveur duquel l'entrée est faite doit avant l'expiration de six mois de la date de l'inscription se présenter en personne à l'agent et lui faire une déclaration qu'il réside déjà ou qu'il doit commencer à résider sur le terrain, et dans ce dernier cas qu'il y résidera avant l'expiration des six mois. Si le colon ne se présente pas l'agent, à moins que la Commission ne décide autrement, annulera l'inscription sans avis à l'expiration de six mois après la date de l'inscription.

Temps.

24. La demande d'inscription de soldat ne doit se faire que dans les heures régulières du bureau tous les jours excepté les dimanches et les jours de fête établis par la loi.

Déclaration de l'inscrit.

25. Quiconque demande une inscription de soldat doit faire une déclaration en la forme prescrite par la Commission qu'au meilleur de sa connaissance le terrain pour lequel il s'inscrit appartient à la classe des terres ouvertes à l'inscription et qu'il n'y réside personne, et il doit dire quelles améliorations y ont été faites, s'il y en a, et leur valeur; pourvu que lorsque telle déclaration est subséquemment trouvée incorrecte en quelque point important l'inscription soit sujette à l'annulation.

Ancien honoraire.

26. Aucun honoraire ne sera exigé pour l'inscription de soldat, mais on peut exiger du colon qu'il paie la valeur des améliorations sur le terrain, s'il y en a, ainsi que toute charge ou dette sur le terrain.

Demande de terrains non disponibles.

27. Une demande d'inscription sur un terrain qui n'est pas disponible pour l'inscription lorsque cette demande est faite ne donnera pas au colon une priorité de droit dans le cas où le terrain deviendrait disponible.

CERTIFICAT D'INSCRIPTION.

Ce qui constitue une inscription.

28. Lorsqu'une demande est faite en la manière ci-dessus décrite pour un terrain ouvert à l'inscription sous le régime des dispositions des présents règlements, l'agent ou le fonctionnaire qui agit pour lui acceptera cette demande et délivrera au colon un certificat d'inscription, et l'acceptation par l'agent, ou le fonctionnaire agissant pour lui, de ladite demande et l'émission du certificat constituent une inscription de soldat sous le régime des dispositions des présents règlements.

Certificat.

29. Le certificat d'inscription donne droit au colon de prendre, occuper, employer et cultiver le terrain pour lequel il est inscrit et d'en garder possession à l'exclusion de toute autre personne et d'intenter des poursuites pour violation de propriété; et le terrain ne peut être saisi en exécution de jugement avant l'émission des lettres patentes;

toutefois, l'occupation, l'usage et la possession du terrain pour lequel l'inscription est ainsi faite sont sujets aux dispositions de la loi ou des règlements établis sous l'empire de cette loi ou de leur modification.

PROPRIÉTÉ DU DROIT D'INSCRIPTION.

Squatter et colon voisin.

Squatter avant l'arpentage.

30. Une personne qui s'est de bonne foi établie sur un terrain agricole et y a fait des améliorations avant l'arpentage et qui l'occupait et y résidait ordinairement lors de l'arpentage, si elle est qualifiée pour une inscription de soldat sous le régime des présents règlements, aura le premier droit à l'inscription pour le terrain sur lequel elle est ainsi établie; pourvu que ce droit soit exercé dans les six mois après qu'un avis par écrit que le terrain est ouvert à l'inscription a été donné par l'agent à tel colon, ou a été affiché dans un endroit bien en vue sur le terrain. Toutefois, l'inscription de soldat ne sera pas permise pour plus d'un quart de section.

Squatter après l'arpentage.

31. L'occupation du terrain après l'arpentage, sans inscription ainsi que prescrit par les présents règlements, ne donne aucun droit sur ce terrain à celui qui l'occupe, et il peut être expulsé comme violateur de la propriété et les améliorations qu'il y a faites peuvent être confisquées au bénéfice de la Couronne.

Un jour de priorité au colon voisin.

32. Le jour où un terrain quelconque doit être ouvert à l'inscription après qu'un avis a été donné ou affiché en la manière ci-dessus décrite, le privilège d'inscription sur ce terrain est restreint à un colon qualifié pour l'inscription qui occupe un quart de section voisin soit comme homestead ou en vertu d'une inscription de soldat, ou qui a obtenu la patente de homestead pour tel quart de section et en est encore le propriétaire, ou qui était un squatter avant l'arpentage de ce quart de section.

CONFLITS DE DEMANDES.

Détermination de la priorité.

33. Dans le cas où il y a plus qu'un colon qui réclame le premier droit à l'inscription sous l'empire de l'article précédent, la priorité des demandes sera déterminée par la priorité des dates de leurs inscriptions respectives, ou par le commencement de leur résidence dans le cas de squatters avant l'arpentage.

34. Afin d'assurer la considération voulue des droits des personnes qui réclament la priorité, l'agent recevra toutes les demandes d'inscription qui lui sont offertes sous l'empire de l'article précédent, s'il en est requis, mais il ne délivrera aucun certificat d'inscription pour le terrain avant la fermeture des bureaux le jour où le premier droit d'inscription est examiné, ou avant le matin du jour suivant.

Demande à un sous-agent.

Toutefois, si l'agent est averti ce jour-là par télégraphe ou autrement, par un sous-agent ou un représentant local, que ce dernier a reçu une demande d'inscription d'une personne réclamant priorité de droit d'inscription pour le terrain concerné, et s'il est évident d'après les registres que cette personne, en raison de la priorité de la date de son inscription ou du commencement de sa résidence sur le homestead voisin a un meilleur droit que tout autre qui se présente en personne pour l'inscription, l'agent retiendra le terrain jusqu'à ce que la demande faite au sous-agent ou représentant local ait été reçue.

Maladie de l'inscrit.

De plus, si à cause de maladie ou pour une autre raison suffisante donnée à l'agent, un colon qui d'après les registres a un premier droit d'inscription sur tous les autres qui la demandent est incapable de se présenter en personne ce jour-là, l'agent peut retenir le terrain pour ce colon pendant un délai raisonnable en faisant rapport immédiatement de toutes les circonstances du cas à la Commission.

Cas douteux.

Si l'agent doute de la priorité du droit d'un colon, il n'accordera pas l'inscription du terrain concerné, mais saisira la Commission de la question.

Terrain ouvert à tout colon.

35. Tout terrain qui après avoir été annoncé par un avis affiché de la manière ci-dessus prescrite n'a pas fait l'objet d'une inscription par un colon voisin le premier jour où ce terrain a été ouvert à l'inscription, ou qui n'a pas été réservé pour une des raisons ci-dessus mentionnées, sera ouvert à l'inscription le jour suivant à tout colon qualifié pour l'inscription sous le régime des présents règlements.

CONDITIONS DE L'INSCRIPTION.

Etendue.

36. Une inscription de soldat ne sera pas pour plus qu'un quart de section de cent soixante acres plus ou moins.

Minéraux et eau.

37. Une inscription de soldat ne donne aucun droit au sel, à la houille, le pétrole, le gaz naturel, l'or, l'argent, le cuivre, le fer, ou autres minéraux dans ou sous le terrain couvert par telle inscription, ni propriété ou intérêts exclusifs ou autres, ni droit ou privilège exclusifs en rapport avec un lac quelconque, une rivière, une source, un ruisseau ou autre cours d'eau dans ou bornant ou traversant le terrain couvert par l'inscription.

Terres améliorées.

38. L'inscription pour un terrain sur lequel des améliorations ont été faites ne peut être accordée que sur paiement par l'inscrit de la valeur de telles améliorations, ainsi que déterminée par la Commission. Si l'inscrit ne paie pas cette valeur, l'inscription peut être annulée.

Grain de semence et autres charges.

39. L'inscription pour un terrain grevé d'une charge en faveur de la Couronne ne peut être accordée que sur paiement de telle dette par l'inscrit.

Réserve pour chemins.

40. Toute inscription de soldat peut être accordée subordonnément aux droits de la province de prendre sans compensation, en tout temps avant l'émission des lettres patentes, tout terrain qui peut être requis pour des chemins, mais n'excédant pas quatre acres dans un même quart de section.

Inscription pour seul bénéfice du colon.

41. Toute inscription sera pour le seul usage et bénéfice de celui qui l'obtient et non pour l'usage ou le bénéfice d'une autre personne ou d'autres personnes quelconques.

Déclaration quant aux obligations.

42. La Commission, s'il est jugé nécessaire, peut exiger qu'un inscrit pour un homestead de soldat fournisse la preuve, par déclaration ou autrement, qu'il remplit ses obligations d'établissement dans chaque année qui suit la date de son inscription.

Nulle compensation pour bois.

43. Un quart de section de terrain sur lequel ne se trouve pas plus que 25 acres de "bois marchand," mais sur lequel se trouve plus que 25 acres de bois de chauffage ou de bois dont on peut faire des poteaux de clôture, n'est pas ouvert à l'inscription, à moins que l'inscription ne soit accordée à la condition qu'elle sera sujette à l'émission de permis sur le reste du quart de section après que l'inscrit aura choisi, sujet à approbation, vingt-cinq acres pour son propre usage.

Terrains requis pour eau, etc.

44. Si après qu'une inscription a été obtenue on constate que le terrain ou une partie du terrain concédé est nécessaire pour la protection de sources d'approvisionnement d'eau ou pour l'établissement ou la construction d'usines nécessaires au développement de l'énergie hydraulique, la commission peut en tout temps avant l'émission des lettres patentes annuler l'inscription ou en soustraire toute partie du terrain pour lequel elle a été accordée, mais lorsque le terrain est requis pour l'emplacement ou la construction d'usines nécessaires au développement de l'énergie hydraulique, en autant seulement que le terrain est nécessaire pour cette fin; toutefois, aucune inscription ne sera annulée sous l'empire des dispositions de ce paragraphe avant que l'inscrit ait reçu une compensation pour toutes améliorations qu'il a faites sur le terrain, le chiffre de cette compensation devant être fixé par arbitrage si l'inscrit refuse d'accepter la compensation offerte par la Commission.

OBLIGATIONS D'ÉTABLISSEMENT.

Conditions générales.

Conditions générales.

45. De tout inscrit pour un homestead de soldat il sera exigé, avant l'émission des lettres patentes, sauf ainsi que ci-après prescrit:

(*a*) qu'il ait possédé le fonds pour ses propres compte et avantage exclusifs durant trois années;

(*b*) qu'il ait résidé sur le fonds ou dans son voisinage ainsi que ci-dessous prescrit au moins six mois au cours de chacune de trois années à compter de la date de l'inscription ou de la date du commencement de résidence;

(*c*) qu'il ait cultivé chaque année telle étendue de ce fonds que la Commission trouve suffisante;

(*d*) qu'il y ait construit une maison habitable;

(*e*) qu'il ait complètement payé le prêt qui lui a été fait sur ce fonds sous le régime des dispositions des règlements régissant les prêts pour l'établissement de soldats, ainsi que l'intérêt sur ce prêt et autres charges s'il y en a;

(*f*) qu'il soit sujet britannique, sauf ainsi qu'autrement prescrit.

RÉSIDENCE.

Inscription parfaite.

46. Tout inscrit sera requis de remplir les conditions de son inscription dans les six mois de la date de telle inscription en prenant possession du terrain en personne et en y établissant sa résidence; si les conditions de l'inscription ne sont pas ainsi remplies dans ce délai, elle est sujette à annulation.

Toutefois, la Commission peut prolonger le délai pour compléter l'inscription de six mois additionnels pour cause suffisante.

Résidence.

47. "Résidence" pour les fins des présents règlements sera par le colon en personne sur le terrain pour lequel il s'est inscrit ou dans le voisinage du terrain ainsi que ci-dessus prescrit. Cette résidence sera dans une maison qui est le véritable domicile du colon pendant telle période de résidence. Ne sera pas acceptée la résidence par un membre de la famille du colon ou par toute autre personne comme fondé de pouvoirs.

Voisinage.

48. L'inscrit peut remplir ses obligations de résidence en résidant sur une ferme d'une étendue d'au moins 80 acres située à une distance d'au plus neuf milles de son homestead en ligne directe (à l'exclusion de la largeur des réserves pour chemins rencontrées dans le mesurage):

(*a*) s'il est le seul propriétaire de telle ferme;

(*b*) si cette ferme lui appartient par inscription de homestead ou autrement sous le régime des dispositions de la Loi des terres fédérales;

(*c*) si cette ferme appartient exclusivement au père, à la mère, l'épouse, le mari, le fils, les filles, le frère ou la sœur de l'inscrit et est occupée par lui ou par elle, ou si elle est possédée et occupée par tel parent sous le régime des dispositions de la Loi des terres fédérales ou des présents règlements.

Résidence concurrente ne compte pas.

49. Nulle période de résidence que réclame un colon pour obtenir la patente d'un terrain qu'il occupe sous l'empire de la Loi des terres fédérales ne peut en même temps être comptée comme résidence en rapport avec sa concession de soldat.

CULTURE.

Si le colon réside sur le homestead.

50. Lorsqu'un colon réside sur le terrain pour lequel il s'est inscrit sous le régime des présents règlements il doit mettre en culture un total d'au moins trente acres de ce terrain, dont vingt acres doivent être récoltés.

Si résidence ailleurs.

51. Si la résidence du colon est ailleurs ainsi que prescrit il doit mettre en culture au moins cinquante acres, dont trente doivent être récoltés.

La mise en culture d'une étendue raisonnable est requise durant chaque année.

Terrains pierreux et boisés.

52. Lorsqu'en raison de la nature du terrain les conditions relatives à la culture sembleraient excessives, la Commission peut réduire l'étendue du terrain à cultiver, après que ce terrain a été inspecté par un des fonctionnaires de la Commission.

BÉTAIL.

Bétail.

53. Lorsque le homestead ne convient pas à la culture mais est propre à l'élevage du bétail, la Commission, sur demande de l'inscrit et après inspection du terrain, peut permettre à l'inscrit de substituer l'élevage du bétail à la culture.

L'inscrit qui a obtenu le privilège de substituer l'élevage du bétail à la culture devra garder sur le terrain dans chacune des trois années, soit pour le pâturage d'été ou pour l'alimentation en hiver, le bétail suivant qui doit lui appartenir exclusivement:

(*a*) la première année, cinq têtes;

(*b*) la deuxième année, dix têtes;

(*c*) la troisième année, et chaque année subséquente jusqu'à ce qu'il obtienne la patente, seize têtes.

L'inscrit qui élève ainsi du bétail devra entourer tout le terrain d'une clôture solide à la satisfaction de la Commission.

Bâtiments pour bétail.

54. Des bâtiments convenables pour l'accommodation du nombre de bestiaux qu'a le colon en toute année seront érigés sur le homestead, mais si les conditions de résidence sont remplies conformément aux dispositions relatives aux homesteads voisins, ces bâtiments peuvent se trouver sur le terrain où réside le colon.

INSCRITS DÉCÉDÉS.

Représentant légal peut remplir conditions.

55. Advenant le décès d'une personne inscrite sous le régime des présents règlements avant le parfait accomplissement des conditions nécessaires à l'obtention des lettres patentes, les obligations de résidence seront suspendues. Les conditions autres que la résidence et la naturalisation seront remplies par le représentant légal de l'inscrit décédé.

Inscriptions incomplètes.

56. Si l'inscrit meurt avant le parfait accomplissement des conditions de l'inscription de la manière prescrite par les présents règlements, son inscription peut être annulée. Toutefois, si l'assurance satisfaisante est donnée que la succession sera administrée et que les prescriptions des règlements seront observées, la Commission peut prolonger le délai pour remplir les conditions d'inscription.

INSCRITS ALIÉNÉS.

Inscrits aliénés.

57. Si un inscrit devient aliéné ou mentalement incapable et, pour cause de cette aliénation ou incapacité mentale, dans l'impossibilité d'achever de remplir les conditions nécessaires pour obtenir les lettres patentes, les obligations de résidence et de naturalisation seront suspendues. Les conditions autres que celles de la résidence peuvent être remplies par le curateur ou le curateur aux biens de l'inscrit ou par quiconque, à la mort de ce dernier, aurait été son représentant légal.

LETTRES PATENTES.

Preuve de l'accomplissement des obligations.

58. Après que l'inscrit a rempli les conditions d'établissement ci-dessus prescrites il peut en présenter la preuve. Cette preuve sera sous forme de déclaration sous serment par l'inscrit, corroborée par une déclaration sous serment de deux personnes désintéressées résidant dans le voisinage.

La déclaration de l'inscrit et de ses témoins sera faite devant un fonctionnaire dûment autorisé par la Commission à recevoir telle preuve.

Inscrits décédés et aliénés.

59. Advenant le décès d'un inscrit, ou dans le cas où un inscrit devient aliéné ou mentalement incapable, la preuve de l'accomplissement des conditions de la concession sera faite par telle personne ou telles personnes et de telle manière que la Commission jugera satisfaisante.

Perte de droits à défaut de preuve.

60. Si la preuve de l'accomplissement des conditions d'inscription n'a pas été fournie, ainsi que prescrit, dans les cinq ans de la date de l'inscription, le droit de l'inscrit en rapport avec le homestead est sujet à déchéance sur l'ordre de la Commission.

Lettres patentes.

61. Si la preuve de l'accomplissement des conditions d'inscription a été soumise ainsi que prescrit, et que la Commission est satisfaite de cette preuve, la Commission s'il n'y a aucune charge sur le terrain pour un prêt fait sous le régime des règlements régissant les prêts pour l'établissement des soldats, recommandera l'émission de la

patente à l'inscrit, ou au cas du décès de l'inscrit, à son représentant légal, ou au nom du défunt lui-même, si la loi de la province où le terrain est situé ne pourvoit pas à la nomination d'un représentant personnel.

Patente émise qu'après remboursement du prêt.

62. Si la preuve de l'accomplissement des conditions d'établissement a été acceptée par la Commission, mais qu'il y a une charge sur le terrain pour des avances faites sous l'empire de la loi, la Commission retardera l'émission de la patente jusqu'à ce que le terrain ait été dégrevé de cette charge.

Certificat quant à la preuve.

63. Dans les cas mentionnés dans l'article précédent l'inscrit, ou au cas de son décès la personne qui aurait droit de recevoir la patente si toutes les conditions avaient été remplies, peut recevoir un certificat de la Commission déclarant que les conditions d'établissement ont été remplies et que sur paiement de la dette contractée sous le régime de la loi les lettres patentes seront délivrées à la personne qui a droit de les recevoir conformément aux présents règlements.

ÉCHANGE D'INSCRIPTIONS.

Quand deux colons peuvent échanger.

64. Deux inscrits quelconques dont les inscriptions sont en règle peuvent pour cause obtenir de la Commission la permission d'échanger leurs inscriptions respectives pourvu que la Commission soit satisfaite que la garantie donnée par un colon qui a obtenu un prêt sous le régime de la loi n'est pas diminuée par cet échange.

ABANDON DE L'INSCRIPTION.

Abandon et réinscription.

65. A la discrétion de la Commission, permission peut être accordée à l'inscrit d'abandonner le terrain pour lequel il s'est inscrit en faisant une déclaration en la forme prescrite par la Commission et il peut lui être permis de s'inscrire pour un autre terrain disponible pour cette fin.

En cas de prêt.

66. Lorsque l'inscrit, ayant obtenu un prêt de la Commission, a créé sur le homestead une charge ou un lien qui n'a pas été acquitté, le privilège d'abandon et de réinscription ne peut être accordé qu'à condition que la dette soit transférée au terrain pour lequel la nouvelle inscription est faite et seulement lorsque la Commission est satisfaite que la garantie du prêt ne sera pas diminuée par la transaction.

Abandon en faveur d'un parent.

67. Lorsqu'une inscription est en règle l'inscrit peut à la discrétion de la Commission obtenir la permission d'abandonner son homestead en faveur d'un père, une mère, une sœur, une fille, un frère, une épouse, ou un mari qui est qualifié pour l'inscription de soldat sous le régime des présents règlements, aux conditions que la Commission peut prescrire.

ANNULATION DE L'INSCRIPTION.

Raisons pour annulation.

68. Une inscription peut être annulée pour une des raisons suivantes:—

(*a*) Si l'inscrit en une année quelconque ne remplit pas les conditions d'établissement prescrites;

(*b*) Si une inscription a été obtenue ou accordée par erreur, ou sous de fausses représentations ou par fraude;

(*c*) Si un inscrit qui a obtenu un prêt de la Commission d'établissement de soldats ne paie pas les versements sur le principal et l'intérêt aux dates où ils sont payables, ou ne se conforme pas aux conditions du prêt;

(*d*) Si l'inscrit ne paie pas les améliorations ou les charges sur le terrain en rapport avec le grain de semence ou les secours accordés, ou autre dette d'un inscrit ou d'un propriétaire précédent du terrain;

(*e*) Si l'inscrit a cédé, hypothéqué ou transféré, ou s'il a consenti à céder, hypothéquer ou transférer son homestead, à moins qu'il ne soit autrement prescrit.

Effet de l'annulation.

69. Lorsqu'une inscription a été annulée pour une raison quelconque, tous les droits de l'inscrit sur son homestead cessent et se terminent dès lors; mais la Commission peut à sa discrétion rembourser à la personne qui a fait les améliorations, en tout ou en partie, l'argent reçu à compte de telles améliorations de celui qui possède ou occupe subséquemment le terrain.

ADMINISTRATION.

70. En ce qui concerne les règlements ci-dessus qui ont rapport à la mise en réserve des terrains, à l'annulation de ces réserves, aux catégories de terrains ouverts à l'inscription, à l'annonce ou l'affichage, aux inscriptions, au règlement des conflits dans les demandes de terrain, à l'accomplissement des conditions d'inscription, à la preuve de l'accomplissement de ces conditions, à l'émission des lettres patentes, à l'échange des inscriptions, à l'abandon des inscriptions soit sans conditions ou en faveur d'un parent, et à l'annulation des inscriptions, partout où il est prescrit que la Commission doit agir, elle le fera par l'entremise du département de l'Intérieur.

DATE DE LA MISE EN VIGUEUR.

71. Les présents règlements entreront en vigueur à une date qui sera fixée par la Commission.

[1743]

HOTEL DU GOUVERNEMENT A OTTAWA.

Jeudi, le 11e jour de juillet 1918.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité de Conseil privé a été soumis un rapport du ministre du Travail, daté le 9 juillet 1918, représentant que le malaise industriel est devenu plus général au cours des quelques derniers mois, causant une interruption sérieuse dans certaines branches des industries travaillant pour les fins de la guerre, et qu'il semble que ce malaise se propagera à moins que ne soient faits des efforts efficaces pour l'enrayer. Ce malaise est dû à diverses causes; comme la rareté de la main-d'œuvre, la cherté rapidement croissante de la vie, le refus des patrons de reconnaître à leurs ouvriers le droit de s'associer ou de les rencontrer en conférence pour discuter leurs demandes de meilleures conditions ou négocier le règlement des différents, le fait que les ouvriers ignorent les prescriptions de la *Loi des différents industriels* et ont trop vite recours aux procédé rigoureux avant d'épuiser tous les efforts raisonnables pour atteindre un règlement satisfaisant. L'insuffisance des salaires et la longueur de la journée de travail sont aussi des causes fréquentes de ce malaise.

Le Ministre, réalisant la nécessité d'un travail continue et de la coopération étroite et sympathique entre les employés et les patrons pour assurer les meilleurs résultats possibles de l'effort de la guerre, est d'avis que le Gouvernement devrait immédiatement prendre tous les moyens qui peuvent sembler pratiques pour empêcher toute interruption de travail pendant la guerre, qu'elle soit causée par des grèves ou des contre-grèves (lockouts), et établir une telle coopération, et en même temps s'efforcer d'assurer à l'ouvrier une compensation adéquate de son travail et des sauvegardes raisonnables de sa santé et sa sûreté, et au patron un traitement juste et raisonnable.

Le Ministre est de plus d'avis qu'une déclaration par le Gouvernement d'une politique ouvrière de guerre, juste et équitable pour tous les intéressés, régissant les patrons et les ouvriers dans toutes les industries engagées dans le travail de guerre et comprenant toutes celles mentionnées dans la *Loi des enquêtes en matière de différends industriels* (sauf les chemins de fer), et les modifications qui y ont été faites par le parlement ou par arrêté en conseil, pour la durée de la guerre, contribuerait efficacement à atteindre ce but.

Par conséquent, le Ministre recommande que le Gouverneur en conseil déclare les principes suivants et exhorte les patrons et les ouvriers à les adopter pour la durée de la guerre :

1. La suppression des grèves et des contre-grèves (lockouts) au cours de la guerre.
2. Le droit pour les ouvriers de s'organiser en unions ouvrières, droit qui ne doit être nié ou enfreint d'aucune manière, et permission et encouragement aux ouvriers de traiter avec les patrons, par l'entremise de leurs représentants, concernant les conditions de travail, les salaires ou les griefs.
3. Le droit pour les patrons de s'organiser en associations, droit qui ne doit être nié ni enfreint de manière quelconque par les ouvriers.
4. Les patrons ne doivent pas congédier les ouvriers ou leur refuser de l'emploi pour la seule raison qu'ils sont membres d'unions ouvrières ou s'occupent activement hors des heures de travail de l'œuvre légitime de l'unionisme ouvrier.
5. Les ouvriers dans l'exercice de leurs droits de s'organiser s'abstiendront de toute contrainte ou intimidation pour influencer une personne quelconque à se joindre à leur union ou les patrons à traiter avec elle.
6. Les établissements où l'union est reconnue par une convention continueront à maintenir le système de l'union quant aux gages, aux heures de travail et autres conditions d'emploi.
7. Dans les établissements où des hommes et des femmes n'appartenant pas à l'union travaillent ensemble, et où le patron ne rencontre que les employés ou leurs représentants travaillant dans ces

établissements, le maintien de telles conditions ne sera pas censé être un grief.

Cette déclaration, toutefois, n'a pas pour but de nier le droit ou décourager la pratique de former des unions ouvrières ou de s'y joindre pour les ouvriers de ces établissements, ni d'empêcher un conseil de conciliation ou autre corps ou arbitre de recommander des améliorations en ce qui concerne les salaires, les heures de travail ou autres conditions, ainsi qu'on pourra juger opportun de temps à autre.

8. Le maintien de sauvegardes et de règlements pour la protection de la sante et la sûreté des ouvriers.

9. Tous les travailleurs, y compris les simples journaliers, ont droit à un salaire suffisant pour leur permettre, en pratiquant l'économie, de faire vivre convenablement leurs familles et d'épargner raisonnablement pour leur vieillesse.

10. En fixant les salaires un minimum devrait être établi.

11. Les femmes employées à un travail ordinairement fait par des hommes devraient recevoir le même salaire que les hommes pour la même besogne et ne devraient pas être employées à des tâches excédant leurs forces.

12. Dans tous les cas où la journée de 8 heures est reconnue par la loi ou par une convention, elle continuera ainsi. Dans tous les autres cas, la question des heures de travail devrait être réglée en ayant égard aux exigences gouvernementales et au bien-être, à la santé et au confort des ouvriers.

13. On doit s'efforcer d'atteindre un maximum de production dans toutes les industries et décourager toute méthode de travail et d'exploitation qui tend à retarder ou limiter la production ou à en hausser artificiellement le prix.

14. Afin de mobiliser la main-d'œuvre disposible pour sa répartition rapide et efficace ainsi que pour un travail constant, les gérants et directeurs d'établissements industriels et les unions ouvrières concernées devraient renseigner les bureaux de placement provinciaux ou municipaux et la Commission d'enregistrement quant à la main-d'œuvre requise ou disponible. Ces bureaux devraient avoir toutes les facilités pour la répartition de la main-d'œuvre.

15. En fixant les salaires, les heures et les conditions de travail on devrait tenir compte des salaires et autres conditions dans la la localité affectée, mais en ayant toujours égard à la nécessité du paiement d'un salaire suffisant.

16. Afin d'assurer la paix industrielle pendant la guerre les patrons et les ouvriers devraient, après avoir adopté une convention quant aux salaires et aux conditions de travail, consentir à sa continuation durant la guerre, sauf les modifications dans les salaires que pourraient justifier les fluctuations du coût de la vie.

17. Quand les patrons et les ouvriers ne peuvent en venir à une entente mutuelle concernant un différend ils devraient, à moins qu'ils n'adoptent un autre moyen de règlement, utiliser les moyens que leur donne la *Loi des différends industriels* afin d'assurer un règlement.

Si la recommandation du conseil de conciliation n'est pas acceptée, une ou l'autre des parties peut en appeler à un conseil d'appel qui revisera les décisions du conseil de conciliation et entendra toute déposition que l'une ou l'autre des parties au différend peut désirer faire à ses propres frais, la décision du conseil d'appel devant être finale.

Tout règlement d'un différend soumis au conseil d'appel entrera en vigueur dès la date où a été faite la demande au conseil de conciliation.

Le conseil d'appel sera composé de deux représentants des ouvriers nommés par le comité exécutif du Congrès des Métiers et du Travail du Canada, deux représentants des patrons nommés par le comité exécutif de l'Association des patrons du Canada, et un président nommé par les dits membres du conseil, ou, au cas où l'on ne pourrait s'entendre sur le choix d'un président, par le ministre du Travail.

Le Ministre recommande de plus que le ministre du Travail soit autorisé à faire des règlements régissant la procédure en appel sous le régime du paragraphe 17 des présentes recommandations.

Le comité agrée les recommandations qui précèdent et les soumet à l'approbation de Votre Excellence.

RODOLPHE BOUDREAU,
Greffier du Conseil privé.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que le Président des Etats-Unis, le 14 février 1918, a promulgué une proclamation exigeant une licence d'importation pour tous les articles importés de tous les pays, dont le but principal était de permettre au gouvernement des Etats-Unis d'éliminer les importations moins sssentielles afin de conserver le tonnage et de procurer des moyens de transport additionnels pour les troupes et les approvisionnements à destination d'Europe, et afin que la marine marchande puisse contribuer plus efficacement à la poursuite de la guerre :

Et attendu que le 20 février 1918 a été émise une licence générale permettant, sans permis individuels d'importation, l'importation du Canada de toutes commodités, excepté celles mentionnées dans la proclamation du Président du 28 novembre 1917, cette licence devant être efficace jusqu'à sa révocation par le Bureau des importations de la Commission du Commerce de guerre des Etats-Unis ;

Et attendu que la Commission du Commerce de guerre des Etats-Unis représente que des importateurs échappent de temps à autre aux prescriptions de cette proclamation en important des articles sujets à restriction aux Etats-Unis de pays étrangers par le territoire canadien, et que par l'application efficace des prescriptions de ladite proclamation et pour en atteindre le but il est désirable et nécessaire que le Canada contrôle par licence l'importation des articles sur lesquels les Etats-Unis exercent aussi un contrôle par licence sous l'empire et en vertu de ladite proclamation du Président des Etats-Unis ;

Et attendu qu'il est désirable que le Gouvernement du Canada coopère autant que possible avec le gouvernement des Etats-Unis dans le contrôle des importations afin d'atteindre le but déclaré dans ladite proclamation du Président des Etats-Unis,—

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommantion du ministre des Finances, de décréter par les présentes que l'importation au Canada de tous les articles contenus dans les listes Nos 1 et 2 promulguées par les Etats-Unis et compris dans le tableau ci-annexé soit par les présentes prohibée, sauf sur une licence approuvée par la Commission du Commerce de guerre.

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU qu'il est jugé opportun de pourvoir à l'émission de certificats temporaires spéciaux d'obéi-sance à la *Loi du service militaire, 1917*, et aux règlements sous le régime de cette loi par les hommes tenus de répondre à l'ordre de se présenter pour le service mais dans le cas desquels cet ordre, au cours de l'administration de la loi, a été temporairement différé, afin que ces hommes puissent donner une preuve sous forme d'un certificat pour l'inspection des agents de police chargés d'appréhender les transfuges.

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du ministre de la Justice et sous l'empire des pouvoirs conférés au Gouverneur général en conseil par la *Loi du Service militaire, 1914*, ou la *Loi des mesures de guerre, 1917*, de faire le règlement suivant, et ce règlement est par les présentes fait et établi en conséquence :

RÈGLEMENTS.

Des certificats temporaires en la forme que prescrira le département peuvent être délivrés par les régistraires et sous-régistraires sous le régime de la *Loi du service militaire, 1917*, aux hommes qui se sont conformés aux prescriptions de la loi et des règlements et auxquels peut être donné l'ordre de se présenter pour le service militaire, mais à qui pour une raison justifiée par la bonne administration de la loi cet ordre n'a pas été donné pour le moment ; et la présentation de tel certificat temporaire spécial à un agent de la police militaire ou civile ou constable chargé de rechercher ou appréhender les transfuges sera une preuve suffisante de l'immunité de cet homme à l'arrestation tant qu'il n'a pas failli à l'observance d'un ordre qu'il a reçu de se présenter pour le service.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

AU comité du Conseil privé a été soumis un rapport du ministre du Travail, daté le 19 juillet 1918, représentant que dans nombre de cas, particulièrement dans certaines industries, les dispositions de la *Loi des enquêtes en matière de différends industriels, 1917*, prescrivant qu'il est illégal pour un patron de déclarer ou causer une contre-grève ou pour un employé de se mettre en grève au sujet d'un différend avant que ce dernier soit soumis à un conseil de conciliation et d'enquête sous le régime des dispositions de cette loi, ont été complètement ignorés par l'un ou l'autre des intéressés au différend. Récemment cette attitude a été plus fréquemment prise et le chômage en est résulté dans des industries essentielles, ce qui aurait pu être évité, et l'aurait probablement été, si les prescriptions de ladite loi eussent été observées.

Le Ministre représente de plus que depuis la promulgation de cette loi le Gouvernement fédéral n'a pas intenté de poursuite pour infraction de ces prescriptions, ni de telles poursuites ont-elles été intentées, sauf en quelques cas, par des particuliers. Le Ministre est convaincu que si le Gouvernement fédéral appliquait les dispositions de cette loi il en augmenterait l'efficacité pour le meilleur intérêt du public.

Le Ministre est de plus d'avis que le fait pour le Gouvernement d'annoncer que des mesures immédiates seront prises dans ce but tendrait à empêcher l'interruption du travail et à prévenir les maux qui en résultent.

Par conséquent, le Ministre recommande que le Gouvernement prenne immédiatement telles mesures qui peuvent être nécessaires pour assurer des poursuites immédiates dans tous les cas d'infraction des prescriptions de ladite loi.

Le comité agrée cette recommandation et la soumet pour approbation.

4–2 Greffier du Conseil privé.

Et attendu que le Secrétaire d'Etat est d'avis que les requérants atteindront leur but si l'application de la *Loi de tempérance du Canada* est suspendue, en conformité des dispositions à cet effet du chapitre 30, 7–8 George V, *Loi modifiant la loi pour aider la législation provinciale prohibant ou restreignant la vente ou l'usage des boissons enivrantes*;—

Par conséquant, il plaît à Son Excellence le Gouverneur général en conseil, en conformité des dispositions de la loi susdite, de déclarer par les présentes que l'application de la *Loi de tempérance du Canada*, dans le comté d'Alberta, dans la province du Nouveau-Brunswick, est par les présentes suspendue pour une période commençant dix jours après la date de la publication du présent décret dans la *Gazette du Canada*, et se continuant aussi longtemps que la loi provinciale continuera à imposer les restrictions de la *Loi de tempérance du Canada*, ce qu'elle fait actuellement de l'avis du département de la Justice.

SON EXCELLENCE LE GOUVERNEUR GENERAL EN CONSEIL.

ATTENDU que par l'arrêté en conseil (C.P. 2731), daté le 3 octobre 1917, promulgué sous le régime de la *Loi des mesures de guerre*, le Secrétaire d'Etat du Canada a été autorisé à accorder une licence aux agences canadiennes de "Thomas Cook & Son," de Londres, Angleterre, leur permettant de transmettre aux sujets de pays alliés ou neutres en territoire occupé par l'ennemi, pour leur soutien, toute somme n'excédant pas vingt-cinq livres sterling par mois dans le cas d'une seule transaction, et que le 24e jour de janvier 1918 a été adopté un arrêté en conseil (C.P. 199), autorisant le Secrétaire d'Etat à accorder des permis en vertu desquels pourraient être faits à des personnes, firmes ou corporations résidant ou exerçant leur industrie en Canada et dans des pays alliés ou neutres des paiements de sommes destinées aux ennemis, ainsi que définir par le code des Ordonnances concernant le commerce avec l'ennemi, et pourraient se faire telles transactions financières opportunes et nécessaires pour la protection de la propriété située en Canada ou des valeurs qui y sont détenues;

Et attendu que le développement de la guerre et le changement des conditions en Russie exigent que des mesures soient prises pour accorder des permis généraux pour la transmission d'argent aux pays ennemis et au territoire occupé par l'ennemi, afin de permettre à des personnes résidant en Canada d'entrer en communication avec des personnes en territoire occupé par l'ennemi, et afin d'autoriser le paiement en Canada de sommes au bénéfice d'un ennemi,—

Par conséquent, il plaît à Son Excellence le Gouverneur général en conseil, à la recommandation du Secrétaire d'Etat et en vertu des dispositions de la *Loi des mesures de guerre, 1914*, d'autoriser par les présentes le Secrétaire d'Etat du Canada à accorder des permis autorisant la transmission d'argent à des ennemis, alliés et neutres en territoire ennemi ou occupé par l'ennemi, d'autoriser les communications avec des ennemis ou des personnes en territoire ennemi ou occupé par l'ennemi, d'autoriser la dépense d'argent en Canada au nom ou au bénéfice d'ennemis ou de personnes en territoire occupé par l'ennemi, et de faire telles transactions financières qui peuvent être opportunes et nécessaires pour protéger la propriété située en Canada ou les valeurs qui y sont détenues;

Et il plaît de plus à Son Excellence le Gouverneur général en conseil de décréter par les présentes que les arrêtés en conseil susdit du 3 octobre 1917 (C.P. 2731) et du 24 janvier 1918 (C.P. 199) soient par les présentes révoqués, pourvu, toutefois, que telle révocation desdits arrêtés en conseil n'affecte pas :

(*b*) Un droit ou privilège acquis ou une obligation quelconque contractée sous le régime des dits arrêtés ;

(*c*) Une amende, déchéance ou peine quelconque encourue pour une infraction des dits arrêtés ; ou

(*d*) Les poursuites ou recours quant à un droit ou privilège, une obligation, amende, déchéance ou peine susdits ;

Et toute permission ou instruction donnée ou prescription faite ou mesure prise en vertu des dits règlements ainsi révoqués seront censées avoir été donnée, faite ou prise sous l'empire du présent arrêté.

DEMANDES AU PARLEMENT.

SENAT.

SUBSTANCES DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

Telles que revisées et mises en vigueur le 22 mars 1916.

Tout pétitionnaire en divorce doit annoncer son intention de demander un bill de divorce, par un avis spécifiant contre qui et pour quelle cause le divorce sera demandé; il fait insérer cet avis, pendant trois mois au moins avant la prise en considération par le comité des divorces de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux—du district où il avait sa résidence habituelle à l'époque de sa séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Saskatchewan, l'Alberta, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; et à défaut de ce nombre de journaux, l'avis doit se publier dans le district, dans le comté ou les comtés-unis voisins.

Dans les provinces de Québec et du Manitoba, les insertions doivent se faire dans un journal anglais et un journal français, s'il en existe des deux langues dans le district; autrement, elles se font en anglais et en français au même journal. Si l'avis donné pour une session expire trop tard pour qu'il puisse être statué sur la pétition pendant cette session, la pétition pourra être présentée et accueillie à la session suivante sans nouvelle publication d'avis.

Une copie de cet avis et une copie de la pétition qui sera présentée doit, à la diligence du pétitionnaire et au moins deux mois avant la prise en considération de la pétition par le comité, être signifiée en main propre si cela est possible, à la personne contre laquelle le divorce sera demandé, ci-après appelée "partie défenderesse".

Si la résidence de la partie défenderesse n'est pas connue, ou que la remise de l'avis ne peut être faite en ses mains, s'il est prouvé, d'une manière jugée satisfaisante par le comité, que tous les efforts raisonnables ont été faits pour opérer la signification en main propre, et, en cas d'inutilité de ces efforts, pour porter l'avis et la pétition à la connaissance de la partie défenderesse, ces diligences peuvent être tenues pour une suffisante notification.

Aucune pétition en divorce n'est recevable après l'expiration des soixante premiers jours de la session.

Toute pétition en divorce doit être écrite lisiblement et porter la signature du pétitionnaire. Elle énonce sommairement le fait du mariage, en indiquant les noms au long, l'âge et l'état des parties, en quel temps, en quel lieu et par qui a été faite la célébration; le domicile et la résidence de chacune des parties à l'époque du mariage, leur domicile conjugal, leur résidence et tout changement qui en aurait eu lieu; les traits essentiels sur lesquels est fondée la demande de redressement et la nature du redressement demandé.

La pétition doit aussi contenir l'assurance qu'il n'y a pas eu ni connivence, ni pardon pour les torts qui donnent lieu à la plainte, ni collusion dans la demande en divorce.

Les allégations de la pétition doivent être appuyées d'une déclaration du pétitionnaire, faite conformément à l'*Acte de la preuve en Canada, 1893*.

La copie de la pétition signifiée à la partie défenderesse portera en endos ou en annexe les renseignements suivants:

(*1*) La résidence du étitionnaire à l'époque de la signification.

(*2*) Une adresse postale en Canada à laquelle les lettres et avis pour le pétitionnaire puissent être délivrés.

(*3*) Le nom et l'adresse de l'avocat, s'il y en a un, agissant pour le pétitionnaire.

(*4*) Si cet avocat n'a pas d'adresse à Ottawa, le nom et l'adresse de quelque agent le représentant à Ottawa à qui tous avis et pièces puissent être signifiés.

(*5*) Si la partie défenderesse veut s'opposer à la demande en divorce et être entendue par le comité des divorces du Sénat, elle doit adresser un avis à cet effet au greffier du Sénat aux édifices du Parlement, Ottawa, dans les deux mois de la signification faite à la partie défenderesse et donner dans cet avis au greffier du Sénat:

(*a*) La résidence de la partie défenderesse à l'époque de l'envoi de l'avis.

(*b*) Une adresse postale en Canada à laquelle les lettres et avis pour la partie défenderesse puissent être délivrés.

(*c*) Le nom et l'adresse de l'avocat, s'il y en a un agissant pour la partie défenderesse.

(*d*) Si cet avocat n'a pas d'adresse à Ottawa, le nom et l'adresse de quelque agent le représentant à Ottawa, à qui tous avis et pièces puissent être signifiés.

(*6*) Si la partie défenderesse ne notifie pas ainsi le greffier du Sénat, la pétition peut être prise en considération, et un bill de divorce basé sur cette pétition peut suivre son cours sans autre avis à la partie défenderesse.

(7) Lorsque la pétition est présentée par un mari pour obtenir le divorce contre sa femme, si celle-ci fait voir au comité d'une manière satisfaisante qu'elle peut opposer et qu'elle est prête à produire sous serment de bons moyens de défense contre les accusations portées dans la pétition, et qu'elle n'a pas l'argent nécessaire pour faire valoir ces moyens, le comité peut rendre un ordre que son mari ait à lui fournir la somme nécessaire pour qu'elle puisse présenter sa défense en retenant les services d'un conseil, payer ses frais de voyage et de séjour et ceux des témoins assignés de sa part à Ottawa.

La pétition en obtention d'un bill de divorce n'est prise en considération par le comité que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $210.

La pétition, au moment de sa présentation au Sénat doit être accompagnée de la preuve de la publication d'avis et d'une déclaration établissant qu'une copie de l'avis de la pétition a été signifiée.

Une copie de toute pétition en obtention d'un bill de divorce, ou relative à quelque demande de divorce,—et une copie de tous documents et papiers accompagnant cette pétition, ou à produire devant le comité, devra être fournie par la personne au nom de laquelle la pétition, les documents ou les papiers seront présentés ou produits.

A. E. BLOUNT,
Greffier du Sénat.

Avis de bills privés.

EXTRAIT DES RÈGLES DU SÉNAT.

107. Toute demande au Parlement, pour obtenir un bill privé, de quelque nature qu'il soit, doit être annoncée par avis inséré à la *Gazette du Canada;* cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et contenir l'adresse des signataires; et si elle a pour objet l'obtention d'un acte constitutif, il faut donner aussi dans l'avis le nom de la compagnie projetée.

Outre l'avis à insérer dans la *Gazette du Canada,* il doit en être publié un semblable, comme il suit:—

A) Lorsque la demande a pour objet l'obtention d'un acte constituant en corporation,—

1. Une *compagnie de chemin de fer ou de canal,* —dans un des principaux journaux de la principale cité ou ville ou le principal village de chaque comté ou district par où passerait le chemin de fer ou le canal dont la construction est projetée;

2. Une *compagnie de télégraphe ou de téléphone,* —dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire où elle se propose d'opérer;

3. Une *compagnie pour la confection de travaux quelconques,* dont la confection ou l'exploitation intéresserait spécialement telle localité particulière; ou une compagnie tendant à obtenir des droits ou privilèges exclusifs, ou l'autorisation de faire une chose dont l'opération pourrait porter atteinte aux droits ou à la propriété d'autrui,—dans un des principaux journaux de l'endroit ou des endroits que l'acte demandé intéresse;

4. Une *compagnie de banque;* une *compagnie d'assurance;* une *compagnie de crédit;* une *compagnie de prêt;* ou une *compagnie industrielle,* sans pouvoirs exclusifs,—dans la *Gazette du Canada* seulement.

5. Et si les travaux d'une compagnie (constituée ou à constituer) doivent être déclarés d'utilité générale pour le Canada, cette intention sera spécifiquement mentionnée dans l'avis; et les requérants feront envoyer par lettre enregistrée une copie de cet avis au secrétaire de chaque conseil de comté et de chaque corporation municipale spécialement intéressée dans la construction ou l'exploitation de ces travaux, ainsi qu'au secrétaire de la province dans laquelle ces travaux sont ou seront situés; et la preuve de l'accomplissement de cette prescription par les requérants devra s'établir par une déclaration statutaire.

B) Lorsque la demande a pour objet de modifier un acte existant,—

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient, l'avis sera le même, *mutatis mutandis,* que celui pour l'obtention d'un acte constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la confection ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres travaux quelconques déjà autorisés,—dans un des principaux journaux de l'endroit où la compagnie a son siège ou est autorisée à avoir son siège;

3. Afin d'étendre les pouvoirs d'une compagnie (sans attribution de pouvoirs exclusifs); d'accroître ou de réduire le capital-actions d'une compagnie, ou d'augmenter ou modifier sa faculté d'émettre des obligations ou de faire des emprunts, ou d'effectuer des changements pouvant porter atteinte aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie,—dans un des principaux journaux du lieu de la situation de son siège.

C) Dans tous ces cas, les avis insérés soit à la *Gazette du Canada* ou dans les journaux, doivent se publier au moins une fois par semaine pendant cinq semaines consécutives; et, lorsqu'ils se publient dans les provinces de Québec et du Manitoba, ils doivent être en langue anglaise et en langue française. Il faut envoyer au greffier du Sénat des exemplaires *marqués* de chaque numéro de tous les journaux contenant l'avis, avec, sur le pli de la feuille, les mots: *"Avis de bill privé"*; ou l'on peut transmettre, au lieu des journaux, une déclaration statutaire que l'avis a été dûment publié.

Tout avis par lettre enregistrée sera déposé à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale cinq semaines au moins avant la considération de la pétition par le comité des Ordres permanents; et une déclaration statutaire établissant le fait du dépôt à la poste sera transmise au greffier du Sénat.

108. Nulle pétition pour la constitution en corporation d'une compagnie de chemin de fer ou d'un canal existant ou autorisé, n'est prise en considération par le comité des Ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé des travaux ainsi que les comtés ou les districts par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement qu'on veut construire.

109. Avant d'adresser au Sénat la pétition pour en obtenir la permission de présenter un bill privé ayant pour objet la construction d'un pont de péage, la ou les personnes qui ont l'intention de faire cette pétition doivent, en donnant l'avis prescrit par les règles précédentes mentionner en même temps et de la même manière, les péages qu'elles se proposent de percevoir, l'étendue du privilège, la hauteur des arches, l'espace libre entre les culées ou les piles pour le passage des trains de bois et des bateaux; en outre, mentionner si le pont sera mobile ou non, et indiquer les dimensions de la partie mobile.

110. Aucune pétition en obtention d'un bill privé n'est reçue par le Sénat après les trois premières semaines de la session; aucun bill privé ne peut lui être présenté après les quatre premières semaines de la session; aucun rapport d'un comité permanent ou spécial sur un bill n'est reçu après les six premières semaines de la session.

114. Toute personne qui voudra obtenir un bill privé, si elle se propose de la présenter au Sénat, devra déposer entre les mains du greffier de cette Chambre, huit jours avant la réunion du Parlement, une copie du bill en langue anglaise ou en langue française avec une somme d'argent suffisante pour en payer la traduction, laquelle sera faite par les traducteurs du Sénat, et payer l'impression de 600 exemplaires anglais et de 200 exemplaires français; elle aura pareillement à verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant la prise en considération par le comité auquel il aura été renvoyé, une somme de $200, avec les frais d'insertion de l'acte au corps des Statuts; et elle remettra au commis-greffier du comité un reçu constatant le versement de ces sommes.

A. E. BLOUNT,
Greffier du Sénat.

RÈGLES RELATIVES AUX PÉTITIONS ET AUX BILLS PRIVÉS.

88. (1) Les pétitions pour bills privés ne sont reçues par la Chambre que si elles sont présentées pendant les six premières semaines de la session, Mettout bill privé sera présenté à la Chambre dans es deux semaines à compter de l'époque où l'examinateur ou le comité des ordres permanents auront fait un rapport favorable sur la pétition, et nulle motion à l'effet de suspendre cette règle ne sera acceptée, à moins qu'au préalable le comité des ordres permanents n'ait présenté un rapport recommandant cette suspension et exposant les raisons la motivant.

Instructions aux comités.

97. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être discutées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommendation que ces bills soient retirés.

Dépôt de bills et honoraires.

89. (1) Toute personne qui voudra obtenir un bill privé sera tenu de déposer entre les mains du greffier de la Chambre, au moins huit jours avant la réunion de la Chambre, un exemplaire de ce bill en anglais ou en français, avec une somme suffisante pour en payer la traduction et l'impression, la traduction en devant être faite par les fonctionnaires de la Chambre, et l'impression par le département des impressions publiques, et si pareil bill n'est pas déposé dans le délai ci-dessus prescrit, le solliciteur devra, en sus des frais d'impression et de traduction, payer la somme de cinq dollars pour chaque jour qui s'écoulera entre le dit huitième jour avant la réunion de la Chambre et la date de la présentation du bill; mais ces taxes additionnelles ne devront pas dépasser en totalité la somme de deux cents dollars.

W. B. NORTHRUP,

DEVONSHIRE.

[L.S.]

CANADA.

GEORGE THE FIFTH, by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these presents shall come, or whom the same may in anywise concern,—GREETING:

A PROCLAMATION of conditional amnesty respecting men belonging to Class I under the Military Service Act, 1917, who have disobeyed our Proclamation of 13th October, 1917, or their orders to report for duty, or are deserters or absent without leave from the Canadian Expeditionary Force.

E. L. NEWCOMBE, Deputy Minister of Justice, Canada.

WHEREAS considerable numbers of men belonging to Class I under our Military Service Act, 1917, called out on active service in our Canadian Expeditionary Force for the defence of Canada under Our Proclamation of 13th October, 1917, although they have thus become by law soldiers enlisted in the Military Service of Canada,

Have failed to report for duty as lawfully required of them under the said Military Service Act and the regulations thereunder, including the Order in Council duly passed on April 20 last,

Or have deserted,

Or absented themselves without leave from our Canadian Expeditionary Force,

And it is represented that the very serious and unfortunate situation in which these men find themselves is due in many cases to the fact that, notwithstanding the information and warning contained in Our Proclamation aforesaid, they have misunderstood their duty or obligation, or have been misled by the advice of ill-disposed, disloyal or seditious persons.

AND WHEREAS we desire, if possible, to avoid the infliction of the heavy penalties which the law imposes for the offences of which these soldiers have thus been guilty, and to afford them an opportunity within a limited time to report and make their services available in our Canadian Expeditionary Force as is by law their bounden duty, and as is necessary for the defence of Our Dominion of Canada.

NOW KNOW YE that we in the exercise of Our powers, and of Our good will and pleasure in that behalf, do hereby proclaim and declare and cause to be published and made known that the penalties of the law will not be imposed or exacted as against the men who belong to Class I under Our Military Service Act, 1917, and who have disobeyed Our Proclamation aforesaid; or who have received notice from any of Our registrars or deputy registrars to report for duty on a day now past and have failed so to report; or who, having reported and obtained leave of absence, have failed to report at the expiry of their leave, or have become deserters from Our Expeditionary Force, provided they report for duty on or before the twenty-fourth day of August, 1918.

And we do hereby strictly warn and solemnly impress upon all such men, and as well those who employ, harbour, conceal or assist them in their disobedience, that, if they persist in their failure to report, absence or desertion until the expiry of the last mentioned day, they will be pursued and punished with all the rigour and severity of the law, subject to the judgment of our courts martial which will be convened to try such cases or other competent tribunals; and also that those who employ, harbour, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf by law provided for their said offence.

Provided however that nothing contained in this Our Proclamation is intended to release the men aforesaid from their obligation to report for duty as soon as possible or to grant them immunity from arrest or detention in the meantime for the purpose of compelling them to perform their military duty; Our intention being merely to forego or remit the penalties heretofore incurred for failure to report, absence without leave or desertion incurred by those men of the description aforesaid who shall be in the proper discharge of their military duties on or before the said twenty-fourth day of August, 1918.

Of all of which Our loving subjects and all others whom these presents may concern, are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS: Our Right Trusty and Right Entirely Beloved Cousin and Counsellor, Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley, Knight of Our Most Noble Order of the Garter; One of Our Most Honourable Privy Council; Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of Our Royal Victorian Order; Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of OTTAWA, this FIRST day of AUGUST, in the year of Our Lord one thousand nine hundred and eighteen, and in the ninth year of Our Reign.

By Command,

THOMAS MULVEY,
Under-Secretary of State.

DESPATCHES, ETC.

[*Extracts from the 4th Supplement to the* LONDON GAZETTE *of the 2nd July, 1918.*]

WAR OFFICE,
5th July, 1918.

WITH reference to the awards conferred as announced in the *London Gazette* dated 4th February, 1918, (see *Canada Gazette* 9th March, 1918) the following are the statements of service for which the decorations were conferred:—

Awarded a Bar to the Distinguished Service Order.

CANADIAN FORCE.

Lt.-Col. Denis Colburn Draper, D.S.O., Mtd. Rif.

For conspicuous gallantry and devotion to duty in several engagements. In an attack, when elements of his battalion reached the line of their final objective and held their position though both flanks were in the air, with the aid of two companies of another brigade he formed a defensive flank 500 yards long, and with great skill and coolness secured the left of the ground gained. He afterwards remained in the forward area until the evacuation of all his wounded had been organised.

Awarded the Distinguished Service Order.

CANADIAN FORCE.

Capt. (A./Maj.) Samuel Buttrey Birds, M.C., Infy.
For conspicuous gallantry and devotion to duty. He was in support during an attack, and when the leading companies were held up he advanced straight to the position and captured it, together with three machine-guns and a large number of prisoners. He reconnoitred the whole position and sent in most accurate sketches and reports. He showed great courage and skill.

Lt.-Col. Allison Hart Borden, Infy.
For conspicuous gallantry and devotion to duty. By his personal reconnaissance prior to the attack, in the face of great danger from machine-gun and rifle fire, he obtained sufficient information to modify his plans so as to deal with the unexpected situation caused by the enemy's counter-attack. With complete disregard for his own safety, he made a tour of the line, making the necessary adjustments in dispositions to ensure its being held. His example to his battalion was magnificent, and his determination, courageous conduct, and skilful leadership inspired all ranks to hold on to their objective, even though their losses were very heavy.

Maj. Alexander Grant, Infy.
For conspicuous gallantry and devotion to duty. He led his company to the final objective and organized the defence. When his company was in support and a counter-attack was imminent, he led his company forward through heavy shell fire, established it immediately behind the front line, and took charge of the situation. He set a splendid example to his men.

Maj. John Alexander McEwan, Infy.
For conspicuous gallantry and devotion to duty in an attack. When all the other officers of his company became casualties, he placed himself in front of his company, under heavy fire, and led them with the greatest skill and determination to their final objective. Though three times buried by shells, he continued to hold the line for four days.

Ll.-Col. Andrew George Latta McNaughton, Arty.
For conspicious gallantry and devotion to duty as counter-battery staff officer. He carried out daring reconnaissances, and observed the enemy's batteries from an exposed position under very heavy fire. On one occasion he crossed the enemy's lines in low-flying aeroplane, obtaining valuable information as to the enemy's batteries. He rendered most valuable service during a long period.

Awarded a Bar to the Military Cross.

CANADIAN FORCE.

Lt. Alfred Henry Cowie, M.C., Infy.
For conspicuous gallantry and devotion to duty when in charge of a working party of 250 men connecting up a buried cable. Though the area was continuously under fire he persisted in the work in the face of severe casualties. It was due to his personal courage and ability that the work was completed.

Awarded the Military Cross.

CANADIAN FORCE.

Lt. Harry McNeven Alexander, Inf.
For conspicuous gallantry and devotion to duty when his company was heavily bombarded while in reserve and all the other officers and a large number of men became casualties. He showed great courage and coolness in rallying his men, digging out several who had been buried, and getting the wounded away. He set a splendid example of courage and contempt of danger to his men.

Lt. Robert Andrews, Mtd. Rif.
For conspicuous gallantry and devotion to duty in handling his platoon throughout two days' operations. He was instrumental in capturing a farm, with twenty-one prisoners and two machine guns, driving off counter-attacks and holding on to the captured positions.

Lt. Gordon Henry Applegath, Inf.
For conspicuous gallantry and devotion to duty when in charge of a company distributed in a number of detached positions in the front line. When the enemy heavily attacked our lines his fearless example inspired his men to beat the attacks. He personally took an active part in bombing the enemy.

Lt. Harold Lynn Atto, Mtd. Rif.
For conspicuous gallantry and devotion to duty as intelligence officer. He obtained invaluable reports as to the state of the ground and the enemy's wire. At a critical stage he guided two companies forward, and thoroughly acquainted their commander with the nature of the ground. He made several journeys forward during the engagement to obtain information.

Capt. Edwin Godfrey Phipps Baker, Inf.
For conspicuous gallantry and devotion to duty as second in command of the battalion. When the situation was very obscure he made a daring daylight reconnaissance, and obtained valuable information.

Lt. John Balfour, Cyclist Bn.
For conspicuous gallantry and devotion to duty. When on traffic control duty, he, at great personal risk, superintended the towing away of a burning lorry loaded with ammunition which had been hit by enemy shell fire. His prompt action saved several lorries from being burnt and facilitated the early movement of traffic, when otherwise a most serious block would have occurred.

Capt. (A./Maj.) Leonard Halliday Bertram, Inf.
For conspicuous gallantry and devotion to duty when in command of four companies in the line for four days, 2,700 yards in advance of battalion headquarters. The success of the operation was entirely due to him. By sending part of his command to assist a neighbouring unit to advance he assisted in the capture of two enemy strong points and a number of prisoners.

Lt. Wilford Edward Bull, Engrs.
For conspicuous gallantry and devotion to duty when in charge of working parties. On two occasions his parties were heavily shelled while at work, but by his coolness and example he kept his men at work and completed his task.

Lt. Harry Maxwell Camp, Inf.
For conspicuous gallantry and devotion to duty. When the troops on the flank were held up by a strong point he was sent with two platoons to assist in its capture. By skilful employment of his rifle grenade and Lewis gun sections, he succeeded in killing twenty-five of the enemy and capturing the remainder of the garrison.

Lt. (A./Capt.) Glidden Campbell, Inf.
For conspicuous gallantry and devotion to duty in an attack. When all senior officers had become casualties, after the capture of the objective he assumed command of the front line. His frequent and accurate reports enabled threatened counter-attacks to be broken up. Though wounded in the face, he remained at duty until the battalion was relieved.

Lt. Leonard Proctor Chalmers, Inf.
For conspicuous gallantry and devotion to duty in an attack. He reached his objective in spite of strong opposition. When all the other platoon commanders had become casualties he supervised the consolidation of the whole company front.

Lt. Herbert Read Christie, Engrs.
For conspicuous gallantry and devotion to duty. He carried out a daylight reconnaissance, marked out an infantry track, and worked at night to make the track passable. He also repaired bridges and constructed a track, though his party was several times scattered by the heavy shelling.

Lt. Walter Findlay Clarke, Arty.
For conspicuous gallantry and devotion to duty as forward observation officer. He crawled out in front of an advanced post to observe our attacks, and sent in accurate information of their progress. Though under heavy fire he maintained his position all day.

Lt. Joseph Patrick Connolly, M.G.C.
For conspicuous gallantry and devotion to duty while in charge of three batteries of machine guns. His positions were heavily bombarded, three guns were put out of action and the crews became casualties. He at once reorganized his batteries in a most skilful manner, and continued his barrage fire. His detachments were subjected to continuous machine-gun fire from an enemy aeroplane, and it was only his splendid leadership and courage that saved them from all becoming causalties.

Lt. Louis Auguste Coulin, Infy.
For conspicuous gallantry and devotion to duty. He made three journeys to the front line under a heavy bombardment and most difficult conditions, carrying up rations and bringing away wounded. He set an excellent example of courage and devotion to duty.

Lt. Vernon Bland Crothers, Dns.
F r conspicuous gallantry and devotion to duty. He made a reconnaissance under heavy fire and obtained valuable information which enabled an advanced post to be established. During an attack he led forward supports through a heavy barrage and continned at duty though badly wounded.

Lt. Gordon Charles Davidson, Mtd. Rif.
For Conspicuous gallantry and devotion to duty. He led an attack on the enemy's trenches, shot the sentry before he could raise an alarm, and dealt with the enemy in a "pill-box." Though wounded early in the operations he remained with the attacking troops until exhausted. His courage and determination were a splended example to all.

Lt. Tempest Carroll McPherson St. Etienne De Wolf.
For conspicuous gallantry and devotion to duty in command of his platoon in an attack. When his left flank was held up he took charge of the party which outflanked the enemy and enabled the company to gain all its objectives. He personally accounted for four of the enemy and took charge of two patrols in an attempt to gain touch with the battalion on the left.

Capt. Edgar Douglas, A.M.C.
For conspicuous gallantry and devotion to duty. He directed his relay of bearers under heavy shell fire, and, though wounded, remained at duty until he was relieved.

Lt. Clarence Johnston Dryden, Inf.
For conspicuous gallantry and devotion to duty. When the company holding the line after driving back a counter-attack had lost all its officers he took command and organized the defence. When the troops in front of him were held up he pushed forward with reserves, and when the enemy broke inflicted heavy lossess on them.

Lt. William Waugh Dunlop, Inf.
For conspicuous gallantry and devotion to duty when in charge of a working party. When a fierce bombardment was opened and all the other working parties fell back he so skilfully disposed his men that they sustained no casualties and succeeded in completing his task. On another occasion, though wounded, he maintained control of his platoon under intense shelling and went back under fire and reorganized another platoon whose officer and senior N.C.O. had all become casualties.

Lt. George Hendry Ferguson, Engrs.
For conspicuous gallantry and devotion to duty. He constructed a duckboard track in préparation for an attack though his party was heavily shelled and several times driven off the work. He reassembled them each time and completed 800 yards of track.

Lt. Cecil John French, M.G.C.
For conspicuous gallantry and devotion to duty. When a machine-gun battery had been shelled from its position and the battery commander killed, he rallied the crews, salved six of the guns under heavy fire and got them into action again. His splended example of courage was an inspiration to his men.

Lt. Harry Roy Gifford, Mtd. Rif.
For conspicuous gallantry and devotion to duty. He made a reconnaissance of the ground prior to an advance, and then led his platoon forward in the attack. He assisted in the capture of a farm, and drove off two counter-attacks. After the final objective had been reached he reconnoitred the front, and while doing so captured, single-handed, two of the enemy and killed five others.

Lt. Charles Victor Grantham, M.G. Co.
For conspicuous galantry and devotion to duty. He was in charge of a group of machine-gun batteries during operations which led to the capture of an important position. Lt. George Hobson, Mach. Gun Co.
For conspicuous gallanty and devotion to duty in command of three mobile machine guns. After he had reached his objective and established himself there his three guns were blown out of their positions and the teams were buried. He succeeded in extricating himself, and then helped to dig his men out and move the guns to a new position.

Lt. William Gilbert Humphries, Fld. Arty.
For conspicuous gallantry and devotion to duty as liaison officer with the attacking infantry. Lt. Charles Meldrum Inglis, Inf.
For conspicuous gallantry and devotion to duty. He led his platoon in an attack, personally accounting for five of the enemy. He had charge of the maintenance of the railway line in a forward area, and during the operations, which necessitated special train movements, and caused a large amount of traffic, his services proved most valuable. Though tracks were cut by shell fire, by his gallant efforts he succeeded in getting the line clear for traffic without appreciable delay. Later, he rallied a detachment of men under heavy shell fire, and was the means of rescuing the wounded.

Lt. (T./Capt.) Maurice Arthur Pope, Engrs.

For conspicuous gallantry and devotion to duty. He was in charge of an advanced report centre under intense bombardments of gas and other shells which inflicted very heavy casualties on his staff. Though he was suffering from the effects of gas, he carried on his work with the greatest determination, and sent back accurate information of every threatened counter-attack.

Lt. Sidney Quinton, Infy.

For conspicuous gallantry and devotion to duty. He volunteered to go forward and reconnoitre under heavy shelling, when the situation in the front line was obscure. When the battalion carrying party had suffered heavy casualties and both its officers had been wounded, he reorganized them and worked unceasingly in carrying ammunition to the front line.

Lt. Edward Leonard Rainboth, M.G.C.

For conspicuous gallantry and devotion to duty. While he was leading a pack train the road was heavily shelled and a number of casualties were caused. He got the wounded away, collected his train, and went forward and delivered his supplies personally, although he had been blown up and badly shaken by a shell. By his courage, determination and excellent example he kept up the supply of ammunition and rations to the front line.

Capt. Theodore Hampton Oswald Rayward, Infy.

For conspicuous gallantry and devotion to duty. When the battalion had advanced beyond its objective, and was in danger from our own barrage, he was the means of sending back information and clearing up the situation. On his company being called upon to fill a gap in the front line, he succeeded in bringing them through a heavy barrage with few casualties.

Lt. Charles Stanley Reed Riches, A.S.C.

For conspicuous gallantry and devotion to duty when in charge of twelve general service wagons with engineer material. He led his column forward under fire, and at great risk succeeded in delivering his stores.

Capt. Harold Roche, Fld. Arty.

For conspicuous gallantry and devotion to duty in charge of a mule train carrying ammunition to the forward guns. When this convoy came under heavy shell fire and a pack train in front became disorganized, he took charge and prevented a stampede. After seeing that the wounded were carried to safety and that the animals who had become bogged on the roadside were extricated, he succeeded in delivering the ammunition of both convoys and in bringing men and animals back to safety.

Lt. Herbert Mackenzie Ross, Infy.

For conspicuous gallantry and devotion to duty. He led his company in an attack with great determi-

nation. He successfully surrounded a farm and killed or captured the entire garrison.

Capt. (A./Maj.) John Horace Roy, Inf.
For conspicuous gallantry and devotion to duty. He took charge of a party of 100 men carrying away wounded from the front line, and accomplished the task with marked success under a heavy bombardment and most difficult conditions. He set his men a splendid example of courage and determination.

Lt Hugh McMaster Scott, Inf.
For conspicuous gallantry and devotion to duty as brigade transport officer. He took charge of the pack train on two occasions, and led it forward under heavy shell fire. Owing to his previous careful reconnaissance of the route few casualties were sustained.

Capt. Wesley Herbert Secord, A.M.C.
For conspicuous gallantry and devotion to duty when in charge of the evacuation of the wounded from the forward area. During a heavy bombardment of gas and other shells, he made a tour of all the bearer posts to ensure that all anti-gas measures were being employed. He attended to wounded men in the open during the bombardment with complete disregard of danger. His coolness and courage were a splendid example to all.

Capt. William Ewing Sinclair, A.M.C.
For conspicuous gallantry and devotion to duty. When in charge of bearers at the regimental aid post he worked for three days and nights attending to the wounded, under heavy fire and in the face of great difficulties. Though suffering severely from the effects of gas he remained at duty and set a magnificent example of courage and coolness to all.

Lt. Warren Russell Skey, Fld. Arty.
For conspicuous gallantry and devotion to duty in charge of pack animals. He kept up the ammunition supply in spite of heavy shell fire. When his column was caught in a heavy barrage and several casualties were caused among men and horses, he extricated the column, rescued the wounded men and horses, and delivered the ammunition at the battery.
Capt. John Onion Slaght, Inf.

For conspicuous gallantry and devotion to duty. He worked untiringly maintaining the ammunition supply and evacuating the wounded. He reconnoitred the front line and brought up his company to support the battalion to which he was attached, under continuous and heavy shell fire. His example did much to maintain the morale of the men under most difficult conditions.

Lt. Sydney Welton Tupper, Inf.
For conspicuous gallantry and devotion to duty. When enemy machine gun and bombing posts were holding up the right flank in an attack, although wounded he succeeded in destroying these posts under heavy fire, thus clearing up a critical situation. He remained on duty and declined to leave his post even when relieved by another officer.

Lt. William Vernon, Inf.
For conspicuous gallantry and devotion to duty when in command of his company during five days' operations. He was at battalion headquarters when the enemy opened an intense barrage, and he passed through it in order to reach his company. His judicious disposition of his platoons from time to time was undoubtedly responsible for the small number of casualties.

Lt. William Frederick Welch, Inf.
For conspicuous gallantry and devotion to duty. He maintained communication by lamp under intense shell fire after the buried cable was cut. He was very successful on other occasions in maintaining communication in the face of great difficulties.

Lt. Leonard Alfred Welsh, Lord Strathcona's Horse.
For conspicuous gallantry and devotion to duty when in charge of the brigade pack train carrying rations. When the enemy commenced a heavy bombardment all along the mule track and many casualties were sustained, although his animals stampeded he succeeded in recovering all the rations and delivering them to the dump, and then repaired the mule track. During six days he never failed to deliver his rations, though passing through a severe barrage each time.

Capt. John Douglas Young, Inf.
For conspicuous gallantry and devotion to duty when in charge of a company in the front line. He personally reconnoitred two farms in hostile territory, finding one occupied and taking possession of it, locating machine guns, and obtaining all information necessary to insure the capture of the other. When the commander of the company on his left became a casualty he took command of both companies, and by redistributing them in shell holes greatly reduced losses. He drove off an attack, dispersing parties of the enemy with machine-gun and rifle-grenade fire.

1116 C. S. M. Charles Peacock, Inf.
For conspicuous gallantry and devotion to duty. He went forward in an attack although wounded at the assembling position. When all the company officers had become casualties he led his men forward with great determination until he was wounded a second time. 6-1

As the time within which applications for exemption may be considered is strictly limited, Canadians who wish to apply under these regulations should realize the importance of submitting their applications at the earliest possible date.

APPENDIX

Convention Relating to the Service of Citizens of the United States in Canada and of Canadians in the United States.

The President of the United States of America and His Majesty the King of the United Kingdom of Great Britain and Ireland, and of the British Dominions Beyond the Seas, Emperor of India, being convinced that for the better prosecution of the present war it is desirable that citizens of the United States in Canada and Canadian British subjects in the United States shall either return to their own country to perform military service in its army or shall serve in the army of the country in which they remain, have resolved to enter into a convention to that end and have accordingly appointed as their plenipotentiaries the President of the United States of America, Robert Lansing, Secretary of State of the United States, and His Britannic Majesty, the Earl of Reading, Lord Chief Justice of England, high commissioner and ambassador extraordinary and plenipotentiary on special mission to the United States, who, after having communicated to each other their respective full powers found to be in proper form, have agreed upon and concluded the following articles:

ARTICLE I.

All male citizens of the United States in Canada (hereinafter called Americans) and all male British subjects in the United States (*a*) who were born or naturalized in Canada, and who, before proceeding to the United States were ordinarily resident in Great Britain or Canada or in any other part of His Majesty's Dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British Dominions; or (*b*) who were not born or naturalized in Canada, but who, before proceeding to the United States, were ordinarily resident in Canada (hereinafter called Canadian) shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Canada, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations, from time to time in force, of the country in which they are: *Provided*, That in respect to Americans in Canada, the ages for military service shall be the ages specified in the laws of the United States prescribing compulsory military service, and in respect to Canadians in the United States the ages for military service shall be for the time being 20 to 44 years, both inclusive.

ARTICLE II.

Americans and Canadians within the age limits aforesaid who desire to enter the military service of their own country must enlist or enroll or must leave Canada or the United States, as the case may be, for the purpose of military service in their own country before the expiration of 60 days after the date of the exchange of ratifications of this convention, if liable to military service in the country in which they are at the said date; or, if not so liable, then before the expiration of 30 days after the time when liability shall accrue; or, as to those holding certificates of exemption under Article III of this convention, before the expiration of 30 days after the date on which any such certificate becomes inoperative unless sooner renewed; or as to those who apply for certificates of exemption under Article III, and whose applications are refused, then before the expiration of 30 days after the date of such refusal, unless the application be sooner granted.

ARTICLE III.

The Government of the United States, through the consul general at Ottawa, and His Britannic Majesty's Government through the British ambassador at Washington, may issue certificates of exemption from military service to Americans and Canadians, respectively, upon application or otherwise, within 60 days from the date of the exchange of ratifications of this convention or within 30 days from the date when such citizens or subjects become liable to military service in accordance with Article I, provided that the applications be made or the certificates be granted prior to their entry into the military service of either country. Such certificates may be special or general, temporary or conditional, and may be modified, renewed or revoked in the discretion of the Government granting them. Persons holding such certificates shall, so long as the certificates are in force, not be liable to military service in the country in which they are.

ARTICLE IV.

The Government of the United States and the Government of Canada will, respectively, so far as possible facilitate the return of Canadians and Americans who may desire to return to their own country for military service, but shall not be responsible for providing transport or the cost of transport for such persons.

ARTICLE V.

No citizen or subject of either country who, under the provisions of this convention, enters the military service of the other shall, by reason of such service, be considered, after this convention shall have expired or after his discharge, to have lost his nationality or to be under any allegiance to the United States or to His Britannic Majesty, as the case may be.

ARTICLE VI.

The present convention shall be ratified by the President of the United States of America, by and with the advice and consent of the Senate of the United States, and by His Britannic Majesty, and the ratifications shall be exchanged at Washington or at London as soon as possible. It shall come into operation on the date on which the ratifications are exchanged and shall remain in force until the expiration of 60 days after either of the contracting parties shall have given notice of termination to the other; whereupon any citizen or subject of either country incorporated into the military service of the other under this convention shall be as soon as possible discharged therefrom.

In witness whereof the respective plenipotentiaries have signed the present convention and have affixed thereto their seals.

AT THE GOVERNMENT HOUSE AT OTTAWA

Saturday, the 20th day of July, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Committee of the Privy Council have had before them a report, dated 6th July, 1918, from the acting Minister of the Interior, stating that the Canadian Northern Railway Company has applied for a license to occupy a portion of the bed of the Oldman River for the purpose of constructing and maintaining thereon a railway bridge across the said river, the land applied for being described as follows:

That certain parcel or tract of land, being part of the bed of Oldman river, situate in the southeast quarter of section thirteen, in the ninth township, in the twenty-sixth range, west of the fourth meridian, in the Province of Alberta, on the said section thirteen is shown on a plan of the southeast quarter of the said township approved and confirmed by E. Deville, Surveyor-General of Dominion lands, on the eleventh day of January, one thousand nine hundred and fifteen, which said parcel may be more particularly described as follows:—

Bounded on the north by the left bank and on the south by the right bank of Oldman River; and on the east and west by lines parallel to and forty-nine feet and five tenths of a foot perpendicularly distant on opposite sides of the centre line of the right of way of the Canadian Northern Railway, as the said centre line is shown upon a plan of the said railway showing plan and elevation of proposed crossing of Oldman River, through the said quarter-section, which said plan is signed by A. S. Weekes, Dominion Land Surveyor, on the twenty-third day of July, one thousand nine hundred and seventeen, and of record in the Land Titles Office for the South Alberta Registration District under number R.W. 87 in Book B.T., a certified copy whereof is on record in the Department of the Interior under number 27050; the parcel herein described containing by admeasurement one acre and five-hundredths of an acre, more or less.

The plan and description of the sight and of the bridge as filed by the company with the Department of Public Works was approved by Order in Council of the 31st July, 1916, under the provisions of Section 233 of the Railway Act, Chapter 37, Revised Statutes of Canada, 1906, such approval being conditional on the company securing from the Department of the Interior a license of occupation of the bed of the river required for the bridge site.

The Minister, therefore, recommends that he be authorized to issue to the Canadian Northern Railway Company, a license of occupation for that portion of the bed of the Oldman River described above; the said license to be for such time as the Company may require the bridge site in connection with the operation of the railway and to be at an annual rental of one dollar, payable to the Department of the Interior.

The Committee concur in the foregoing recommendation, and submit the same for approval.

4–4 Clerk of the Privy Council.

Cancellation of reservation.

10. If in the opinion of the Board any parcel of land which has been reserved under the Act is not suitable for the purposes of soldier settlement, the Board may request the cancellation of such reservation.

Lapse of all reservations.

11. All reservations of lands under the Act shall lapse three years after the close of the present war.

Timbered lands not open to entry.

12. A quarter-section containing more than twenty-five acres of "merchantable timber" is not open to entry, and if entry is obtained for land which, though not reserved at the time, is ascertained to be valuable on account of merchantable timber upon it, the entry may be cancelled, provided that in the case an entry is so cancelled no compensation shall be made to the entrant for the value to him of the timber on the land.

Surveying and advertising.

13. No land shall be open for entry under the provisions of these regulations until it has been surveyed in accordance with the provisions of the Dominion Lands Survey Act, and until notice that it is to be open for entry upon a date to be set forth in the notice has been posted for at least thirty days in the land office of the District in which the land is situated, and has been published in at least one newspaper in that District and in one newspaper in the provincial capital; and the printing and publication of the notice shall be made in such manner as is determined by the Board.

Thirty days' notice in case of new surveys.

It shall be the duty of the Agent, when requested to do so by the Board, to advertise any newly surveyed land reserved under the Act, and to post notices promptly in his office and in each of the offices of the Sub-agents in his district.

Ten days' notice in all other cases.

14. In the case of other then newly surveyed lands, the Agent shall, when notified by the Board to make any land available for entry under these regulations, advertise such land for ten clear days, unless otherwise directed by the Board, by posting a notice in his office, available for public inspection, giving date and hour of the posting and the date on which the land will become available. Such notice shall be in the form prescribed by the Board, and a copy of same shall be promptly mailed by the Agent to each of the Sub-agents and to the representatives of the Board in his district, and to

the Postmaster nearest the land, to be posted in their respective offices.

Soldier entry on reserved lands.

15. Lands reserved under the Act which in the opinion of the Board are of a class suitable for the general purposes of soldier settlement, shall, except as herein provided, or as otherwise determined by the Board, be made available for soldier entry from time to time to any settler who is eligible to make such entry under these regulations.

Homestead entry on reserved lands.

16. Except as herein otherwise provided, any land reserved under the Act which is available for soldier entry, shall not be deemed reserved as against any person who, being a settler or a member of any body or force serving with the forces of Great Britain or of any of her allies during the present war, is desirous of exercising his homestead right thereon under the provisions of the Dominion Lands Act.

Soldier entry on lands not reserved.

17. The right of soldier entry may be exercised by any settler qualified as such under the Act on any parcel of land which although not reserved for the purposes of the Act at the time, is open to homestead entry under the provisions of the Dominion Lands Act. An application for soldier entry on such land by any person eligible shall *ipso facto* reserve the same for the purpose of the Act.

Information as to lands.

18. General information concerning lands for soldier settlement may be obtained by any prospective settler on application to the Soldier Settlement Board, Ottawa, or to any representative of the Board elsewhere.

Precise information as to whether any particular parcel of land is open to soldier entry may be secured on application to the Agent of Dominion Lands for the district within which the land is situated.

APPLICATION FOR ENTRY.

Office of record.

19. Application for a soldier entry may be made in the form prescribed by the Board by the holder of an attestation under the Act at the office of the Agent of Dominion Lands for the district within which the land is situated which shall be the office of record for soldier entries for such district.

Application made elsewhere.

20. Application for a soldier entry may be made also before any Agent or Sub-agent of Dominion Lands or before a local representative of the Board or any other person authorized by the Board to receive such application for transmission to the office of record, but any application so made shall have no force or effect until received at the office of record;

Notice may be wired.

Provided that where an application for a soldier entry is so made, the person receiving the same may, at the expense of the applicant, wire notice of receipt of the application to the office of record, whereupon, if the land is available, it shall be held for the applicant until the application papers are received.

No second application.

21. Where an application for soldier entry is made at any place other than the office of record, the person receiving the application shall not receive another application for entry on the same land until first application has been disposed of by the office of record.

Personal application.

22. Every application for a soldier entry shall, except as hereinafter provided, be made by the settler in person.

Application by proxy.

23. Application for entry by proxy is permitted only in the case of a person making entry on behalf of a husband, wife, father, mother, son, daughter, brother or sister, when duly authorized to do so in the form prescribed, or in the case of a person who, for special reasons, has been given permission by the Board to make entry on behalf of a settler.

The proxy must appear before the Agent of Dominion Lands for the district; sub-agents and local representatives are not authorized to accept applications for entry by proxy.

The settler on whose behalf such entry is made must, before the expiration of six months from the date of the entry, appear personally before the agent and satisfy him by declaration that he is already in residence or on his way to commence such residence, and in the latter case that he will be in residence before the end of the six months. Should he fail to make appearance, the agent shall, unless otherwise determined by the Board, cancel the entry without notice at the end of six months from the date of entry.

Time.

24. Application for soldier entry shall be made only during the regular office hours on every day except Sunday and statutory holidays.

Declaration by applicant.

25. Every applicant for a soldier entry shall make a declaration in the form prescribed by the Board that to the best of his knowledge and belief the land with respect to which his application is made is of the class open to entry and that there is no one in residence thereon, and shall state the improvements on the same, if any, and the value thereof; provided that where such declaration is subsequently found incorrect in any material particular, the entry shall be liable to cancellation.

No fees.

26. No fees shall be charged in connection with a soldier entry, but the applicant may be required to pay the value of the improvements, if any, on the land, and any charge or indebtedness against the land.

Application for lands not available.

27. An application for entry on land which is not available for entry at the time the same is made shall not give the applicant any priority of right in the event of the land becoming available.

CERTIFICATE OF ENTRY.

What constitutes entry.

28. When application is made in the manner hereinbefore described for land open to entry under the provisions of these regulations, the agent or officer acting for him shall accept it and issue to the applicant a Certificate of Entry, and the acceptance by the agent, or officer acting for him, of the said application and the issue of the Certificate of Entry shall constitute a soldier entry under the provisions of these regulations.

Certificate.

29. The Certificate of Entry shall entitle the recipient to take, occupy, use and cultivate the land entered for, and to hold possession thereof to the exclusion of any other person, and to bring and maintain actions for trespass committed on the said land; and the land shall not be liable to be taken in execution before the issue of letters patent therefor; provided that occupancy, use and possession of land so entered for shall be subject to the provisions of the Act, or regulations thereunder or amendments thereto.

PRIOR RIGHT OF ENTRY.

Squatter and Adjoining Settler.

Squatter before survey.

30. A person who has bona fide settled and made improvements on agricultural land before the survey thereof and was in occupation of and ordinarily resident on the land at the time of survey shall, if eligible to make entry for a soldier grant under these regulations, have a prior right to obtain entry for the land so settled on; Provided that this right is exercised within six months after notice in writing that the land is open for entry has been given by the Agent to such settler, or has been posted in a conspicuous place on the land; and that entry shall not be allowed for more than a quarter-section as a soldier grant.

Squatter after survey.

31. The occupation of land after the survey thereof, without entry as provided by these regulations, gives the occupant no right thereto, and the occupant may be ejected as a trespasser, and his improvements forfeited to the Crown.

One day priority to adjoining settler.

32. On the day on which any land is to be made available for entry after being advertised or posted in the manner hereinbefore described, the privilege of entry thereon shall be restricted to a settler eligible to make entry who holds an adjoining quarter-section under homestead or soldier entry, or who obtained homestead patent for such quarter-section and is still the owner thereof, or who was a squatter before survey on such quarter-section.

Conflicting Claims.

Determining priority.

33. In the event of there being more than one applicant claiming the prior right to entry under the preceding section, the priority of their claims shall be determined by the priority of the dates of their respective entries, or the commencement of residence in the case of squatters before survey.

34. To ensure due consideration being given to the rights of all persons claiming priority, the Agent shall receive all applications for entry offering under the preceding section, if requested to do so, but shall issue no certificate of entry for such land until the close of the office hours of the day on which the prior right of entry is considered; or until the morning of the following day;

Application before sub-agent.

Provided that if the Agent is advised by wire or otherwise on such day by a Sub-agent or a local Representative of the receipt by him of an application for entry from a person claiming a prior right

of entry for the land affected, and it is evident from the records that such person, by reason of the priority of date of his entry for or commencement of residence on the adjoining homestead has a better claim than any of the other applicants appearing in person, the Agent shall hold the land until such application made before the sub-agent or local representative has been received;

Sickness of applicant.

Provided further that if on account of sickness or other satisfactory reason shown to the Agent, a settler who according to the records has a prior right of entry over all other applicants is unable to appear in person on such day, the Agent may hold the land for such settler for a reasonable length of time, reporting immediately all the circumstances of the case to the Board;

Doubtful cases.

Provided also that if the Agent is in doubt as to the priority of any applicant, he shall not grant entry on the land affected, but refer the matter to the Board for consideration.

Land available to any settler.

35. Any land which, after having been posted in the manner hereinbefore described, has not been entered for by an adjoining settler on the first day on which such land became available for entry, or if it has not been reserved for any of the reasons above mentioned, it shall be open for entry on the following day to any settler eligible to make entry under these regulations.

Conditions of Entry.

36. A soldier entry shall be for not more than a quarter-section of one hundred and sixty acres more or less.

43. A quarter-section of land upon which there is not more than twenty-five acres of "merchantable timber," but upon which there is more than twenty-five acres of timber suitable for cord-wood or fence poles is not open for entry, unless such entry is granted on the condition that it will be subject to the issue of permits upon the remainder of the quarter section after the entrant has selected, subject to approval, twenty-five acres for his own use.

Lands required for water supply, etc.

44. If, after an entry is obtained, it is ascertained that the land entered for, or any portion thereof, is necessary for the protection of any water supply or for the location or construction of any works necessary to the development of any water-power, the Board may, at any time before the issue of letters patent, cancel the entry or withdraw from its application, any portion of the land entered for, but where the land is required for the location or construction of works necessary for the development of any water-power, only in so far as the land is necessary for that purpose; provided, however, that no entry shall be cancelled under the provisions of this paragraph until the entrant has been compensated for any improvements made by him upon the land, the amount of such compensation to be fixed by artibtration if the entrant refused to accept the compensation allowed by the Board.

Stock.

53. Where the land entered for is not suitable for cultivation but is adapted for stock raising, the Board may, on application from the entrant and after inspection of the land, allow the entrant to substitute stock in lieu of cultivation duties.

Whereas it appears desirable that Dominion lands in the said belt required for the development of water-powers and other water-privileges should be disposed of and administered under special regulations which shall harmonize with the said provincial water administration.

Therefore His Excellency the Governor General in Council on the recommendation of the Minister of the Interior and in virtue of the authority conferred by the said Chapter 59, Revised Statutes of Canada, 1906, and the said Chapter 10, 1-2 George V, is pleased to order and it is hereby ordered that the attached regulations, namely, The Water-Lands Regulations, shall be and the same are hereby made effective for disposing of and administering such Dominion lands within the said belt (excluding only lands within areas that are or may be set apart and designated as Dominion parks) as are required in the development of water-powers and other water-privileges.

3. The Minister may cause such surveys to be made, and may take such other steps as may be necessary from time to time to enable him to ascertain and set out the lands required as aforesaid, and his decision respecting the location and extent of the said lands shall be final.

Application may be filed.

4. (1) Any person who desires to acquire a right to use or occupy any Dominion lands for the diversion, storage or carriage of any water, or for the construction, maintenance or operation of any works for such diversion, storage or carriage of water, including lands to be flooded, shall file or cause to be filed with the Minister an application in writing for that purpose.

5. Pending the consideration of any such application for the use and occupation of Dominion lands, the Minister may, from time to time, reserve the lands applied for from any disposition not consistent with the rights desired under such application.

6. (1) The applicant, before commencing the construction of any works upon Dominion lands, shall cause to be filed with the Minister a plan prepared from an actual survey by a qualified Dominion land surveyor, and signed and certified correct by him, showing the location and extent of the lands so required, and shall obtain the Minister's approval thereof. Before any such survey is proceeded with, instructions therefor must first be obtained from the Surveyor General.

(2) The said plan shall contain the following information :

Boundaries.

(*a*) The boundaries giving chainages and bearings, and the area in acres within each quarter section of the lands so required, including rights of way.

Minister may grant Interim Permit.

8. (1) Upon the filing of the application, plan and report set out in the last three preceding sections, and subject always to these and any further regulations on the subject, the Minister may, if he deems such action advisable, grant to the applicant an interim permit authorizing entry upon or the use or occupation of any Dominion lands subject to such conditions as may, in his opinion, be required by such applicant for the purpose of making surveys and constructing works, but such interim permit shall, in every case, be subject to the provisions of these regulations respecting leases so far as applicable.

Term and nature of Interim Permit.

(2) The term of the interim permit shall be as nearly as possible concurrent with that of the conditional-water-license granted to the applicant under the British Columbia Water Acts, it being the intent of these regulations that the applicant shall secure his water-rights from the provincial authorities before the corresponding land-rights shall be granted, and it being the general purpose of the said permit to supply such applicant with such rights in Dominion lands, as, in the opinion of the Minister, may be required by him in the exercise of the rights conferred by the said conditional water-license.

Surveys may be delayed in certain cases.

(2) The location of any works so constructed by the applicant prior to the filing and approval of the said plans and reports shall be subject to the approval of the Minister and the permittee shall and will make any changes with respect thereto which the Minister may require after the said plans and reports are filed. The temporary rights granted by the Minister under this section shall, in every case be subject to the provisions of these regulations respecting leases in so far as applicable and shall further be subject to cancellation at the at the discretion of the Minister.

Dispensation from Surveys by D.L.S. in certain cases.

10. Notwithstanding any other provision of these regulations, if the Minister considers that any application is not of sufficient importance to warrant the surveys and report by a Dominion land surveyor called for in sections 6 and 7, he may, by letter or other writing, authorize such applicant to dispence with the requirements of either or both of the said sections, but may, in such case, call for such plans and information as he may deem necessary, and upon satisfactory compliance by the applicant with all such requirements, the Minister may grant the interim permit mentioned in the last preceeding section, but in every case where works are constructed without plans being submitted and approved showing exact locations, such works shall be subject to approval as to location by the Minister and the applicant shall and will make any changes therein which the Minister may subsequently require.

Lease, when may be issued.

11. Upon the receipt by the Minister of a notice from the Comptroller of Water Rights or other proper provincial authority that the said applicant has completed his works and is in all respects other than the acquirement of the neeessary interests in Dominion lands, entitled to a final water license under the provincial Water Acts, together with a copy of such license or a statement of the proposed terms thereof, and upon it being shown to the satisfaction of the Minister that the applicant has observed and fulfilled all the terms and conditions required by the Minister or by these regulations to be by such applicant observed and fulfilled, the Minister may, subject always to these regulations, issue in favor of the applicant a lease, a license of occupation or other form of grant conferring such rights in Dominion lands as are in the opinion of the Minister, necessary for the proper maintenance and operation of the said works, and subject to such special terms and conditions, not inconsistent with these regulations, as the Minister may impose.

Lease concurrent with water-license.

12. The lease shall be for the same term of years as such final water-license and shall run concurrently therewith ; provided always, that in no case shall any lease authorize entry upon or use or occupation of any Dominion lands for a period exceeding fifty years from the date thereof.

Lease or permit to depend on water-license.

13. The easements, rights and privileges acquired under any interim permit or lease shall be subject always to compliance by the permittee or lessee with all the terms and conditions of the water-license in connection with which such interim permit or lease is issued, and if, under the provisions of the Water Acts of British Columbia or the regulations made pursuant thereto, or by other lawful means such water-license is terminated or cancelled, or becomes null and void, then such interim permit or lease shall, *ipso facto*, become void and of no effect, and all the rights granted thereunder shall cease and determine.

Lease voided when lands no longer needed.

14. (1) Every lease shall be valid or effective to authorize the entry upon or the use or occupation of any Dominion lands only in such manner and to such extent as may be necessary for the purpose of constructing, maintaining and operating the works authorized to be constructed, maintained and operated under the water-license in respect of which such lease is granted and no further.

Procedure when lease voided for non-use or abandonment.

(2) If, because of a change in the location of the said works, or because of their non-use or abandonment, or for any other reason continued or further entry upon, use of, or occupation of such lands in whole or in part for the said purpose becomes, in the opinion of the Minister, unnecessary, he shall give the lessee written notice of the contemplated withdrawal of such lands from the operation of the lease and his reasons therefor. The lessee may within sixty days after the giving of such notice file a written objection to such withdrawal of lands. The Minister may, after the consideration of such objection, or after the expiry of the time allowed for objection, if no objection is filed, make an order withdrawing such lands from the operation of the lease.

Termination of works when lease voided.

15. If any lease issued under these regulations is voided, terminated or cancelled in whole or in part by any lawful process, the lessee shall not be privileged to remove any works, buildings or other improvements constructed by him on the said lands unless the Minister's consent in writing is first obtained. The Minister may make any provision which he deems advisable for arriving at the compensation, if any, which is to be paid to the lessee for such of the said works, buildings or other improvements as are taken over by His Majesty and as are considered serviceable in the future disposition which is to be made of the said lands.

Lease not exclusive.

17. Every such lease shall be subject to the right of His Majesty to grant liberty or privilege to other persons for any purpose to enter upon, use or occupy the lands so leased or to use any existing works upon such lands in common with the lessee ; provided always that, in such case, if it is proposed to move or alter or in any way affect the lessee's works, the rights of the lessee in respect of the said works shall not be, in the opinion of the Minister, prejudicially interfered with, nor shall other works be substituted which, in so far as the lessee is concerned are less fitted to accomplish the purposes of the said works as set out in the water-license.

Grants not to be capitalized.

18. The lessee, in estimating the value of the lands, works, and properties, held by him in connection with his lease, whether for the purpose of fixing the tolls or rates which may be charged for power or for the purpose of appraising the property upon which he is entitled to earn or receive any return, income, price or compensation or for any other purpose, shall in no case give any pecuniary value to or claim any pecuniary value for the rights and privileges granted by his lease.

Transfers.

19. Before any assignment or transfer of any lease or of the rights and privileges conferred thereby or of the works or undertaking connected therewith becomes valid or effective the assignee or transferree must have executed and filed with the Minister an undertaking or agreement to comply with the provisions of these regulations in so far as applicable and to observe and fulfil all the terms and conditions of such lease as amended by any additional terms and conditions which the Minister may then see fit to impose, and the Minister's approval in writing of such assignment or transfer and of such undertaking or agreement must have been

obtained. No such approval shall be given by the Minister unless it is shown to his satisfaction that such assignment or transfer is expedient in the public interest and that no compensation whatever is to be paid for the rights and privileges conferred by such lease.

21. No roads, trails, telephone lines, buildings or other improvements the property of the Crown in the right of the Dominion shall be removed, altered or in any way affected by any lessee in the construction of his works without the Minister's consent in writing having been first obtained. Such lessee shall in every case replace or reconstruct such improvements and shall build and maintain necessary and suitable crossings for all such roads and trails existing or that may be established intersecting any water conduits of such lessee to the Minister's satisfaction. The Minister may, if he deems it necessary, require the applicant or lessee to furnish a bond for the satisfactory carrying out of the provisions of this section. The lease shall be subject to the right of the Minister to construct, or authorize the construction of roads, trails or telephone lines on or across the leasehold.

Bridges, culverts, &c.

22. The lessee shall construct and maintain such bridges, culverts, spillways, wasteways or other works in connection with any works constructed or maintained on Dominion lands as the Minister or any person acting for the Minister in that behalf may direct.

Lands fraudulently entered upon.

27. If it is shown to the satisfaction of the Minister that any homestead entry, agreement to sell or other existing interest less than a fee in any Dominion lands required for the proposed works of any applicant has been secured by any person with a knowledge that the said lands would be required in connection with the development of a water privilege, and with the object of deriving gain from such interest by reason of the future development of such water privilege, the Minister may fix the terms upon which so much of the said lands as may be required for the proposed works may be withdrawn from the said entry, agreement of sale or other interest less than a fee, and secured by such applicant.

Water applicants not under B. C. Water Act.

28.
